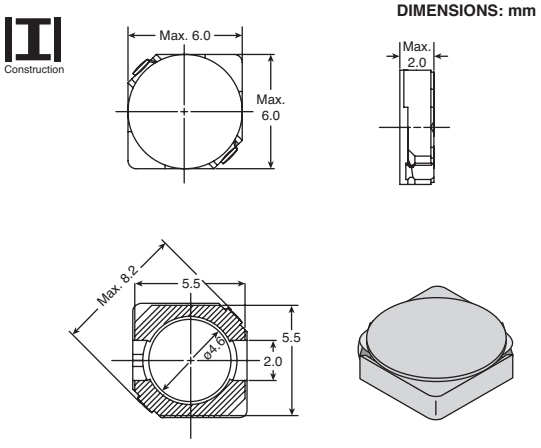
CDRH5D18 SERIES

Features:
- Measuring Freq. (L): 100KHz
- Tolerance of Inductance: 4.1μH-100μH ± 30% (N)

DIMENSIONS: mm



For quantities greater than listed, call for quote.

CDRH5D28RH SERIES

Specifications:
- Ferrite drum core construction
- Magnetically shielded
- Moisture Sensitivity Level: 1
- Halogen Free available
- Operating temperature range: -40°C to 125°C
- Solder reflow temperature: 260°C peak

BK SERIES CHIP BEAD INDUCTORS

Features:
- Internal silver printed layer creates a closed circuit which acts as a magnetic shield minimizing heat generation and crosswalk
- No need for grounding provides greater circuit design flexibility
- Several material types and a broad range of impedance values provide noise countermeasures for various applications

Applications:
- Noise suppression in video and other AV products
- Radiated noise suppression in computer or printed interfaces and harness connectors

For additional sizes and values, visit mouser.com

For quantities greater than listed, call for quote.

BK SERIES P TYPE CHIP BEAD INDUCTOR FOR POWER LINES

Features:
- Low Rdc value can lower the power consumption and extend the life of batteries. That stands on the high advanced green sheet and printing technologies
- No need for grounding provides greater circuit design flexibility

Applications:
- High frequency noise debug on the DC power supply line in personal computers and other information system products

For quantities greater than listed, call for quote.

CK SERIES

Features:
- Internal printed coil structure creates a closed magnetic shield eliminating crosswalk, thus permitting higher mounting densities
- Multilayer block structure yields higher reliability

Applications:
- Separation of analog & digial circuits

CK SERIES P TYPE CHIP POWER INDUCTORS

Features:
- Low profile below 1.2mm
- Low Rdc
- Multilayer block structure yields higher reliability

Applications:
- DC/DC converter for mobile equipment, cellular phones, DSC, DVC

For quantities greater than listed, call for quote.

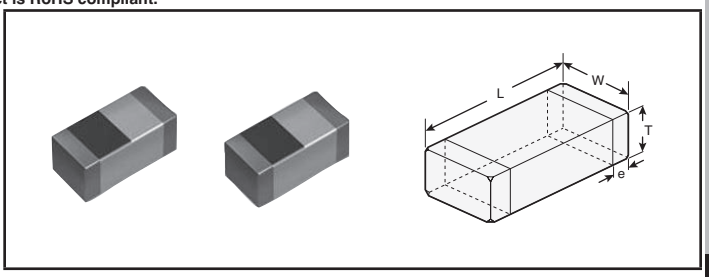
HK SERIES FOR HIGH FREQUENCY APPLICATIONS

Common Features:
- Multilayer inductor made of advanced ceramics with low-resistivity silver used as internal conductors provides excellent Q and SRF characteristics
- Multilayer block structure ensures outstanding reliability, high productivity and product quality

Common Applications:
- Portable telephones, PHS and W-LAN
- Miscellaneous high-frequency circuits
- EMI countermeasure in high-frequency circuits

For additional sizes and values, visit mouser.com



For quantities greater than listed, call for quote.

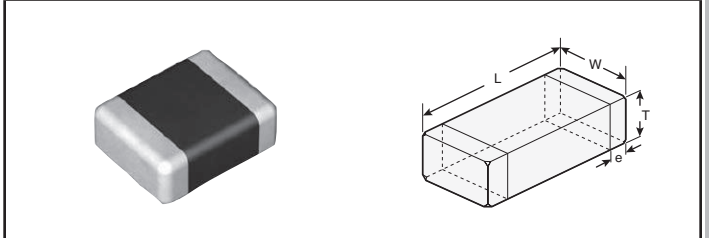
LK SERIES

Features:
- Internal printed coil structure creates a closed magnetic circuit which acts as a magnetic shield emiminating crosswalk, thus permitting higher mounting densities
- Multilayer block structure yields higher reliability

Applications:
- Any general circuit of portable equipment in which compact size and high mounting densities are required

For additional sizes and values, visit mouser.com



For quantities greater than listed, call for quote.

NR SERIES / NR SERIES H TYPE

Features:
- Small and Low Profile inductor
- Corresponds to High current.
- Simple and original magnetic sheild structure.
- Durable structure against dropping impact.

Applications:
- For small DC/DC converter

✻For additional values and sizes, visit mouser.com

NR SERIES S TYPE

Features:
- Small and Low Profile inductor
- Corresponds to High current.
- Simple and original magnetic sheild structure.
- Durable structure against dropping impact.

Applications:
- For small DC/DC converter

※For additional values and sizes, visit mouser.com

NR SERIES HIGH CURRENT WOUND SMD POWER INDUCTORS

Features:
- Simple and original magnetic shield structure.

Applications:
- Power supply circuits / DC-DC converters in a variety of applications such as PDP TV, LCD TV, HDD, PC.

✻For additional values and sizes, visit mouser.com

For quantities greater than listed, call for quote.

NS SERIES SMD HIGH CURRENT POWER INDUCTORS

Features:
- Low Rdc and high current
- Magnetic shield structure

Applications:
- Power supply circuits / DC-DC converters in a variety of applications such as PDP TV, LCD TV, HDD, PC.

✻For additional values and sizes, visit mouser.com

For quantities greater than listed, call for quote.

CB SERIES

CB series are Wound Chip Inductors having wide line-up, which are suitable for any circuit designs.

Features:
- CBC series has large rated current
- CBL series has low profile characteristic
- CBMF series has a low loss characteristic

Applications:
- DSC, DVC, HDD, LCD-TV, mobile phones, PC, game equipment

LB SERIES WIRE-WOUND CHIP INDUCTORS

LB series are Wound Chip Inductors having wide line-up, which are suitable for any circuit designs.

Features:
- LBC series has large rated current
- LBR series has low DC resistance
- LBMF series has a low loss characteristic
- LB series M type for Signal line propose down sizing with High Q and narrow balance

Common Applications:
- DSC, DVC, HDD, LCD-TV, various communication equipment

For additional sizes and values, visit mouser.com

TDK Ferrite Beads and GigaHertz Rated Inductors

TDK MLK SERIES INDUCTORS

Features:

- Supports operating frequency bands of up to 12GHz with nominal inductance values from 1 to 33nH.
- The gigaspiral multilayer structure reduces self-resonant frequencies and suppresses the reduction of Q values in gigahertz bandwidths.
- Advanced monolithic structure is formed using a multilayering and sintering process with ceramic and conductive materials for high-frequency.
- Completely lead-free product which contains no lead in any of the materials used. It supports lead-free solder, as well.

Applications:

- High-frequency circuits for portable telephones, PA, Bluetooth modules, etc.

Specifications:

- Operating Temperature Range: -55°C to +125°C
- Storage Temperature Range: -55°C to +125°C (unit of product)

For quantities greater than listed, call for quote.

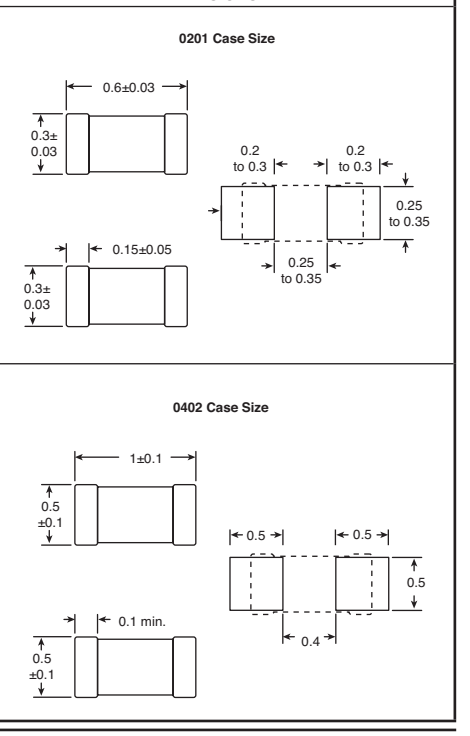
DIMENSIONS: mm



TDK MMZ SERIES CHIP FERRITE BEADS

Features:

- Size standardized for use by automatic assembly equipment. No preferred orientation.
- Either flow or reflow soldering methods can be used due to electroplating of the terminal electrodes.
- High reliability due to an entirely monolithic structure.
- Low DC resistance structure of electrode prevents wasteful electric power consumption.
- The products contain no lead and also support lead-free soldering.

Applications:

- PCs, CRTs, liquid crystal display panels, printers, hard disk drives, game machines, cell phones, etc.

Specifications:

- Operating/Storage Temp. Range: -55°C to +125°C

For quantities greater than listed, call for quote.

Code	Freq. Range	Applications
A	80-400 MHz	Very high impedance @ 100MHz, based on Y material
D	200-500 MHz	High impedance @ high frequencies
R	10-200 MHz	For digital signal lines req'g good waveform integrity
S	40-300 MHz	Standard type with blocking frequency near 100MHz
Y	80-400 MHz	Usable where signal freq. is far from cut-off frequency

TDK SMD Ferrite Core, Magnetic Shielded Chip Inductors

MLF SERIES MLF2012 TYPE

Features:

- High-reliability monolithic structure
- Ferrite core and magnetic shielding enables the design of compact circuits with high packing density
- Excellent solderability and hig heat resistance permits either flow or reflow soldering
- The products contain no lead and aslo support lead-free soldering

Applications:

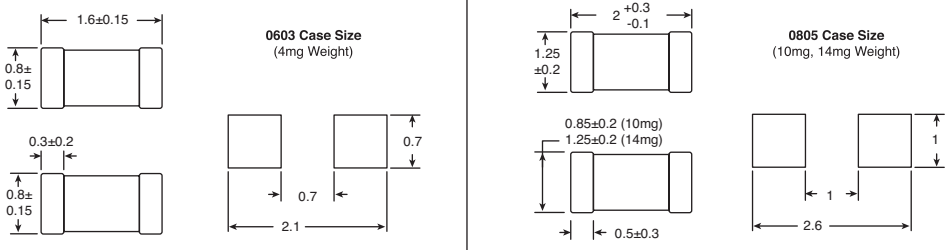
- Digital cellular phone, car audio, TV, personal computers, or various electronic appliances

Specifications:

- Operating Temperature Range: -25°C to +85°C
- Storage Temperature Range: -40°C to +85°C

(unit of products)

DIMENSIONS: mm



For quantities greater than listed, call for quote.

NLV SERIES NLV25/32 TYPE

For Signal Line

Features:

- The product has good heat durability that withstands lead-free compatible reflow soldering conditions
- Lead-free material is used for the plating on the terminal
- The electrical characteristics, reliability, shape and pad shape are the same as the previous NL series
- Highly heat resistant thermoplastic resin is used to form the exterior package
- This product conforms to the RoHS standard

RoHS Compliant

LEAD-FREE

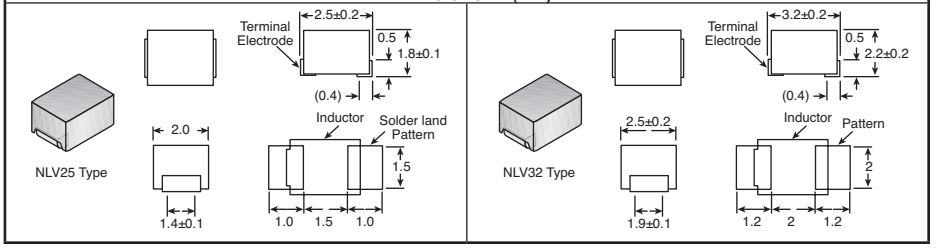
Applications:

- PCs, hard disk drives, and other types of electronics

Specifications:

- Operating Temperature: -40°C to +105°C
- Inductance Tolerance: ±5%

DIMENSIONS: in (mm)



For quantities greater than listed, call for quote.

NLCV SERIES NLCV25/32 TYPE

For Power Line

Features:

- The product has good heat durability that withstands lead-free compatible reflow soldering conditions
- Lead-free material is used for the plating on the terminal
- The electrical characteristics, reliability, shape and pad shape are the same as the previous NL series
- Highly heat resistant thermoplastic resin is used to form the exterior package
- This product conforms to the RoHS standard

Applications:

- PCs, hard disk drives, and other types of electronics

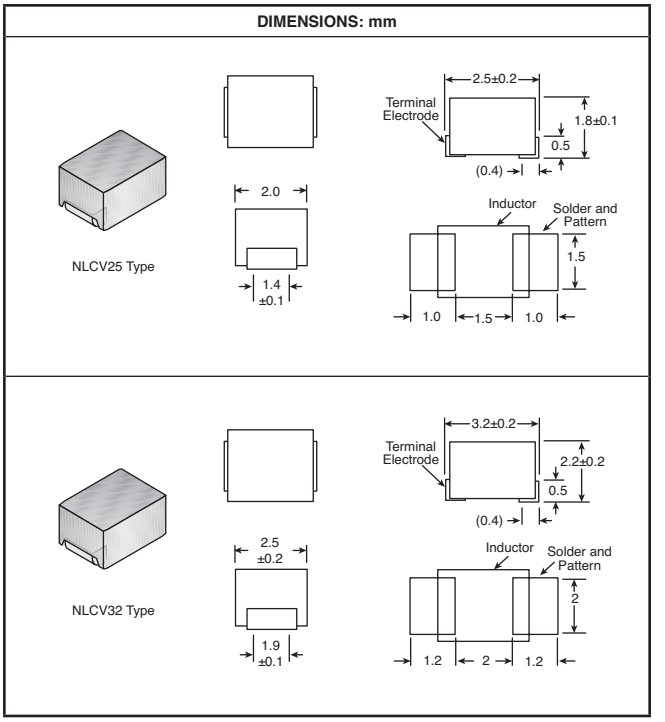
RoHS Compliant

Specifications:

- Operating Temperature: -40°C to +105°C
- Inductance Tolerance: 10% (K); 20% (M)

LEAD-FREE

DIMENSIONS: mm



For quantities greater than listed, call for quote.

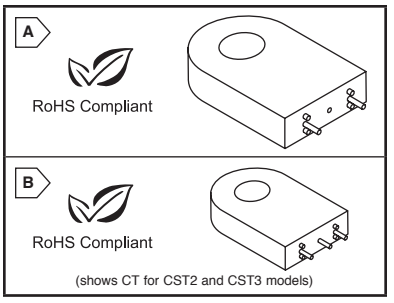
TRIAD Transformers and Inductors

TRIAD CURRENT SENSE TRANSFORMERS

Features for CST2 & CST3:
- Derate ET product by 32% for 50kHz, 52% for 100 Hz and 50% for unidirectional operation
- Rated primary current renders approximately 40°C temperature rise
- CST206 models have maximum recommended terminating resistance of 1 ohm per turn



CST2 & CST3 Series

For quantities greater than listed, call for quote.

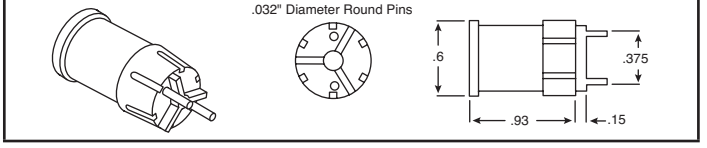
TRIAD ROD CORE INDUCTORS

Triad rod core inductors provide cost effective energy storage. By conditioning the output signal, the inductor smoothes out the current waveform to provide a more stable current. These low cost inductors are designed to be compatible with automated P.C.B. installation.

Features:
- Rated current 10 amps per pin maximum
- Rated current renders @ 40°C temp. rise

DIMENSIONS: in.



For quantities greater than listed, call for quote.

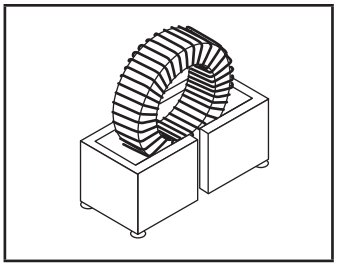
TRIAD TOROIDAL FILTER INDUCTORS

Features:
- Nominal inductance values are typically 10% higher than minimal rating
- Biased inductance measure at rated DC amps
- Operation at rated current yields @ 40°C rise over 20°C ambient

RoHS Compliant



For quantities greater than listed, call for quote.

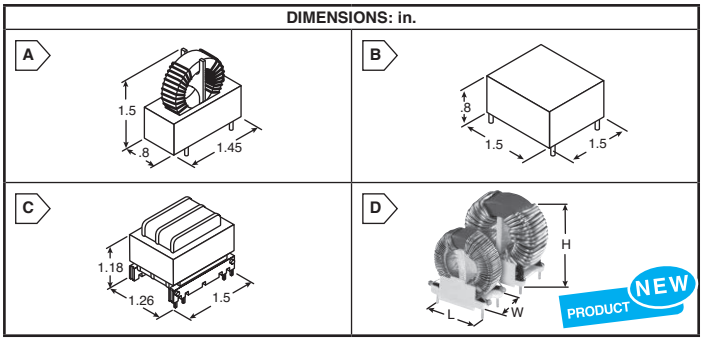
TRIAD COMMON MODE INDUCTORS

Highly dependable Triad common mode EMI suppression inductors are used in various types of power supplies to eliminate noise common to all lines. These units also provide effective differential mode filtering. Meeting VDE, IEC, UL, and CSA requirements, they minimize AC line transmitted interference often created by high frequency switching power supplies.

Features:
- Hi-Pot tested at 2500VRMS
- Current rating for approximately 40°C temperature rise
- DC resistance at 20°C ± 10%
- Inductances are minimum measured at 10 Gauss

DIMENSIONS: in.



For quantities greater than listed, call for quote.

IHLP AUTOMOTIVE SERIES

Features:
- AEC-Q200 Qualified
- High Temperature: up to 155°C
- Frequency Range: up to 1.0MHz
- Shielded construction with ultra-low buzz noise
- Handles high transient current spikes without saturation

Applications:
- Engine and transmission control units
- Diesel injection drivers
- DC/DC converters for entertainment/navigation systems
- Noise suppression for motors

IHLP STANDARD SERIES

Features:
- High Temperature: up to 125°C
- Frequency Range: up to 2.0MHz
- Shielded construction with ultra-low buzz noise
- Handles high transient current spikes without saturation

Applications:
- PDA/notebook/desktop/server applications
- High current POL converters
- Low profile, high current power supplies
- Battery powered devices
- DC/DC converters

For quantities greater than listed, call for quote.

VISHAY/DALE High Current Inductors

RoHS Compliant This product is RoHS compliant.

IWAS SERIES WIRELESS CHARGING RECEIVING COIL/SHIELD WITH ATTRACTOR

NEW! TECHNOLOGY

Features:
- Wireless charging receiving coil
- Optimized for 5 V charging circuitry
- High permeability shielding for wireless charging receiving coils
- Blocks charging flux from sensitive components or batteries
- Dimensions: 48mm x 32mm x 1.05mm max.

For quantities greater than listed, call for quote.

IHTH SERIES THROUGH HOLE, HIGH CURRENT AND HIGH TEMPERATURE INDUCTORS

Features:
- Operating temperature: -55°C to +155°C
- Shielded construction
- Handles high transient current spikes without saturation
- Ultra low buzz noise, due to composite construction

Applications:
- Desktop/Server applications
- High current POL converters
- Line filters
- DC/DC converters in distributed power systems, FPGAs

For quantities greater than listed, call for quote.

VISHAY/DALE Surface Mount Inductors

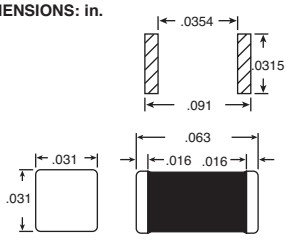
RoHS Compliant This product is RoHS compliant.

IMC-0603 SURFACE MOUNT INDUCTORS HIGH FREQUENCY, LASER SPIRAL, COATED

Features:
- High self-resonant frequency values
- High Q values relative to size at higher frequencies
- Coated coil provides protection and moisture resistance
- Compatible with vapor phase and infrared reflow soldering
- L and Q value not affected by mounting orientation

Specifications:
- Operating temperature: -40°C to +100°C
- Core Material: Ceramic

DIMENSIONS: in.



For quantities greater than listed, call for quote.

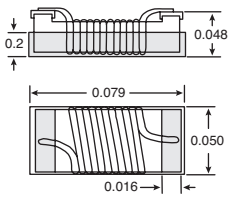
IMC-0805-01 SURFACE MOUNT INDUCTORS HIGH FREQUENCY

Features:
- High self-resonant frequency values
- High Q values relative to size at higher frequencies
- Wirewound construction
- Compatible with vapor phase and infrared reflow soldering

Specifications:
- Operating temperature: -40°C to +125°C
- Core Material: Ceramic for 2.2nH to 390nH
- Ferrite for 470nH to 10,000nH

DIMENSIONS: in.



For quantities greater than listed, call for quote.

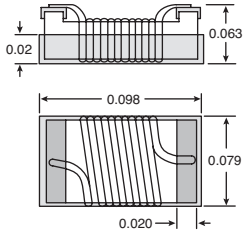
IMC-1008 SURFACE MOUNT INDUCTORS HIGH FREQUENCY

Features:
- High self-resonant frequency values
- High Q values at higher frequencies
- Wirewound construction
- Compatible with vapor phase and infrared reflow soldering

Specifications:
- Inductance and Q measured on HP4191A
- SRF measured on HP8753B
- Temperature range: -40°C to +85°C
- Core material: non-magnetic

DIMENSIONS: in.



For quantities greater than listed, call for quote.

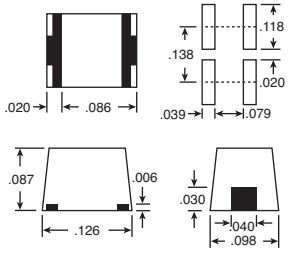
IMC-1210 MOLDED SURFACE MOUNT INDUCTORS

Features:
- Printed marking
- Compatible with vapor phase and infrared reflow soldering
- Molded construction provides superior strength and moisture resistance

Specifications:
- Operating temperature: -55°C to +125°C
- Core material: Ceramic for 3.3nH to 1000nH, ferrite for 1200nH to 22,000nH

DIMENSIONS: in.



For quantities greater than listed, call for quote.

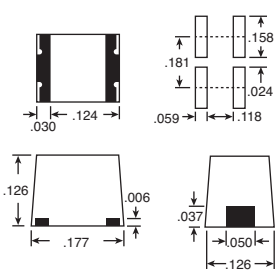
IMC-1812 MOLDED SURFACE MOUNT INDUCTORS

Features:
- Molded construction provides superior strength and moisture resistance
- Printed marking
- Compatible with vapor phase and infrared reflow soldering

Specifications:
- Inductance tolerance: ±10%
- Temperature range: -40°C to +105°C
- Core material: powdered iron for 1.0μH to 100μH, ferrite for 150μH to 1000μH

DIMENSIONS: in.



For quantities greater than listed, call for quote.

WURTH ELECTRONICS Inductors

RoHS Compliant **This product is RoHS compliant.**

WE-LQ SMD INDUCTORS

Features:
- Miniature chip inductor wound on a special ferrite core
- Small inductances for compact circuits
- High Q at high frequencies
- Low DC-resistance
- Operating temperature: -40ºC to +125ºC

NEW! TECHNOLOGY

RoHS Compliant

For quantities greater than listed, call for quote.

WE-SPC SMD SHIELDED POWER INDUCTOR

Features:
- Extremely small size
- High saturation current, up to 13A
- Magnetic shielded, which results in a low leakage field
- High self resonance frequency
- Low self-losses
- Optimize solderability characteristics
- Constant saturation characteristics
- Operating temperature: -40°C up to +125°C

NEW! TECHNOLOGY

RoHS Compliant

For quantities greater than listed, call for quote.

WE-MPSB EMI MULTILAYER POWER SUPPRESSION BEAD

Features:
- High Rated Current up to 10A
- Recommended soldering: Reflow
- Operating Temperature: -55°C to +125°C
- Very low RDC

NEW! TECHNOLOGY

RoHS Compliant

For quantities greater than listed, call for quote.

WE-CMBH COMMON MODE POWER LINE CHOKE (HORIZONTAL)

Features:
- Horizontal design for compact housings
- Suppression even at low frequency ranges
- Broadband screening because of low capacitance winding technique
- Highest possible current with small sizes
- Customer specific designs on request
- Operating temperature: -40°C to +125°C

NEW! TECHNOLOGY

WE-TI RADIAL LEADED WIRE WOUND INDUCTOR

Features:
- Radial through-hole inductor
- High saturation core material
- Maximum current up to 8.5A
- Small size

Applications:
- EMI filter
- Signal filtering
- Power supply filter
- Switches, switching power supply for small and medium voltage
- Operating range: - 40°C to +105°C

WE-CMB NIZI COMMION MODE POWER LINE CHOKE

Features:
- Compact size
- Noise suppression up to 300MHz
- Operating tempature: -40°C + 125°C

Applications:
- Power electronics
- Power line in and output filter
- Optimized for burst signals

RoHS Compliant

For quantities greater than listed, call for quote.

WE-CMB COMMON MODE POWER LINE CHOKE

Features:
- Compact design
- Highest possible current with small sizes
- Operating tempature: -40°C + 125°C

Applications:
- Power electronics
- Power line in and output filter
- Radio interference suppression in motors

RoHS Compliant

For quantities greater than listed, call for quote.

WE-HCF SMD HIGH CURRENT INDUCTOR

Features:
- Winding Style: Sectional
- UL94-VO compliant housing
- Operating tempature: -40°C + 125°C

Applications:
- Data lines
- Power lines
- Suppression for common mode noise

RoHS Compliant

For quantities greater than listed, call for quote.

WE-CMB COMMON MODE POWER LINE CHOKE

Features:
- Magnetically shielded
- Current capability up to 32 A
- Operating tempature: -40°C + 125°C

Applications:
- Storage inductor for high efficiency DC/DC converters
- Single and polyphase buck converters
- Filter for audio applications

RoHS Compliant

For quantities greater than listed, call for quote.

WURTH ELECTRONICS Inductors and Ferrites

RoHS Compliant **This product is RoHS compliant.**

WE-FLAT FLAT FERRITE CORE

Features:
- Filter for common mode interferences
- Also available with adhesive tape
- Operating temperature: -25°C to +125°C

Applications:
- Interference problems on data lines of digital devices

PRODUCT NEW

RoHS Compliant

For quantities greater than listed, call for quote.

STAR-FLAT SNAP FERRITE WITH SAFETY KEY TECHNOLOGY

Features:
- STAR-FLAT's ribbon cable holding feature prevents sliding and cable crimping
- The security lock guarentees electromagnetic compatibility because only authorized person can unlock the snap ferrite with the STAR-TEC key
- Color: Grey
- Patented technology
- Classification of the plastic case: UL94V0
- Operating temperature: -25°C to +105°C
- Safety Key: 74271

PRODUCT NEW

RoHS Compliant

For quantities greater than listed, call for quote.

LFS EMI SUPPRESSION AXIAL FERRITE BEADS WE-AFB

Features:
- Core material: MnZn for low frequency applications
- Operating temperature: –25°C to +85°C

Applications:
- Especially for applications in the low frequency range from 150kHz to 30MHz
- Suppression of electronic ballasts (i.e. neon tube) in the lighting industry

RoHS Compliant

For quantities greater than listed, call for quote.

SNAP FERRITES STAR-FIX LFS

Features:
- With patented flexible cable fixing
- Prefixing cable system facilitates the cable assembling process
- Cable clamping protection
- One key in each packaging unit
- Classification of the plastic case: UL94-V0
- Operating temperature: –25°C to +105°C
- Patented technology
- Core material: MnZn

Applications:
- Especially for applications in the low frequency range from 300kHz to 30MHz
- Perfect for applications with varying cable diameter
- Reusable because of the key technology therefore perfect for test and measuring purposes and cables with difficult access
- Suppression of electronic ballasts (i.e. neon tube) in the lighting industry

RoHS Compliant

For quantities greater than listed, call for quote.

SMD SHIELDED TINY POWER INDUCTORS WE-TPC

Features:
- Extremely flat power inductor
- High current capability
- Magnetically shielded which results in a low leakage field
- Recommended solder profile: Reflow
- Operating temperature: –40°C to +125°C

Applications:
- Portable power like PDA, digital camera, PCMCIA cards and displays
- DC/DC converter
- Embedded PC
- Mobile data gathering, telemetric

RoHS Compliant

For quantities greater than listed, call for quote.

POWER MULTILAYER INDUCTORS WE-PMI

Features:
- Compact multilayer type
- Suitable for applications with high currents up to 2.5A
- DCR values below 0.2Ω
- Magnetically shielded construction: No crosstalk
- Operating temperature: –40°C to +125°C

Applications:
- DC/DC converters especially at high switching frequencies
- Portable devices like PDA and digital cameras

WURTH ELECTRONICS SMD Inductors

RoHS Compliant **This product is RoHS compliant.**

WE-LHMI SMD POWER INDUCTOR

Features:
- Compact Design
- Magnetically shielded
- High current capability
- Handles high transient current spikes
- No acoustic noise and no leakage field
- Operating temperature: -40°C to +125°C

Applications:
- DC/DC Converters for high current power supplies
- DC/DC Converters for Field
- Programmable Gate Arrays (FPGA)
- POL Converters
- Portable power like PDA, digital camera
- Mainboards/ graphic cards
- Battery powered devices

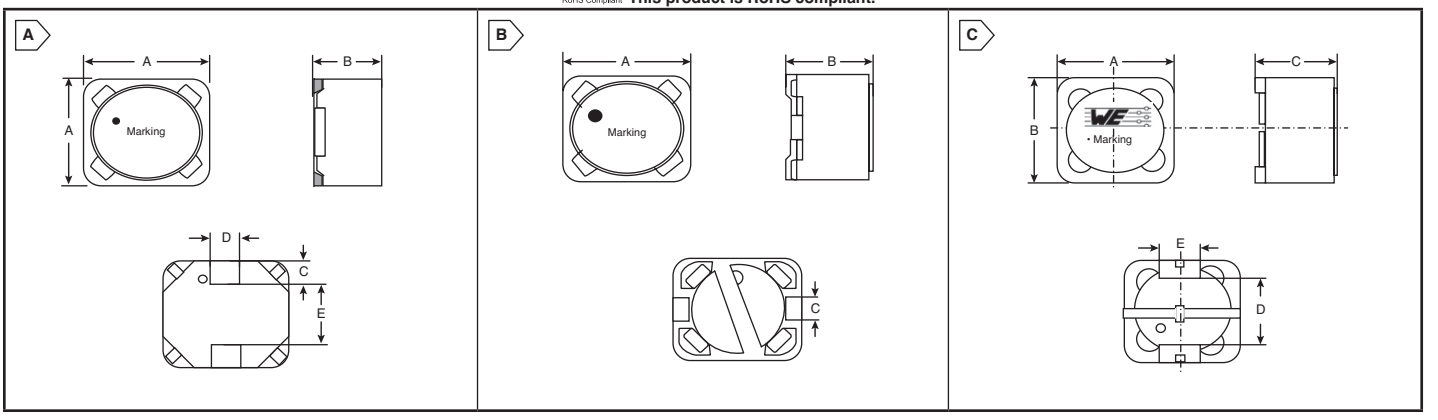
WURTH ELECTRONICS SMD Inductors

RoHS Compliant **This product is RoHS compliant.**



POWER INDUCTORS WE-PD

Characteristics:
- Magnetically shielded version which results in a low leakage field
- High storage capacity
- Low self-losses
- Highest possible current loading for SMD Inductors
- Operating temperature: –40°C to +125°C
- Recommended solder profile: Reflow

Applications:
- Switching regulators with low operating voltages (computer, laptop, mobile phones, pagers)
- Integrated DC/DC-converter
- Perfectly suitable for switching regulators with extremely high efficiency (> 86%)
- Graphic cards
- Plastic base: Because of the one piece construction these are more suitable for high vibration or shock applications

Dimensions: mm

POWER INDUCTORS WE-PD (CONT.)

DIMENSIONS: mm						
Size	A	B	C	D	E	Base
1280	12.0	12.0	8.0	8.0	5.0	Metal
1210	12.0	12.0	10.0	7.6	5.0	Metal

Characteristics:
- Magnetically shielded version which results in a low leakage field
- High storage capacity
- Low self-losses
- Highest possible current loading for SMD Inductors
- Operating temperature: –40°C to +125°C
- Recommended solder profile: Reflow

Applications:
- Switching regulators with low operating voltages (computer, laptop, mobile phones, pagers)
- Integrated DC/DC-converter
- Perfectly suitable for switching regulators with extremely high efficiency (> 86%)
- Graphic cards
- Plastic base: Because of the one piece construction these are more suitable for high vibration or shock applications

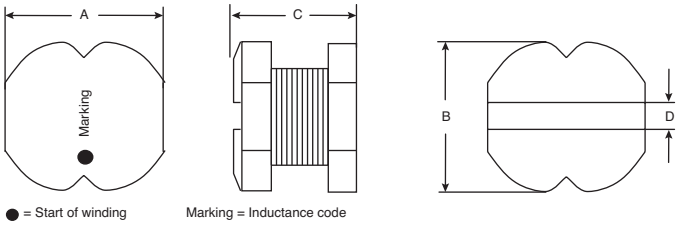
WURTH ELECTRONICS SMD Inductors

RoHS Compliant **This product is RoHS compliant.**

SMD POWER INDUCTORS WE-PD2

Features:
- Open size
- Current capability up to 14A
- Operating temperature: –40°C to +125°C

Applications:
- Switching regulators with low operating voltage (computer, laptop, mobile phones and pagers)
- Integrated DC/DC-converter
- Perfectly suitable for switching regulators with extremely high efficiency



● = Start of winding Marking = Inductance code

WURTH ELECTRONICS SMD Inductors

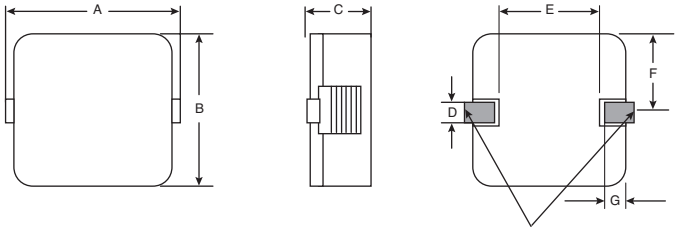
RoHS Compliant **This product is RoHS compliant.**

WÜRTH ELEKTRONIK

SMD FLAT WIRE HIGH CURRENT INDUCTORS WE-HCI

Features:
- Magnetically shielded
- Flat wire coil for low losses at high frequency
- Low stray field
- Operating temperature: –40°C to +125°C / +150°C

Applications:
- Graphic cards
- Laptops
- Industrial computers
- Motherboards
- High current switching regulators
- DC/DC converter
- Polyphase-switching regulators
- Filter



RDC is measured at these points

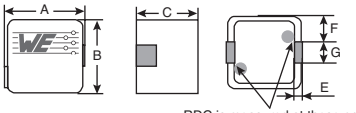
WURTH ELECTRONICS SMD Inductors

RoHS Compliant This product is RoHS compliant.

SMD HIGH CURRENT CUBE INDUCTOR, FERRITE FILTER CHOKE WE-HCC

Features:
- Magnetically shielded
- Operating temperature: -40˚C to +125˚C
- Current capability up to 27A

Applications:
- Filter choke for DC/DC converter
- Single and polyphase buck converter
- Filter choke for motor electronics



RDC is measured at these points

SMD FLAT WIRE HIGH CURRENT INDUCTOR WE-HCI

Features:
- Magnetically shielded
- Operating temperature: -40˚C to +125˚C/+150°C
- Flat wire coil for low losses at high frequency
- Low stray field

Applications:
- Graphic cards
- Laptops
- Industrial computers
- Motherboards
- High current switching regulators
- DC/DC converter
- Polyphase-switching regulators
- Filter

WURTH ELECTRONICS SMD Inductors

SHIELDED TINY POWER INDUCTORS WE-TPC

RoHS Compliant **This product is RoHS compliant.**

Features:
- Extremely flat power inductor
- High current capability
- High reliability and perfect soldering characteristics because of an integrated soldering pad
- Magnetically shielded which results in a low leakage field
- Operating temperature range: 40°C up to +125°C

Applications:
- Portable power-like PDA, digital camera, PCMICA-cards and displays
- DC/DC converter
- Recommended for switching regulator IC's from Linear Technology, National Semiconductor, Texas Instruments, and Fairchild Semiconductor

WURTH ELECTRONICS SMD Inductors

RoHS Compliant This product is RoHS compliant.

SHIELDED TINY POWER INDUCTORS WE-TPC (CONT.)

Features:
- Extremely flat power inductor
- High current capability
- High reliability and perfect soldering characteristics because of an integrated soldering pad
- Magnetically shielded which results in a low leakage field
- Operating temperature range: 40°C up to +125°C

Applications:
- Portable power-like PDA, digital camera, PCMICA-cards and displays
- DC/DC converter
- Recommended for switching regulator IC's from Linear Technology, National Semiconductor, Texas Instruments, and Fairchild Semiconductor

DIMENSIONS: mm

SMD COMMON MODE NOISE SUPPRESSORS WE-CNSW

Features:
- High common-mode noise suppression at high frequency
- Small influence for high speed signals through winding symmetry

Applications:
- USB 2.0
- Firewire/IEEE 1394
- LVDS
- High speed data lines
- Common mode filters

WURTH ELECTRONICS Inductors and Coils

RoHS Compliant **This product is RoHS compliant.**

SMD COMMON MODE CHOKES FOR SIGNAL LINES WE-SL2

Features:
- For distortion-free removal of noise from transmitted electrical signals
- Double current-compensated choke
- Offering a wide bandwidth with the core materials NiZn / MnZn
- Ambient temperature: -40°C to +85°C
- Nominal voltage: 80 VDC (42V AC)
- UL compliant housing

Applications:
- Current compensated choke for data and signal lines
- Power supply systems
- Filter for measurement signals

For quantities greater than listed, call for quote.

SMD COMMON MODE LINE FILTERS WE-SL5

Features:
- Small size
- Low profile
- High impedance up to 13000 Ω
- High current up to 2500 mA
- Low stray/leakage inductance
- UL compliant housing (UL 94-V0)
- Rated voltage 60V

Applications:
- USB
- CAN
- Firewire
- Data lines
- Power lines

For quantities greater than listed, call for quote.

SMD COMMON MODE LINE FILTERS WE-SLM

Features:
- Small size
- High current up to 300 mA
- Nominal voltage: 80V DC (42V AC)
- Operating temperature: -40°C to +125°C
- Recommended soldering profile: Reflow

Applications:
- USB
- CAN
- Firewire
- Data lines
- Filter for measurement signals
- Power supplies

For quantities greater than listed, call for quote.

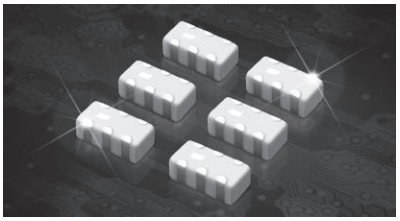
MURATA Band Pass and Low Pass Filters

RoHS Compliant **This product is RoHS compliant.**

muRata *Innovator in Electronics*

Murata's world's smallest 2.4 GHz balanced output filter for Texas Instruments wireless connectivity solutions. The new filter has been designed specifically for use with wireless connectivity system-on-chips (SoCs) from Texas Instruments Incorporated (TI), the CC253x and CC254x for ZigBee and Bluetooth technology networking respectively.



Ultra-small, low-profiled, lightweight chip filters based on ceramic multilayer technology.
Extremely ultra-small band-bass filters.

Features:
- Ultra-small, low-profiled, lightweight band-pass filters
- Absolutely no adjustment required
- Reflow solderable
- Available in tape and reel packagings for automatic mounting
- Applicable for applications using frequency in the 0.5GHz to 0.6GHz

For quantities greater than listed, call for quote.

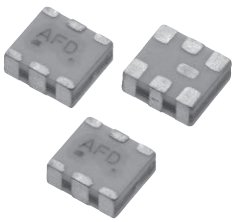
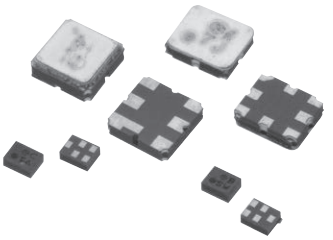
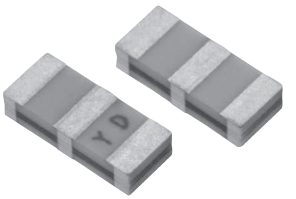
MURATA Ceramic Filters (Cerafil®)

RoHS Compliant **This product is RoHS compliant.**

muRata
Innovator in Electronics







SFECF
SFECF10M7 series for FM-receivers are small, high performance and super thin (1.4mm max.) filters. Piezoelectric element is connected in the sandwich shape by ceramics substrate.
They have 1.4mm max. thickness and small mounting area. (3.45x3.1mm)
SFECF series and CDSCB series (MHz Discriminator) enable customers to make VICS/RKE/TPMS set so thin and small sized.

SFELF
SFELA10M7 series for FM-receivers are monolithic type ceramic filters which use the thickness expander mode of the piezoelectric ceramic.

Features:
- Insertion loss is 1 to 1.5dB lower than conventional products
  These types are useful for elevating the sensitivity of sets
- Small dispersion and stable characteristics
- Excellent shape factor of frequency response
- Good waveform symmetry

SFSCE
SFSCE series are chip surface mount filters available for 3dB bandwidth at 700kHz to 1.3MHz. (more than twice width compared with current types)
They have 1.0mm max. thickness and small mounting area (4.5x3.8mm).

Features:
- The filters are mountable by automatic placers.
- They are slim, at only 1.0mm max. thickness, and have a small mounting area (4.5x3.8mm) enabling flexible PCB design.
- Available lead (Pb) free solder reflow.
- Operating temperature range: -20 to +80 (degrees C)
- Storage temperature range: -40 to +85 (degrees C)

Applications:
- SS digital communication system
- Digital wireless audio
- PHS Evolution system
- RFID Reader Writer
- RKE

SFECV
SFECV/SFECK10M7 series for FM-receivers are monolithic type ceramic filters which utilize the thickness expander mode of piexoelectric ceramics. SFECV series enable customers to make AM/FM set very thin, and it can be of help to the total chip circuit.

SFVLF
SFELF10M7LFTA/KAH0, SFVLF/SFKLF series realizes narrower band characteristics not obtained by conventional ceramic filters. Besides, low spurious and temperature characteristics is stable. This series is suitable for European car-audio or AM up conversion use that needs narrow band characteristics are stable. As part of the environment protection activity, solder for terminal plating and terminal-element connection inside of ceramic filters contain no lead (Pb).

For quantities greater than listed, call for quote.

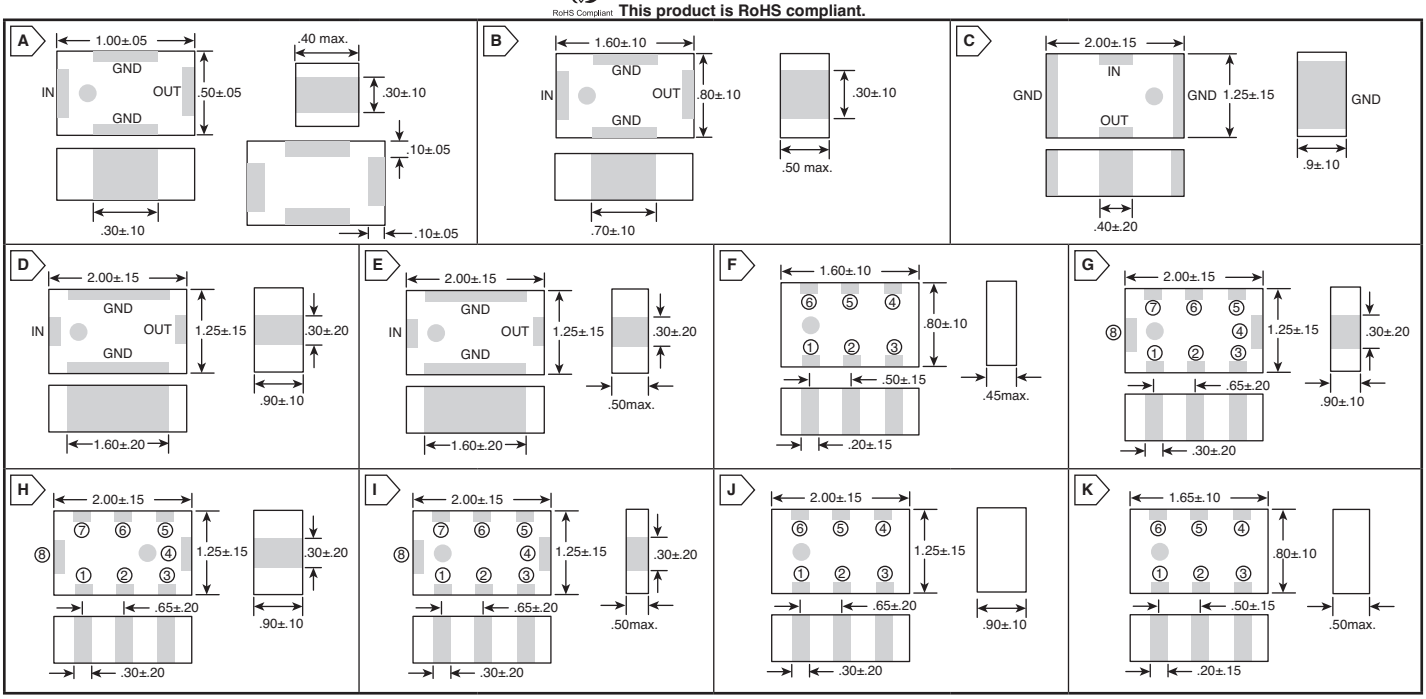
TAIYO YUDEN Filters, Diplexers and Baluns

TAIYO YUDEN

RoHS Compliant **This product is RoHS compliant.**



Features:
- High Frequency
- Compact and Low-profile
- Low loss and high attenuation
- Stable temperature characteristics

Applications:
- Bluetooth module, Wireless LAN, Digital TV

DIMENSIONS: mm

TDK Common Mode Filters and Antennas

Products may be RoHS compliant. Check mouser.com for RoHS status.

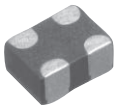
TCM SERIES COMMON MODE FILTERS SMD

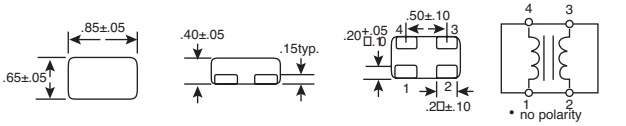
Specifications:
- Operating Temperature: –25°C to +85°C

TCM0806 Type Ultra-Compact Common Mode Filter

Applications:
- PDP/LCD/DLP/PJ TVs
- DVD players
- Notebook PCs
- High speed interface (LVDS, IEEE1394 and USB2.0)
- Portable audio
- Amusement machines
- Digital cellular phones

RoHS Compliant





For quantities greater than listed, call for quote.

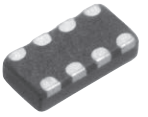
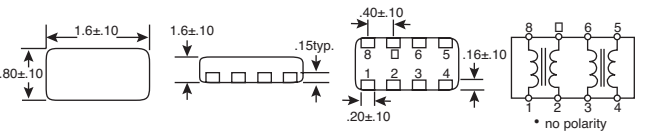
TCM1608G Type Dual-Circuit Modularized Common Mode Filter Array

Applications:
- PDP/LCD/DLP/PJ TVs
- DVD players
- Notebook PCs
- High speed interface (LVDS, IEEE1394 and USB2.0)
- Portable audio
- Amusement machines
- Digital cellular phones

RoHS Compliant





For quantities greater than listed, call for quote.

Connect to a world of **innovation.**

With over 75 years of experience, Molex is one of the world's largest global manufacturers of interconnect products. Through their vast product portfolio and commitment to their environmental management system, ECOCARE, Molex offers you the fastest connection to create product and business solutions.

When it comes to an ever-expanding selection of the newest products and technologies, Mouser delivers with no minimums, same-day shipping and the clear speed-to-market advantage design engineers demand. Plus, we back it all with unsurpassed support. Get your hands on what's next from Mouser.

3M™ Wire Management and Marking Products

RoHS Compliant **This product is RoHS compliant.**

WIRE MANAGEMENT FASTENERS

3M™ Scotchmate™ Fastener Hook and Loop

- Provide excellent moisture resistance
- For static loads temperature should not exceed 49°C / 120°F
- Temperature range: -29°C / -20°F to 49°C / 120°F continuous, to 70°C / 158°F intermittent

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Description	Price Each	
		1	5
517-3526/REEL	1" wide, black adhesive, 4.9 yards	48.44	45.11
517-3526W/REEL	1" wide, white adhesive, 4.9 yards	60.72	56.54

3M™ Dual Lock™ Reclosable Fastener

- High temperature and solvent resistant
- Black polyproplyene reclosable fastener with rubber based pressure sensitive adhesive
- Tensile strength can replace mechanical fasteners when mushroom shaped stems interlock

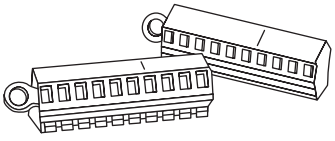
For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Description	Price Each	
		1	5
517-3541/REEL	1" wide, black adhesive	69.86	64.82
517-3551/REEL	1" wide, black adhesive, UV resistant	114.96	106.90
517-3560/REEL	1" wide, clear adhesive	131.80	122.57

WIRE MARKING AND LABELING

ScotchCode™ Wire Marker Tape Dispensers

Dispenser with ten refillable compartments for the easy-to-cut colored, lettered, or numbered tape.



For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Description	Price Each		
		1	10	25
517-STD09	1 roll each # 0-9	53.34	50.68	48.13
517-STDC	Dispenser, 1 roll each color: black, blue, brown, green, gray, orange, red, violet, white, and yellow	46.44	43.88	41.25

Numbered and Colored Tape Refills

For quantities greater than listed, call for quote.

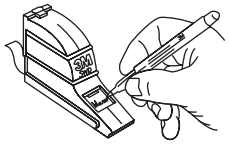
ScotchCode™ Write-On Wire Marker Tape Dispensers and Refills

- SWD comes with the pen and 250 markers
- Used for cable, motor panels, control panels or sub-assemblies
- Provides a smooth, stable writing surface



For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Description	Price Each		
		1	10	25
517-SWD	Dispenser for write-on markers, size 3/4" x 1-3/8"	41.88	38.79	34.90
517-SWD-R	Write-on marker refills, size 3/4" x 1-3/8"	32.38	29.99	26.99

SPB Pre-Printed Wire Marker Books

- To mark electrical wires and terminal strips
- Material: Vinyl impregnated cloth film with natural rubber adhesive
- Clearly printed
- Wide Variety
- Legible, Neat
- Convenient

For quantities greater than listed, call for quote.

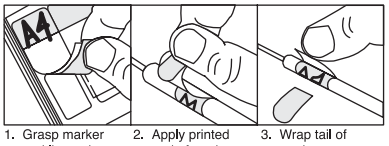
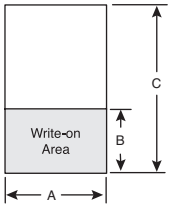
SWB Write-On Wire Marker Books

The 3M SWB Write-on Wire Marker Book contains self laminating, write-on markers designed for small volume applications involving special or complex legends that are hand written at the job site.



1. Grasp marker and liner tab at bottom and remove by peeling upward.
2. Apply printed end of marker to wire and wrap, bending marker to lift tab.
3. Wrap tail of marker over legend as tab seperates from marker.



For quantities greater than listed, call for quote.

AVERY DENNISON Cable Mounting Ties

AVERY DENNISON
Fastener Division

RoHS Compliant **This product is RoHS compliant.**

SCREW MOUNT TIES

Screw Mount Ties are preferred when position is critical or the operation requires the product to be pre-mounted to a surface before final assembly. For an added dimension of security, Avery Dennison Screw Mount Cable Ties are easily applied to keep your application secure and positioned exactly where it needs to be.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Avery Dennison Part No.	Fig.	Color	Dimensions: in.			Bundle Dia min-max.	Min Loop Tensile Strength	Price Each		
				Length	Width	Thickness			1	100	1000

HOLE TIES

Hole Ties are an easy way to secure wire, hose, or tubing bundles. Fir Tree Ties are designed with either punched or hreaded holes of any shape and are ideal for securing bundles in a fixed position on a specific surface. Push Mount Arrow Head Ties require significantly less extraction force than Fir Tree Ties.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Avery Dennison Part No.	Fig.	Color	Dimensions: in.			Bundle Dia min-max.	Min Loop Tensile Strength	Price Each		
				Length	Width	Thickness			1	100	1000
Fir Tree

STUD TIES

A fool-proof bundling tie that really holds tight. Ideal for bundling wires, hoses, and tubing and for attaching the bundle to the bolt, Weld Stud Ties are designed to fit all over threaded bolts that protrude from a surface. They take very little force to insert and much greater force to remove.

For quantities greater than listed, call for quote.

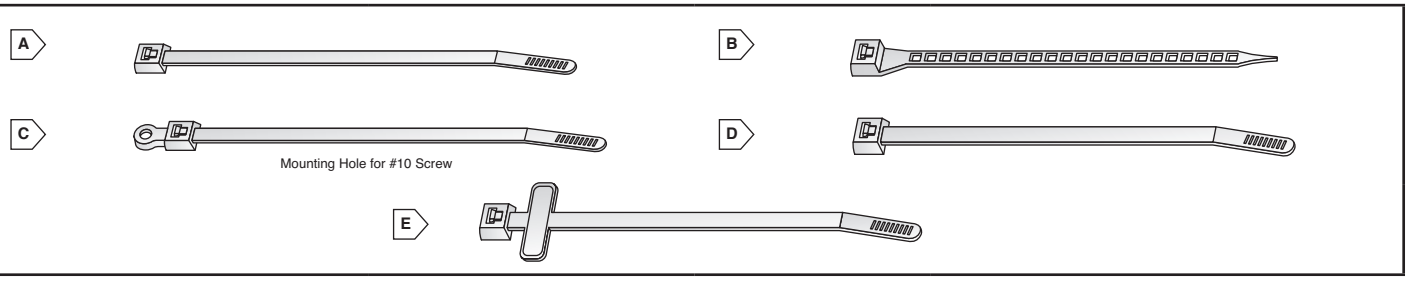
AVERY DENNISON™
Fastener Division



BAR-LOK® CABLE TIES

Features:
- Manufactured of 100% Nylon
- Bent-tip design for ease of handling and installation
- Maximum holding ability

Specifications:
- Type 6/6 Nylon
- Self-extinguishing - UL94 flam., class: V-2
- Meet MIL-S-23190, MS3367, ASTM D 4066-82
- Operating Temperature: -40°C to 85°C
- Heat Stabilized: -40°C to 105°C

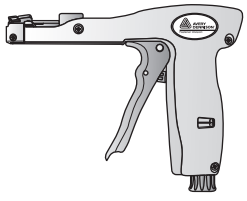
CABLE TIE INSTALLATION TOOL

Features:
- This tool can accommodate all miniature, intermediate and standard ties and is ideally built to with stand the rigors of daily use on the assembly line of high production operations
- Rugged, lightweight cast Aluminum body built to last in production environments
- Nose of the tool allows easy access for miniature, intermediate and standard ties
- Distance between the trigger and handle designed to lower the trigger force necessary or opera tion, avoiding fatigue and increasing comfort for smaller hands



For quantities greater than listed, call for quote.

DOUBLE ADHESIVE CABLE CLIPS

Features:
- Tough, corrosion resistant natural nylon 6/6 clip is backed with a quality foam adhesive tape.
- The double clip design develops greater shear loads and holding power.
- To install, simply pull the clip off of the liner strip and press into place.
- No holes to drill or screws to turn.
- Nylon press clips provide a low in-place assembly that is quick and permanent.
- Polyethylene foam tape has excellent conformability, high temperature and solvent resistance and high ultimate bond strength.

For quantities greater than listed, call for quote.

WIRE CLIPS-SPRING CLIPS

These clips provide fast, secure assembly and routing of wires, standard round cable, flat cable and tubing. The spring clip can also be used to mount panels, glass, displays, or signs. All contact edges are rounded for product protection.

• Natural Nylon 6/6

For quantities greater than listed, call for quote.

WIRE RETAINING STRAPS

Wire and tube retaining straps are designed to be pushed into a .250 dia. hole, the wire or tube can then be placed on the strap, simply push the pin end into the receiver end and the wire or tube is secured in place. Part is molded in electrically insulating Nylon 6/6

For quantities greater than listed, call for quote.

RIBBON CLIPS

Features:
- One Piece Ribbon Clip and Adhesive Ribbon Cable are molded in tough non-conductive nylon.
- The design allows for quick positive clamping of flat cable up to 50 conductors wide, without the need for securing the clip to a board or chassis. One Piece Ribbon Clips are releasable and reusable. The Adhesive Clips have a peel and stick adhesive backing.
- Natural Nylon 6/6

For quantities greater than listed, call for quote.

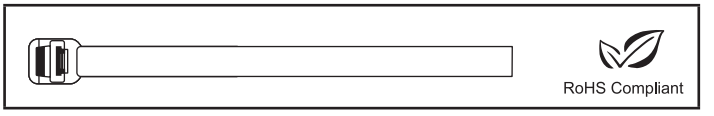
PANDUIT Cable Ties

PANDUIT PAN-TY® NYLON CABLE TIES

General Purpose Locking Cable Ties



Features:

- Engineered with quality features designed to increase productivity & reduce your total installed cost
- Low threading force • No sharp edges • Finger grip tip • Bent tip
- Consistent quality assured by tests conducted by military and independent testing labs
- One-piece constructions - up to 250lbs. minimum loop tensile strength
- Materials and colors to suit the application and environment
- Applicable sizes meet all appropriate Military Specifications and are U.L. Recognized

Nylon 6.6 (Natural)

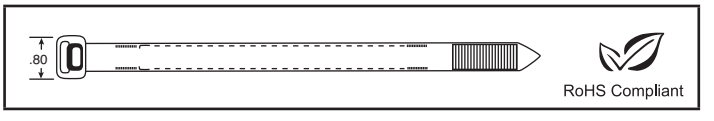
Releaseable Locking Cable Ties

The extended tab end of releasable cable ties permits easy release and reuse even after tie has been pulled up snug by hand. Releasable ties are particularly useful in harnessing where changes are anticipated during development, production or servicing in the field.



Features:

- Tensile Strength: 50lbs. • Curved tip

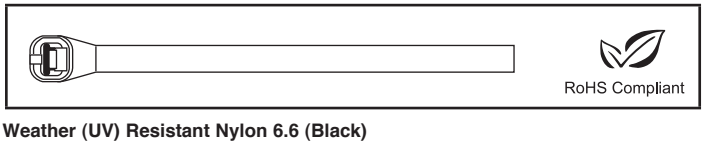
PANDUIT SUPER-GRIP™ CABLE TIES



Features:

- Thin, wide strap body provides flexibility enabling it to conform to bundle while maintaining tensile strength
- High strength allows tie to withstand rough installation practices that occur in MRO and Construction environments
- Resists lateral movement on the bundle - tie is designed to grip the bundle when tightly applied
- Curved tip is easy to pick up from flat surfaces, allows faster initial threading, and speeds installation
- Flared neck and strong locking wedge

NYLON 6.6 CLAMP TIES

Clamps are used to attach a bundle to another surface such as a control panel, wall or ceiling using another fastener. The design allows for bundling before or after screwing clamp in place.

- One piece construction
- Curved tip

Nylon 6.6 (Natural)

For quantities greater than listed, call for quote.

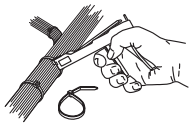
CABLE TIE INSTALLATION TOOLS

- The preferred tool design in the industry
- Lightweight and balanced
- Requires no special maintenance
- Rugged all-steel construction
- Easy to operate

RoHS Compliant

STS2

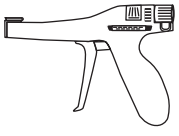
- Installer controlled tension and cut-off
- Perfect size for pocket or tool box
- Especially suited to maintenance and construction applications
- Installs miniature, intermediate and standard ties



644-STS2	32.27

GTS

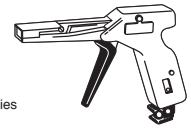
- Installs miniature, intermediate and standard cross section cable ties
- Manual tool/lightweight 8.8oz.
- Meets Mil. std. MS90387-1



644-GTS	187.25

GS2B

- Tool controlled tension and cut-off
- Automatic tension and cut-off by squeezing trigger
- Reduces fatigue and increases productivity
- Especially suited to medium production applications
- Q.P.L. per Mil. Std. MS90387-1
- Installs miniature, intermediate and standard ties



644-GS2B	253.54

PAN-CODE™ WIRE MARKER CARDS

All markers are mounted on a flexible release coated plastic for easy marker removal.

- Marker in a variety of legends allows "kitting" for project builds
- 1-1/2" long for wire O.D. up to 3/8"
- One card for each number
- Vinyl cloth
- Temperature: -50°F to +170°F, indoor
- Color- Black/White

PAN-CODE™ WIRE MARKER BOOKS

- Material: GMMI Vinyl cloth
- 1-3/8" long for wire O.D. up to 3/8"
- Each marker is preformed to form half markers for wire O.D. up to 3/16"
- .22 x .25 long terminal block marker is provided for each full length marker
- 10 pages per book
- Legend: Black
- Background: White

PANTHER™ LS8E HAND-HELD THERMAL TRANSFER PRINTER

- Cut-to-length functionality eliminates label waste and label trimming labor
- Partial cut feature available to provide tear-apart strips of labels
- Label cassette contains integrated memory device for automatic formatting recall of last legend used and number of labels remaining in cassette
- Fast loading label cassette includes both label material and ribbon to make changing labels easy
- Prints self-laminating labels, heat shrink tubing, die-cut component labels and continuous tape
- Large graphic display with backlight for improved visibility
- USB interface for importing data, system upgrades and printing from a wireless laptop or desktop computer

RoHS Compliant

J-PRO CABLE SUPPORT SYSTEM

The J-Pro Cable Support System is designed to provide a competitive alternative to metal J Hooks for routing communication cables. It is suitable for use in air handling space and prevents pinch points that could cause damage to cable. The pre-riveted assemblies allow for attachment to ceilings, beams, threaded rods, drop wires and under floor supports to meet requirements of a variety of applications.

- Max bundle capacity: 2"
- Max static load: 30lbs.
- Material: Nylon 6/6

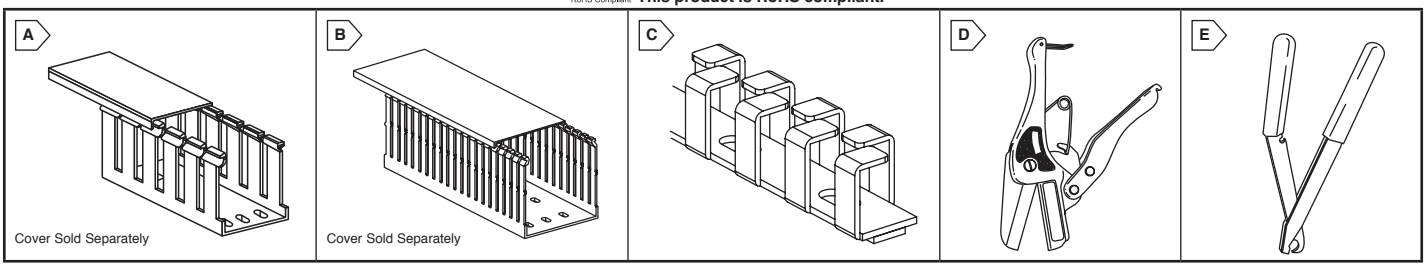
PANDUIT Wiring Duct and Accessories

RoHS Compliant **This product is RoHS compliant.**



PANDUCT® WIRING DUCT

Used for general purpose control panel wiring and to route and protect wiring in communication closets. The nonslip cover conceals all wiring and is easy to install. The duct and cover form a flush sidewall providing increased capacity and improved aesthetics. UL recognized, CSA certified.
Other sizes and colors available. Contact a Mouser Service Representative for assistance.

Specifications:
- Rigid PVC construction
- Lead-free PVC
- Color light gray
- UL flammability rating: 94V-0
- Provided with mounting holes

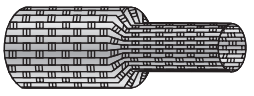
Specifications:
- Operating Temperature: -40°C to +125°C
- Shrink Ratio: Approx. 2:1 at 135°C depending on size
- Color: Black
- Meets MVSS 302 horizontal burn test
- Cuts with scissors



RoHS Compliant

For quantities greater than listed, call for quote.

ZIP-GRP EXPANDABLE POLYESTER WEBBED SLEEVING

With its Velcro-Type enclosure, wires, cable assemblies and wire harnesses are always accessible and can be easily opened for any number of breakouts.

To prevent fraying of ends, ZIP-GRP should be cut/sealed with a hot knife.

RoHS Compliant

Features:
- Unlimited Breakouts
- Abrasion, Cut-Through Resistance
- Oil and Solvent Resistance
- Superb Flexibility and High Tensile Strength

Specifications:
- Operating Temperature: -70°C to 125°C
- Color: Black

GRP-120 EXPANDABLE BRAIDED POLYESTER SLEEVING

RoHS Compliant

GRP-120 should be cut/sealed with a hot knife to prevent fraying of the ends. GRP-120NF cuts with ordinary scissors without fraying. Does not require a hot knife when cutting.

Specifications:
- Operating Temperature: -75°C to +125°C
- GRP-120/GRP 120NF passes UL VW-1 flame test
- Color: Black

Typical application for protection of wire, cable, and hoses. Cable not included.

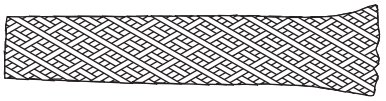
TINNED COPPER FLAT BRAID

Woven Tinned Copper Braid rolled to specific width. Each strand meets requirements of Federal Specifications A-A-59569A type S & ASTM-B-33. Current carrying capacity shown is for bare cable in free air at 30°C & intended as a reference guide only. Actual values will depend on permissible temperature rise, voltage drop, & other conditions of use.

RoHS Compliant

Features:
- High current carrying ability
- High flexibility
- Meets A-A-59569A
- Suitable for bonding and grounding applications



For quantities greater than listed, call for quote.

ALPHA WIRE FIT® Sleeving for Rugged Applications

RoHS Compliant **This product is RoHS compliant.**

ADVANCED CHEMICAL RESISTANCE EXPANDABLE SLEEVING GRP-170

Features:
- -70°C to +200°C temperature range
- 8-mil polyphenylene sulfide (PPS) monofilaments
- Resists acids, bases, solvents, and fuels
- Ultra-lightweight
- High abrasion resistance
- Expandable to 150%
- Flame resistant
- Cuts cleanly with hot knife
- Color: Black

MAXIMUM PERFORMANCE EXPANDABLE SLEEVING GRP-180

Features:
- Superior abrasion resistance
- -60°C to +150°C temperature range
- Easy to install
- Flat 20-mil nylon filaments for superior coverage and abrasion resistance
- Resists fuels, solvents, chemicals, salt water, and UV rays
- Smooth inner wall to prevent internal abrasion damage

ABRASION-RESISTANT NON-EXPANDABLE NYLON SLEEVING XS300

Features:
- -45°C to +120°C temperature range
- 45-mil thick nylon
- Excellent abrasion resistance
- Tightly woven
- Cuts cleanly with scissors
- Deflects high-pressure hose ruptures
- Resists fuels, chemicals, UV rays, rot, and vermin
- ISO 6945 Certified
- Color: Black

FLEXIBLE, SEMIRIGID WRAPPABLE SLEEVING GRP-130 AND GRP-130NF

Features:
- -70°C to +125°C temperature range
- 10-mil PET braid
- GRP-130 is flame resistant GRP-130NF is flame retardant
- Bends tightly without distorting or opening
- 25% edge overlap to accommodate connectors and splices
- Fast, easy wrap-around installation
- More flexible than spiral wrap or split convoluted tubing
- GRP-130T tool for fast, easy installation
- Color: GRP-130: Black or orange GRP-130NF: Black with white tracer

PIF-240 UNCOATED FIBERGLASS SLEEVING

Features:
- Extreme Flexibility
- Extreme Heat Environments
- High Temperature Wire Harnesses
- High Temperature Cable Connections

Specifications:
- Operating Temp: -60°C to 648°C
- Color: Natural

TFT-200 PTFE TUBING

Features:
- Wire Harnesses
- High Temperature Component Covering
- Excellent Heat and Chemical Resistance
- Superior Dielectric Strength

Specifications:
- Operating Temperature: -65°C to 260°C
- Tensile Strength: 2500 psi
- Color: Transparent

ALPHA WIRE Heat Shrinkable Flexible Tubing

AlphaWire Cables you trust. Service you deserve.

FIT® Preferred Heat Shrink Products

RoHS Compliant **This product is RoHS compliant.**

100 FLEXIBLE NON-IRRADIATED PVC SHRINKABLE TUBING

RoHS Compliant

Specifications:
- Operating Temperature: 105°C
- UL VW-1
- 20% Longitudinal Shrinkage
- Shrinkage Temperature: 100°C

Size	Expanded I.D. Min (in.)	Recovered I.D. (in.)	MOUSER STOCK NO.	Spool Length (ft.)	Price Per Spool
1/4	.250	.125	602-100014CL	1000	264.80

105 FLEXIBLE IRRADIATED PVC SHRINKABLE TUBING

RoHS Compliant

Specifications:
- Operating Temperature: -35°C to 105°C
- Shrinkage Ratio: app. 2 to 1 @ 175°C
- Longitudinal Shrinkage: 10%
- Flammability: Self-Extinguishing (UL VW-1)
- Tensile Strength: 2600psi
- Ultimate Elongation: 250%
- Fungus Resistance: No Growth (MIL-1-7444)
- Dielectric Strength: 750V
- MIL-1-23053/2C, class 1
- Color: Black

Features:
- Economy
- Flexibility
- Excellent Flame Retardancy
- Military, UL/CSA requirements
- Extended shelf life

Applications:
- Use w/ Irradiated PVC wire/cable
- Wire harnesses
- Cable/connector protection
- Insulation of terminals
- Wire splices

321 3 TO 1 SHRINK RATIO POLYOLEFIN SHRINKABLE TUBING

Specifications:
- Operating Temperature: -55°C to +125°C
- Shrinkage Ratio: App. 3 to 1 @ 125°C
- Longitudinal Shrinkage: 15%
- Color: Black

Features:
- Adhesive Inner Wall

RoHS Compliant

For quantities greater than listed, call for quote.

ALPHA WIRE Heat Shrinkable Tubing

AlphaWire FIT Preferred Heat Shrink Products

RoHS Compliant **This product is RoHS compliant.**

FIT®-CLEAR, CRYSTAL CLEAR HEAT SHRINKABLE TUBING, HIGHLY FLAME RETARDANT

Features:
- Where visual inspection and identification are required
- Excellent flame retardancy
- Excellent heat resistance
- Excellent chemical resistance
- Operating Temperature: -55°C to 175°C
- Shrinkage ratio: Approximately 2 to 1 @ 150°C
- All standard packages: Clear
- For use with XTRA-Guard® 4 and XTRA-Guard® 5

Specification:
- Passes UL VW-1 Flame Test

RoHS Compliant

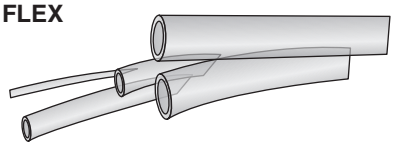
FLEX

Specifications: UL Standard 224



Features:
- Highest flexibility available
- Scrape abrasion resistance
- Flame retardancy
- Flexibility in widest temperature range: -50°C to 200°C
- Pliability when substrate requires "Give"
- Use with XTRA-Guard® Flexible Cables
- Color: Slate

RoHS Compliant

321V LOW SHRINK TEMP, FLAME RETARDANT IRRADIATED POLYOLEFIN

Specifications:
- Operating temperature: -55°C to 135°C
- Shrinkage ratio: App 3 to 1 @ 90°C
- Color: Black
- UL Standard 224
- Fast recovery time
- For use with Series V (VFD Cable)

Applications:
- Delicate and intricate electronics protection
- Industrial applications
- Where substrates are heat sensitive

RoHS Compliant

400 TEMPERATURE/CHEMICAL RESISTANT FEP TEFLON® HEAT SHRINK

Features:
- Excellent chemical resistance
- Thinnest wall thickness available
- Color: Natural
- Extreme temperature: -75°C to 200°C
- Use with XTRA-Guard® 4 and XTRA-Guard® 5

RoHS Compliant

421 OVER EXPANDED, IRRADIATED POLYOLEFIN

Features:
- Large supplied diameter sizes
- Resistance to water, fungus, and UV light

Specifications:
- Tensile strength: 1500psi
- Operating temperature: -55°C to +135°C
- Shrinkage ratio: Approximately 4 to 1 @ 121°C
- Color: Black

Applications:
- D-Sub connector strain relief
- RS-232 25 pin connector to cable coverage
- Covers the most irregular shapes and connectors
- PC board coverage and protection

RoHS Compliant

600 HIGHLY-FLEXIBLE IRRADIATED ELASTOMER

- Improved flexibility over standard XLPO
- More than twice the tensile strength of silicone rubber
- Oil resistance and flame retardancy
- Large tubbing diameters
- Use with XTRA-GUARD® 4
- Color: Black

RoHS Compliant

700 BONDING, MASTIC LINED, IRRADIATED POLYOLEFIN

Features:
- Bonding adhesion to most materials
- Prevents wicking and fills interstices
- Superior strength
- Use with XTRA-GUARD® 3
- Temperature range: -55°C to +110°C
- Environmental and water-tight seal
- High voltage to 1Kv at 90°C
- Tubing sizes match 14AWG-2000MCM sizes
- Color: Black

RoHS Compliant

750 BONDING, ADHESIVE-LINED, IRRADIATED POLYOLEFIN

Features:
- Bonding to substrates
- Total encapsulation
- Permanent water and corrosion protection
- Internal isolation of individual substrates- "pinching"
- Use with XTRA-GUARD® 2
- Similar to FIT®-221 with adhesive liner
- Reduced diameters
- Color: Black
- Temperature range: -55°C to 110°C

RoHS Compliant

QUALTEK Heat Shrink Tubing

Qualtek Electronics Corporation

Q2-F SERIES - HIGH STRENGTH, VW-1, THIN WALL POLYOLEFIN, 2:1 SHRINK RATIO

Designed for use in commercial and military applications that require high strength and durability. Flexible, flame retardant and resistant to common fluids and solvents. Meets SAE-AMS-DTL-23053/5, Class 1 & 3 and meets the Sony SS-00259 standard. Wide range of standard colors available.

- Operating Temp: -55°C to +135°C
- Minimum Shrink Temp: 70°C
- UL File No. E236137
- Color: Black

c UL us — RoHS Compliant

Tubing

Qualtek

Q2-Z SERIES - LOW COST, VW-1, THIN WALL POLYOLEFIN, 2:1 SHRINK RATIO

An environment friendly flame retardant tubing that is widely used for insulation, strain relief, harnessing, and color coding with good flexibility and superior mechanical strength. Wide range of standard colors.

- Operating Temp: -55°C to +135°C
- Minimum Shrink Temp: 70°C
- UL File No. E236137
- Color: Black

c UL us — RoHS Compliant

QUALTEK Heat Shrink Tubing

Qualtek Electronics Corporation

RoHS Compliant This product is RoHS compliant.

Q5-2X & Q5-3X TYPE - DUAL WALL, ADHESIVE LINES, FLEXIBLE POLYOLEFIN 2:1 SHRINK RATIO

Dual wall, adhesive lined tubing manufactured by co-extrusion of polyolefin and hot-melt adhesive. Designed to provide insulation and sealing protection against water and moisture for a wide variety of applications such as automotive harnessing, bundled wires, ship board cables, metal tubes, and many others. Standard color is black but other colors available for special order.

- Operating Temp: -45°C + 125°C
- Min Shrink Temp.: 80°C
- UL File No. E236137
- Color: black

Q2-F3X - HIGHLY FLEXIBLE HEAT SHRINK TUBING FLAME RETARDANT POLYOLEFIN, SHRINK RATIO 3:1

Outstanding physical, chemical and electrical properties make it a good choice for electrical insulation, bundling, and marking. Prevents corrosion plus provides mechanical protection.

- Operating Temp: -55°C + 135°C
- Min Shrink Temp.: 70°C
- Full Recovery: 100°C

TE CONNECTIVITY Heat Shrinkable Tubing

RoHS Compliant This product is RoHS compliant.

TE connectivity Authorized Distributor

RAYCHEM RNF-100

A premium grade flame-retardant polyolefin heat-shrinkable tubing. Outstanding all around performance. Excellent physical and electrical performance. Good chemical and solvent resistant flexibility.

- Shrink Ratio: 2:1
- Operating Temperature Range: -55° to +135°C
- Minimum Shrink Temperature: +95°C
- Minimum Full Recovery Temperature: +121°C
- Color: Black

NOTE: Factory Packaging 4ft. stick (Price Per Ft.)

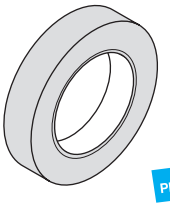
HEAT SHRINK WRAP AROUND MARKER

Features:
- Heat-shrinkable wrap-around
- Color: white
- Hot-melt adhesive for a permanent bond
- Thermal transfer printable
- Post termination / retrofit suitable
- Extremely durable and resistant to harsh environments

Dimensions:
- Width: 48.2 mm (1.9 in)
- Thickness: 0.56 mm (0.022 in) - uninstalled
- Spool length: 100 feet (30.5m)



PRODUCT NEW

DUAL WALL/4 CLASS 2

Adhesive-lined, flexible, polyolefin tubing.

Seals and protects simple in-line splices, bimetallic joints, and components from fluids, moisture, and corrosion. Repairs damaged wire insulation, especially where flexibility is required. Provides one-step electrical insulation and moisture sealing.

Specifications:
- Shrink ratio: 2:1
- Operating temperature range: -55° to +135°C
- Minimum shrink temperature: +95°C
- Minimum full recovery temperature: +121°C
- Color: Black

E85381

RoHS Compliant

MINISEAL CRIMP SPLICES

Features:
- Wire range from 26 AWG to 12 AWG
- Nickel-plated conductors
- Insulation rated for at least 135°C
- SAE-AMS-DTL-23053/13 (applies only to insulation sleeve)
- SAE-AS81824/1 (modified for 200°C applications)
- Under qualification for EN 3373-014

DURASEAL WIRE SPLICES

DuraSeal devices provide a tough, environmentally sealed wire connection. Their crimp barrel or terminal, encased in rugged, heat shrinkable nylon tubing lined with a special hot-melt adhesive, resists damage from abrasions and cuts.

Features:
- Resistance to moisture and abrasion
- Strain relief
- Protection from wire pull-out
- Easy installation

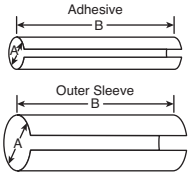
TE CONNECTIVITY Sleeves and Bushings

TE connectivity Authorized Distributor

C-WRAP SIDE ENTRY REPAIR SLEEVES

NEW PRODUCT

C-Wrap Side Entry Repair Sleeves consist of two pieces; the heat shrinkable outer tubing and meltable adhesive inner layer. The wrap around design provides a permanent repair of nicks, chafed, or radial cracks to damaged wire.



Features:
- Used as a side-entry repair kit
- Prevents galvanic corrosion on center conductor
- Color-coded to ensure proper sizing for each application
- Temperature range: -65 deg C to 150 deg C
- Immersion resistant
- Cut Length (B): Adhesive - 21.59
  Sleeve - 19.05

For quantities greater than listed, call for quote.

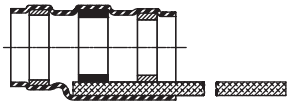
CWT SOLDER SLEEVE SHEILD TERMINATORS

Specifications:
- Transparent insulation sleeve provides encapsulation, inspectability, strain relief and insulation
- Prefluxed solder preform provides a controlled soldering process
- One-piece design offers easy installation and lower installed cost
- Optional preinstalled ground leads provide convenience and ease of installation



For quantities greater than listed, call for quote.

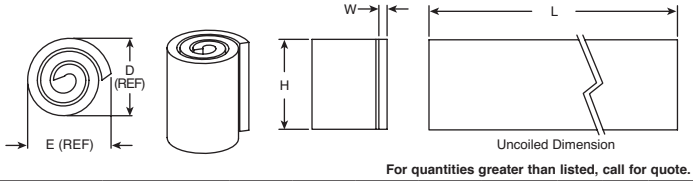
SIDE ENTRY BUSHINGS

Features:
- Fewer wraps needed than conventional silicone tapes
- High temperature resistant silicone material rated to 180°C
- Trim to fit capabilities. Fit any size saddle clamp/wire bundle combination
- Thermally formed so it naturally conforms to circular wire bundles
- No adhesive layer for easy removal
- Re-usable



For quantities greater than listed, call for quote.

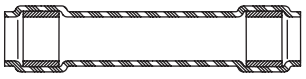
HIGH TEMPERATURE SEALING SLEEVES

High temperature fluoropolymer sealing sleeve provides a robust, lightweight cover which shrinks to environmentally seal in-line compression joints and terminal lugs.

Features:
- No oven curing equipment needed
- Labor saving preinstall sealing sleeves
- Meets FAR Part 25 appendix F of the FAA standards
- Sealing material is pre-installed



For quantities greater than listed, call for quote.

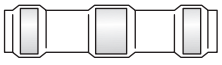
SOLDER SLEEVES

TE Connectivity's SolderSleeve heat-shrinkable wire and cable interconnection devices are a labor-saving alternative to conventional wire and cable termination methods such as craft-sensitive, time-consuming hand soldering or crimping.

Features:
- Controlled soldering with high level of sealing
- Strain relief
- Insulation
- Easy one step installation
- Application from 125°C to 260°C
- NAS, MIL-SPEC, and UL approvals



150C Mil-Spec 83519 Qualified

For quantities greater than listed, call for quote.

3M™ Heat Shrinkable Tubing

RoHS Compliant **This page of product is compliant.**

FP-301 FLEXIBLE POLYOLEFIN SHRINKABLE TUBING

- Shrink ratio: 2:1
- Shrink temperature: 100°C min.
- Temperature range: -55°C to +135°C
- Meets MIL-DTL-23053/5 Class 1&2
- Longitudinal shrinkage: <5%
- High resistance to solvents, acids, and alkalis
- Cross-linked polyolefin
- 600V @ 125°C

Small Reel: Replace blank with **5** for **Black**, **6** for **Clear**
Large Reel: Black is available from stock.
Replace blank with: **BK** for **Black**, **R** for **Red**, **Y** for **Yellow**, **W** for **White**, **BU** for **Blue**, **C** for **Clear**

RoHS Compliant

Replace the blank in the Mouser Stock No. with:
1 for **Black**, **2** for **Blue**, **3** for **Clear**, **4** for **Red**, **5** for **White**, **6** for **Yellow, 7** for **Green**

✻Available from stock in black only

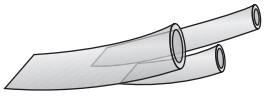
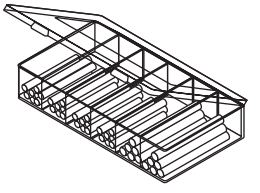
EPS-300 ADHESIVE LINED POLYOLEFLIN HEAT-SHRINK

Flexible bond with a wide variety of rubbers, plastics and metals. EPS-300 offers superb environmental protection for electronic components, wire splices, wire bundles, and harness breakouts. The tubing is made from flame-retardant, flexible polyolefin with an internal layer of special thermoplastic adhesive.

- Shrink ratio: 3:1
- Shrink temperature: 121°C min.
- Temperature range: -55°C to +110°C
- Superior moisture sealing
- Environmental protection
- Longitudinal shrinkage: <15%
- Tensile strength: 2100 PSI
- Dielectric strength: 700V/mil





RoHS Compliant

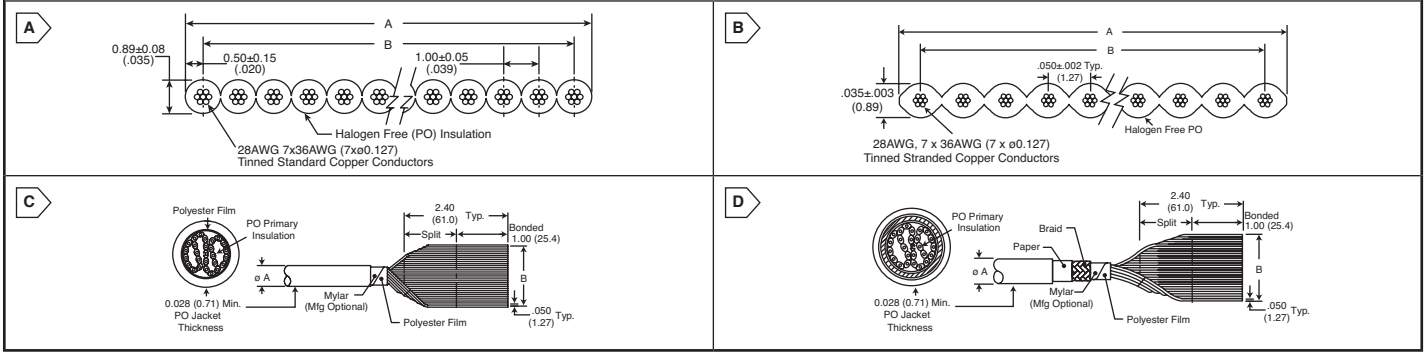
3M™ Halogen Free Cable

RoHS Compliant **This page of product is compliant.**

DIMENSIONS: in. (mm)



Features:

- Low Smoke Zero Halogen (LSZH) Insulation. Advantages of LSZH insulation are the low smoke (IEC 61034-2:2005), and low toxicity of combustion gases (NF X 70-100-2:2006), reducing the risk to firefighters, and reducing the soot and corrosion damage to nearby equipment.
- Broad operating temperature range from -40°C to 105°C
- 28 AWG wire on .050 inch centers permits mass termination to broad line of IDC connectors
- Zippable for branching or discrete terminations
- See the Regulatory Information Appendix (RIA) in the "RoHS compliance" section of www.3Mconnector.com for compliance information (RIA E1 & C1 apply)

HF625 SERIES ROUND CONDUCTOR FLAT CABLE

ROUND, SHIELDED/JACKETED FLAT CABLE - 3659 SERIES .050"

For EMI/ESD Protection

Specifications:

- 28 AWG stranded
- Splice free
- Mass termination
- Jacket material: Black Polyvinyl Chloride (PVC)
- Primary material: Gray Polyvinyl Chloride (PVC)
- Conductors: tinned stranded copper
- Voltage rating: 300V
- Temperature rating: -20°C to +80°C
- Flammability rating: USA: N.E.C. 725, CL2
- RoHS Compliant per 3M documentation

HIGH FLEX LIFE CABLE - 3319 SERIES .050"

Specifications:

- Flex life of 100 million cycles at 1 3/4 in. dia.
- Insulation color: black
- Conductors: Silver plated stranded copper alloy
- RoHS Compliant per 3M documentation
- Voltage rating: 300V
- Temperature rating: -20°C to +105°C
- Flammability rating: USA: VW-1
- Color: black

For quantities greater than listed, call for quote.

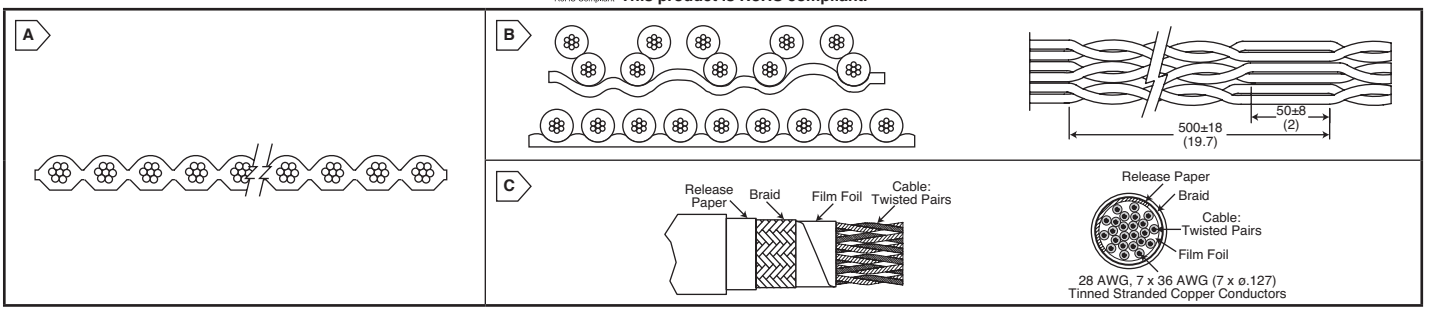
Flat Cable, Discrete Wire and Data Cable

RoHS Compliant **This product is RoHS compliant.**



3M TWIN AXIAL CABLE

Features:

- 100Ohm differential pairs
- Four pairs with and without sidebands
- Solid polyolefin insulation
- .88 mm thick
- The cable is UL AWM 21008 (150V, 80C); file number E42769
- Halogen free

NEW! TECHNOLOGY

With Sideband:

Without Sideband:

KOBICONN FLAT MODULAR TELEPHONE AND DATA CABLE

This modular telephone cable is available in 4, 6, and 8 conductor in three colors: silver satin, black and white. It is sold in 1000' spools.

Features:

- Available in black, white, or silver satin
- Tinned copper conductors prevent corrosion
- Compatible with all USOC modular plugs
- RoHS Compliant per Kobiconn documentation

Specifications:

- 26AWG, 7 x 34 stranding
- Conductors are USOC color coded
- PVC jacket

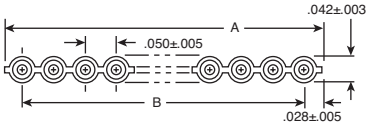
3C COLOR CODED .050" CENTERS FLAT CABLE



- 28AWG, 7/36 strand tinned copper
- Temperature rating: 221°F (105°C)
- Terminates to standard IDC connector
- Current Rating: 1A
- Voltage rating: 300V
- Precise spacing for controlled electrical current

For quantities greater than listed, call for quote.

ALPHA WIRE IDC Flat Cable, Wire and Cable

RoHS Compliant **This product is RoHS compliant.**

AlphaWire
Cables you trust. Service you deserve.

AlphaWire .050" SLATE FLAT CABLE

Specifications:
- Voltage Rating: 300V
- Temperature Rating: -20°C to 105°C
- Conductors: Stranded Tinned 28AWG
- Insulation: PVC

Cables you trust. Service you deserve.

A

- Stranded tinned copper
- Jacket Color: Slate

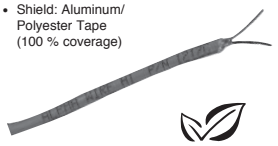
RoHS Compliant

AlphaWire Recommend Heat Shrink FIT221

AlphaWire Recommend Heat Shrink FIT321

B

- Stranded tinned copper
- Jacket Color: Slate PVC
- Shield: Aluminum/ Polyester Tape (100 % coverage)



RoHS Compliant

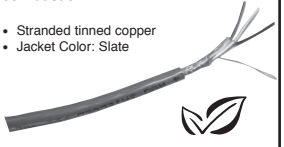
AlphaWire Recommend Heat Shrink FIT221

AlphaWire Recommend Heat Shrink FIT321

C

The Low-Smoke and Zero-Halogen Cables, minimizes smoke and harmful, corrosive gases under combustion.

- Stranded tinned copper
- Jacket Color: Slate



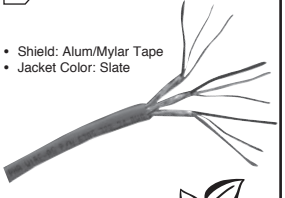
RoHS Compliant

AlphaWire Recommend Heat Shrink FIT221

AlphaWire Recommend Heat Shrink FIT321

D

- Shield: Alum/Mylar Tape
- Jacket Color: Slate



RoHS Compliant

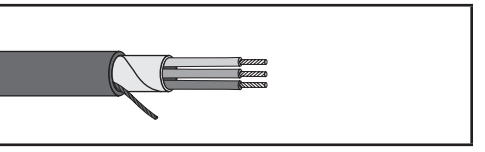
RoHS Compliant This product is RoHS compliant.

ALPHA WIRE MULTICONDUCTOR, FOIL SHIELD

UL Type CM, UL AWM 2464,
CSA CMG FT4 300V



Description:
- Stranded Tinned Copper conductors
- Aluminum/Polyester Foil shield.
- Drain wire is Stranded Tinned Copper
- Operating Temperature: -20°C to 80°C
- Insulation: Color-Coded SR-PVC
- Jacket: Slate PVC

RoHS Compliant

ALPHA WIRE Communication and Control Cable

RoHS Compliant This product is RoHS compliant.

PLENUM RATED, FOIL SHIELD: TYPE CL2P, CSA CMP FT6, NEC ARTICLE 725, 300/150V UL CMP

Specifications:
- Jacket: Slate, Plenum-rated PVC
- Shield: Aluminum/Polyester
- Insulation: Color-Coded Plenum rated PVC
- Conductor: Stranded Bare Copper

Applications:
- Remote control
- Intercom systems
- Burglar alarm systems
- Signaling and power-limited circuits
- Cash registers
- CRT-to-control interface
- Other low voltage systems

RoHS Compliant

XTRA-GUARD® 1 Multiconductor and Multi-Pair Cable

AlphaWire
Cables you trust. Service you deserve.

RoHS Compliant **This product is RoHS compliant.**

Characteristics:
- Operating Temperature: -30°C to 105°C - AWM
- Voltage Rating: 300V
- Conductor: Stranded Tinned Copper
- Insulation: Color-Coded Premium PVC
- Nylon rip cord for ease of jacket stripping
- Jacket: Premium PVC for extended cable life
- Jacket Color: Slate

Applications:
- High technology applications in controlled environments
- Medical electronics
- Point-of-sale equipment
- Industrial process controls
- EIA RS232C interface

Specifications:
- UL Type CM, AWM style 2464
- CSA PCC FT4
- Passes UL VW-1 flame test
- Passes CSA FT4 flame test

Features:
- Unsurpassed flame and moisture resistance
- Fast, easy stripping of insulation and jacket
- Flexible cable routing requirements

RoHS Compliant

MULTICONDUCTOR, UNSHIELDED

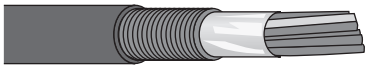
ALPHA WIRE XTRA-GUARD® Flexible Data Cables

RoHS Compliant **This product is RoHS compliant.**

XTRA-GUARD® FLEXIBLE CABLE

Multiconductor Shielded



Specifications:
- Operating Temperature: 5°C to 105°C
- Voltage Rating: 300V
- Jacket: Slate Oil Resistant PVC
- Insulation Thickness: .010"
- Extreme flexibility in small spaces
- Continual flexing in cable tracks
- 6 million flex life cycles

Applications:
- Industrial Electronic Processing Equipment
- DataComm Connections
- Connecting Sensors and Actuators to Controllers
- Sensor and I/O Interconnects

RoHS Compliant

XTRA-GUARD® 2 MULTICONDUCTOR, SHIELDED

Specifications:
- Operating Temperature: -20°C to +90°C
- Voltage Rating: 300V
- Jacket: Specially formulated Polyurethane
- Insulation Thickness: .017"
- Unmatched resistance to Oils, Fuels, Solvents, and Water
- Twice the tensile strength of PVC
- Three times the tear and abrasion resistance of PVC
- Extraordinary fungus resistance
- Stranded Tinned Copper

Applications:
- Automotive Assembly Plant Operations
- CNC Machine Centers
- Military Ground Support Systems
- Packing Machinery
- Petrochemical Plant Operations
- Geophysical Exploration Equipment

RoHS Compliant

XTRA-GUARD® 2 MULTICONDUCTOR, SUPRASHIELD®

Specifications:
- Operating Temperature: -30°C to 90°C
- Voltage Rating: 300V
- Jacket: Specially formulated Polyurethane
- Unmatched resistance to Oils, Fuels, Solvents, and Water
- Twice the tensile strength of PVC
- Three times the tear and abrasion resistance of PVC
- Stranded Tinned Copper
- SUPRASHIELD® - Twice as effective as Foil Shielding

Applications:
- Automotive Assembly Plant Operations
- CNC Machine Centers
- Packing Machinery
- Petrochemical Plant Operations
- Geophysical Exploration Equipment

RoHS Compliant

Recommend Heat Shrink FIT 750

XTRA-GUARD® 2 MULTICONDUCTOR, FOIL SHIELDED

Specifications:
- Operating Temperature: -30°C to 90°C
- Voltage Rating: 300V
- Jacket: Specially formulated Polyurethane
- Unmatched resistance to Oils, Fuels, Solvents, and Water
- Twice the tensile strength of PVC
- Three times the tear and abrasion resistance of PVC
- Extraordinary fungus resistance
- Stranded Tinned Copper

Applications:
- Automotive Assembly Plant Operations
- CNC Machine Centers
- Military Ground Support Systems
- Packing Machinery
- Petrochemical Plant Operations
- Geophysical Exploration Equipment

RoHS Compliant

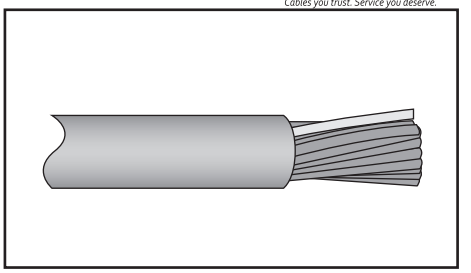
ALPHA WIRE XTRA-GUARD® Flexible Control Cable

AlphaWire
Cables you trust. Service you deserve.

RoHS Compliant **This product is RoHS compliant.**

MULTICONDUCTOR, UNSHIELDED STANDARD-FLEX CONTROL CABLE



Characteristics:
- Operating Temperature: -5°C to 90°C
- Voltage Ratings: 600V
- Conductor: Finely Stranded Bare Copper
- Insulation: Lubricated PVC
- Jacket: Oil Resistant PVC

Specifications:
- UL AWM Style 2587, UL CSA AWM I/II A/B FT1 and CE
- Jacket Meets VDE 0472, Section 803 Oil Test
- Bend Radius: 5X Cable Diameter

Features:
- Outstanding Oil and Chemical Resistance
- Ease of Installation
- Not for use in High-Flex Applications

Applications:
- Increased Flexibility
- Machine Tools
- CNC Machine Centers
- Data Processing Equipment
- Automation Equipment
- Material Handling Equipment

RoHS Compliant

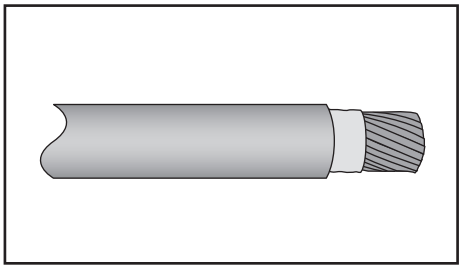
MULTICONDUCTOR, UNSHIELDED HIGH-FLEX CONTROL CABLE



Characteristics:
- Operating Temperature: -5°C to 90°C
- Voltage Ratings: 600V
- Conductor: Super Finely Stranded Bare Copper
- Insulation: Lubricated PVC
- Jacket: Oil Resistant PVC

Specifications:
- UL AWM Style 2587, Rated CSA AWM I/II A/B FT1 and CE
- Jacket Meets VDE 0472, Section 803 Oil Test
- Passes MIL-C 13777G Flexlife Test
- Bend Radius: 8X Cable Diameter

Features:
- Outstanding Oil and Chemical Resistance
- Extra Flexibility and Durability for Continuous Motion
- Extended Flex Life up to 14 million flex life cycles

Applications:
- Robotics
- Assembly
- Installation in Cable Track
- Data Processing Equipment
- Automation Equipment
- Material Handling Equipment

RoHS Compliant

ALPHA WIRE Hook-up and Bus Bar Wire

RoHS Compliant **This product is RoHS compliant.**

AlphaWire
Cables you trust. Service you deserve.

AlphaWire ECOWIRE™

The EcoWire hook-up wires use Flexible Noryl insulation to provide an environmentally friendly alternative to PVC. Noryl is a modified polyphenylene ether (mPPE) thermoplastic that is inherently lighter, tougher, and more flame resistant then PVC. Noryl® insulation contains no halogens and can be fully recycled.

• Temperature Range: -40°C to +105°C • Voltage Rating: 600V

PVDF Insulation for Wire Wrap (UL 1422, UL1423)

Wire wrapping is an automatic or semi-automatic termination method generally used in large scale wiring of computer backpanels. It involves the helical wrapping of a solid conductor around a rectangular post under controlled tension. Alpha PVDF wire wrap is manufactured with Silver-Plated OFHC (Oxygen-Free High Conductivity) conductor.

AlphaWire HOOK-UP WIRE KITS

Hook-Up Wire Kits contain an assortment of 100' spools suitable for military or UL/CSA applications. Each kit contains five spools of stranded hook-up wire in a unique, rack-mounted, transparent dispensing tube. The tube and rack system keeps hook-up wire neat, clean, and conveniently at hand.

Features:

• Operating Temp.: -40°C to 105°C • Includes cut and strip tool
• Voltage Rating: 300V • Five assorted hook-up wire colors: White, Black, Red, Green, and Blue

3M™ SFP+, Camera Link™ and MDR Cable Assemblies

RoHS Compliant **This product is RoHS compliant.**

SFP+ TWINAX CABLE ASSEMBLIES

Features:
- Meets the following industry standard protocols: SFF-8431 Up to 10 Gigabit Ethernet (10 GBASE-CU / IEEE 802.3ae)
- Foldable, bendable, routable high performance
- Compatible with standard SFP/SFP+ interface
- Excellent crosstalk and insertion loss performance
- PVC / halogen-free jackets
- Made with highly-flexible, high-performance 3M Twin Axial Cable technology

CAMERA LINK™ STANDARD INTERFACE CABLE ASSEMBLIES

.050" High Speed Digital Transmission System, 26 position

CameraLink™ is a trademark of the Automated Imaging Association.

- Connector Contact Plating: 30µ" gold
- 26 position connector
- Positive retention overmold thumbscrew shell
- Supports new industrial CameraLink™ Standard for camera to frame grabber communications
- Eleven shielded pairs and four drain wires
- Rugged MDR ribbon type contact
- RoHS Compliance per 3M™ documentation

For quantities greater than listed, call for quote.

MINI CAMERA LINK™ INTERFACE (SDR) CABLE ASSEMBLIES

Power over Camera Link (PoCL)

Features:
- Supports new AIA Industrial Camera Link® Standard for new Mini C/L camera to new frame grabber applications
- 11 shielded, twisted twinax pairs with four drain wires
- Double overall shield with inner foil and outer braid
- Rugged ribbon contact type
- 26 position

Specifications:
- Material: Polyvinyl Chloride (PVC)
- Flammability: AWM VW-1
- Connector Contact Plating: 30µ" min. gold
- Voltage Rating: 30V
- Current Rating: 0.5A
- Temperature Rating: 0°C to +70°C
- 28AWG Stranded

For quantities greater than listed, call for quote.

MINI D RIBBON (MDR) CABLE ASSEMBLIES

.050" High Speed Digital Transmission System

- Supports LVDS Channel Link™ Signaling
- Connector Contact Plating: 30µ" min. gold
- Flammability: AWM VW-1
- RoHS compliant per 3M™ documentation
- Voltage Rating: 30V
- Current Rating: 1Amp
- Withstanding Voltage: 350Vrms for 1 minute
- Temperature Rating: -20°C to +75°C

For quantities greater than listed, call for quote.

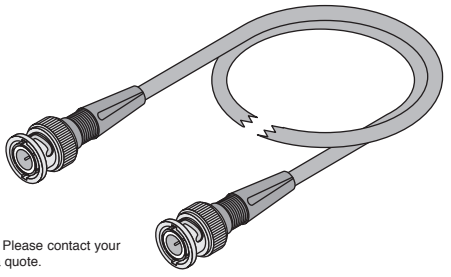
AIM-CAMBRIDGE BNC & Network Cable Assemblies

EMERSON Network Power
Connectivity Solutions

RoHS Compliant This product is RoHS compliant.

BNC THIN ETHERNET COAXIAL CABLES

Features:
- Body Plating: Nickel
- Center Contact Plating: Gold
- Impedance: 50ohm
- Cable Color: Black PVC
- AWG: 20 stranded



Custom assemblies are available. Please contact your Mouser Sales Representative for a quote.

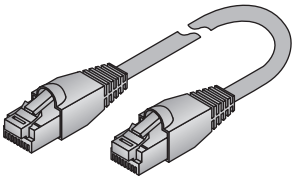
MOLDED AND BOOTED LAN PATCH CABLES - CAT 5E AND CAT 6

Features:
- 24AWG Round UTP stranded
- Unshielded twisted pair cable
- Cat 5E-350MHz; Cat6-500MHz
- Tested to meet and exceed ANSI/TIA-568-B.2-1
- Cat 6 industry standards
- Flexible low-profile snagless strain relief



Custom assemblies are available. Please contact your Mouser Sales Representative for a quote.

Semflex Connectivity Solutions — SEMFLEX RF CABLE ASSEMBLIES

NEW SUPPLIER

Features:

- Precision stainless steel connectors
- FEP outer jacket; optional stainless steel armored jacketing available
- Triple shielded for >-90 dB leakage at 18 GHz
- Low loss PTFE tape dielectric
- Molded strain relief boots

For quantities greater than listed, call for quote.

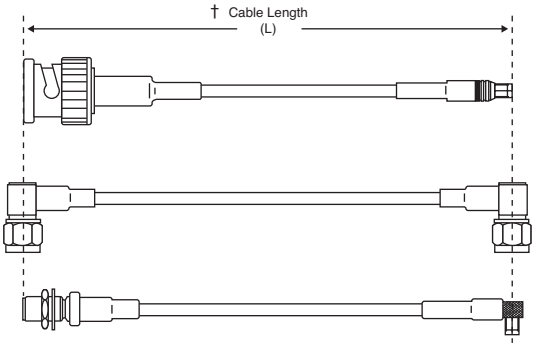
Johnson Connectivity Solutions — FIXED LENGTH FLEXIBLE RF CABLE ASSEMBLIES

Connector Materials:

- SMA, SMB, MCX: Brass Body with Gold Plating, Captivated Contacts, PTFE Insulators
- Type N: Brass Body with Nickel plating, Teflon Insulators
- Electrical ratings of a cable assembly are determined by the limiting connector type and cable size
- Custom assembles available. Contact your Mouser sales representative

† Cable length applies to the end of straight connectors. The length is applied to the vertical centroid of right angle connectors.



For quantities greater than listed, call for quote.

KOBICONN Cable Assemblies and Auto Power Connectors

KOBICONN

50Ω SHIELDED BNC/RCA TYPE RF CABLE ASSEMBLIES

All cable assemblies feature a molded strain relief that combines the cable and the nickel plated brass connectors into a single unified assembly minimizing failure due to bending and flexing.

Features:

- Low noise interference
- Weather resistant
- Excellent impedance characteristics
- Flexible
- Molded strain relief

Specifications:

- Cable type: RG 58C/U
- Impedance: 50Ω
- Insulation: polyethylene
- Shielding: tinned copper, 96% coverage

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Length (m)	Color	Description	Price Each 1	10	100

75Ω SHIELDED BNC/RCA TYPE RF CABLE ASSEMBLIES

These coaxial cables offer low noise connections due to their shielded construction. Cables are securely attached to plugs and most are supplied with strain reliefs.

- Impedance: 75Ω
- Tinned copper braid shield

For quantities greater than listed, call for quote.

QUALTEK Cable Assemblies

Qualtek Electronics Corporation

RoHS Compliant **This product is RoHS compliant.**

302 SERIES: USB 3.0 CABLES

Features:
- Color: Black
- Conn. Plating: Nickel
- Nickel plated ground indents for superior connectivity with low cost
- Gold plated contacts for industry leading connectivity
- Aluminum-Foil/Mylar shield reduces cross-talk and interference
- Molded strain reliefs bend easily without sacrificing durability
- Devices utilizing increased speeds of USB 3.0 include external Blu-Ray players, externa high capacity HDD drives, high mega pixel cameras, high definition video capture devices, multi-channel audio interfaces, high capacity jump drives

RoHS Compliant

For quantities greater than listed, call for quote.

USB CABLE ASSEMBLIES

Universal Serial Bus

Features:
- Transfer rates up to 480Mbps depending on USB version
- Connect an USB peripheral to an USB Hub or USB port on PC/MAC
- Compatible with USB specifications 1.0, 1.1, and 2.0
- Make plug and play connections for such devices as keyboards, mice, modems, printers, and other USB peripherals.
- Black

RoHS Compliant

For quantities greater than listed, call for quote.

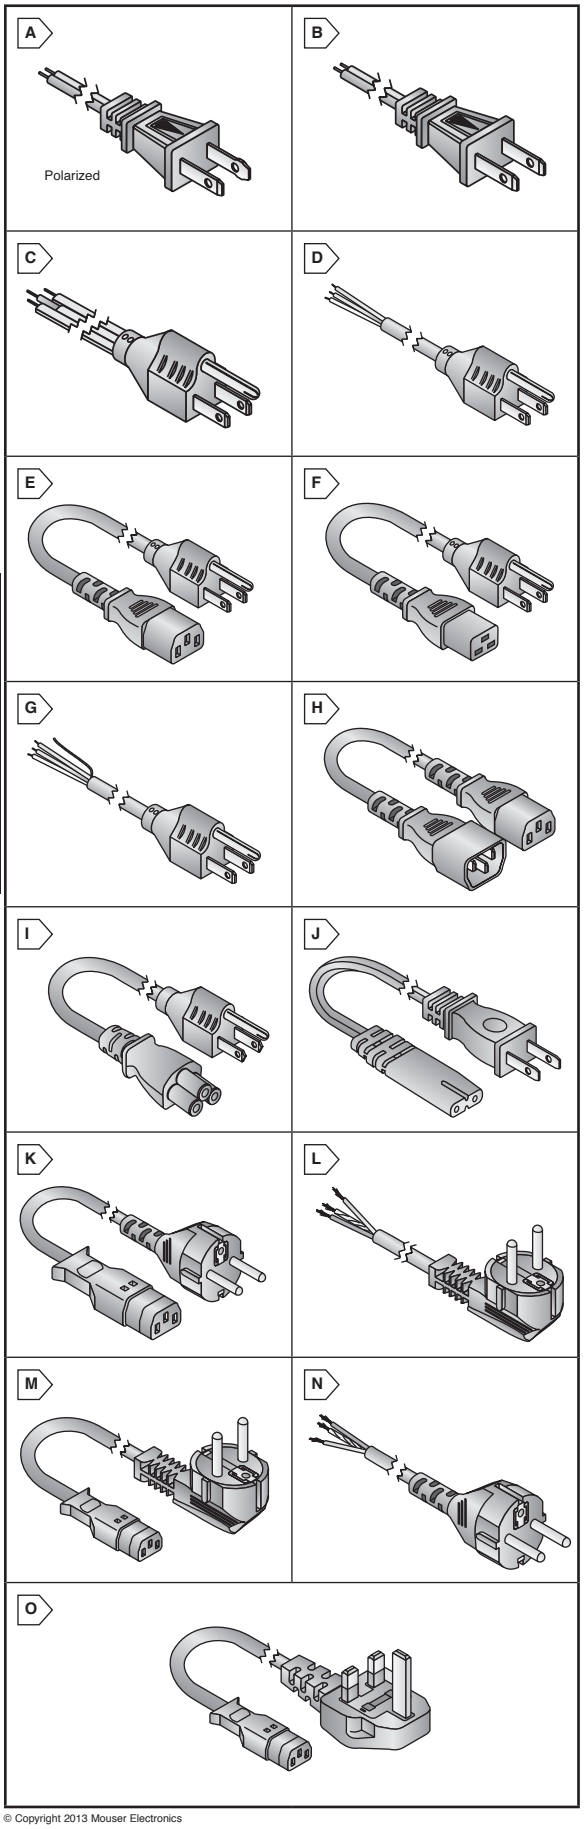
KOBICONN AC Power Cords



POWER SUPPLY CORDS

Both two and three conductors types are offered in 6', 7 1/2', 8', and 10' lengths with molded, low profile, crush resistant, NEMA 1-15P or 5-15P plugs. 18AWG types are rated 125V, 1250 watts. 16AWG type is rated 125V, 1625 watts. 14AWG type is rated 125V, 1875 watts.

Specifications:

- Temperature: 60°C
- Rated:

AWG	18	16	14	
Watts	1250	1625	1875	

Features:

- Economical and efficient
- Mechanical performance meets OEM requirements and blade wear requirements
- Excellent resistance to abrasion

RoHS Compliant

SHIELDED, THREE CONDUCTOR POWER CORDS

Control the error-generating effects of ambient electrical interference.

- Low profile molded plug
- Color: black
- NEMA 5-15P Plug
- Drain wire terminated to ground pin of plug
- High stranding for extended flexibility
- 100% foil shield

RoHS Compliant

† Designed for use with Cincon and other table top power supplies.

For quantities greater than listed, call for quote.

AC POWER PLUG ASSEMBLIES

Male and female rewireable plug connectors with straight and 90° angle cable entry.
Easily converts a power cord into a detachable power cordset.

• Max. Rating: UL, CSA, VDE 10A/250VAC

RoHS Compliant

For quantities greater than listed, call for quote.

MULTI-FUNCTION MODULES IEC 320 - C14

Both snap-in and screw mount incorporates an IEC male power inlet, fuseholder and optional voltage selector and power switch.

• Max. Rating: UL & CSA 6A/250VAC; VDE 10A/250VAC

✻ Panel Thickness: 1.0-1.8mm
✻✻ Fuseholder for 5 x 20 (EURO) or 6.3 x 32mm (North American Type)

RoHS Compliant

For quantities greater than listed, call for quote.

P SERIES ADAPTABLE POWER ENTRY MODULES

NEW PRODUCT

- IEC power line connector
- Both North American and European fusing capabilities
- Optional DPST on/off switch
- Snap in mounting ears, horizontal or vertical
- 5 x 20mm fuse not included

For quantities greater than listed, call for quote.

CU SERIES

Specifications:

- Filling the need for smaller versions of Corcom's Switched inlet filters.
- Compact 1U height (1 3/4")
- Provides complete shielding, shrouded quick connect terminals and basic filtering for 1A-15A applications

GENERAL PURPOSE POWER ENTRY MODULES WITH FUSES

EN 133200
IEC60939

Specifications:
- Up to 6A current ratings
- IEC 950-compliant
- One or two fuses (5 x 20mm)
- Lightweight construction
- General-purpose application
- Optional medical version (B type)
- Fuse sold separately

For quantities greater than listed, call for quote.

FUSED INLETS

EN 133200
IEC60939

Specifications:
- Up to 6A current ratings
- IEC 950-compliant (twin fuse configurations only)
- One or two fuses (5 x 20 or 6.3 x 32mm)
- Easy-access fuse compartment
- Voltage selector
- Snap-in or flange-mount versions
- General-purpose application
- Fuse sold separately

For quantities greater than listed, call for quote.

GENERAL PERFORMANCE IEC INLET FILTERS

(10A max. for VDE and Semko)

EN 133200
IEC60939

Specifications:
- Up to 20A current ratings
- Standard housing with mounting flanges
- IEC 950-Compliant
- Bleed resistor

For quantities greater than listed, call for quote.

IL 13 IEC INLET LOCKING SYSTEM POWER CORD

Specifications:
- Rated current up to 10A (C13 plug) 250VAC
- Fits any SCHAFFNER IEC C14 inlet filter
- Retrofit for any IEC C14 Inlet filter
- Various plugs for international useage
- Protection class I
- No accidental disconnection

For quantities greater than listed, call for quote.

SCHURTER GSP1 / GSP2 SERIES: IEC320 AC INLETS FOR PCB MOUNTING

- For "cold" connections 70°C.
- Class I level of protection (with ground terminal); IEC320/C14
- Ground terminal is solder/quick connect .187", 90° to connector axis
- Housing material: Black thermoplastic UL 94V-0
- Rating: UL/CSA - 15A/250V; VDE 10A/250V
- 2 screws included with GSP2. Screws for GSP1 not included.

For quantities greater than listed, call for quote.

SCHURTER 6100 SERIES: PANEL MOUNT IEC320 AC INLETS

- For "cold" connections 70°C.
- Class I level of protection (with ground terminal); IEC320/C14
- Rating: UL/CSA - 15A/250V; VDE 10A/250V
- 6100 housing material: Black thermoplastic, PA 6.6

RoHS Compliant

For quantities greater than listed, call for quote.

SCHURTER 6600/4721 SERIES: AC OUTLETS FOR PANEL MOUNTING

Shuttered outlets have mechanical covers over the L and N contacts which slide aside like a camera shutter when a plug is inserted and then spring back when the plug is removed. This offers protections against ingress of dust and against electrical shock.

- Class I level of protection (with ground terminal); IEC320/F
- Ratings: 6600 - UL/CSA 15A/250V, VDE 10A/250V
  4721 - UL/CSA/VDE 10A/250V
- For "cold" connections 70°C.
- Housing materials: 6600 - Thermoplastic, Polyamid 6.6
  4721 - Modified PPO UL94V-0

For quantities greater than listed, call for quote.

SCHURTER 4300 SERIES: NEMA 5-15R OUTLETS

Specifications:

- 4300.0701, 0702, 0703 have Class I level of protection (with ground terminal).
- 4300.0705 has Class II level of protection (without ground terminal).
- Ratings: UL/CSA 15A/125V
- Housing material: Black thermoplastic, Nylon 66
- Snap-in panel mount from front

For quantities greater than listed, call for quote.

✻ Use terminals 534-1213 or 534-1286

SCHURTER HIGH CURRENT CORD CONNECTORS

These new power cord connectors are rated for use with cordage up to 16/21A. Two types, 4789 and 4790 (plug or connector), are angled for closer placement of the equipment to the wall, consuming less space and minimizing the potential for tangling or tripping.

Specifications:

- Ratings IEC: 16A / 250VAC; 50Hz
- Ratings UL/CSA: 21A / 250VAC; 60Hz
- Dielectric Strength: 2kVAC between L-N and L/N-PE
- Operation Temp: -25°C to 70°C

Features:

- Screw Terminals
- Rewireable plug/connector
- Housing material: Thermoplastic, Black UL 94V-0

RoHS Compliant

For quantities greater than listed, call for quote.

SCHURTER ELECTRONIC COMPONENTS

SCHURTER 4797 SERIES: HIGH CURRENT APPLIANCE OUTLETS

Specifications:
- Designed to IEC 60320 type "C20"
- Rated 16A VDE, 20A UL, 250 VAC
- Protection Class I (with ground). For pin temperatures to 70°C
- Screw-On or Snap-In mounting types; either quick connect or solder terminals
- Snap-In versions for other panel thickness available

RoHS Compliant

For quantities greater than listed, call for quote.

SCHURTER 5110 SERIES: AC INLETS WITH STANDARD RFI LINE FILTER

Specifications:
- For "cold" connections 70°C.
- Class I level of protection (with ground terminal); IEC320/C14
- Terminals: .250" quick connect
- Designed to replace discrete filters that require wiring between the filter and panel inlet
- Medical units qualify for use in equipment with safety requirements according to IEC 601-1
- Ratings: c-UL-us - 1A-15A/250V; VDE - 1A-10A/250V
- Max. leakage current: Standard - <0.5mA; Medical - <5µA

For quantities greater than listed, call for quote.

SCHURTER 5150 SERIES: HIGH FREQUENCY AC FILTERED INLETS

Specifications:
- Panel Mount:
  Screw-on version from front or rear side
- 2 Functions:
  Inlet, High frequency line filter as standard, industrial and medical version, Protection class I
- Quick connect terminals 6.3 x 0.8mm
- Very compact filter for frequencies up to 1GHz
- Patented X2Y Technologie for broadband high frequency filtering
- One single filter design for the given current range
- Suitable for assembly in metal plated plastic housings
- For use in equipment acc. IEC 60950/60601

RoHS Compliant

For quantities greater than listed, call for quote.

SCHURTER DF11 SERIES POWER ENTRY MODULES

Specifications:

- Two functions: Inlet protection Class I, fuseholder circuit breaker type TA45 2-pole
- Qualified for use in equipment according IEC/EN 60950
- Rating: IEC 10A @ 250VAC, 60Hz; UL/CSA 1-15A @ 250VAC, 60Hz
- Housing material: Thermoplastic, black, UL 94V-0
- Panel mount
- Quick connect terminals 6.3 x 0.8mm
- Thermal overload protection

RoHS Compliant

✻Embossed Legend

SCHURTER KE/KG SERIES: AC INLETS WITH VOLTAGE SELECTOR AND INTERCHANGEABLE FUSEDRAWER

Features:
- For "cold" connections 65°C
- Terminals: .187" quick connect
- 2-pole fusing type
- IP40 protection (front side)
- Class I level of protection (with ground terminal); IEC320/C14
- Voltage selector with series parallel connections and 4, 3, or 2 switch positions
- Rating: UL - 15A/250V, CSA/VDE - 10A/250V
- Medical fusedrawers meet requirements of tool only accessibility of medical standards IEC 601-1

5X20mm fuses sold separately. Fusedrawers and casings must be ordered separately.

Casing Only

For quantities greater than listed, call for quote.

SCHURTER DC11/DC12 POWER ENTRY MODULES FOR HIGH CURRENT

Specifications:
- Rated Voltage: DC11 - 2500VAC; DC12 - 125/250VAC
- Appliance inlet according to IEC/EN 60320-1/C14
- Degree of Protection: IP40
- Terminals: DC11 - .187"QC; DC12 - .250"QC
- Switch Rating: 16A/250VAC - 10,000 switch operations; 10A/250VAC - 50,000 switch operations

Features:
- All single elements are already wired
- Qualified for use in equipment according to IEC/EN 60950
- Models with line filter have EMC shield

For quantities greater than listed, call for quote.

SCHURTER DC21/DC22 SERIES: PCB MOUNT, COMPACT POWER ENTRY MODULES

Specifications:
- Screw-on rear side panel mount
- Non-illuminated 2-pole switch
- Inrush current: 100A 3-4ms, 5 A continuous
- Switch and inlet pre-wired for 3-pin (L, N, & E) installation
- Qualified for use in equipment according to IEC/EN 60950
- Switch UL1054 rating: 20A @ 125VAC
- DC22 also available with medical version filter

For quantities greater than listed, call for quote.

SCHURTER KFB SERIES: AC INLET WITH RFI LINE FILTER AND LINE SWITCH

Specifications:

- For "cold" connections 70° C.
- Terminals: .250" quick connect
- Screw mount from front or rear
- Medical units qualify for use in equipment with safety requirements according to IEC 601-1
- Class I level of protection (with ground terminal); IEC320/C14
- Max. leakage current: Standard - <0.5mA; Medical - <5µA

For quantities greater than listed, call for quote.

SCHURTER 6200/6220 SERIES: AC INLETS WITH FUSEHOLDER

Specifications:

- Class I level of protection (with ground terminal); IEC320/C14
- Rating: UL/CSA/VDE - 10A/250V
- For "cold" connections 70°C
- 6200 fusedrawers meet requirements of tool only accessibility of medical standards IEC 601-1

RoHS Compliant

Casing and fusedrawer combined, 5x20mm fuses sold separately.

For quantities greater than listed, call for quote.

SCHURTER GRF4 SERIES: AC INLETS WITH RFI LINE FILTER AND EMI SHIELD

Specifications:

- For "cold" connections 70°C
- Class I level of protection (with ground terminal); IEC320/C14
- Terminals: .187" quick connect
- Max. leakage current: Standard - <0.5mA; Medical - <5µA
- Metal shield safeguards equipment against radiated EMI
- Snap-in design allows pre-wiring before mounting
- Flexible steel claws make multiple contact points on the panel to ensure shield integrity
- Medical units qualify for use in equipment with safety requirements according to IEC 601-1

For quantities greater than listed, call for quote.

GENERAL PURPOSE COMMON MODE FILTERS

Designed to economically suppress line-to-ground interference and built to meet or exceed most international safety agency standards and requirements.

Specifications:
- Maximum leakage current each line-to-ground @ 115VAC 60Hz: .25mA; @ 250VAC 50Hz: .45mA
- Rated voltage: 115/250/VAC
- Hipot rating (one minute) line-to-ground: 2250VDC; line-to-line: 1450VDC
- Operating frequency: 50-60Hz

RoHS Compliant

Use Circuit Diagram 7

GENERAL PURPOSE IEC CONNECTOR FILTERS

Provide effective EMI suppression on line-to-ground (common mode) and low frequency line-to-line (differential mode) noise while saving space and reducing cost.

Specifications:
- Maximum leakage current each line-to-ground @ 115VAC 60Hz: .2mA; @ 250VAC 50Hz: .4mA
- Rated voltage: 115/250/VAC
- Hipot rating (one minute) line-to-ground: 2250VDC; line-to-line: 1450VDC
- Operating frequency: 50-60Hz

RoHS Compliant

Use Circuit Diagram 7

For quantities greater than listed, call for quote.

HIGH PERFORMANCE IEC CONNECTOR FILTERS

Provide effective EMI suppression of line-to-ground and low frequency line-to-line noise.

Specifications:
- Maximum leakage current each line-to-ground @ 115VAC 60Hz: .25mA; @ 250VAC 50Hz: .45mA
- Rated voltage: 115/250/VAC
- Hipot rating (one minute) line-to-ground: 2250VDC; line-to-line: 1450VDC
- Operating frequency: 50-60Hz

RoHS Compliant

Use Circuit Diagram 7

For quantities greater than listed, call for quote.

GENERAL PURPOSE FUSED IEC CONNECTOR FILTERS

Designed for one 5mm x 20mm fuse and a spare fuse with a safety interlock that prevents fuse removal with power cord inserted.

Specifications:
- Maximum leakage current each line-to-ground @ 115VAC 60Hz: .25mA; @ 250VAC 50Hz: .45mA
- Rated voltage: 115/250/VAC
- Hipot rating (one minute) line-to-ground: 2250VDC; line-to-line: 1450VDC
- Operating frequency: 50-60Hz

RoHS Compliant

Use Circuit Diagram 8

QUALTEK EMI Power Line Filters

Qualtek Electronics Corporation

862 SERIES MULTI-FUNCTION MODULE FILTERS

A multi-function power entry module filter that incorporates an IEC connector, a fuse holder with optional power on/off switch, and voltage selector switch.

- With IEC Connector
- With Fuse Holder

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Qualtek Part No.	Fig.	Electrical Schematic Fig.	Amp Rating 115-250	Dimensions: in.			Power Switch	Voltage Selector	Price Each

864 SERIES MULTI-FUNCTION MODULE FILTERS

Effectively suppress EMI noise, both line-to-ground (common mode) and line-to-line (differential mode) for general applications. Compact design provides significant savings in space and cost compared with individual components.

Note: 5 x 20mm Fuse sold separately

Specifications:

- Maximum leakage current each line-to-ground @ 115VAC 60Hz: .25mA
  @ 250VAC 50Hz: .45mA
- Rated voltage: 115/250/VAC
- Hipot rating (one minute) line-to-ground: 2250VDC; line-to-line: 1450VDC
- Operating frequency: 50-60Hz

RoHS Compliant

For quantities greater than listed, call for quote.

880 SERIES MULTI-FUNCTION MODULE FILTERS

A multi-function power entry module filter that incorporates an IEC connector, double pole power switch, voltage selector switch, and optional single or double fuse holder (5 x 20) offering space savings.

- With IEC Connector
- Voltage Selector: No
- Power Switch: DP (UL/CSA 125/250 VAC 10A VDE 250VAC 4A)

RoHS Compliant

For quantities greater than listed, call for quote.

KYCON DC Power Connectors

RoHS Compliant **This product is RoHS compliant.**

STANDARD DC POWER JACKS AND PLUGS (2.0MM AND 2.5MM)

- Built in DC On/Off Switch
- Screw machine contact center pin
- Housing: PBT Thermoplastic, UL94V-0 Rated
- Color: Black
- RoHS Compliance per Kycon Documentation
- Durability: 5000 Cycles
- Operating Temperature: -25°C to +85°C
- Rated Current: 3.5 Amps, 3 Amps - Locking Jacks
- Rated Voltage: 24VDC, 16VDC - Vertical SMT and Locking Jacks

✻High Temperature Thermoplastic UL94V-0 Rated

For quantities greater than listed, call for quote.

SWITCHCRAFT Power Plugs and Jacks

RoHS Compliant **This product is RoHS compliant.**

Switchcraft®
Harsh Environment Connectivity Solutions
A HEICO Company

MINIATURE SEALED POWER PLUGS

- IP rating of IP66,IP67,IP68/Nema 250 (6P) when mated
- Locking ring provides security in critical applications
- Sleeve terminal serves as cord clamp
- Handle/Boot with cable strain relief
- Plug sleeve and pin: Plated copper alloy
- Handle: Rigid thermoplastic overmolded with thermoplastic elastomer
- Lock ring: Plated copper alloy
- Lock ring thread size: 7/16-32 UN2B
- Handle thread size: 5/16-24 UNF 2A
- Rated current: 5 Amps
- Rated Voltage: Up to 30VDC

For quantities greater than listed, call for quote.

MINIATURE SEALED POWER JACKS

- IP rating of IP66,IP67,IP68/Nema 250 (6P) when mated
- Automatic switch over from AC to DC permitted by sleeve shunt spring
- Split center pin shaped to hold mating plug firmly
- Optional IP rated cap (JCAP) protects jack when not in use
- Housing Material: Rigid Thermoplastic
- Bushing material: Plated copper alloy
- Jack Hardware: Supplied with one nickel plated copper alloy hex nut (P1489), one nickel plated steel flat washer (P3031) and one o-ring for sealing jack to panel
- Terminals: Plated copper alloy
- Insulators: Rigid thermoplastic
- Rated current: 5 Amps
- Rated Voltage: Up to 30VDC
- JCAP Material: Thermoplastic elastomer

For quantities greater than listed, call for quote.

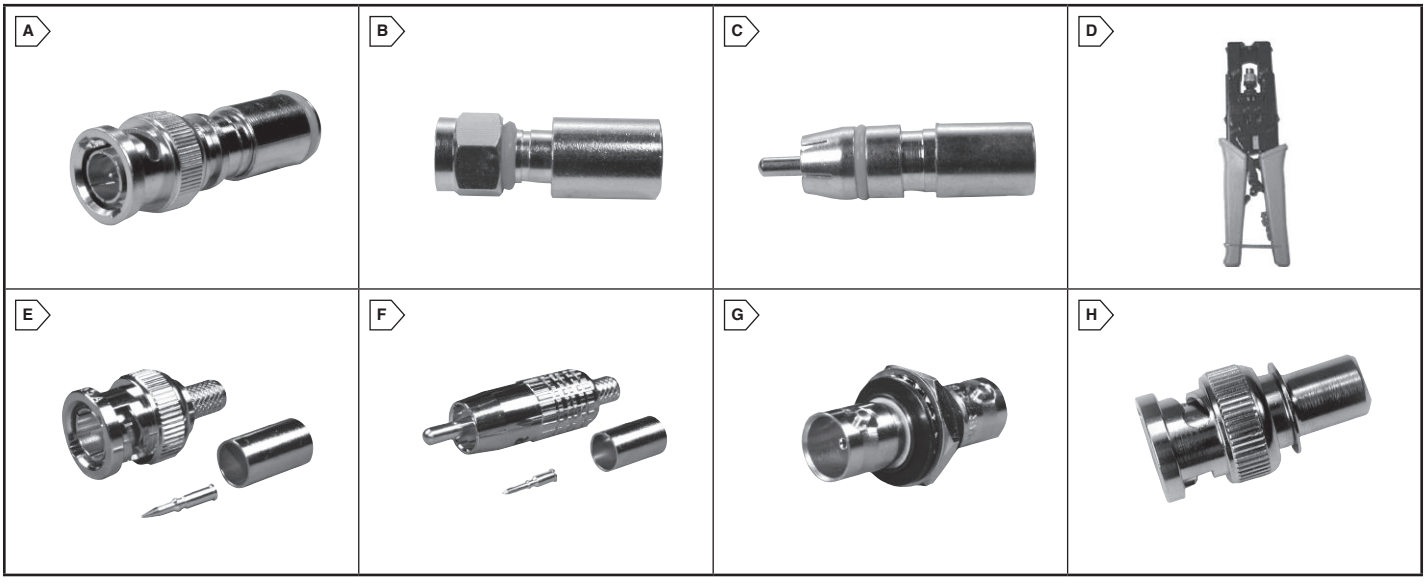
BOMAR Compression and Broadcast Connectors

BOMAR INTERCONNECT PRODUCTS, INC.

RoHS Compliant **This product is RoHS compliant.**



COMPRESSION CONNECTORS

Manufactured of precision-machined brass, with heavy nickel plating, these corrosion-resistant parts feature gold-plated, semi-captive contact for long-lasting connections. Their advanced shielding technology provides maximum isolation from EMI and RFI interference. Each BNC and RCA connector is shipped with six color coded O-rings to allow easy identification when systems require multiple cables.

Features:
- RoHS Compliant per Bomar documentation

DELTRON Professional Phono and DIN Connectors

DELTRON Enclosures Components

PROFESSIONAL RCA PHONO PLUGS AND LINE JACKS

A range of high quality UK manufactured phono plugs and line sockets made from machined brass with various plating options

Specifications:

- Center contact: brass with silver or gold plated
- Ground contact and cable clamp: brass with nickel or gold plated
- Body and spring strain relief: brass with nickel, gold, or black chrome plate
- Current rating: 5A @ 200VDC/150VAC
- Insulation: Noryl SE1
- Insulation resistance: 100MΩ @ 500VDC
- Maximum cable size: .22"

Cable Jacks

- Spring center contact for secure cable connection

MOUSER STOCK NO.	Plating		Price Each		
	Center Contact	Body	1	10	100

COLORED CAP PHONO PLUGS

A range of high quality UK manufactured phono plugs made from machined brass with various plating options. The aluminum housing is anodized in various colors for easy identification.

Specifications:

- Current rating: 5A @ 200VDC/150VAC
- Insulation resistance: 100MΩ @ 500VDC
- Center contact, ground contact, and collect: brass with flash gold plate
- Body: anodized aluminum
- Spring: brass with black chrome plate
- Insulator: PTFE

Features:

- "T" shape ground contact for maximum contact area
- Accepts cable diameters up to .216"
- collect for cable gripping and dual grounding

MOUSER STOCK NO.	Cap Plating	Price Each		
		1	10	100

PROFESSIONAL PHONO PLUGS

Designed and manufactured in the UK to the highest quality standards for use with Professional Audio Equipment.

Specifications:

- Current rating: 5A @ 200VDC/150VAC
- Insulation resistance: 100MΩ @ 500VDC
- Center contact, ground contact, and collet: 0.5 micron gold plated brass
- Insulator: PTFE for high dielectric constant

Features:

- Ground contact with "T" shaped slot for effective spring contact retention
- Solid brass body provides 100% shielding

PROFESSIONAL DIN CONNECTORS

Specifications:

- Voltage rating: 100V
- Current rating: 4A
- Contact resistance: <2mΩ
- Temperature range: -25°C to +70°C

Features:

- Fully shielded housing
- Suitable for audio/instrumentation applications

DELTRON BANANA PLUGS

These banana plugs fit all standard banana jacks and are interchangeable with all standard banana plugs. These plugs are available in a variety of styles and sizes to meet all kinds of industrial, OEM, and consumer applications.

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Description	Dimensions: in.		Price Each			
			H	Dia.	1	10	100	500

DELTRON PCB INSULATED BANANA PLUG SOCKETS

These new sockets mount directly onto printed circuit boards and accept standard banana plugs. They incorporate alignment grooves in the outer housing which allows close mounting. A double height socket permits two test or feed points to be mounted to a PCB. Both single and double sockets are constructed of durable acetal plastic and are rated at 10 amps. Available in red or black.

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each			
			1	10	100	500
164-6218	G	Single printed circuit board socket, black	1.86	1.55	1.17	.969
164-6219	G	Single printed circuit board socket, red	2.20	1.84	1.68	1.52

KYCON Stereo Audio Jacks

RoHS Compliant **This product is RoHS compliant.**

2.5MM STEREO AUDIO JACKS

- Used in devices such as audio equipment, cell phones, or digital still camera
- Housing: High Temperature Thermoplastic, UL94V-0 Rated
- Durability: 5000 Mating Cycles
- Complies with EIA standards
- RoHS Compliance per Kycon Documentation
- Operating Temperature: -25°C to +80°C
- Terminals: Copper Alloy, Silver or Gold plating
- Color: Black
- Non-threaded

NEW PRODUCT

- Sleeve: SPCC, Nickel plated
- TIP and Ring: P.B.S., Tin plated
- Color: Black
- Terminals: Copper Alloy, Tin plated
- Thru-Hole
- Operating Temperature: -25°C to +80°C
- Sleeve Spring: Phosphor Bronze
- Clip Housing: Polyacetal
- RoHS Compliance per Kycon Documentation
- Terminals: Brass Silver plated
- Bushing: Copper Alloy, Nickel plated
- Contact Rating: 16VDC @ 0.3 Amps

✻ w/ Back Plate

KYCON 3.5mm Stereo Audio Jacks

RoHS Compliant **This product is RoHS compliant.**

3.5MM STEREO AUDIO JACKS - MID-MOUNT

- Housing: High Temp, Plastic
- Terminals: Copper Alloy, Silver Plated
- Contact Resistance:
  Before Durability Test: 50 milliohms max.
  After Durability Test: 100 milliohms max.
- Rated Voltage: 16V DC
- Rated Current: 0.3A
- Insulation Resistance: 100 megohms min. at 500V DC
- Dielectric Strength: 500V AC RMS for 1 minute
- Operating Temperature: -25°C to + 85°C

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Kycon Part No.	Fig.	Description	Circuit Diagram	Price Each 1	25	100

3.5MM STEREO AUDIO JACKS – PCB MOUNT, LOW PROFILE THRU-HOLE

- Housing: PBT Thermoplastic 15% Glass Filled, UL94V-0 Rated
- Durability: 5000 Mating Cycles
- Operating Temperature: -25°C to +80°C
- RoHS Compliance per Kycon Documentation
- Color: Clear

RoHS Compliant

For quantities greater than listed, call for quote.

3.5MM STEREO AUDIO JACKS – PCB MOUNT, VERTICAL

- Housing: Thermoplastic, UL94V-0 Rated
- Terminals: Copper Alloy, Tin plating
- Complies with EIA standards
- Used in devices such as car audio and navigation equipment, etc.
- Meets the accelerated market needs for higher performance and smaller size portable devices
- RoHS Compliance per Kycon Documentation

RoHS Compliant

For quantities greater than listed, call for quote.

NEUTRIK Professional Jacks and Plugs

RoHS Compliant **This product is RoHS compliant.**

timbrePLUG

- Standard timbre of the cable plus three additional sound characteristics
- Slim right-angle plug with industry proven and reliable chuck type strain relief
- Sleek attractive design for convenient handling
- Gold plug finger, precision machined one piece contacts

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Neutrik Part No.	Fig.	Description	Price Each 1	10	25	50

REAN Commercial Audio Connectors

RoHS Compliant **This product is RoHS compliant.**

TINY XLR PLUGS AND RECEPTACLES

- Robust metal housing with best flex relief
- Shielded system – high noise immunity and EMI protection
- Intuitive and rugged locking mechanism provides secure locking system
- Millionfold proven chuck type strain relief
- Keyed insert and strain relief
- Watertight chassis connector, even in unmated condition

COMMERCIAL 1/4" PHONE JACKS

- Mono and stereo jacks
- Stereo jacks feature all contacts switched
- Can be used with panels as thick as 5.5mm with washer and nut (included)
- Housing/shell: Brass Ni/Au/Black plated or Zinc diecast
- Insulation: Thermoplastic
- Contacts: Brass, Ni/Au plated
- Strain relief: Crimp type SnCe plated

For quantities greater than listed, call for quote.

NEUTRIK XLR Connectors

NEUTRIK

RoHS Compliant **This product is RoHS compliant.**

CONVERTCON® UNISEX XLR CONNECTORS

- World's first unisex XLR
- 3 pole male and female cable connector in one housing
- Substitute adapters, ideal as an emergency kit
- Easy selectable gender – converted by sliding housing back and forth
- All the benefits of the XLR XX series

For quantities greater than listed, call for quote.

XLR CONNECTORS

The "industry standard" XLR cable connector, easy to assemble with only 4 parts and no screws. Compact design with sturdy die cast shell, fiberglass reinforced hard plastic insert and chuck type strain relief for secure clamping of all cables.

XX Series Straight Cable Connectors

The specifications of the X and XX series are equal, i.e. number of contacts, electrical and mechanical data and the range of accessories are the same.

The next generation of the worldwide accepted standard of XLR cable connectors. The successor of the X series offers several new features which make it more reliable, easier to assemble and improves contact integrity as well cable strain relief.

† For coupling NAC3FCA to NAC3FCB

speakON® LOUDSPEAKER AMPLIFIER CONNECTORS

Specifications:
- Current rating per contact: 25A rms continuous
- Rated voltage: 250VAC
- Unique Neutrik chuck type strain relief
- Glass reinforced materials for housing and inserts
- Accurate twist lock latching system
- Panel cutouts the same as existing audio connector types
- Cable O.D. Range (for plug connectors only): 2-Pole = 6mm-10mm, 4-Pole = 6mm-15mm, 8-Pole = 8mm-20mm
- Precise keyway for secure mating

For quantities greater than listed, call for quote.

TINI "Q-G" QUICK GROUND XLR AUDIO CONNECTORS

Specifications:
- Current Rating: Plug or Panel 3-4C = 5A, 5C = 4A; PCB Receptacle 3-5C = 5A
- Maximum Cable: .115" O.D. for flex relief versions; .170" O.D. for "L" version (omitted flex relief)
- Wire Size: 22 AWG solid; 24 AWG stranded
- Contacts: Pin and Socket-Silver-plated copper alloy; PCB Receptacle-Tin-plated brass
- Housing Material: Plugs and Male Receptable-Nickel-plated copper alloy, Female Receptable-Nickel-plated die cast zinc; PCB Receptable-Thermoplastic

For quantities greater than listed, call for quote.

A/V DIRECT BOX

The perfect direct box for a wide variety of applications. The 700 Series converts the outputs of equipment such as MP3 players, laptops and DJ mixers to balanced, mic level signals that can be connected to audio consoles, mic preamps and house sound systems. All stereo inputs on the 700 Series are summed to mono and output to a single 3-Pin XLR connector.

For quantities greater than listed, call for quote.

SMA CONNECTORS AND ADAPTERS

Features:

- Frequency Range: dc to 18GHz
- Insulation Resistance: 500 megaohms
- Durability: 500 cycles minimum
- Environmental standards per MIL-STD-202
- Impedance: 50Ω

Applications:

- Military
- Aerospace
- Satellite
- Industrial
- Telecommunications

For quantities greater than listed, call for quote.

BNC ADAPTERS AND ACCESSORIES

Features:

- Bayonet coupling mechanism provides quick mating and unmating
- 50Ω and 75Ω impedance designs allow customers to match impedance to system requirements
- 50Ω and 75Ω connectors are intermateable to ensure non-destructive mating

Specifications:

- Frequency Range: 0-4GHz
- Insulators: TFE
- Crimps: Hex Braid
- Temperature Range: -65°C to 165°C (TFE Insulators)

For quantities greater than listed, call for quote.

AMPHENOL NON-MAGNETIC COAXIAL CONNECTORS

Designed to carry 50Ω signals within the magnetic imaging field of MRI equipment where a high signal-to-noise ratio (SNR) is required. Product is manufactured under strict quality procedures throughout the entire production process to ensure that each connector will not produce image artifacts during MRI scans. All product is 100% tested for magnetism prior to shipping.

- Contact and body plating: Gold over white bronze

For quantities greater than listed, call for quote.

AMPHENOL® Reverse Polarity RF Connectors

Amphenol®

RoHS Compliant **This product is RoHS compliant.**

REVERSE POLARITY SMA CONNECTORS

Reverse Polarity connectors employ female contacts in the plug connector and male contacts in the jack connector. SMA-RP will not mate with standard SMA Connectors.

- Impedance: 50Ω
- Frequency Range: 0-6GHz
- Body Material: Brass
- Finish: Gold

For quantities greater than listed, call for quote.

RoHS Compliant This product is RoHS compliant.

HIGH DENSITY HD-BNC™ CONNECTORS

Features:
- High density solutions
- Bayonet coupling
- True 75 Ohm impedance
- Meets SMPTE 292M and 424M Standards
- Smallest BNC in the industry
- Same cable prep as traditional BNC

Electrical:
- Impedance: 75Ω
- Frequency Range: 0-6GHz
- Voltage Rating: 170 VRMS
- Dielectric Withstanding Voltage: 500 volts
- Return Loss: Straight connectors: 32dB @ 3GHz
- Contact Resistance: Center contact: 5m Ω: Outer contact: 2.5m Ω
- Insulation Resistance: 10,000M Ω minimum
- Data Rate: 3Gbps or higher

Applications:
- Broadcast
- Network Routing and Switching
- Telco Central Office
- DS3/DS4
- Digital Video - HDTV
- Medical
- Mil/Aero
- Satellite Headends

For quantities greater than listed, call for quote.

SLIMLINE MINI BNC CONNECTORS

- Working Voltage: 400VAC, peak
- True 75Ω impedance end to end
- Body Material: Brass with nickel or gold plating
- Contact Plating: Gold
- Reduced footprint size allowing 40% more connections in the same area
- Crimp/Crimp Design-Compatible with all major manufacturer's tooling
- Drop-in replacement for most high density SMB/SMZ applications

For quantities greater than listed, call for quote.

RoHS Compliant This product is RoHS compliant.

HIGH PERFORMANCE BNC

Features and Benefits:
- 75Ω impedence
- Space saving end launch termination

Applications:
- Video control panels
- Video add-on cards
- Video routers and switching equipment
- Video display and monitoring applications

For quantities greater than listed, call for quote.

BNC CONNECTOR SERIES

- Impedance: 50Ω
- Body Material: Brass
- Body Plating: Nickel
- Contact Plating: Gold
- Frequency range: 0-4GHz with low reflection

For quantities greater than listed, call for quote.

SMA SERIES CONNECTORS AND ACCESSORIES

These SMA connectors offer a compact size and mechanically give outstanding durability.

- Impedance: 50Ω
- Body Material: Brass
- Insulation: Teflon
- Finish & Center Contact: Gold
- Frequency Range: 0-18GHz (semi-rigid); 0-12.4GHz (flexible cable)

SMA Coaxial Connectors

SMA STAINLESS STEEL BODY CONNECTORS

Specifications:

- Freq. Range: 0-18GHz Semi-Rigid cable, 0-12.4GHz Flexible cable
- Insulators: PTFE (ASTM D1547)
- Connector Durability: 500 matings
- Impedance: 50Ω
- Center Contact: Gold Plated
- Mating Coupling: .250-36 threaded coupling
- Temperature Range: -65°C to +165°C
- RF Leakage: 100 dB-f minimum @ 3GHz

Applications:

- Telecom
- Cable assemblies
- PC/LAN
- Process controls
- Mil/Aero

For quantities greater than listed, call for quote.

SMA BRASS BODY CONNECTORS

Lower cost grade which provides approximately 30% cost reduction with 250 mating cycles.

Specifications:

- Freq. Range: 0-18GHz Semi-Rigid cable 0-12.4GHz Flexible cable
- Insulators: PTFE Fluorocarbon
- Impedance: 50Ω
- Center Contact: Gold Plated
- Mating Coupling: .250-36 threaded coupling
- RFX=Commercial

For quantities greater than listed, call for quote.

SMB RF CONNECTORS

Offers quick connect/disconnect snap on mating, reducing installation time.

- Impedance: 50Ω
- Frequency Range: 0-4GHz
- Center Contacts: Gold Plated
- Crimp Tool: CTL-13
- Insulators: TFE fluorocarbon
- Connector Durability: 500 matings
- Mating: Rapid Snap-on coupling, per MIL-STD-348
- Conforms with MIL-C-39012
- Interface is in compliance w/ MIL STD-348

For quantities greater than listed, call for quote.

MINI-UHF CONNECTORS

Designed for use as a coaxial interconnection in cell phones, automotive systems, and similar applications where size, weight, and cost factors are critical.

- Impedance: 50Ω
- Frequency Range: 0-2.5GHz
- Crimp Tool: CTL-5
- Temperature Range: -55°C to 85°C (TFE Insulators)
- Voltage Rating: 335 Volts Peak
- Mating: 3/8-24 Threaded Coupling
- Teflon insulators

For quantities greater than listed, call for quote.

TWIN-AXIAL WEATHER PROOF CONNECTORS (TWINAX)

Due to improved shielding characteristics, these connectors are used in balanced low level and high sensitivity circuits. Keyway polarization ensures system integrity and prevents signals from being mixed. 5000V peak with Teflon insulators allows for high temperature applications.

- Frequency Range: 0-200MHz
- Impedance: 78Ω and 95Ω Cables
- Body Plating: Nickel
- Weatherproof: When mated
- Large thread designed for rugged use
- Contact Plating: Gold

For quantities greater than listed, call for quote.

RoHS Compliant **This product is RoHS compliant.**

MCX CONNECTORS

Connectors conform to the European CE CC 22220 spec. The MCX uses identical inner contact and insulator dimensions as the SMB yet is 30% smaller.

- Impedance: 50Ω
- Frequency Range: 0-6GHz
- Temperature Range: -65°C to 165°C
- Connector Durability: 500 matings
- Mating: Quick snap-on coupling
- Contact Plating: Gold

TNC CONNECTORS

Designed as a threaded version of the BNC, the TNC series features screw threads for mating. TNC are miniature, weatherproof units with a constant 50Ω impedance and operate from 0-11GHz.

- Temperature Range: -65°C to 165°C
- Voltage Rating: 500 Volts Peak
- Mating: 7/16 Threaded Coupling
- RFX=Commercial version

AMPHENOL QMA CONNECTORS

QMA is a quick disconnect version of the SMA connector. Instead of using a threaded coupling mechanism, a snap-lock mechanism is used.

Features:
- Operates at the same electrical performance as SMA
- Snap-on interface for quick and easy installation (can be installed 10x faster that SMA)
- Snap-Lock mechanism removes requirement for wrench clearance, allowing for denser packaging
- Rotatable 360° after connection

Specifications:
- Impedance: 50Ω
- Frequency Range: 0-6GHz
- VSWR: 1.05 max DC to 3 GHz, 1.12 max 3 to 6GHz
- Temperature Range: - 40°C to +80°C
- Body Material: White Bronze over Brass
- Durability: 100 cycles
- Power Handling: 125W at 40°C

Applications:
- Base Stations
- Instrumentation
- Process Controls
- Cable Assemblies
- Mil/Aero
- Telecom
- Components
- PC/LAN

For quantities greater than listed, call for quote.

AMPHENOL AMC CONNECTORS AND CABLE ASSEMBLIES

Features:
- Easy snap-on / snap-off mating
- Ultra low-profile (2.5mm mating height)
- Small footprint (3mm x 3mm)

Specifications:
- Impedance: 50Ω
- Frequency Range: 0-6GHz
- VSWR: 1.3 max DC to 3GHz, 1.4 max 3 to 6GHz
- Temperature Range: - 40°C to +90°C
- Durability: 30 cycles
- Mating Female contact holding force: 0.15N min
- Body Material: Silver over Phosphor Bronze

Applications:
- WLAN
- Bluetooth
- PDA
- Notebook computers
- GPS
- Portable Devices
- Remote Measuring Equipment

For quantities greater than listed, call for quote.

✻Contact your Mouser Sales Representative for additional color and length options.

AMPHENOL SMP CONNECTORS

The SMP interface is a subminiature interface in the same scale as MMCX connectors but offers a frequency range of DC to 40GHz.

Features:
- RF performance DC to 40GHz
- Designed to accommodate both radical and axial misalignment
- Push-on and Snap-on mating styles for quick installation

Specifications:
- Impedance: 50Ω
- VSWR: 1.50 max 0-20GHz
- Temperature Range -65°C to +155°C
- Contacts: Gold-plated brass, Gold plated beryllium copper
- Mating Cycles: 100 with full detent, 500 with limited detent
- Body Material: Gold plated brass, Gold Plated beryllium copper

Applications:
- Aerospace
- Routers
- Broadband
- Telecom
- Board to Board Interconnect
- Instrumentation
- Phased array antennas

For quantities greater than listed, call for quote.

RF Connectors

9178 SERIES IDC SMT COAX CONNECTORS

Features:
- "Gas Tight" IDC termination for long term reliability
- Simple strip, insert and press down termination process
- High temperature endurance testing for 1000 hrs at 125°C
- Industrial operating temperature range for harsh environments

Electrical Specifications:
- Current Rating: 0.5A (Current limit is cable dependent)
- Voltage Rating: 125V
- VSWR less than 1.2:1 in excess of 700MHz
- Operating Temperature: -40°C to +125°C

RoHS Compliant

For quantities greater than listed, call for quote.

COMMERCIAL BNC/TNC CONNECTORS 50 OHM IMPEDANCE

- Impedance: 50Ω
- Frequency range: 0-4 GHz
- VSWR: 1.3:1 max.
- Vibration, shock, moisture resistance
- Contact resistance: inner contact - 1.5mΩ max. outer contact - .2mΩ max.
- Voltage rating: 500VRMs
- Insulation resistance: 5000MΩ min.
- Temperature range: -55°C to +85°C

BOMAR Between Series Adapters and RF Connectors

RoHS Compliant **This product is RoHS compliant.**

HIGH DENSITY BNC JACK

NEW PRODUCT

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Bomar Part No.	Fig.	Description	Price Each 1	5	10	25
678-361EHD704	361EHD704	A	End Launch Jack, E-Snap	6.58	6.01	5.53	5.13

BETWEEN SERIES ADAPTERS

Between series adapters solve a variety of connection problems where connectors of different types could ordinarily not be mated together. Each adapter has a different type coupling at each end allowing for a wide variety of interconnections to fit almost all interconnection situations. All adapters are constructed of machined brass and are nickel plated.

- RoHS Compliant per Bomar documentation

✻Plating: Tri-plate, a copper alloy composed of three components: 55% copper, 25% tin, and 20% zinc

For quantities greater than listed, call for quote.

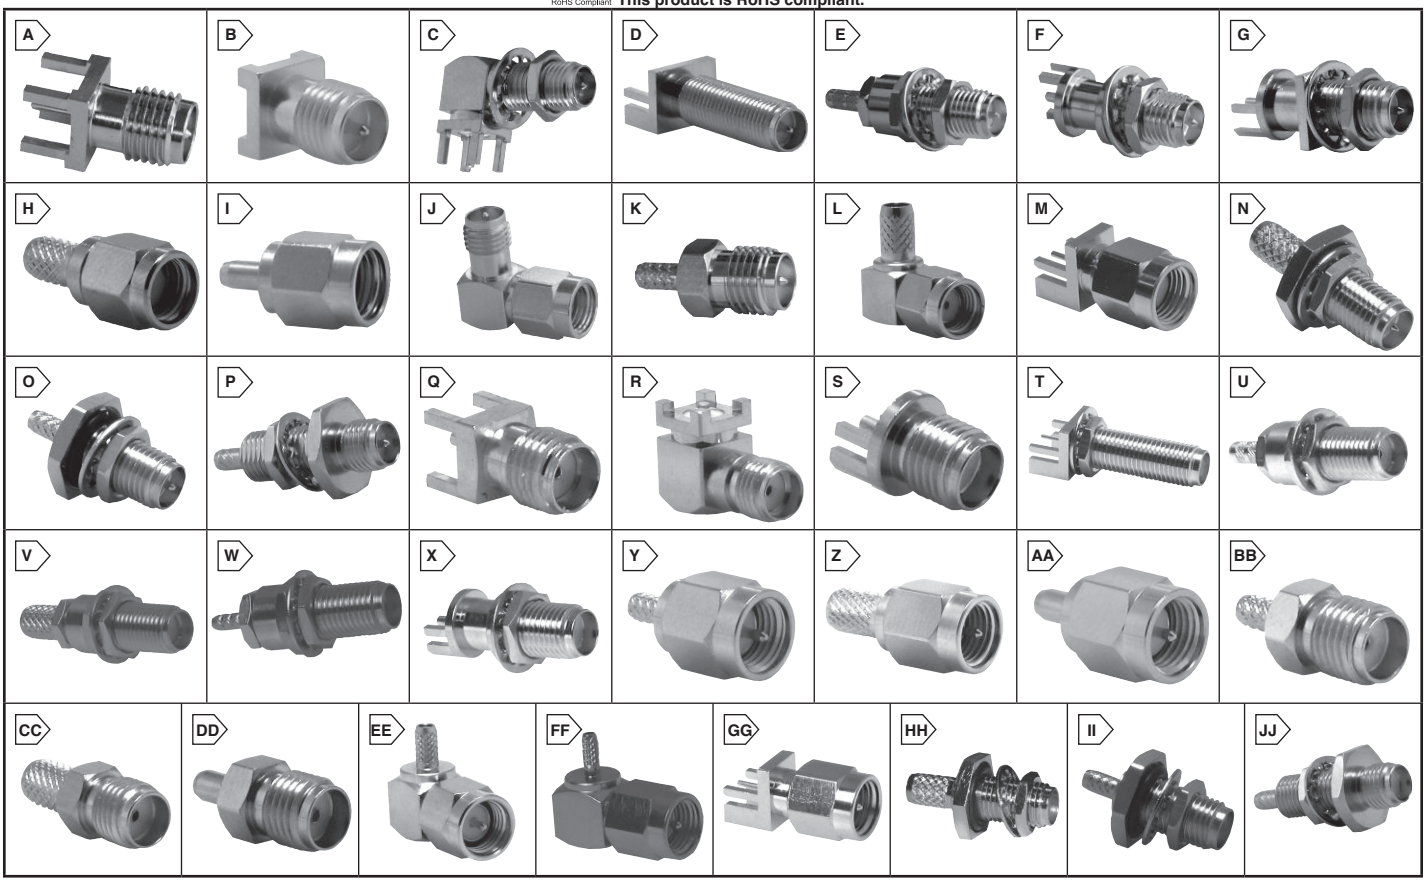
CONNECTOR CITY RF Connectors

RoHS Compliant **This product is RoHS compliant.**



REVERSE-POLARITY SMA CONNECTORS

Reverse-polarity connectors are designed to meet FCC Part 15 requirements and are ideal for any application requiring a reliable non-standard RF connection.
The reverse-polarity design uses the same tooling as a standard SMA, but reverses the center connection.

For quantities greater than listed, call for quote.

SMA CONNECTORS

SMA connectors are popular and cost-effective devices which provide repeatable electrical performance from DC to 12.4GHz.
SMA connectors are available in a broad variety of mounting styles, brass, stainless-steel body types, and assorted cable-attachment methods.

For quantities greater than listed, call for quote.

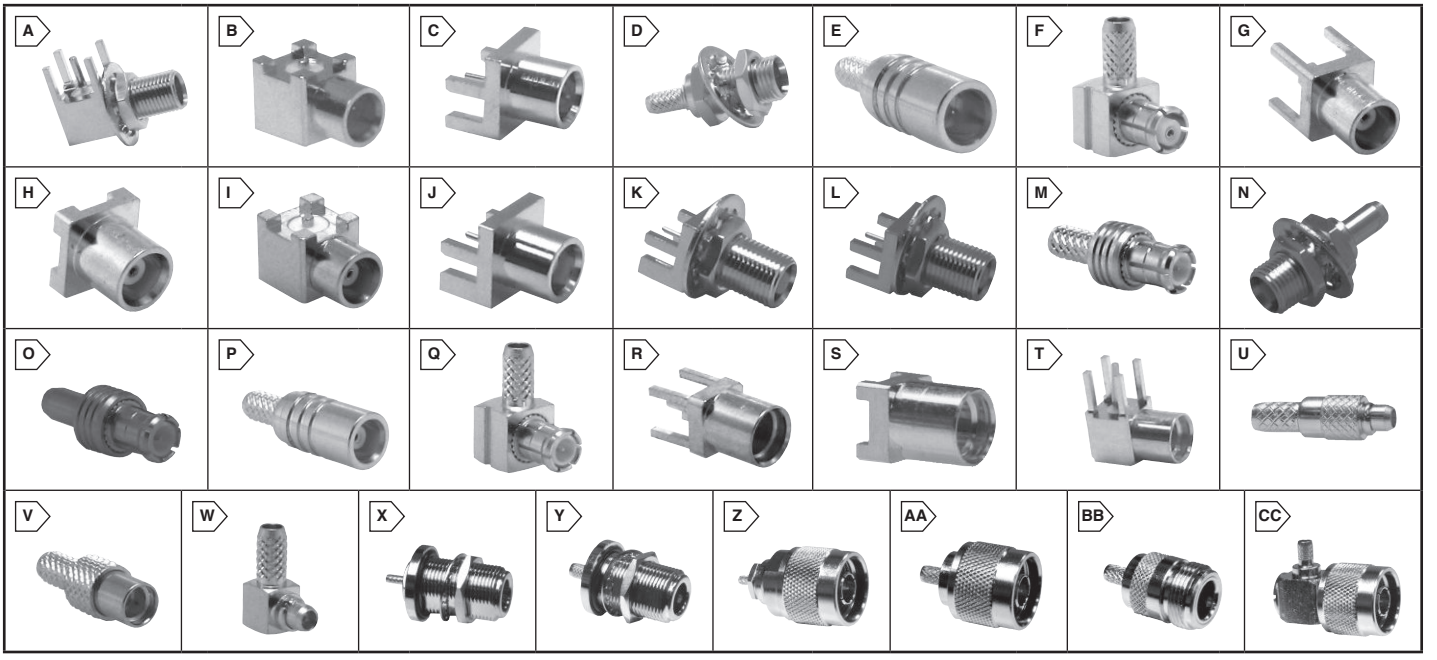
CONNECTOR CITY RF Connectors

RoHS Compliant **This product is RoHS compliant.**



REVERSE-POLARITY MCX CONNECTORS

Reverse-polarity MCX micro-miniature connectors are designed to meet FCC Part 15 requirements and provide repeatable performance from DC to 6GHz. A 30% space reduction from the SMB style has been achieved, making the MCX connector style ideal for any application requiring a reliable non-standard interface connection. The snap-on connection feature eases assembly.

For quantities greater than listed, call for quote.

MCX CONNECTORS

MCX microminiature connectors provide repeatable performance from DC to 6GHz. A 30% space reduction from the SMB has been achieved, making the unit ideal for GPS, wireless communications and automotive applications. The snap-on connection feature eases assembly in dense packaging arrangements.

For quantities greater than listed, call for quote.

MMCX CONNECTORS

MMCX microminiature connectors provide repeatable performance from DC to 6GHz. A 45% space reduction from the SMB has been achieved, making the unit ideal for applications where a small connector is essential. Our MMCX connectors are suitable for standard flexible and semi-rigid cables as well as PCB mounting.

For quantities greater than listed, call for quote.

JOHNSON COMPONENTS RF Connectors

EMERSON Network Power
Connectivity Solutions

SMA QUICK-CONNECT

The Johnson SMA Quick-Connect plug can quickly mate to a standard, threaded SMA jack receptacle allowing rapid test connections to devices utilizing SMA threaded jacks. Full Mil-C-39012 electrical compatibility is obtained with a push and twist motion. The SMA Quick-Connect plug adapter converts a standard SMA plug test cable into a Quick-Connect cable.

RoHS Compliant

- Coupling Hardware: Nickel plated
- Frequency Range: 0-12.4GHz Plugs, 0-18GHz Adapter
- VSWR: 1.15 +.02f(GHz) Plugs, 1.05 +.005f(GHz) Adapter
- Contact Plating: Gold

For quantities greater than listed, call for quote.

SMA HIGH FREQUENCY EDGE MOUNT CONNECTORS

RoHS Compliant

- Impedance: 50Ω
- Frequency Range: 0-26.5GHz
- Insulator: PTFE
- Contact Plating: Gold
- Body: Brass
- Body Plating: Gold
- Temperature Range: -65°C to +165°C
- Offers low VSWR
- Low insertion forceover a wide bandwidth

For quantities greater than listed, call for quote.

JOHNSON COMPONENTS RF Connectors

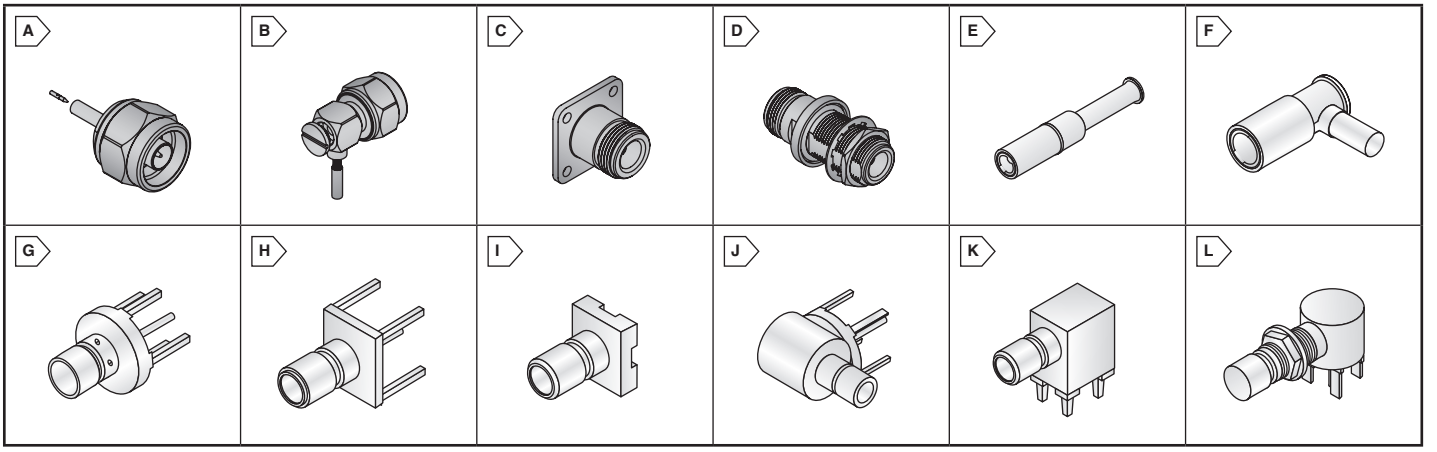
EMERSON. Network Power
Connectivity Solutions



N TYPE CONNECTORS

Features:
- Cabled contacts are captivated upon assembly
- Flexible cable contacts can be crimped or soldered
- Semi-Rigid cabled connectors are capable of operating to 18GHz
- Body Plating: Tri-Alloy and gold plating where soldering is required
- Impedance: 50Ω
- Frequency Range: up to 11GHz
- Contact Plating: Gold
- Body Plating: Tri-Alloy and gold plating where soldering is required

Applications:
- Antennas
- Base stations
- Broadcast
- Cable assemblies
- Cellular
- Instrumentation
- Microwave radio
- Radios
- Radar
- RF and microwave components
- Satcom
- Surge protection
- WLAN

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Johnson Components Part No.	Fig.	Body Plating	Description / Cable Type	RoHS	Price Each 1	10	25

JOHNSON SMP CONNECTORS

The SMP interface offers superior performance up to 40GHz and is compatiable with all SMP. They offer high electrical reliability where extreme shock and vibration conditions are experienced.

- Shock (specified pulse): MIL-STD-202, Method 213, Condition 1
- Temperature Range: -65°C to +165°C
- Vibration: MIL-STD-202, Condition D
- Phased Arrays
- Communication Equipment
- Satellites

For quantities greater than listed, call for quote.

JOHNSON SMA FIXED COMMERCIAL ATTENUATORS

These fixed attenuators offer a rugged stainless steel body, top of the line quality performance and at a competitive price.

Features and Benefits:

- Reduces impedence mismatches in high frequency circuit systems
- Improves impedence match between amplifiers and filters
- Provides isolation needed to stabilize oscillators
- Extends the dynamic range of measuring equipment such as power meters, fixed intensity meters, spectrum analyzers, and amplifiers
- Changes a source or load, which might be reactive, into one which is precisely known and resistive
- Passivated per MIL-F-14-72

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Trompeter Part No.	Fig.	Description	Price Each 1	10	25
Jacks						
530-BJ71	BJ71	A	Bulkhead Straight, Rear Mount, Solder Pot	20.78	19.53	18.19
530-BJ72	BJ72	B	Bulkhead Insulated, Straight, Front Mount, 3-lug	32.29	29.80	27.67
530-BJ73	BJ73	C	Bulkhead Insulated, Feed-through, Straight, 3-lug	35.80	32.59	30.26
530-BJ74-47	BJ74-47	D	Bulkhead Insulated, Wrench Crimp, Straight, 3-lug for M17/176-00002 cable	32.56	30.13	28.07
530-BJ75	BJ75	C	Bulkhead Insulated, Straight, Rear Mount, Solder Pot, 3-lug	30.57	28.56	27.68
530-BJ76	BJ76	E	Bulkhead Straight, Rear Mount, Solder Pot, 3-lug	23.68	21.13	20.48
530-BJ76FL	BJ76FL	F	Bulkhead Straight, Rear Mount, Solder Pot, 4-lug	32.77	30.47	28.38
530-BJ76TL	BJ76TL	F	Bulkhead Straight, Rear Mount, Solder Pot, 2-lug	32.77	30.47	28.38
530-BJ77	BJ77	G	Bulkhead Straight, Front Mount, Solder Pot	26.65	23.54	21.51
530-BJ770	BJ770	G	Bulkhead Straight, Front Mount, Solder Pot, 3-lug	19.82	17.91	16.20
530-BJ77FL	BJ77FL	H	Bulkhead Straight, Front Mount, Solder Pot, 4-lug	36.38	32.71	31.70
530-BJ77TL	BJ77TL	H	Bulkhead Straight, Front Mount, Solder Pot, 2-lug	27.50	25.23	23.50
530-BJ78	BJ78	I	Bulkhead Feed-thru, Straight, 3-lug	18.06	16.12	15.63
530-BJ78HS	BJ78HS	J	Bulkhead Hermatically Sealed, Feed-thru	305.81	276.22	248.59
530-BJ79-29	BJ79-29	K	Bulkhead Cable Wrench Crimp, Straight, 3-lug for TWC-78-1 cable	34.20	31.62	30.64
530-BJ79-47	BJ79-47	K	Bulkhead Cable Wrench Crimp, Straight, 3-lug for M17/176-00002 cable	35.80	33.20	30.64
530-CBBJ79	CBBJ79	L	Bulkhead Straight, Circuit Board Mount, 3-lug	45.52	42.28	39.02
530-CBBJR79	CBBJR79	M	Bulkhead Right Angle, Circuit Board Mount, 3-lug	57.39	52.93	48.86
530-CBBJR79TL	CBBJR79TL	M	Bulkhead Right Angle, Circuit Board Mount, 2-lug	74.96	69.44	64.49
530-CBJ70	CBJ70	N	Straight, Circuit Board Mount, 3-lug	50.49	46.58	43.25
530-CJ70-29	CJ70-29	O	Cable Wrench Crimp, Straight, 3-lug for TWC-78-1 cable	24.01	22.04	20.47
530-CJ70-47	CJ70-47	P	Cable Wrench Crimp, Straight, 3-lug for M17/176-00002 cable	22.83	22.04	20.47
530-CJ70C-201	CJ70C-201	Q	Cable Straight 3-lug M17/176-00002	40.34	36.33	35.36
530-RFI75-1	RFI75-1	R	RFI Cap with No Chain	8.57	7.79	7.04
530-RFI75-13-D3	RFI75-13-D3	S	RFI Cap with 3" Stainless Steel Lanyard, .505-.510" D-Ring	43.63	41.09	37.75
530-TNG1-1-78	TNG1-1-78	T	Termination w/o Chain 78 Ohm	32.45	29.93	27.62
530-TNG1-4-78	TNG1-4-78	U	Termination, 3 inch Brass Chain, 78 Ohm Resistance, No D Ring	56.19	51.46	47.93
530-M49142/05-0008	M49142/05-0008	V	Bulkhead Wrench Crimp, QPL, Straight, 3-lug for M17/176-00002 cable	92.77	84.64	78.59
Plugs						
530-PL74-7	PL74-7	W	Wrench Crimp, Straight, 2-lug for TRC-50-2 cable	30.89	27.98	26.07
530-PL75-29	PL75-29	W	Wrench Crimp, Straight, 3-lug for TWC-78-1	21.84	20.11	18.67
530-PL75-29BR	PL75-29BR	X	Wrench Crimp, Straight, Bend Relief Spring, 3-lug for TWC-78-1	35.91	33.48	31.09
530-PL75-32	PL75-32	W	Wrench Crimp, Straight, 3-Lug for TRC-50-1 cable	32.60	30.63	28.53
530-PL75-33	PL75-33	W	Straight for TRC-75-1 Cable 3-lug	32.04	28.53	27.77
530-PL75-43	PL75-43	W	Wrench Crimp, Straight, 3-lug for 250-4044/250-4045	32.60	30.63	28.53
530-PL75-45	PL75-45	W	Wrench Crimp, Straight, 3-lug for M27500-22TE2T14	32.60	30.63	28.53
530-PL75-47	PL75-47	W	Wrench Crimp, Straight, 3-lug for M17/176-00002 cable	19.92	17.78	16.17
530-PL75-47BR	PL75-47BR	X	Wrench Crimp, Straight, Bend Relief Spring, 3-lug for M17/176-00002	35.80	33.48	31.09
530-PL75-7	PL75-7	W	Wrench Crimp, Straight, 3-lug for TRC-50-2	19.92	18.39	16.94
530-PL75-9	PL75-9	W	Wrench Crimp, Straight, 3-lug for TWC-78-2	22.06	19.75	17.78
530-PL75C-201	PL75C-201	Y	Full Crimp, Straight, 3-lug for M17/176-00002 cable	22.44	19.44	17.76
530-PL75C-204	PL75C-204	Z	Full Crimp, Straight, 3-lug for 10602 cable	30.89	27.98	26.07
530-PL75C-212	PL75C-212	Y	Full Crimp, Straight, 3-lug for 2524E0114 cable	30.89	27.98	26.07
530-PL75C-222	PL75C-222	Y	Full Crimp, Straight, 3-lug for 10613 cable	30.68	27.98	26.07
530-PL75C-303	PL75C-303	Z	Full Crimp, Straight, 3-lug for 752BA5314 cable	51.45	47.49	44.09
530-PL75C-307	PL75C-307	Z	Full Crimp, Straight, 3-lug for TRC-75-1 cable	55.55	51.45	47.49
530-PL75FL-47	PL75FL-47	W	Straight for M17/176-00002 Cable	37.51	34.44	33.38
530-PLR75C-201	PLR75C-201	AA	Full Crimp, Right Angle, 3-lug for M17/176-00002 cable	168.04	152.01	137.54
530-PLR75C-204	PLR75C-204	AA	Full Crimp, Right Angle, 3-lug, for 10602 cable	173.39	157.55	144.42
530-M49142/03-0007	M49142/03-0007	P	Cable Wrench Crimp, QPL, Straight, 3-lug for TWC-78-2 cable	66.53	60.88	56.71
530-M49142/03-0008	M49142/03-0008	P	Cable Wrench Crimp, QPL, Straight, 3-lug for M17/176-00002 cable	77.83	70.97	65.90
530-M49142/03-0009	M49142/03-0009	P	Cable Wrench Crimp, QPL, Straight, 3-lug for M17/177-00001 cable	80.31	74.00	68.72
530-M49142/03-0017	M49142/03-0017	BB	Cable Military Tool Crimp, QPL, Straight, 3-lug for M17/176-00001 cable	71.06	64.65	62.66

MOUSER STOCK NO.	Trompeter Part No.	Fig.	Description	Impedance (Ω)	Price Each 1	10	25
Jacks							
530-6-0001-1	6-0001-1	A	Bulkhead Jack, 75 Ohm, Right Angle, Circuit Board Mount	75	38.66	34.79	31.89
530-6-0001-2	6-0001-2	A	Bulkhead Jack, Straight, Rear Mount, Right Angle, Solder Pot	75	39.09	36.20	35.07
530-BJ21	BJ21	B	Bulkhead Cable Jack, 50 Ohm, Insulated, Straight, Rear Mount, Solder Pot	50	13.34	12.17	11.75
530-BJ27	BJ27	C	Bulkhead Jack, 50 Ohm, Insulated, Straight, Front Mount, Solder Pot	50	11.64	10.67	10.34
530-BJ28	BJ28	D	Bulkhead Jack, 50 Ohm, Insulated, Straight, Feed-through	50	23.09	22.30	21.50
530-CBBJR26	CBBJR26	E	Bulkhead Jack, Insulated, Right Angle, Circuit Board Mount	50	47.60	44.70	41.52
530-UBJ220-009	UBJ220-009	F	Bulkhead Cable Jack, 75 Ohm, Full Crimp, Straight, Rear Mount for 8218 cable	75	55.92	51.45	47.91
530-UBJ228	UBJ228	G	Bulkhead Jack, 75 Ohm, Insulated, Feed-thru, Overmold	75	11.66	10.73	9.99
530-UBJ28	UBJ28	H	Bulkhead Jack, 75 Ohm, Insulated, Feed-thru, Spacers	75	21.11	19.31	17.93
530-UCBBJE20-1	UCBBJE20-1	I	Bulkhead Jack, 75 Ohm, Circuit Board Edge Mount for .060 - .064 Board Thickness	75	4.18	3.64	3.32
530-UCBBJE20-2	UCBBJE20-2	J	Bulkhead Jack, 75 Ohm, Circuit Board Edge Mount for .028 - .033 Board Thickness	75	17.87	16.53	15.40
530-UCBBJE20-3	UCBBJE20-3	K	Bulkhead Jack, 75 Ohm, Circuit Board Edge Mount for .084 Board Thickness	75	4.91	4.55	4.41
530-UCBJE20-1	UCBJE20-1	L	Jack, 75 Ohm, Circuit Board Edge Mount, .060-.064"	75	8.68	7.79	7.17
530-UCBJR220	UCBJR220	M	Jack, 75 Ohm, Right Angle, Circuit Board Mount	75	11.82	10.73	9.99
530-UCJ220-026	UCJ220-026	N	Cable Jack, 75 Ohm, Full Crimp, Straight, for AT&T 735 cable	75	21.71	20.28	18.83
Plugs							
530-PL20-3	PL20-3	O	Plug, 50 Ohm, Wrench Crimp, Straight for RG-223 cable	50	13.01	12.57	12.24
530-PL20-5	PL20-5	O	Plug, 50 Ohm, Wrench Crimp, Straight for RG-174 cable	50	31.62	29.18	27.09
530-UPL2000-D1	UPL2000-D1	P	Plug, 75 Ohm, Full Crimp, Straight, for Comm/Scope 7538 cable	75	2.58	2.38	2.31
530-UPL2000-D19	UPL2000-D19	P	Plug, 75 Ohm, Full Crimp, Straight, for Belden 1855A cable	75	2.58	2.38	2.31
530-UPL2000-D2	UPL2000-D2	P	Plug, 75 Ohm, Full Crimp, Straight, for Belden 1505A cable	75	2.58	2.38	2.31
530-UPL2000-D20	UPL2000-D20	P	Plug, 75 Ohm, Full Crimp, Straight, for Belden 1505F cable	75	4.07	3.40	3.31
530-UPL2000-D4	UPL2000-D4	P	Plug, 75 Ohm, Full Crimp, Straight, for Belden 1694A cable	75	2.58	2.38	2.31
530-UPL220-004	UPL220-004	P	Straight Plug for RG179/187 Cable	75	4.83	4.45	4.13
530-UPL220-009	UPL220-009	P	Plug, 75 Ohm, Full Crimp, Straight, for 8218 cable	75	4.83	4.65	4.49
530-UPL220-020	UPL220-020	P	Plug, 75 Ohm, Full Crimp, Straight, for 9248 cable	75	4.83	4.65	4.49
530-UPL220-025	UPL220-025	P	Plug, 75 Ohm, Full Crimp, Straight, for AT&T 734 cable	75	5.83	5.29	5.13
530-UPL220-026	UPL220-026	P	Plug, 75 Ohm, Full Crimp, Straight, for AT&T 735 cable	75	4.83	4.45	4.13
530-UPLR220-025/T50	UPLR220-025/T50	Q	Plug, 75 Ohm, Full Crimp, Right Angle, for AT&T 734 cable	75	16.82	12.09	11.67
530-UPLR220-026	UPLR220-026	Q	Plug, 75 Ohm, Full Crimp, Right Angle, for AT&T 735 cable	75	23.25	21.25	19.74
Terminators							
530-UTNA2000	UTNA2000	R	Termination, 75 Ohm, High Frequency, No Chain	75	28.71	26.44	24.41

MINI BNC CONNECTORS

530-M49142/08-0002	M49142/08-0002	O	Cable Wrench Crimp, QPL, Straight, 3-lug for TRC-50-2 cable	85.70	79.53	73.85
530-M49142/08-0006	M49142/08-0006	O	Cable Wrench Crimp, QPL, Straight, 3-lug for M17/176-00002 cable	87.73	80.31	74.58
530-PL375-13A	PL375-13A	P	Wrench Crimp, Straight, Threaded for 8232 cable	61.99	54.87	53.40

TTM CONNECTORS

For quantities greater than listed, call for quote.

530-PL3155-47	PL3155-47	Q	TTM Cable Plug, Wrench Crimp, Straight, Threaded for M17/176-00002 cable	31.03	28.10	26.17

WECO CONNECTORS

For quantities greater than listed, call for quote.

Jacks						
530-HDVDP	HDVDP	R	Full Size Patch Jack, Non-Terminated	41.86	38.62	35.86
530-HDVDPM	HDVDPM	S	Mini Patch Jack, Normal Through	50.91	46.95	43.23
530-HDVDPMT	HDVDPMT	S	Mini Patch Jack, Normal Through, Self Terminating	65.14	60.16	58.30
Plugs						
530-LPMWHF	LPMWHF	T	Looping Plug, High Frequency	51.20	46.74	43.53
530-LPW-75	LPW-75	T	Standard Looping Plug 50 ohm, Wide Center to Center Spacing	24.11	22.79	21.16
530-PL1MWLT-026	PL1MWLT-026	U	Patch Plug with Locking Tab for WECo 735 Cable	19.45	17.60	16.24

ADAPTERS

For quantities greater than listed, call for quote.

Between Series Adapters						
530-AD1	AD1	V	BNC to RCA Coax Patch Adapter, Straight	44.58	40.66	37.88
530-AD1W	AD1W	W	BNC to WECo Coax Patch Adapter, Straight	33.14	30.27	28.11
530-AD1WHD	AD1WHD	X	BNC to WECo Coax Patch Adapter, Straight, High Definition	21.20	19.59	18.24
530-ADBJ20-E1-BJ79	ADBJ20-E1-BJ79	Y	BNC Male-TRB Male Adapter	63.15	55.98	54.48
530-ADBJ20-E1-PL75	ADBJ20-E1-PL75	Z	BNC Female-TRB Male Adapter Outer Shld	50.53	46.63	43.30
530-ADBJ20-E2-PL75	ADBJ20-E2-PL75	AA	BNC Female-TRB Male Adapter Inner Shld	61.92	57.16	53.07
530-AD1300	AD1300	BB	BNC Jack to F Plug	22.90	21.06	19.55
530-ADBJ77-E1-PL20	ADBJ77-E1-PL20	CC	Adapter, Between Series, BNC Male to TRB Female	55.62	50.29	46.42
530-ADMW12	ADMW12	DD	Mini-WECo Adapter, Patch Plug to 75 ohm BNC	34.70	31.02	30.18
530-J3W	J3W	EE	Standard WECo Patch Jack, 75 Ohm, BNC Interface	18.55	17.39	16.15
In Series Adapters						
530-UAD258	UAD258	FF	Mini-BNC Adapter, 75 Ohm	31.43	29.03	27.04
530-UADRMF220	UADRMF220	GG	BNC Male to Female Adapter, 75 Ohm, Right Angle	19.40	17.84	16.56
530-UCCS-025-026	UCCS-025-026	HH	BNC Adapter, 75 Ohm, In-Line Transition, 734 to 735 Cable	16.99	15.61	14.54
530-AD78	AD78	II	TRB Barrel Adapter, Female to Female	25.84	22.92	22.31
530-ADRMF70	ADRMF70	JJ	TRB Adapter, Male to Female, Right Angle	101.84	92.52	85.41
530-BN73	BN73	KK	TRB 'T' Adapter, 3-lug	108.07	98.72	91.96

BNC RIGHT ANGLE PCB MOUNT DOUBLE JACKS

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Vitelec Part No.	Fig.	Description	Cable	Price Each 1	10	25
530-VBI501	VBI501	A	Dual R/A PCB Jack Captive Posts, Insulated	-	15.32	14.51	13.60
530-VBM501	VBM501	A	Dual R/A PCB Jack Captive Posts	-	19.77	18.45	17.29

BNC SHIELDED PCB MOUNT JACKS

✻ Self Captivating Legs

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Vitelec Part No.	Fig.	Description	Cable	Price Each 1	10	25
530-VBM201	VBM201	B	Right Angle PCB Mount Jack, 50Ohm	-	8.24	7.30	6.84
530-VBM201-75	VBM201-75	B	Right Angle PCB Mount Jack, 75Ohm	-	8.13	7.19	6.73
✻ 530-VBM201C-75	VBM201C-75	B	Right Angle PCB Mount Jack, 75Ohm	-	8.24	7.30	6.84
530-VBM211	VBM211	B	Right Angle PCB Mount Jack, Low Profile, 50Ohm	-	7.30	6.84	6.46
530-VBM221	VBM221	B	R/A PCB Mount Jack, Extra Low Profile, 50Ohm	-	8.57	7.58	6.72
530-VBM211-75	VBM211-75	C	Right Angle PCB Mount Jack, Low Profile, 75Ohm	-	7.30	6.84	6.46
✻ 530-VBM211C-75	VBM211C-75	C	Right Angle PCB Mount Jack, Low Profile, 75Ohm	-	8.24	7.30	6.84
530-VBM301	VBM301	C	Vertical PCB Mount Jack, 50Ohm	-	8.24	7.30	6.84
530-VBM301-75	VBM301-75	C	Vertical PCB Mount Jack, 75Ohm	-	8.24	7.30	6.84

BNC RIGHT ANGLE PCB MOUNT JACKS - ENCLOSED CONTACT

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Vitelec Part No.	Fig.	Description	Cable	Price Each 1	10	25
530-VBM511-1502	VBM511-1502	D	Right Angle Flush Mount Shielded, 50Ohm	-	8.72	7.78	7.17
530-VBM511-75	VBM511-75	D	Right Angle Flush Mount Shielded 75Ohm	-	9.15	8.10	7.60
530-VBM511-75-1502	VBM511-75-1502	D	Right Angle Flush Mount Shielded 75Ohm	-	9.15	8.10	7.60

TWIST ON BNC PLUGS

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Vitelec Part No.	Fig.	Description	Cable	Price Each 1	10	25
530-TOBNC10-59/62	TOBNC10-59/62	E	Twist-On Plug	RG58	5.83	5.16	4.84
530-TOBNC10-58	TOBNC10-58	E	Twist-On Plug	RG59/RG63	6.01	5.33	5.00

FILTERED RIGHT ANGLE BNC JACKS

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Vitelec Part No.	Fig.	Description	Cable	Price Each 1	10	25
530-VBF201	VBF201	F	Filtered Right Angle 50Ohm	-	17.46	15.45	14.49
530-VBF201-75	VBF201-75	F	Filtered Right Angle 75Ohm	-	19.53	17.28	16.20
530-VBF211	VBF211	F	Filtered Right Angle 50Ohm with Posts	-	20.00	17.70	16.59
530-VBF211-75	VBF211-75	F	Filtered Right Angle 75Ohm with Posts	-	20.00	17.70	16.59

BNC TERMINATORS

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Vitelec Part No.	Fig.	Description	Cable	Price Each 1	10	25
530-VBT50	VBT50	G	50Ohm Termination 1/2 watt	-	7.18	6.44	5.93
530-VBT75	VBT75	G	75Ohm Termination 1/2 watt	-	7.39	6.55	6.14

BNC ADAPTERS - IN SERIES

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Vitelec Part No.	Fig.	Description	Cable	Price Each 1	10	25
530-VBA100-1	VBA100-1	H	Bulkhead Jack-Jack	-	7.55	6.69	6.27
530-VBA107	VBA107	I	Plug to Jack R/A	-	9.91	8.76	8.22
530-VBA108	VBA108	J	Plug to Plug	-	8.03	7.10	6.66
530-VBA109	VBA109	K	Plug to Jack to Jack F Style	-	9.91	8.76	8.22
530-VBA109-75	VBA109-75	K	Jack to Jack	-	9.43	8.35	7.82
530-VBA110	VBA110	L	Jack to jack 75Ohm	-	9.91	8.76	8.22
530-VBA111	VBA111	M	Plug to Jack to Jack Goalpost	-	20.22	17.89	16.77
530-VBA112	VBA112	N	Plug to Jack to Jack T	-	16.55	14.65	13.73
530-VBA90-1	VBA90-1	O	Plug to Jack to Jack T, 75Ohm	-	5.03	4.47	4.02
530-VBA90-1-75	VBA90-1-75	O	Jack to Jack to Jack T	-	5.96	5.26	4.94

BNC ACCESSORIES

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Vitelec Part No.	Fig.	Description	Cable	Price Each 1	10	25
530-VBFIM/SET	VBFIM/SET	-	NUT & Washer for VBI/VBM/VBF	-	.51	.45	.423

N TYPE CRIMP PLUGS

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Vitelec Part No.	Fig.	Description	Cable	Price Each 1	10	25
530-VN10-2019	VN10-2019	P	Crimp Plug	RG214	9.21	8.15	7.64

PRECISION TEST CONNECTORS

Features:
- 2.4mm mating interface
- Capable of handling 50 GHz analog signals
- Integrated center pin design
- Unique compression-mount design using two 0-80 UNF screws

PRODUCT NEW

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Molex Part No.	Fig.	Description	Mounting	Price Each 1	10	50	100
538-73387-0020	73387-0020	A	2.4mm Vertical Compression-Mount Jack	SMT	43.76	42.16	41.18	41.18

BNC CONNECTORS

Features:
- Miniature
- Bayonet lock coupling
- Weatherproof

Specifications:
- Frequency Range: dc-4GHz
- Voltage Rating: 500Vrms
- Contact Plating: Gold
- Temperature: -65ºC to +165°C
- Mounting: PCB

BNC PCB Jacks

MOLEX MICRO-COAXIAL RF CONNECTOR

Features:
- Frequency: DC to 6GHz
- Small footprint
- Designed for use with 0.80mm, 1.13mm, and 1.37mm cables

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Molex Part No.	Fig.	Description	Price Each 1	10	100	500

MOLEX MICROCOAXIAL CABLE ASSEMBLIES

Features:
- Low Profile - meets slimmer equipment needs
- Works up to 6GHz - ideal for wireless and GPS applications
- Designed for 0.8mm, 1.13mm, and 1.32mm cable - Variable cable assemblies

Applications:
- Mobile phones, gaming devices, communications
- WiFi, WiFi devices
- WiMAX, WiMax box
- Computer connections
- Computing systems

RoHS Compliant

For quantities greater than listed, call for quote.

TE CONNECTIVITY BNC Connectors

RoHS Compliant **This product is RoHS compliant.**

BNC PLUGS

- Bayonet lock coupling for quick connect/disconnect
- Fully intermateable with comparable BNC UG/U connectors
- Single crimp connectors offer one crimping operation
- UL approved: File No. E81956
- CSA approved: File No. LR 7189

Specifications:
- Center contact plating: Gold

Dielectric: is either polyethylene (PE), polymethylpentene (PM), polypropylene (PP), or TEFLON (T).

✻ Silver Center Contact Plating

TE CONNECTIVITY SMA Connectors

RoHS Compliant **This product is RoHS compliant.**

TE connectivity Authorized Distributor

KOAXXA SMA RF CONNECTORS

TE Connectivity announces its next generation of RF products -- the KOAXXA RF interconnects product family. This new offering from TE premieres today with the launch of the KOAXXA SMA product line.

Features:
- Fully compatible with IEC-169-15 standards
- Designed for 0-18 GHz performance
- Ability to mass customize products
- Global manufacturing footprints
- Large-scale manufacturing techniques
- Designed for fully automated
- 500 cycle mating durability

Applications:
- Test and measurement equipment
- Transmission equipment
- Base station and sub system components
- Smart grid meters
- Antennas
- Broadband communication equipment
- Routers
- Industrial solutions
- Mobile radio handsets
- Commercialized applications in Mil/Aero

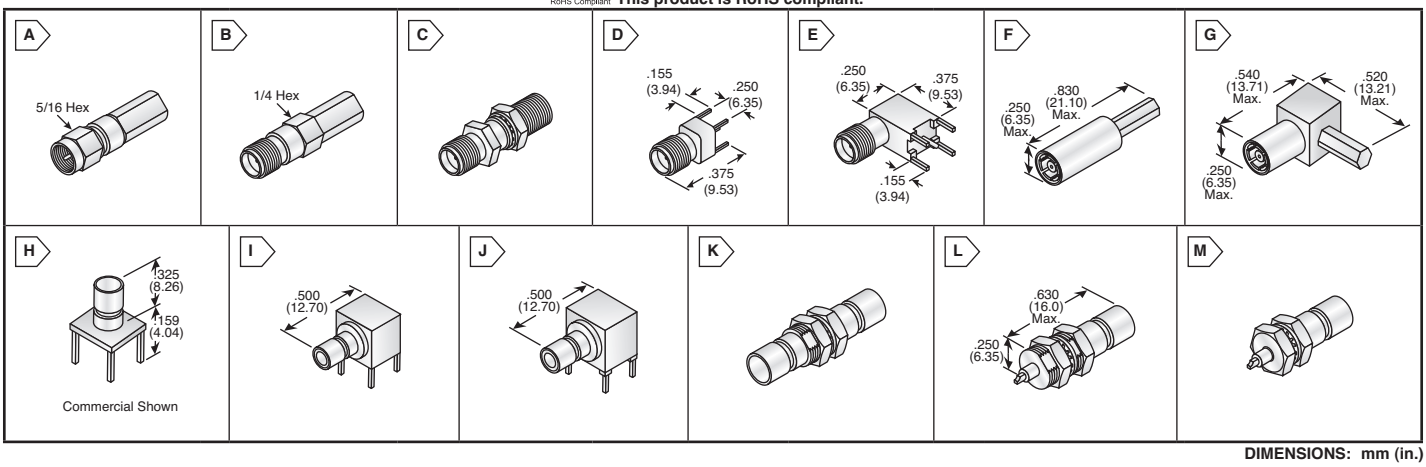
TE CONNECTIVITY SMA and SMB Connectors

RoHS Compliant **This product is RoHS compliant.**

TE connectivity Authorized Distributor



DIMENSIONS: mm (in.)

SMA CONNECTORS

Crimp Connectors

Features:
• Center Contacts • Body Material: Brass • Body Finish: Nickel

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	TE Part No.	Fig.	Description	Cable Type RG/U	Price Each 1	10	25	100
571-5447647-3	5447647-3	A	Plug, Hex Crimp	174, 174A, 188, 188A, 316	5.35	4.60	4.07	3.66

BETWEEN SERIES ADAPTERS

Between Series Coaxial Transmission Line Adapters provide convenient transitions between popular series coaxial connectors. The adapter design provides a minimum length consistent with good electrical performance. The small size, low VSWR, and broad frequency coverage permits a wide range of applications in both measurement and systems use.

For quantities greater than listed, call for quote.

SMA IN-SERIES ADAPTERS

Designed for performance to 18 GHz to satisfy the growing demand for SMA connectors in the wireless communications industry. The SMA product line offers stainless steel bodies, as well as non-ferrous metals. The SMA series meets the performance, quality and application requirements of the commercial marketplace.

For quantities greater than listed, call for quote.

N SERIES CONNECTORS

A medium size connector series for Cellular and PCS Base Stations, telephone, broadcast and high power applications. Its high performance thru 11 GHz and threaded coupling makes it highly suited for critical applications and environments.

For quantities greater than listed, call for quote.

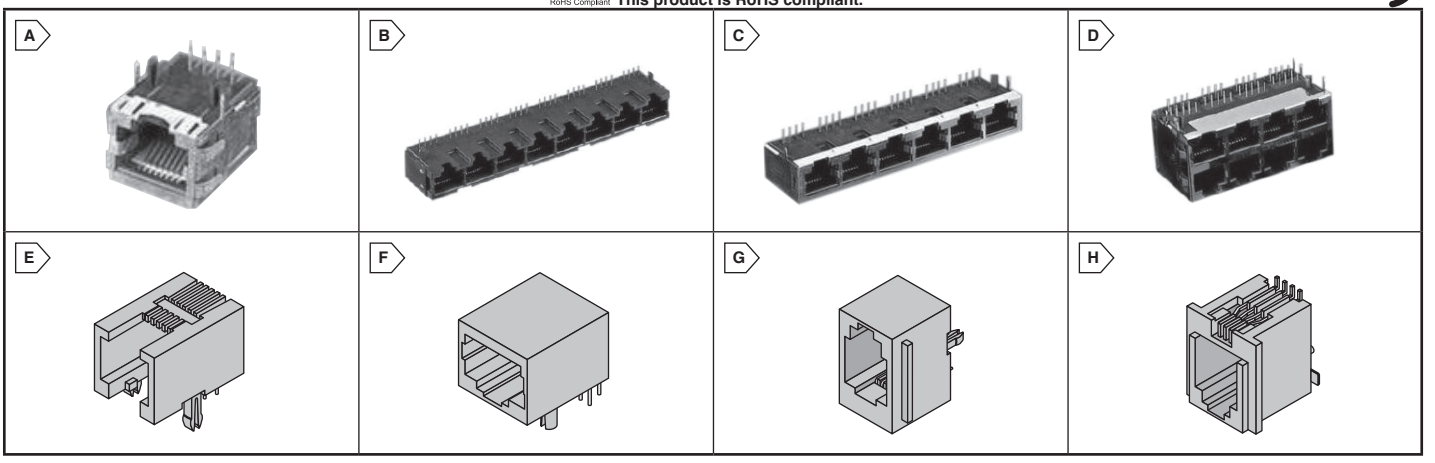
FCI Modular Connectors

RoHS Compliant **This product is RoHS compliant.**



MULTI-PORTS AND SINGLE PORT RJ45 MODULAR JACKS

Features:
- Cat 3 performance category
- 8, 10 positions with 8 contacts
- Shield or non-shielded
- Operating temperature: 0°C- 70°C
- Plating: Gold Flash
- With or without LED
- Shield shell for EMI protection
- Through hole type

NEW PRODUCT

RoHS Compliant

FCI SINGLE PORT, CAT 3 MODULAR JACKS

Features:
- Right angle or Straight
- Through Mount or SMT
- Snap or Diamond peg options
- Standard, raised or low profile versions
- RoHS Compliant per FCI documentation

RoHS Compliant

For quantities greater than listed, call for quote.

HIROSE Modular Connectors

RoHS Compliant **This product is RoHS compliant.**

HIROSE ELECTRIC CO., LTD.

TM SERIES

Features:
- Conforming to FCC standards. The 6-conductor model conforming to RJ-11 standards, the 8-conductor model conforming to RJ-45 and ISO8877 standards.

Applications:
- Telephones, Fax machines, Wireless applications, Modems, Intercoms, Computers, Communication equipment, LAN equipment, Medical equipment, Hubs, ISDN terminals

Foldable Open-Close RJ-45 Modular Jack

Features:
- Foldable open-close structure allows super slim device design
- Reusable flip-top when it comes off
- Optional flip-top hold down chassis design
- Secure grounding structure
- RJ-11 plug mis-insertion prevention

KYCON Modular Jacks

RoHS Compliant **This product is RoHS compliant.**

KYCON

RIGHT ANGLE MODULAR JACKS

- Snap-In board retention tabs
- Housing Material: PBT Thermoplastic, UL94V-0 rated
- Contact Material: Phosphor Bronze
- Current Rating: 1.5 Amps
- Shield Material: Copper Alloy, Nickel plated

✻ Keyed
✻✻ High Temperature Thermoplastic UL94V-0 Rated

- RoHS Compliance per Kycon Documentation
- Insulation Resistance: 500MΩ min.
- Dielectric Withstanding Voltage: 1000VAC for 1 minute
- Contact Resistance: 20 mΩ max.
- Standard Contact Plating: 15μ" Gold over Nickel 50μ" Gold plating available upon request

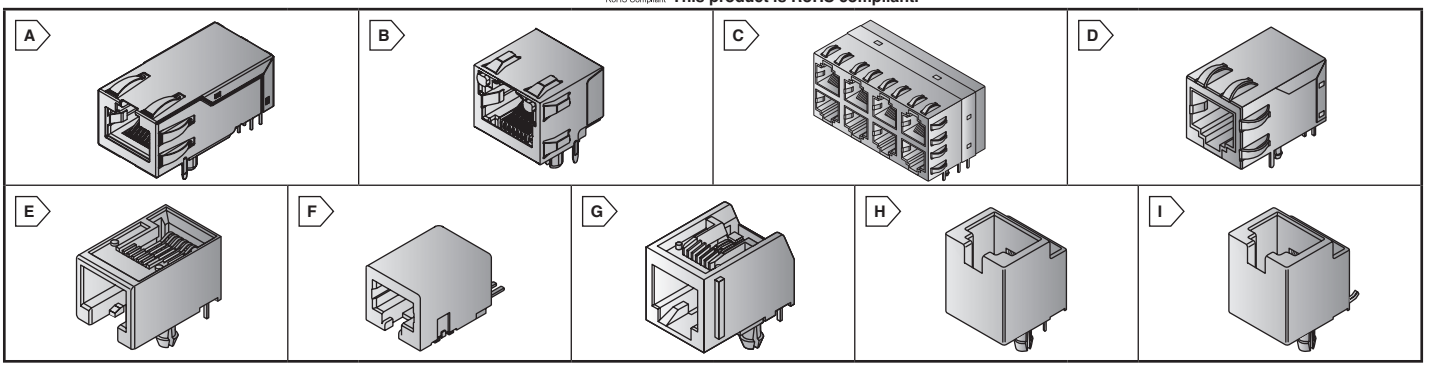
molex
one company > a world of innovation



MAGNETIC RJ45 JACKS

Features:
- IEEE802.3af and IEEE802.3at compliant
- Gigabit magnetics
- Industry standard footprint
- Multiple LED colors including bi-color
- Capable of 10/100/1000Mbit transmission
- Multiple status indicators
- No external transformers required
- Improved EMI performance

VERTICAL MODULAR JACKS

Features:
- Industry compatible
- Foot patterns identical to industry standard jacks
- High reliability, square contact
- Low profile 12.70mm (0.5")

Specifications:
- Voltage: 125V
- Current: 1.5A
- Housing (95003-2xxx): Black Polyester, UL 94V-0
- Housing (95003-6xxx): Black Polyamide, UL 94V-0
- Contact: Phosphor Bronze
- Operating Temperature: -40°C to +80°CV

For quantities greater than listed, call for quote.

TE CONNECTIVITY Modular Jacks

RoHS Compliant **This product is RoHS compliant.**

TE connectivity Authorized Distributor

SINGLE PORT R/A MODULAR JACKS

Specifications:
- Color: Black
- Current Rating: 1.5 amp max.
- Voltage Rating: 150 volts ac max.
- Durability: 750 mating cyclees
- Housing: Through-Hole: Polyester, UL 94V-0 rated
- Housing STM: Polyphenylene Sulfide, UL 94V-0 rated

Features:
- Meets or exceeds FCC Part 68 rules & regulations
- Meets 1000 volt dielectric requirement
- Designed for ease of soldering & board cleaning
- Designed for direct mounting on pc boards
- SMT jacks compatible with vapor phase & IR reflow soldering

Through-Hole, Standard Profile, Solder PCB Termination

For quantities greater than listed, call for quote.

MULTI-PORT/STACKED R/A MODULAR JACKS WITHOUT PANEL STOPS

Specifications:
- Current Rating: 1.5 amp max. @ 25°C
- Voltage Rating: 150 VAC max.
- Durability: 750 mating cycles
- Operating Temperature: -40°C to 70°C
- Standard Housing: Polysulfone, Black UL 94V-0 rated

Features:
- Meets or exceeds FCC Part 68 rules & regulations

Through-Hole, PCB Termination - Solder

For quantities greater than listed, call for quote.

MODULAR TELEPHONE KEYSTONE KITS

These jacks are specially designed to snap into wallplates, panels and undercarpet fittings.

RoHS Compliant

Features:
- Stuffer Cap: Clear polycarbonate
- AMP-BARREL Terminal: Tin plated phosphor bronze
- Label: Adhesive backed polyester
- Contacts: Nickel plated high strength copper alloy having selective gold plating in contact area and selective tin plating in AMP-BARREL terminal area.
- Housing: Black thermoplastic, UL 94V-0
- All Keystone jacks are wired one-to-one

For quantities greater than listed, call for quote.

STANDARD MODULAR PLUGS

Specifications:
- Electrical: Applications- 150VAC max. at 1.5A @ 25°C, derated to .2A @ 70°C
- Durability: 750 mating cycles
- Temperature Rating: -40°C to +60°C
- Housing: Polycarbonate, UL 94V-0
- Terminal: .014 (.36) thick, phosphor bronze; underplated with 100µin Nickel and plated with 50µin Gold in contact region and gold flash on remainder of terminal.
- Terminal No. 1 is the terminal to the extreme left as you face the cable opening, latch tab down.

✻Long Body

Features:
- One-piece construction with preloaded contacts
- FCC and EIA/TIA industry standard size and performance

RoHS Compliant

For quantities greater than listed, call for quote.

"CATEGORY 5e" MODULAR PLUGS - HIGH PERFORMANCE

Features:
- Exceeds EIA/TIA 568B requirements for Category 5e, 4-Pair (RJ45) UTP applications
- Utilizes a load bar for easier cable preparation and termination
- Load bar aids in maintaining 1/2" twist requirements

RoHS Compliant

For quantities greater than listed, call for quote.

IEEE 1394 FIREWIRE RECEPTACLES AND PLUGS

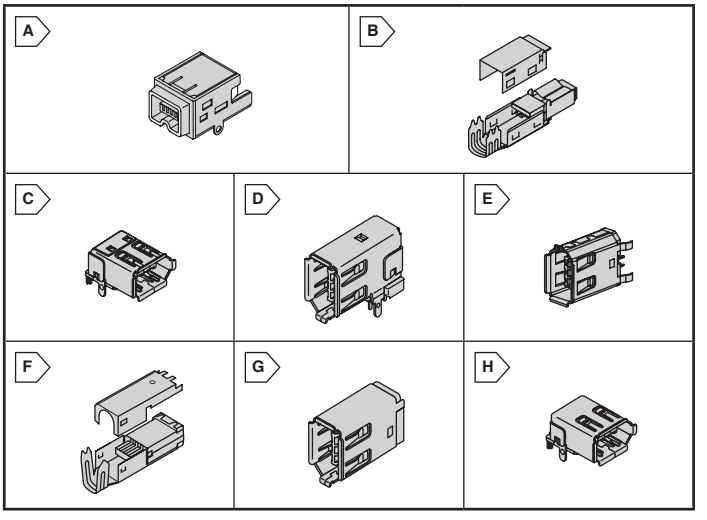
Features:

- The 4-pin and 6-pin I/O connectors are available in both plugs and receptacles
- Receptacles are offered with high temperature plastic for true SMT processing
- Fully shielded metal frame of the receptacle is for ESD protection
- Rugged gold plated terminals withstand up to 1500 mating cycles with less than 30mΩ

RoHS Compliant

Specifications:

- Mating cycles: 1500 cycles minimum
- Contact Resistance: 30mΩ
- Vibration: NO discontinuity at 1 micro-second during 3-axis vibration(Peak 30G Random vibration)
- Withstanding Voltage: 500V DC ±50V DC minimum
- Insulation Resistance: 100MΩ minimum
- Electrostatic Discharge: NO evidence of discharge to any of the 6 positions & the 4 positions



For quantities greater than listed, call for quote.

FCI DENSISHIELD™ I/O SYSTEM

High-Speed Cable Assemblies and Connectors

RoHS Compliant

Features:

- 8-pair connectors can be mounted side by side on 12.5mm pitch enabling multiple I/O ports along a card edge
- Robust strain relief with short cable exit enables close spacing between chassis panel and cabinet door or wall
- Low vertical profile allows use in systems having 15mm pitch card slot spacing
- Crimp ferrule system reliably terminates EMC shield of cable to connector covers
- Signal ground is isolated from EMC ground
- RoHS compliant per FCI documentation

Specifications:

- Contacts: Copper alloy
- Insulators: High-temperature thermoplastic
- Shells: Die-cast zinc and copper alloy strip, tin plated
- Ground springs: Stainless steel
- Lock screw: Stainless steel
- Cable: LSZH (Low Smoke Zero Halogen) fully-shielded, 8 differential pairs

KYCON I/O Connectors

RoHS Compliant **This product is RoHS compliant.**

KYCON USB 3.0 CONNECTORS

Features:

- PCB Mount and Surface Mount Available
- Compatible With Many Computer Peripherals
- A and B Types Available
- Supports Hot Plugging
- Contact Area with Gold Plating
- CSA/NRTL Certified File No. LR78160
- Blue Insulator

Specifications:

- Rated Voltage: 30V AC (rms)
- Contact Current Rating: 1 Amp max.
- Contact Resistance: 30 Milliohms max.
- Insulation Resistance: 1000 Megohms min.
- Dielectric Withstanding Voltage: 750V AC
- Operating Temperature: -25˚C to +80˚C

RoHS Compliant

For quantities greater than listed, call for quote.

KYCON MICRO USB 3.0 CONNECTORS

Features:

- Also known as SuperSpeed USB
- More compact footprint than the mini-USB
- Meets the USB-IF 3.0 Specification
- Stainless steel shell, which yields 10,000 insertion cycles
- Used in portable devices such as Mobile phones, PDAs, and digital cameras

Specifications:

- Rated Current: 1.8A(only Pin 1,5); 0.25A for other Pins
- Insulation Resistance: 100 mohms min.
- Contact Resistance: 50 mohms max.
- Dielectric Withstanding Voltage: 100V AC for 1 min.
- Operating Temperature: -40°C to +85°C

RoHS Compliant

For quantities greater than listed, call for quote.

KYCON 4P MINI IEEE 1394 CONNECTORS

Features:

- Insulator: PBT thermoplastic, black, UL94V-0 rated
- Shell: Stainless steel, tin plating
- Dielectric withstanding voltage: 750VAC for 1 min.
- RoHS Compliance per Kycon Documentation
- Rated up to 400Mbps
- Contacts: Phosphor bronze, 30µ " gold plating
- Insertion force: 2kg max.
- Capacitance: 2pF max.
- Withdrawal force: 0.5kg min.
- Voltage rating: 30VAC

RoHS Compliant

For quantities greater than listed, call for quote.

KYCON USB Connectors

RoHS Compliant **This product is RoHS compliant.**

RIGHT ANGLE USB SOCKET CONNECTORS

KUSB Series - Meets USB 1.1 and 2.0 Specifications

- Insulator: PCB version: PBT Thermoplastic, UL94V-0 rated
- Contacts: Phosphor Bronze
- RoHS Compliance per Kycon Documentation
- Contact Plating: Gold over Nickel on contacts
- Operating Temperature: -25°C to +80°C
- Contact Resistance: 15 Milliohms max.
- Shell: Phosphor Bronze

* High Temperature Thermoplastic UL94V-0 Rated

RoHS Compliant

For quantities greater than listed, call for quote.

VERTICAL SLIM PROFILE USB SOCKET CONNECTORS

KUSB SL Series - Meets USB 1.1 and 2.0 Specifications

- Contact Resistance: 30mΩ max.
- Operating Temperature: -55°C to +80°C
- Contacts: Phosphor Bronze
- RoHS Compliance per Kycon Documentation
- Contact Plating: Gold over Nickel on contacts
- Shell: Copper Alloy
- Insulator: PBT Thermoplastic
- PCB Mount
- Slim Profile

RoHS Compliant

For quantities greater than listed, call for quote.

LOW PROFILE RIGHT ANGLE USB SOCKET CONNECTORS

KUSBL Series - Meets USB 1.1 and 2.0 Specifications

- Insulator: HTN Thermoplastic, UL94V-0 rated
- Operating Temperature: -55°C to +80°C
- Low Profile
- Contact Plating: Gold over Nickel on contacts
- Shield: Copper, Nickel plated
- RoHS Compliance per Kycon Documentation
- Contact Resistance: 30mΩ max.
- Contacts: Phosphor Bronze

* High Temperature Thermoplastic UL94V-0 Rated

RoHS Compliant

For quantities greater than listed, call for quote.

SURFACE MOUNT TYPE A USB PLUG CONNECTORS

KUSB-SMT2 Series

* High Temperature Thermoplastic UL94V-0 Rated

- Insulator: PA6T Thermoplastic, UL94V-0 rated
- 4 Pin Type A plug
- Contacts: Phosphor Bronze
- Designed for use in Dongles and Adapters
- Operating Temperature: -55°C to +80°C
- RoHS Compliance per Kycon Documentation
- Contact Resistance: 30mΩ max.
- Shield: Copper, Nickel plated (shielded)

RoHS Compliant

NEUTRIK OpticalCon®, EtherCon®, & Multimedia Adapters

RoHS Compliant **This product is RoHS compliant.**

ETHERCON® CAT6 CONNECTORS

- Shielded system with Push Pull mating
- IDC termination without tool
- Ground lead jumper on panel connector with selectable grounding option
- Rated Current: 1.5A
- Number of contacts: 8
- Contact surface: Gold
- CAT6 specifications per TIA/EIA568B, ISO/IEC 11801, EN 50173

For quantities greater than listed, call for quote.

ETHERCON® SERIES - RJ45 RECEPTACLES AND ACCESSORIES

- Rated Current: 1.5A
- Flammability: UL94V-0
- Category 5e
- Material Temperature Range: -30°C to +80°C
- Number of Contacts: 8
- Frequency Bandwidth: 1-100MHz
- Female chassis connectors are based on the current NEUTRIK® A, B & D Series of XLR receptacle
- Color coding available for both the cable carrier and receptacles for ease of identification

For quantities greater than listed, call for quote.

HDMI / USB / FIREWIRE MULTIMEDIA ADAPTERS

- HDMI 1.3 adapter features a 19-pole HDMI connector at each end
- Reversible USB gender changer type A-B
- Firewire feedthrough with 6-pole receptacle at both ends
- Optional screen to chassis grounding
- HDMI Adapter transmits any digital TV and PC video format including high-definition video (HDTV)
- Ideal for audio networking & integration of digital equipment into audio systems
- Universally accepted standard D-shape housing

For quantities greater than listed, call for quote.

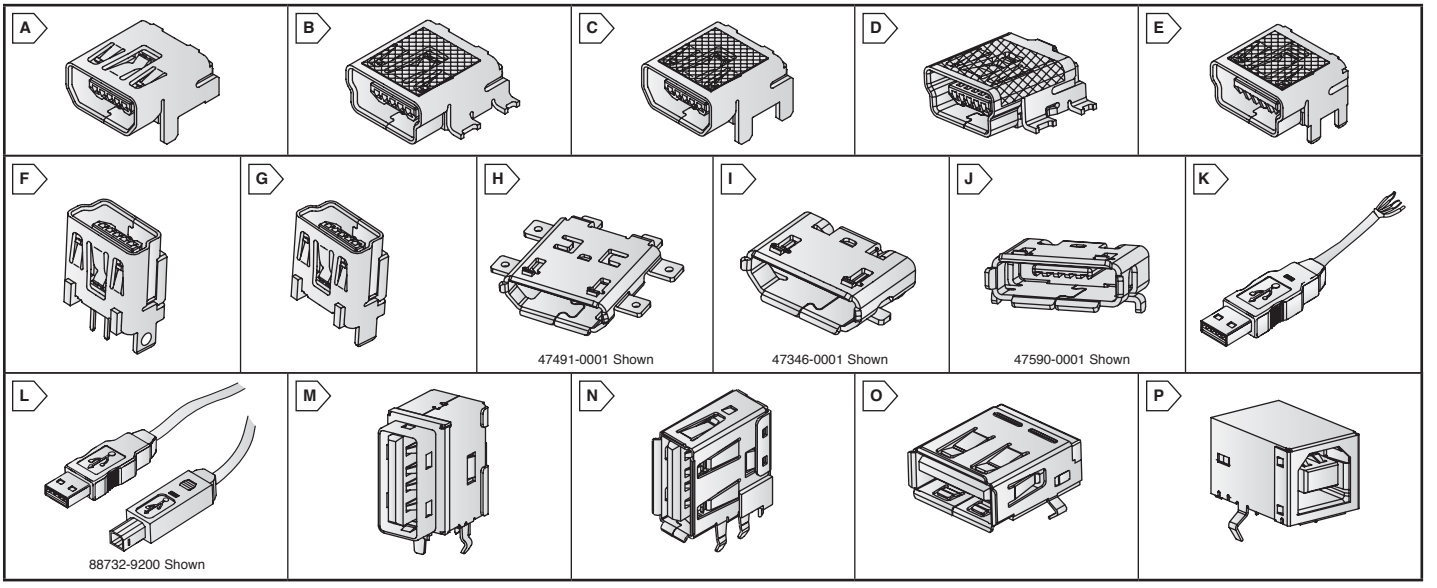
MOLEX USB Connectors and Cable Assemblies

molex
one company > a world of innovation



USB ON-THE-GO (OTG) CONNECTORS AND CABLE ASSEMBLIES

Molex's new USB On-The-Go (OTG) connectors and cable assemblies help enable mobile devices such as digital cameras, PDAs, audio players, printers and cellular phones to exchange data directly without the need for a host PC. All Molex OTG connectors are compatible with the On-The-Go supplement (Rev. 1.0) to the USB 2.0 specification. Along with enabling mobile products to communicate with one another, OTG also enables mobile products to become "dual-role" devices, serving as either host or peripheral.

Features:
- Compact size for space savings
- Operates at speeds up to 480Mbps
- Fully shielded for EMI/RFI protection
- 5000 cycles for rugged durability

Specifications:
- Current: 1.0A
- Voltage Rating: 30V/Micro: 100VAC (RMS)
- Operating Temperature: 0°C to +50°C

RoHS Compliant

USB TYPE "A" AND "B" RECEPTACLES

The basic characteristics of all "A" and "B" receptacles are: having a metal shell to provide for excellent EMI/RFI protection, PCB hold-downs meet specifications of an electrical rating of 1.0 Amp per contact and are designed to endure at least 1,500 mating cycles.

For quantities greater than listed, call for quote.

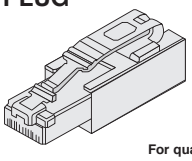
3M™ I/O Connectors

RoHS Compliant This page of product is compliant.

3R108 SERIES INDUSTRIAL RJ45 MODULAR PLUG



Specifications:
- Current Rating: 0.5 Amps
- Voltage Rating: 24V(AC/DC)
- Temperature Rating: -40°C to 70°C
- Solid Wire: AWG 24
- Stranded Wire: AWG 24-26 (7 wires)
- UL94V-0

NEW PRODUCT

For quantities greater than listed, call for quote.

2.0MM I/O INTERCONNECT SYSTEM FOR IEEE1394

Features:
- Up to 6 Amps per connector: 6 contacts can carry signal or power (up to 1 ampere per pin)
- 360° Shielding for excellent EMI protection
- Polarized to provide proper insertion
- RoHS Compliant per 3M documentation

Specifications:
- Current Rating: 1A per pin
- Voltage Rating: 150V (AC)/200V (DC)
- Insulation Resistance: > 5 x 108Ω at @ 500V (DC)
- Withstanding Voltage: 500V RMS for 1 minute
- Temperature Rating: -55°C to +85°C
- Vibration resistant

For quantities greater than listed, call for quote.

MINI CAMERA LINK™ (SDR) CONNECTORS 0.80mm Receptacles

Features:
- Wiper on wiper contact for reliable repetitive mating
- Ground lock for reliable PCB retention
- Full metal face for better EMI shielding effectiveness
- On-board jacksockets maintains a secure connection
- RoHS Compliant per 3M documentation

Specifications:
- 30µ" Gold Plating
- Color: Black
- Contact Material: Phosphor Bronze
- Current Rating: 0.5A
- Temperature Rating: -40°C to +70°C

For quantities greater than listed, call for quote.

MINI SERIAL ATTACHED SCSI (MINISAS) CABLE ASSEMBLIES

Features:
- Exceeds the 6Gbps performance standard designated by SAS 2.0 requirements
- Bends in multiple locations with a bend radius as low as 1 mm and still meet SAS 2.0 performance criteria
- Available with or without sidebands
- Available with silver or tin plated signal conductors and solid polyolefin dielectric
- RoHS compliant and halogen-free

HIROSE Micro-USB Connectors and Assemblies

HIROSE ELECTRIC CO., LTD.

RoHS Compliant **This product is RoHS compliant.**

MICRO-USB 3.0 CONNECTORS

Features:
- Data transmission feeds to 5Gbps
- Stainless Steel shield
- 1A current rating, current capacity increase to 900mA
- 10,000 mating cycles
- 30Vac voltage rating
- Backward compatible with micro USB 2.0

Applications:
- Small handheld devices:
  - Medical equipment
  - Measuring equipment
  - MP3 player
  - Notebooks

RoHS Compliant

For quantities greater than listed, call for quote.

MICRO-USB CONNECTORS

Features:
- USB 2.0 Hi-speed (480Mbps)
- Space saving compact size
- Various Plug and Receptacle styles

Specifications:
- Mating Cycles: 10,000
- Contact Plating: Selective Gold
- Current: 1.0A

Applications:
- Mobile Phones
- Digital Cameras
- Portable Music Players

RoHS Compliant

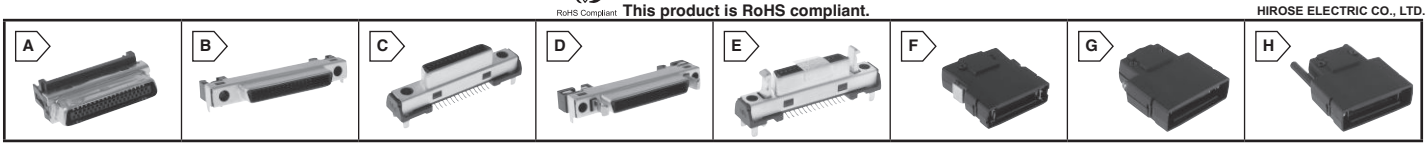
HIROSE I/O Connectors

RoHS Compliant **This product is RoHS compliant.**

HIROSE ELECTRIC CO., LTD.



HIROSE DH SERIES - 1MM PITCH SMALL INTERFACE CONNECTORS

Features:

- Support 205Gbps. high-speed transmission interface connector
- Drawn D-Shaped opening and secure lock with screw lock/one touch lock
- Unique contact arrangement for IDC termination
- Excellent shielding for EMI prevention
- High speed cable is applicable (AWG#28, insulator outer diameter: 0.9+/-0.04 mm max)

For quantities greater than listed, call for quote.

HIROSE 3800 SERIES - HIGH DURABILITY ROBUST INTERFACE CONNECTORS

Features:

- 20,000 times mechanical operation with unique contact structure
- Robust structure with 0.35mm thick metal shell covering the housing
- Small size and light weight
- Clear tactile click
- Mating sequence structure (Sequence range: 0.5mm)
- Simplified cable plug assembly with one-piece hood

For quantities greater than listed, call for quote.

HIROSE ST SERIES - EXTERNAL INPUT/OUTPUT CONNECTORS

Features:

- Strong locking mechanism
- Prevention against reversed or angle insertion
- Small size and low profile
- EMI protection

Specifications:

- Current Rating: 0.5A
- Voltage Rating: 100V AC
- Operating Temperature Range: -30°C to +80°C

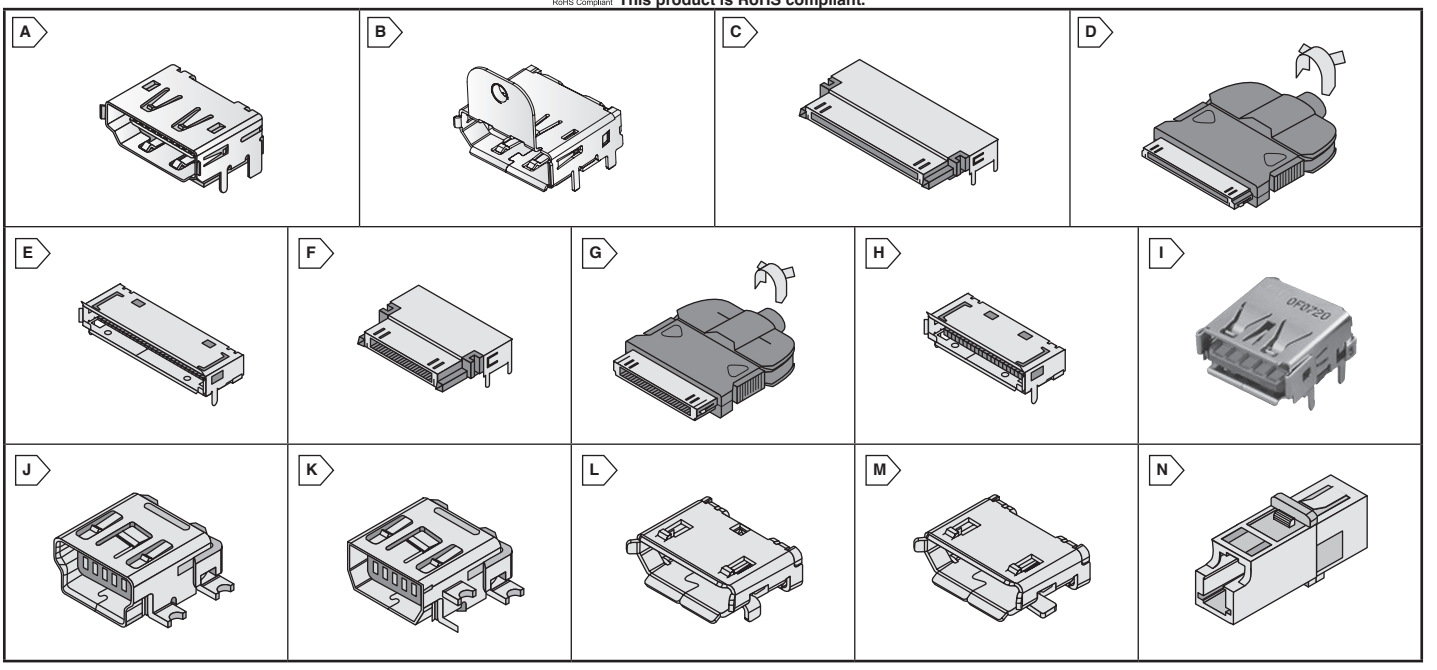
JAE I/O, USB and Fiber Connectors

Technology to Inspire Innovation

JAE

RoHS Compliant **This product is RoHS compliant.**



DISPLAYPORT™ CONNECTORS DP1 SERIES

- No. of Contacts: 20 Position
- SMT Right Angle mounting
- Mating Cycles: 10,000
- Rated Current: 0.5A per contact
- Applicable Cable: Twinax Cable (32 or 30AWG)
- Operating temperature: -20°C to +85°C
- Compatible with Display Port V1.1a per VESA Standard)
- RoHS Compliance per JAE Documentation

RoHS Compliant

For quantities greater than listed, call for quote.

0.50MM INTERFACE CONNECTORS DD1 AND DD2 SERIES

- Conforms to USB2.0 Standard
- Secure ground connection for EMI prevention
- Receptacle: Live insertion
- RoHS Compliance per JAE documentation
- Initial Contact Resistance: 50mΩ Max.
- Rated Current: for signal 0.5A, for power 1.0A

RoHS Compliant

For quantities greater than listed, call for quote.

3.0 USB CONNECTORS PC2 SERIES

- Compatible with USB3.0 Type A, and enables 10 times faster transmission compared to USB2.0
- Backward compatible with both USB2.0 and USB1.1
- The industry's smallest-in-class mounting space
- EMI characteristics and board soldering strength are enhanced by the 4 hold-downs, twice that of typical products

MOLEX Antennas and I/O Connectors

RoHS Compliant **This product is RoHS compliant.**

2.4/5 GHZ STANDALONE ANTENNAS

Features:

- Ground-plane-independent design significantly reduces costs and engineering resources needed to tune and optimize ground-plane-dependent antennas
- High-radiation efficiency 34.9 by 9.00mm (1.37 by 0.34") version antenna offers Total Efficiency values of 75% minimum in the 2.4GHz band and 60% minimum in the 5GHz band
- Higher radiation efficiency 35.9 by 15.90mm (1.41 by 0.61") version antenna offers Total Efficiency values of 80% minimum in the 2.4GHz band and 70% minimum in the 5GHz band
- Poly-flexible, double-sided adhesive tape on antenna enables easy peel-and-stick mounting anywhere within the device casing

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Molex Part No.	Fig.	Description	Flexi-Antenna Dim. (mm)	Cable Length (mm)	Price Each 1	10	25	50

2.4GHZ SURFACE MOUNT DEVICE ON-GROUND ANTENNA

Features:

- Valuable PCB real estate savings on both sides of the PCB with the use of this miniature antenna
- No removal of ground layers from beneath the antenna is needed
- Consistent antenna RF performance with the application of Laser Direct Structuring (LDS) - a technology known for its excellent precision, performance and repeatability
- The high-temperature base material and the metal plating technology employed allows the antenna to endure reflow temperatures - an ideal condition for a standard SMT process
- The product is halogen-free and RoHS-compliant

Electrical:

- RF Power (Watt): 2
- Frequency (MHz): 2400 to 2483.5
- Return Loss - S11 (dB): < -9
- Average Total Efficiency (%): > 70s
- Peak Gain (dBi): 3.0
- Polarization: Linear
- Input Impedance (Ohms): 50

For quantities greater than listed, call for quote.

0.80MM ULTRA+™ VHDCI CONNECTOR SYSTEM

Molex's Ultra+™ VHDCI (Very High Density Cable Interconnect) connector system is a leader among the next generation of high-density I/O interconnects. These connectors are designed for high performance memory transfer applications supporting the latest SCSI-style interfaces. They offer greatly increased density compared to existing SCSI connector styles. They are also suited for other high density I/O needs.

Features:

- Blade on beam, bullet nose lead-in
- Meets EIA, ANSI/SFF-8441 & SPI-4
- Shielded
- RoHS Compliant per Molex documentation

Applications:

- Mainframes
- File servers
- RAID (Redundant Arrays of Inexpensive Disks)
- Tape and disk drives

For quantities greater than listed, call for quote.

HANDYLINK™ CONNECTORS

Molex's new 0.80mm (.031") pitch HandyLink™ product family of connectors, cable assemblies and accessories offers a perfect solution to any hand-held device, design, or application. The HandyLink™ family includes a right-angle SMT receptacle, a wire and PCB version of the plug, and a perpendicular or parallel mounted cradle connectors for docking applications.

Features:

- USB 2.0 compatible with speeds up to 622Mbs
- Low profile receptacle: 3.5mm height and 21.00mm width
- Plugs feature first mate last break pins (2 and 16)
- Plugs in both wire and PCB versions
- 20,000 mating cycles
- 1.5 amps continuous per pin (up to 3 amps)
- RoHS Compliant per Molex documentation

Applications:

- Hand held consumer devices
- Retail scanners and bar code readers
- Portable music equipment
- Mobile computing
- Navigation and GPS
- PDAs
- Cellular telephones

MOLEX HDMI, Displayport™ and DVI Connectors

molex one company > a world of innovation

RoHS Compliant **This product is RoHS compliant.**

HDMI CONNECTORS AND CABLE ASSEMBLIES

Molex's new HDMI (High Definition Multimedia Interface) connectors and cable assemblies provide an uncompressed digital link between consumer electronics equipment such as DVD players, set-top boxes and audio/video monitors such as plasma display screens for high-definition TVs. HDMI is a small, user-friendly interconnect that provides up to 5Gbps of bandwidth to support high-definition video plus multi-channel audio in a single cable.

Receptacles

DISPLAYPORT™ CONNECTORS AND CABLE ASSEMBLIES

Features:

- Color: Black
- EMI Shielding
- Latches available
- Meets DisplayPort specification 1.0
- Supports up to 2.7Gbps transfer rate
- Detent locks
- Polarized
- Small footprint

For quantities greater than listed, call for quote.

MICROCROSS DVI (DIGITAL VISUAL INTERFACE) CONNECTOR SYSTEM

Headers

Features:

- Supports digital signals
- Plug and play interface
- LHF contact design is rugged and reliable
- Panel mount
- DDWG DVI standard interface
- Supports 4.95Gbps over a single link and 9.9Gbps performance over a dual link implementation
- Through hole, PCB

Specifications:

- Rating: UL94V-0
- Voltage: 40V
- Current: 3.0A
- Housing: Thermoplastic, glass filled

For quantities greater than listed, call for quote.

FCI SATA, E-SATA, HDMI and USB Connectors

RoHS Compliant **This product is RoHS compliant.**

SERIAL ATA (SATA) COMBO RECEPTACLES

Specifications:

- High density serial data transmission at 1.5 to 3.0Gb/sec.
- Compliant with SATA 1.0a standard
- Signal and power combined device I/O
- 2 differential pairs signal (7 pins)
- 3 different voltage levels of power (15 pins)
- Combined signal/power receptacle for direct device plug-up
- Guide pegs for blind mate
- First-Make-Last-Break for hot plugging capability
- No. of Positions: 22
- Temperature Range: 260°C max for 10 seconds
- Color: Black
- Contact Material: Cu Alloy
- Contact Resistance: 15mΩ max.
- Current Rating: 1.5A @ 30°C
- Voltage Rating: 500VAC
- Durability: 500 Mating Cycles
- Housing Material: Thermoplastic UL94V-0
- Insulation Resistance: 1000MΩ min.
- RoHS Compliant per FCI documentation

RoHS Compliant

E-SATA CONNECTORS

Features:

- Compliant with eSATA requirements in Serial ATA Specification
- Supports Gen 1 (1.5Gb/s) and Gen 2 (3Gb/s) data rates
- Provide external data backup and protection at up to 3Gb/s data transfer rate

Specifications:

- Housing Material: Glass filled LCP (UL94 V-0), Black
- Current rating: 1.5A per contact

RoHS Compliant

For quantities greater than listed, call for quote.

HDMI CONNECTORS

- Type A receptacle meets HDMI spec1.1
- Metal shield for better EMI
- Speed to 5Gbps uncompressed single transmit rate
- Backward compatible with DVI
- Low impedance mismatch
- No. of Positions: 19
- Contact Base Material: Copper alloy
- Contact Resistance: 30Ω max.
- Voltage Rating: 40VAC max.
- Durability: 10,000 mating cycles
- Housing Material: High-temp resin
- Insulation Resistance: 100MΩ
- Withstanding Voltage: 500VAC
- Color: Black
- Operating Temperature: -55°C to +85°C
- Solder Tail Plating: Pure Sn
- Recommended PCB thickness: 1.6mm
- Contact Current Rating: 0.5A min.
- RoHS Compliant per FCI documentation

0.6MM CL HIGH SPEED CHAMP DOCKING CONNECTORS

NEW! TECHNOLOGY

Features:
- Strong sense of contacting from the side latches when pushing/pulling
- Signal/ground to conform EMI prevention
- Mis-insertion prevented and guide rail equipped for mating
- USB 3.0, HDMI, and display port compliance
- Guaranteed 10,000 plug-ins

Applications:
- Tablet PC
- Laptop PC
- MID (Mobile Internet Devices)
- Converged mobile phone

For quantities greater than listed, call for quote.

LCD COAXIAL EMBEDDED DISPLAY INTERFACE (LCEDI) CONNECTORS

TE Connectivity offers the next generation LCD Coaxial Embedded Display Interface (LCEDI) family of connectors designed to provide exceptional electrical performance in both low-voltage differential signaling (LVDS) and embedded DisplayPort (eDP) applications.

Features:
- Ultra-low profile mating configuration
- Compatible and intermateable with I-PEX CABLINE-VS connector series

Applications:
- Slim LED Backlight LCD Panel
- Notebook PC Applications

For quantities greater than listed, call for quote.

TE DISPLAY PORT CONNECTORS

Features:
- Future foundation for new display usages featuring higher color depths, display resolutions and fresh rates
- User-friendly and cost effective
- Smaller footprint takes up less PCB space yet provides scalable performance in terms of resolution
- Reduces numbers of wires required
- Supports embedded clock
- Superior shielding against EMI
- Replace DVI & VGA interfaces
- Optional latching feature prevents longer cables from detaching

Applications:
- PCs
- External display interconnects
- DVD players
- Game consoles
- Mobile Devices
- Personal Video records
- Optical disc players

For quantities greater than listed, call for quote.

USB 3.0 RECEPTACLES

Features:
- Minimizes user wait-time
- Backward compatible with USB 2.0 connector
- Minimize connector form factor variations
- Comprehend ease-of-use aspects
- Optimized power efficiency
- Plug and Play capacity

Applications:
- Desktop and Laptop Computers
- Camera
- Digital Audio
- High-volume Storage Devices
- Scanners
- Game ports
- GPS Devices
- MP3 Players
- High definition A/V equipment
- Keyboards/Mice/Joysticks

USB RECEPTACLES

Features:
- Consolidates serial parallel, keyboards, mice and game ports
- Compatible with asynchronous and isochronous data transfer methods
- Polarized for proper orientation
- Plug and Play capability
- Hot pluggable, permitting attaching or detaching peripherals without power down or reboot
- Allows for charging

Applications:
- Desktop and Laptop Computers
- Game Ports
- Digital Audio
- Modems
- Portable Storage Devices
- Cell Phones
- GPS Devices
- MP3 Players

conxall® DATA-CON-X: SEALED MINI-USB

Data-Con-X connectors from Conxall provide a great way to seal and standardize all of your data connections. These field installable sealed mini-USB connectors are sealed to a level of IP-68. They are also made from a UV resistant thermoplastic in order to reduce the affects of sunlight on the assembly.

Features:
- Sealed to IP67 & IP68 NEMA 250 (6P)
- Feed through, PC Tail or solder terminals for easy field installation
- Quick connect bayonet style interface

Applications:
- Any sealed data transmission
- Military or industrial GPS location devices
- Medical data carts

molex VERSABEAM™ POD CABLE ASSEMBLIES

- Innovative perpendicular mating interface with Avago Technologies' parallel optical modules
- Meets the rigorous GR-1435 specifications for environmental testing required by telecom customers
- 12-Fiber, 1.80mm jacketed round and bare-ribbon-fiber assemblies available
- Variety of cable options provides design flexibility
- VersaBeam POD terminations can be aggregated to 24-, 48- and 72-fiber MT ferrules so that high-density connections can be achieved with Molex HBMT™, Array and Circular MT connectors
- Laser-cleaved collimated, expanded-beam ferrule interface provides excellent optical performance without the time consuming fiber polishing, cleaning and inspection requirements

- CFP Multi Source Agreement (MSA) compliant
- Compatible with exsiting module
- (Infiniband: QDE/FDR/EDR)
- 32 Gbps/channel, 128Gbps (4ch)
- Pin count: 38
- RoHS compliant

For quantities greater than listed, call for quote.

Patch Antennas and ESD/EMI Filtered USB Connectors

RoHS Compliant **This product is RoHS compliant.**

PATCH ANTENNAS

Features:
- Temperature stable (-40°C to +105°C)
- Low return loss
- Uniform dielectric constant
- Offset single-point feeding method

Specifications:
- Silver plated electrode and probe
- 50 Ohm impedance
- Surface Mount
- RoHS Compliant per Spectrum ASP documentation

Patch Antenna Assemblies

For quantities greater than listed, call for quote.

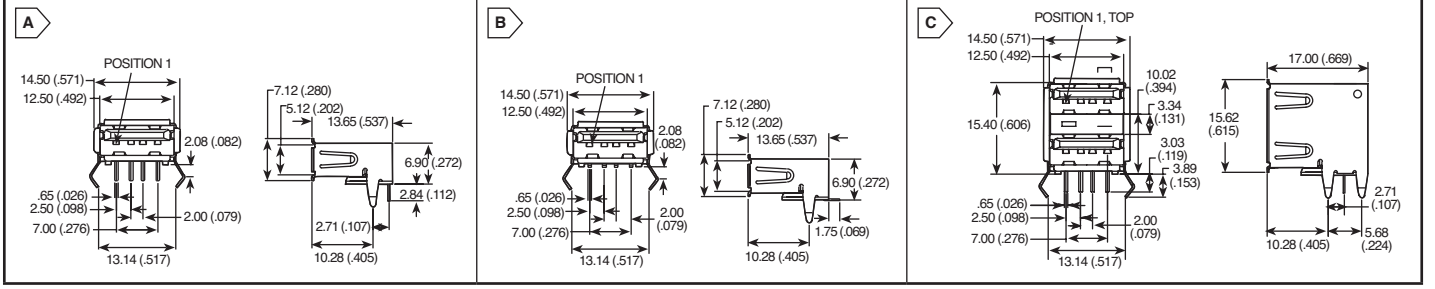
SERIES USB-E ESD PROTECTED USB CONNECTORS

DIMENSIONS: mm (in.)



Features:
- TVS diodes for protection
- Clamping Voltage 9.8 volts
- Junction capacitance I/O to GND<10pF max.
- Product meets EN6100-4-2 EDS & EN61000-4-4 EFT specs
- Drop-in replacement for unfiltered USB connectors
- RoHS Compliant per Spectrum ASP Documentation

Specifications:
- Working Voltage: 5VDC
- Current Rating: 1 Amp max.
- Operating Temp: -55°C to +125°C
- Temperature Range: -40°C to +71°C
- Contact Resistance: 30mΩ max.

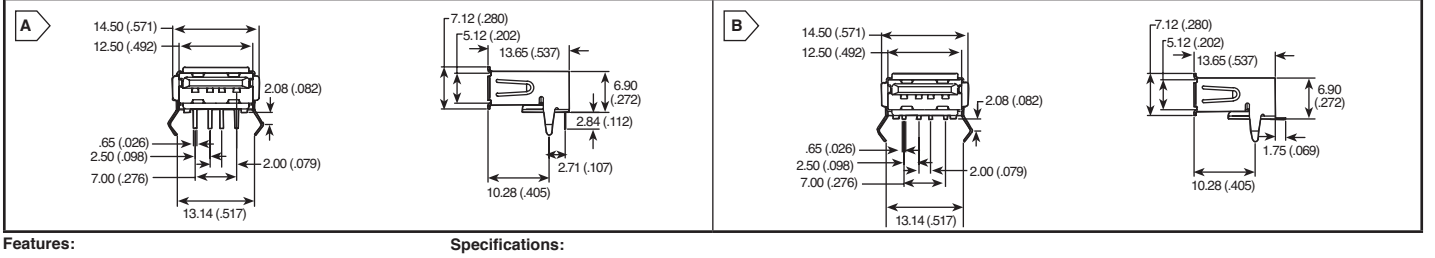
SERIES USB-F EMI FILTERED USB CONNECTORS

DIMENSIONS: mm (in.)



Features:
- USB 1.1 capacitive filtering 100pF
- Drop-in replacement for unfiltered USB connectors
- **Capacitive Filtered:** Capacitance - 100pF, Dielectric Withstand Voltage - 125vDC
- Right Angle
- RoHS Compliant per Spectrum ASP documentation

Specifications:
- Working Voltage: 5VDC
- Current Rating: 1 Amp max.
- Operating Temp: -55°C to +125°C
- Temperature Range: -40°C to +71°C
- Contact Resistance: 30mΩ max.

For quantities greater than listed, call for quote.

RoHS Compliant **This product is RoHS compliant.**

USB 3.0

Type A and B Features:
- Fully compliant with USB 2.0 and 3.0 specifications
- Provides the interface for Super Speed up to 5Gbps data rate
- Backwards compatible with USB 2.0
- 5 metal friction lock grounding fingers and polarization plastic design ensure plug retention
- Full metal shielding for EMI/RFI/ESD protection
- High temperature plastic for SMT process and Halogen Free solution
- High Durability class: 5000 cycles min.

Micro B Features:
- Provides the interface for Super Speed up to 5 Gbps data rate
- Stable signal transmission
- Greater real estate space savings
- Reliable Co-planarity within a 0.08mm
- Durability: 10,000 Cycles min.
- High temperature plastic for SMT process and Halogen Free solution

Applications:
- TV/LCD Monitor
- PC/Laptops
- Notebooks
- Printers
- DSC
- Portable Devices

For quantities greater than listed, call for quote.

ExpressPort™ SFP+

These High speed I/O interconnect systems provide a higher speed, inexpensive external I/O product. This design minimizes impedance discontinuities and reflections at high data rates, and provides a 10-20dB improvement in Near-End Crosstalk, allowing the use of longer copper cables, improved PCB mounting and resulting in an overall lower interconnect budget.

Applications:
- Routers
- Switches
- Storage Applications
- Media Converters

Features:
- Meets SFF-8432 and SFF-8433 standards
- Compliant pin press-fit tails
- 10+Gbps serial data transmission
- 250 mating cycles

For quantities greater than listed, call for quote.

SMALL FORM FACTOR PLUGGABLE (SFP)

Amphenol's SFP series is a 20 position connector and cage combo for mounting to a host PCB with a metal cage enclsing the connector. The connectors are similar to GBIC, but are smaller in size and operate at much faster data transfer rates. Single port version is rated up to 4.125 Gbps data rates and stacked versions are rated up to 8Gbps. The cages are a one-piece construction with enhanced transceiver mating tabs availabe in press-fit version.

Applications:
- Servers
- Storage Devices
- Routers
- Switches
- Optical Devices
- Network Devices

INFINITY INFINIBAND™

Amphenol's INFINITY (4X/12X) series of connectors facilitate data speeds up to 75Gbps total bandwidth, as required by InfiniBand™, Attached Fibre Channel and Serial SCSI Trade Associations, with superior EMI performance. INFINITY connectors are high-density, hot pluggable and meet SFF-8470 specifications. A variety of receptacles are available that will fit multiple connectors into a 1U form factor and PCI bracket.

Applications:

- Datacom devices
- High speed routers and switches
- Storage devices
- SANs
- Servers
- HCAs
- RAID
- XAUI

FUJITSU microGiGaCN I/O Connectors

RoHS Compliant **This product is RoHS compliant.**

microGIGaCN HIGH SPEED I/O CONNECTORS

Designed for high speed differential signal applications such as 10G Ethernet, CX4, SAS, and SATA-2 applications. RoHS compliance per Fujitsu documentation.

Features:

- Matched Impedance: 100Ω ±10%
- Low insertion loss and low cross talk
- Adopted by InfinBand as 4x (4 channel) and 12x (12 channel) I/O Interface
- Meets Bellcor 1217
- Insulator Material: LCP Resin (UL94V-0)
- Conductor Material: Copper Alloy
- Contact Plating: Gold Plated

RoHS Compliant

Specifications:

- Operating Temperature Range: -55°C to +105°C
- Current Rating: AC 0.5A (signal)
  AC 1A (ground)
- Voltage Rating: AC 30V
- Contact Resistance: 80mΩ max. (signal)
  35mΩ max. (ground)
- Insulation Resistance: 1000MΩ minimum

Socket Connectors

For quantities greater than listed, call for quote.

microGiGaCN STACKING MEZZANINE CONNECTORS

Features:

- High speed matched impedance (100Ω) differential signal connector.
- Low cross talk
- Hot pluggable
- Insulator: LCP Resin (UL94V-0)
- Conductor: Copper Alloy
- Contact Plating: Au over Pd-Ni plated
- RoHS compliance per Fujitsu documentation

RoHS Compliant

Specifications:

- Operating Temperature Range: -55°C to +105°C
- Current Rating: AC 0.5A (signal)
  AC 1A (ground)
- Voltage Rating: AC 30V
- Contact Resistance: 80mΩ max. (signal)
  40mΩ max. (ground)
- Insulation Resistance: 1000MΩ minimum

TE SFP and SFP+ Connectors and Cable Assemblies

Authorized Distributor

RoHS Compliant This product is RoHS compliant.

SFP SERIES CONNECTORS AND ACCESSORIES

SFP Connectors

- Voltage: 120VAC
- Temperature: -55°C to 85°C
- Differential Impedance: 100Ω
- Hot Swappable
- Compatible with SFP MSA Compliant Modules

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	TE Part No.	Fig.	Description	Price Each 1	5	10

SFP+ SERIES CONNECTORS AND ACCESSORIES

Features:

- SFP+ interconnect system supports data rates of 10Gb/s
- Connector designed to support 10Gb/s+ signal speeds, backward compatible with SFP and cable assemblies
- Both EMI spring and gasket options for cages provide excellent shielding
- Heatsink optional for single port cages
- All cage configurations are offered with lightpipes for LED applications
- Cages are available for PCI card applications (one degree mounting angle)
- Active and passive copper cable assemblies provide a cost-effective solution for short reach applications.
- Cages accommodate belly-to-belly mounting and cable assemblies
- Passive copper cable assemblies provide cost-effective solutions for short reach applications

Applications:

- Storage
- Servers
- Networking
- Switches
- Routers
- Hubs
- Network Interface Cards (NICs)

RoHS Compliant

For quantities greater than listed, call for quote.

TE connectivity Authorized Distributor

RoHS Compliant **This product is RoHS compliant.**

CXP PLUGGABLE I/O INTERCONNECTS

Specifications:
- Connector signal integrity performance meets requirements of InfiniBand CXP specification
- Enhanced footprint (EF) offers superior isolation at the board termination
- Fully shielded and bezel gasket integrated for EMI containment
- Current rating: 0.5 amps max. per pin

Applications:
- Controller Cards and Servers
- Network Switches
- Routers
- Storage Devices
- Direct Attached Storage (DAS)
- Storage Attached Networks (SAN)
- Network Attached Storage (NAS)

z-QUAD SMALL FORM-FACTOR PLUGGABLE PLUS (zQSFP+) CONNECTORS

Features:
- Backwards-compatible with QSFP optical modules and cable assemblies
- Enhanced EMI cage helps provide excellent thermal performance/EMI protection
- Staggered press-fit pins for belly-to-belly applications
- High-temperature, thermoplastic housing

Specifications:
- Current rating: 0.5 Amps maximum per pin
- Maximum Voltage Rating: 30 VDC
- Maximum Mating Force: 40N
- Durability (minimum): 250 cycles
- Operating Temperature: -20°C to +65°C

QSFP+ CONNECTOR

An enhanced QSFP+ surface-mount connector that offers superior electrical performance for 40Gb/s InfiniBand and Ethernet (4x10Gb/s) standards applications. The 38 position connector meets the SFF-8436 industry standard -- including the interface and host board layout.

Features:
- Improved performance in insertion loss, return loss and crosstalk
- Upgraded internal contact and housing structure for optimized signal integrity

For quantities greater than listed, call for quote.

QSFP SERIES CONNECTORS AND ACCESSORIES

Features:
- 4 channels at 10Gb/s per channel
- Proven springs and gasket designs for EMI containment
- Single and dual lightpipes
- Riding heatsinks for thermal dissipation, various fin heights available
- Belly-to-belly compatible (double-sided PCB's)
- Press-fit termination
- Port-to port spacing-21.0mm (through-bezel)/23.5 (behind-bezel)

Applications:
- Switches
- Routers
- Host Bust Adapters (HBA's)
- Enterprise Storage
- High Speed, High Density I/O
- Multiple Channel Interconnects

For quantities greater than listed, call for quote.

zSFP+ SMT CONNECTORS

Features:

- Patent-pending preferential coupling design uses a narrow-edge, coupled blanked - and formed - contact geometry and insert molding
- Up to 40GBps data rate performance
- High-temperature thermoplastic housing
- Backward compatible with SFP form factor
- Utilizes MSA-compliant footprint

NEW! TECHNOLOGY

For quantities greater than listed, call for quote.

SFP+ (SMALL FORM-FACTOR PLUGGABLE PLUS) CONNECTORS

RoHS Compliant

SFP+ supports next generation speeds of standard SFP applications.

Features and Benefits:

Stacked Multi-Port Connectors (76044,76046,76090,76092):

- Capable of handling 10Gbps data rates
- Elastomeric or metal gasket options for EMI requirements
- Integrated lightpipes
- Press-fit termination
- Stacked cages available in 2-16 ports (see Mouser Sales Rep for more info)

Passive Cable Assembly (74752):

- Copper cable can handle speeds up to 10Gbps
- Re-designed pull latch enables belly-to-belly cable use
- Improved backshell design conforms to SFP-8431 spec
- Backwards compatible with standard SFP

For quantities greater than listed, call for quote.

SFP (SMALL FORM-FACTOR PLUGGABLE) CONNECTORS

From single port cages and connectors to full integrated multi-port products with lightpipes, Molex offers a full range of solutions for the high port density SFP Applications.

Features and Benefits:

- Data rates up to 2.5Gbps
- All metal cage provides EMI protection
- User friendly latch design
- Single, ganged, or stacked cages
- Industry standard HSSDC2 interface

For quantities greater than listed, call for quote.

XFP CONNECTORS (Z-AXIS PLUGGABLE SOLUTIONS)

XFP represents the new 10 Gigabit Small Form Factor Pluggable system of modules and interconnects that convert serial electrical signals to external serial optical or electrical signals. The components include an industry-standard pluggable module, cage hardware and IC interfaces. The technology is designed to support 10 Gigabit Fibre Channel, 10 Gigabit Ethernet and OC192/STM-64

Molex's 30-circuit XFP host connector enables the use of emerging gigabit-speed hot-pluggable transceiver modules for horizontal, front panel access. It conforms to the host-board layout as defined in the 10 Gigabit Small Form Factor Pluggable (XFP) Multi-source Agreement (MSA) for 10-Gigabit data rates.

Features and Benefits:

- Capable of handling 10Gbps data rates
- Universal transceiver design
- EMI protection

RoHS Compliant

For quantities greater than listed, call for quote.

MOLEX QSFP+, TRIAD™, and INFINIBAND Connectors

molex one company > a world of innovation

RoHS Compliant This product is RoHS compliant.

QSFP+ (QUAD SMALL FORM FACTOR PLUGGABLE PLUS) CONNECTORS

Molex's Quad Small Form-factor Pluggable (QSFP+) solution is designed for high-density applications.

Features:

- AOC Low Bit Error Rate (BER) of 10e-18 errors per link
- Initial data rates up to 5 Gbps per lane, scaling up to 10Gbps per lane
- One piece, press-fit cage
- Multiple ports
- Hot-pluggable transceiver
- 0.80mm pitch connector designed for placement under guide frame

NEW PRODUCT

RoHS Compliant

QSFP (QUAD SMALL FORM FACTOR PLUGGABLE) CONNECTORS

The QSFP connector, cage, cable assemblies and loopbacks are part of a highly-integrated system that combines optimal real estate, power and port density.

The QSFP Multi Source Agreement (MSA) document specifies a transceiver mechanical form factor with latching mechanism, host-board electrical edge connector and cage. The hot-pluggable transceiver integrates 4 transmit and 4 receive channels. Molex's QSFP transceiver can replace up to 4 standard SFP transceivers. The result is greater port density and overall system cost savings over traditional SFP products.

Features and Benefits:

- EMI shielding to bezel and transceiver
- Data rates up to 5Gbps per lane
- One piece press-fit cage
- SMT connector design
- Hot pluggable transceiver
- Zinc die-cast back shells on cable plug

RoHS Compliant

For quantities greater than listed, call for quote.

TRIAD™ DIFFERENTIAL PAIR CONNECTORS

Features and Benefits:

Board Mount Receptacle (74960):
- Inline SMT leads on 0.64mm (.025") pitch provide direct PCB routing
- High cycle LFH shrouded contact system

Cable Plug Connector (75000):
- LFH contact design
- Terminates to 24 to 32AWG

Backshell Kit (75115):
- Kit contains two-piece die cast shell and two jackscrews

RoHS Compliant

INFINIBAND CONNECTORS AND CABLES (LANELINK™)

The InfiniBand architecture is an approach to I/O technology that was created by industry's top computer manufacturers to address the need for greater scalability, reliability, availability and performance in and around servers.

Molex's LaneLink™ 4 lane and 12 lane I/O connectors and cable assemblies incorporate an industry compatible interface compliant with Infiniband requirements.

Features and Benefits:

Cable Assembly:
- Squeeze-to-release latch provides positive latch/unlatch
- Diecast backshell provides EMI protection
- 100% testing to InfiniBand industry standard

RoHS Compliant

For quantities greater than listed, call for quote.

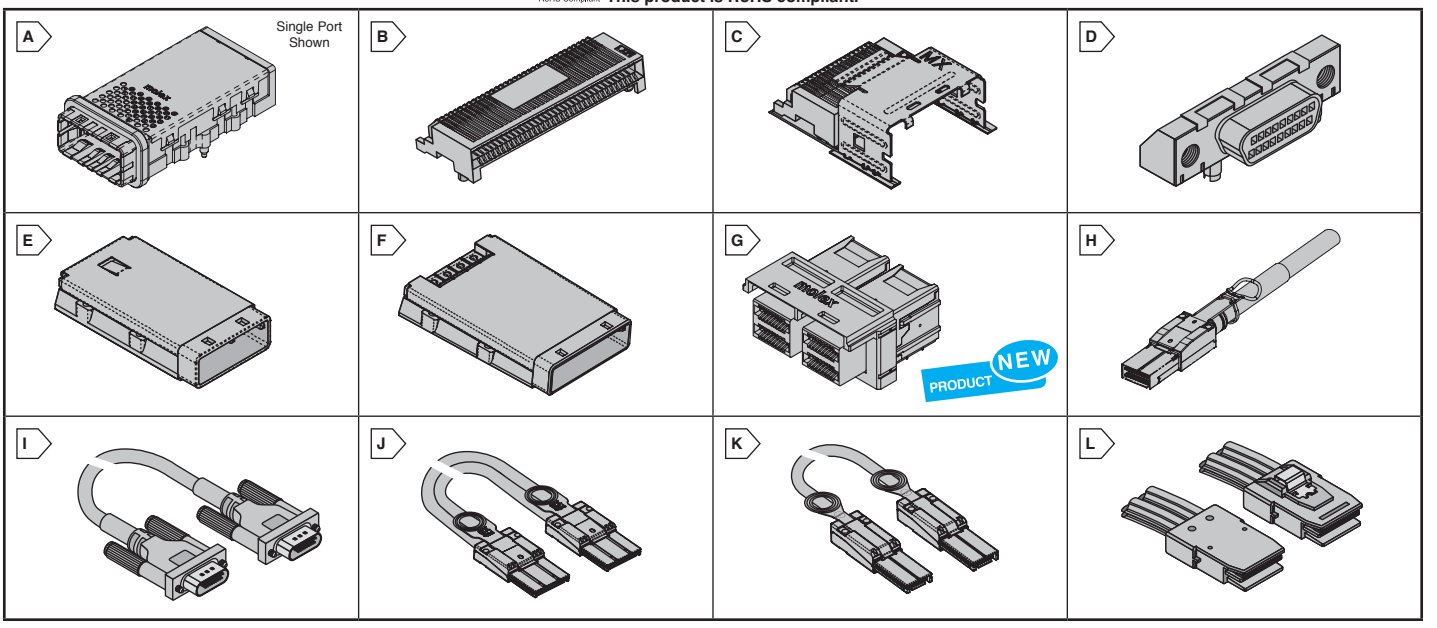
MOLEX iPass™ and iPass+™ Connectors

RoHS Compliant **This product is RoHS compliant.**

molex
one company > a world of innovation



iPass™ CONNECTORS

iPass+ CXP (Series 76105 and 76024): iPass+ CXP enables 12 channels of 10-Gbps data, for up to 120Gbps of total bandwidth. This new technology results in one of the fastest and highest density I/O's in the market.
External iPass Connectors (Series 75586): The SMT design provides placement options on both sides of the PCB,as well as placements stability. Standoffs allow for easy PCB cleaning after soldering.
iPass+ CXP (Series 170465): Enhanced footprint connectors transmit signals over 10 lanes for up to 100 Gbps, meeting the new industry-leading 100 Gigabit Ethernet specification
Internal iPass Connectors (Series 75783): These 0.80mm (.031") pitch connectors include hood kits for internal applications. Acting as a disposable pick-and-place cap, the pre-positioning device aligns the connector to the hood during robotic placement. It offers 3 keying options.

For quantities greater than listed, call for quote.

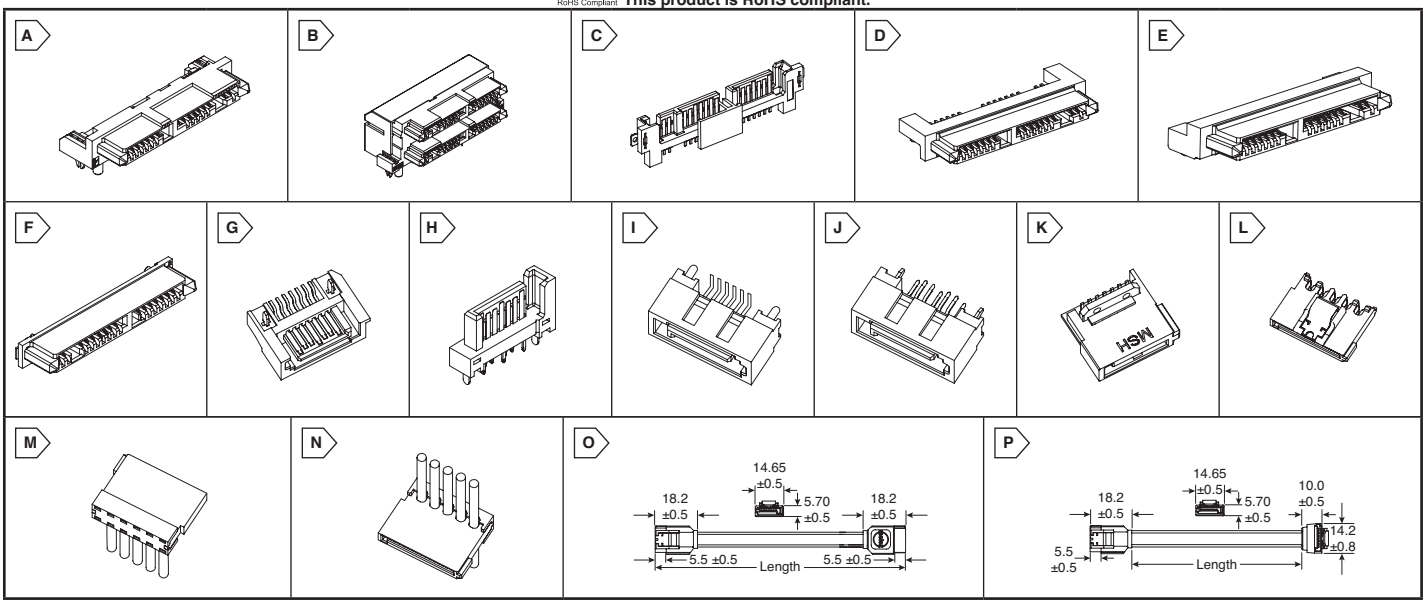
MOLEX Micro SAS Serial ATA Connectors

molex
one company > a world of innovation

RoHS Compliant This product is RoHS compliant.



MICRO SAS CONNECTORS

DIMENSIONS: mm

Features:
- Micro SAS connectors feature small connector footprint and offer greater PCB real estate saving
- Satisfies SAS 2.0 Specifications that enables fast data rates of up to 6Gbps
- Application of Micro SAS Plug in 1.8" form factor drives (SSD or HDD)
- 100% backward compatible with Molex Micro Serial ATA and is intermateable with Micro Serial ATA parts that have a mid-rib in the connector housing
- Keying features and guide rails on connectors prevent mis-mating of parts and ensure smooth entry of Plugs to Receptacles

RoHS Compliant

For quantities greater than listed, call for quote.

MICRO-SATA CONNECTORS

Features:
- Staggered contact lengths for First-Mate-Last-Break
- Guide pocket for plug and guide post for receptacle
- Power segment key
- Prevents insertion for non-micro SATA power cables
- LCP UL94V0 housing
- Allows blind mating

RoHS Compliant

For quantities greater than listed, call for quote.

SERIAL ATA CABLE ASSEMBLIES

Locking latches for signal cables have recently been approved by the Serial ATA Working Group. Positive locking latches ensure cables will stay connected.

Features:
- High speed data transfer Generation 2 (300 MBps)
- Device can be hot swapped without shutting down or restarting the system
- Plug and Play under Windows® 98 Second Edition, Windows® Me, Windows® 2000 and Windows® XP
- Built-in RAID support
- User-friendly latch provides secure mating

Specifications:
- Wire Size: 26 AWG
- Contact: Copper (Cu) Alloy
- Plating Contact: 0.76µm (30µ") Gold (Au)
- Color: Red
- Current: 1.5A max.
- Voltage: 40V max.

RoHS Compliant

For quantities greater than listed, call for quote.

TE CONNECTIVITY PICMG® Standard Connectors

RoHS Compliant **This product is RoHS compliant.**

TE Connectivity supports AdvancedTCA (ATCA), AdvancedMC (AMC) and MicroTCA (μTCA) PICMG® standards with a full complement of products to meet the wide array of applications and markets where these standard configurations will be used. These products include both the fully compliant interconnects that are specified in the PICMG® standards, as well as additional connectors that product designers need to customize their solutions for their specific markets.

ADVANCED TCA

Zone 1 Power Connector

- High conductivity, precision formed contacts
- Qualified to meet PICMG 3.0, R2.0 specification
- Precision formed compliant terminations offer excellent retention to provide a reliable connection

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	AMP Part No.	Fig.	Description	Price Each 1	5	10	25
571-1766501-1	1766501-1	A	Vertical receptacle	16.37	15.26	13.87	12.48

Zone 2 High Speed Connector

- Designed specifically for high speed differential applications
- Optimized footprint for improved electrical performance
- Designed to meet Telcordia requirements

For quantities greater than listed, call for quote.

ATCA GUIDE MODULES

- Configurations for front board and backplane as well as midplane and coplanar applications in the RTM
- Vertical and right angle pins to support right angle and coplanar board configurations
- Guide pins are available in short or long lengths

For quantities greater than listed, call for quote.

HAR-FLEX® STRAIGHT PCB CONNECTORS

Features:

- Optimized utilization of PCB real estate due to flexibility in choice of contact count
- High contact density for reduced footprint
- Robust design
- Suitability for automated processing
- Flexible PCB clearances

NEW PRODUCT

RoHS Compliant

ADVANCEDMC™ CONNECTORS FOR MICROTCA™ (μTCA™)

MicroTCA™ is an open industry standard developed by the PCI Industrial Computer Manufacturers Group (PICMG). In a MicroTCA™ system, AdvancedMC™ modules are plugged directly into a backplane and not into a carrier board. As a result MicroTCA™ system shelves are smaller and cheaper than AdvancedTCA® systems, yet powerful enough to address the needs of telecom, enterprise and medical applications.

Features:

- Differential pins are isolated by the distance between signal and ground pins, resulting in low cross talk and excellent high speed performance
- Design according to: PICMG MicroTCA.0
- HARTING con:card+® technology for significant increase in connector reliability

For quantities greater than listed, call for quote.

B — AdvancedMC™ Connectors for ATCA® Card Edge Connector, Angled Type B+ with pegs

AdvancedMC™ Connector for AdvancedTCA™ (ATCA™)

Advanced Telecommunications Computing Architecture (AdvancedTCA®) is an open industry standard developed by the PCI Industrial Computer Manufacturers Group (PICMG). Defined by PICMG 3.0, the AdvancedTCA® series of specifications targets the requirements of the next generation of carrier grade telecommunications equipment. To extend the functionality and modularity of AdvancedTCA® carrier boards, PICMG developed the Advanced Mezzanine Card (AdvancedMC™) standard AMC.0.

Features:

- Superior transmission performance at high data transmission speeds designed to minimize interferences from cross talk and reflections
- Design according to: PICMG AMC.0

617-16-04-170-5106	16 04 170 5106 000	B	170	2.0	Card edge, angled type B+ with peg	49.37	44.57	43.24

HAR-MIK® SCSI (SMALL COMPUTER SYSTEM INTERFACE) I/O CONNECTORS

Features:

- Meets SCSI-3 Specifications
- Pin and Socket
- Pitch: 1.27mm
- Current rating: 1A
- Contact resistance: ≤ 30mΩ
- Temperature Range: -55°C - +105°C
- Contacts: Copper Alloy
- Moldings: Thermoplastic resin, glass fiber filled - UL94V-0

USB WITH POSITIVE LOCKING: LUSB SERIES

The design of Amphenol's USB, Series A with this unique latching mechanism has been developed to address the major concern of unintentional interruption of data transmission. The latch must be intentionally raised in order to remove the plug. An accidental pull on the cable up to 22 lbs force will not separate connectors.

Features:

- Current Rating: 1.5 Amps
- Dielectric Withstanding Voltage: 500VAC
- Operating Temperature: -40°C to +85°C
- Meets military shock and vibration levels
- Locking tab: Stainless Steel
- Contact Plating: 30µ" Gold over nickel
- Housing: UL94V-0 Black

Applications:

- Industrial
- Mobile Communication
- Automotive

For quantities greater than listed, call for quote.

HARSH ENVIRONMENT USB CONNECTORS: MUSB SERIES

Amphenol's MUSB series represents a unique and innovative USB connector design. This design provides the ideal solution for data transfer in harsh or demanding environments against physical and environmental conditions. These connectors are underwater submersible rather than just water resistant in both mated and unmated conditions. They are absolutely unshaken by hostile environmental elements.

Features:

- IP67 sealed in mated and unmated conditions
- Meets military shock and vibration levels
- Shell: Metal die cast
- Finish: Nickel
- Housing: UL94V-0 Black
- Rear shielded
- Contact Plating: 30µ" Gold
- Number of Contacts: 4 per port
- Current Rating: 1.5 Amps
- Voltage Rating: 100 VDC @ -25°C to +85°C
- Dielectric Withstanding Voltage: 500VAC, RMS, 60Hz 1 minute
- Operating Temperature: -40°C to +105°C

For quantities greater than listed, call for quote.

HARSH ENVIRONMENT MODULAR JACK CONNECTORS: MRJ SERIES

Amphenol's MRJ series represents a unique and innovative RJ connector design. This design provides the ideal solution for network data transfer in harsh and demanding environmental conditions. These connectors are underwater submersible rather than just water resistant in both mated and unmated conditions. They are absolutely unshaken by hostile environmental elements.

Features:

- Cat 5 ethernet performance
- IP67 sealed in mated and unmated conditions
- Meets military shock and vibration levels
- Available with optional integrated LEDs
- Shell: Metal die cast
- Will not allow RJ11 to enter
- Finish: Nickel
- Housing: UL94V-0 Black
- Contact Plating: 30µ" Gold
- Number of Contacts: 8
- Contact tail length: .100"
- Current Rating: 1.5 Amps
- Voltage Rating: 100 VDC @ -25°C to +85°C
- Dielectric Withstanding Voltage: 500VAC, RMS, 60Hz 1 minute
- Operating Temperature: -40°C to +105°C

Applications:

- Industrial
- Military Communications
- Marine
- Mobile Communication

For quantities greater than listed, call for quote.

ENVIRONMENTALLY SEALED D-SUB CONNECTORS: MDB SERIES

The Rugged MDB series offers cost efficient environmentally sealed D-Sub connectors with screw machine contacts and high performance thermoplastic or metal die cast shells.

Features:

- IP67 sealed in mated and unmated conditions
- Number of Contacts: 9 & 26
- Contact Plating: 30µ" Gold
- Current Rating: 5 Amps
- Voltage Rating: 200 VDC, 125 VAC
- Dielectric Withstanding Voltage: 500 VDC @25°C & 50mA max
- Insulator/Shell: UL94V-0
- Gasket: Silicone rubber
- Operating temperature: -40°C to +105°C

Applications:

- Industrial
- Military Communications
- Marine
- Automotive

For quantities greater than listed, call for quote.

RJ FIELD TRANSVERSELY AND ENVIRONMENTALLY SEALED RECEPTACLES

- Transversely potted and sealed without cap
- Features the same main characteristics as the RJ Field and RJ Field TV series
- Four mechanical coding/polarization possibilities for the user
- IP68, sealed against fluids and dust
- Tri-start threading

For quantities greater than listed, call for quote.

1235 RJF544 ETHERNET COMPOSITE CONNECTORS

- IP68, Sealed against fluids and dusts
- Improved EMI protection
- Accomodates a standard RJ45 cordset
- Quick Push-Pull coupling
- No tools required

RoHS Compliant

For quantities greater than listed, call for quote.

REINFORCED RUGGED USBFTV MEMORY KEYS, USB 3.0 SUPER SPEED

Protection:
- Sealing: IP68 (when mated)
- Salt Spray: 48h with Nickel plating (ROHS) > 500h with Olive Drab Cadmium
- Vibrations: MIL-STD-810F method 514.5 fig 514.5.C cat 14
- Temperature Range: - 40°C/+85°C (MIL-STD-810F)
- Data transmission during vibration & temperature tests
- Derived from MIL-OTL-38999 III specification

Features:
- Voltage: 5V DC - 500mA max
- Electromagnetic compatibility: 89/336/EEC and Part 15 Class B
- Backwards compatible with USB 2.0

NEW! TECHNOLOGY

✻ RoHS Compliant

AMPHENOL ATEX ETHERNET CONNECTORS

Amphenol introduces the first ATEX Ethernet connectors for applications in Zone 2 and Class I Division 2 explosive environments

- IP68 Ingress Protection
- Substantial reduction of overall plant costs
- Incorporates RJStop® connection system
- Designed for process monitoring and data acquisition in the oil, gas, chemical and power sectors, including green energy applications
- Contact your Mouser sales representative for additional finish options

RoHS Compliant

For quantities greater than listed, call for quote.

CONEC IP67 Connector Systems

RoHS Compliant **This page of product is compliant.**

CONEC — Technology in Connectors™

IP67 FIBER OPTIC LC-DUPLEX SYSTEM FOR HARSH ENVIRONMENTS

CONEC has developed an outdoor solution according to protection class IP67 to address the special requirements caused by environmental influences. The new designed system is based on a housing with bayonet coupling mechanism which contains a LC-Duplex Connector for the plug version and a LC-Duplex Adapter in the receptacle housing. Both types are available as single and multi-mode versions.

For quantities greater than listed, call for quote.

SEALED INDUSTRIAL ETHERNET CIRCULAR IP67 RJ45 CONNECTOR SYSTEM

RJ45 Receptacles

Coupler Version:
- Receptacle housing for front or rear panel mounting, panel thickness up to 3.2mm
- The receptacle housing establishes a reliable IP67 protected connection after coupling with the RJ45 Cat. 5e plug kit
- Inside the device, a standard patch cable with RJ45 Cat. 5e plug IP20 will be applied into the inline coupler

PCB Jack Version:
- Receptacle housing for front or rear panel mounting, panel thickness up to 3.2mm
- The receptacle housing establishes a reliable IP67 protected connection after coupling with the RJ45 Cat. 5e plug kit
- Solder assembly of the cable inside the device on a special PCB

IDC Jack Version:
- Receptacle housing for front or rear panel mounting, panel thickness up to 3.2mm
- The receptacle housing establishes a reliable IP67 protected connection after coupling with the RJ45 Cat. 5e plug kit
- The RJ45 Cat. 5e jack offers an IDC connection for fast and easy cable mount inside the device

For quantities greater than listed, call for quote.

RJ45 Plugs

Features:
- Applicable RJ45 Cat. 5e plug in a bayonet mechanism housing
- The shielded RJ45 Cat. 5e plug connector is precisely aligned in the housing by its locking tab after assembling the cable and allows an easy and fast connection of both halves of the system
- The bayonet mechanism interlocks with an audible "click" and provides a reliable IP 67 protection
- AWG 24 copper wire, stranded or solid cables

For quantities greater than listed, call for quote.

HARTING Industrial Ethernet Solutions

RoHS Compliant **This product is RoHS compliant.**

IP30 ETHERNET SWITCH

Features:

- The ethernet switch eCon-3080 and eCon-2050 can be used in industrial environments and supports Ethernet (10Mbit/s) and Fast Ethernet (100Mbit/s.)
- Up to 8 ethernet devices can be connected via the RJ45-ports
- Supports simple and quick network diagnostics with integrated LEDs at every port
- Store and Forward switching mode and supports auto-crossing, auto-negotiation and auto-polarity
- Compact design
- Robust metal housing
- Extended temperature range
- Unmanaged switch
- Top hat rail mounting (DIN EN 60 715)
- RoHS compliant per HARTING documentation

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	HARTING Part No.	Fig.	Description	Price Each
617-20-76-108-3000	20 76 108 3000	A	IP30 Ethernet Switch with 8 ports	288.68
617-20-76-105-3000	20 76 105 3000	B	IP30 Ethernet Switch with 5 ports	149.73

RJ INDUSTRIAL® IP20 STANDARD PATCH CABLES

Category 5E patch cables in accordance with PROFInet® guidelines.

Features:

- Designed for use in protected environments or IT-based applications
- Electrical performance Cat. 5E or to ISO/IEC 11 8801:2002
- Mating face RJ45, 8-pin
- Pin assignment to TIA/EIA 568B 1:1 cabling
- Molded connector, shielded with latch, molded from halogen-free polyamide
- Cat. 5E cable, AWG 26/7, shielded
- Sheath material made of halogen-free polyurethane (PUR), available in black or green
- RoHS Compliant per HARTING documentation

For quantities greater than listed, call for quote.

HA-VIS SMART IP 20 CAT. 6 PATCH CABLE

Features:

- Illluminated detection of specific patch cables in data center enviroments
- Suitable for Gigabit Ethernet 1000 Mbit/s
- Transmission performance in acc. with Cat. 6 ISO/IEC 11 801
- Flame retardant and halogen-free

For quantities greater than listed, call for quote.

HARAX® CIRCULAR SHIELDED M12 CONNECTORS AND CABLE ASSEMBLIES

Approved by the ODVA (Open DeviceNet Vendors Association). In accordance with PROFInet® guidelines.

Features:

- Transmission characteristics in accordance with DIN 50 173-1
- D-Coding for ethernet
- Wire gauge: 22-24AWG stranded
- Conductor insulation material: PVC
- Working temperature: -25°C to +85°C
- Temperature during connection: -5°C to +50°C
- Protection level: IP 67

For quantities greater than listed, call for quote.

HYBRID DATA & POWER CABLE

- Suitable for PROFInet® Applications
- Fire retardant, non-corrosive jacket
- Cabling standard in acc. w/ ISO/IEC 11 801: Category 5
- Service Temperature: -20° C to +70°C
- Sheath: FRNC green, Ø 10.3mm
- Use with Hybrid parts above
- RoHS compliant per HARTING documentation
- For flexible installation

For quantities greater than listed, call for quote.

HARTING Pushing Performance

RJ INDUSTRIAL 10G CAT.6 DEVICE SIDE COMPONENTS

- Cat. 6 components to class EA for Ethernet up to 10 Gigabit
- HARTING Industrial Form Factor (HIFF) dimensions for proper fit to PushPull, Han® 3A and Han-Modular® product lines
- Equivalent electrical performance across product lines
- Coupler is a full metal, robust design
- Future proof your 8 wire systems
- 360° shielding
- 360° EMC for industrial environments
- Ready to use panel feed through reduces assembly time

RoHS Compliant

IP67 HYBRID CONNECTORS

- Mating interface: RJ 45 in accordance with IEC 60603-7, plus 4 x power supply
- Data and power integrated into one connector for hybrid ethernet networks
- Mating cycles: 500 min
- Cable plug: Wire gauge: 22-24AWG stranded 22-23AWG solid
- Panel Feed Through: Panel cut out: 22x22mm
- Protection level: IP67
- Temperature range: -40°C to +70°C
- Working voltage power supply: 48V
- Housing material: Black polyamide, UL94V-0 rated
- RoHS compliant per HARTING documentation

RoHS Compliant

For quantities greater than listed, call for quote.

PHOENIX CONTACT Industrial Data Connection Systems

RoHS Compliant **This product is RoHS compliant.**

INDUSTRIAL DATA CONNECTORS

Variosub Push-Pull Ethernet and Power

Features:

- Unique Push-Pull latching/unlatching system
- IP67 Rated when mated
- Available in Metal or Plastic Housings
- Suitable for use in Industrial applications
- Power Connectors utilize Spring Cage Connection

For quantities greater than listed, call for quote.

Variosub RJ45

Industrial ethernet connection for CAT 5, CAT 6 and CAT 6A

Features:

- Patented VARIOSUB housing with push/pull locking system
- IP20 or IP67 rated connections for protection from dust, dirt, water
- PCB mount or panel feed thru connections
- Fully shielded inserts

For quantities greater than listed, call for quote.

Variosub USB

Features:

- Compatible with USB 2.0
- Transmission rate 480Mbp/s
- IP67 and IP20 rated connections for protection from dust, dirt, water
- Mates with Phoenix Contact VARIOSUB USB Patch Cables

For quantities greater than listed, call for quote.

INDUSTRIAL M12 SPEEDCON MINI-B USB CONNECTORS

Features:

- For harsh industrial applications
- Meets USB 2.0 with a transfer rate of 480 Mbit/s
- IP67 protected
- Utilizes the SPEEDCON connection system

For quantities greater than listed, call for quote.

TE CONNECTIVITY Industrial Ethernet Connectors

RoHS Compliant **This product is RoHS compliant.**

TE connectivity Authorized Distributor

CEELOK FAS-T CONNECTORS

Features:
- 1 Gbit-Ethernet and 10 Gbit-Ethernet when used with Cat 5e, Cat 6A or Cat 7 cables
- Crimp snap, 39029-style contacts for easy termination and field repairability
- T-shaped pin pattern improves SI through uniform crosstalk cancellation
- Compatible with multiple braid terminations, adaptor styles and seal boots
- Scoop-proof design
- Insert assembly mechanically retained for ≤ 25 lb. retention force
- Robust coupling ring mechanism
- Size 8 shell saves weight and space

NEW PRODUCT

DIRECT PCB MOUNT RECEPTACLE

Low profile receptacle that solders directly to a printed circuit board (PCB) - intended for customers who wish to incorporate a robust, sealed connection into their field equipment. Ideal for customers who wish to incorporate a sealed RJ-45 in the smallest possible package.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	TE Part No.	Fig.	Description	Price Each 1	5	10
571-1-1546405-1	1-1546405-1	D	8 pin through-hole receptacle, front coupling hex nut	20.35	19.43	18.75

STANDARD PCB BOARD RECEPTACLES

Highly flexible solution that enables an end-user to solder a cable lead to an internal Ethernet connection.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	TE Part No.	Fig.	Description	Price Each 1	5	10
571-1-1546409-1	1-1546409-1	E	With PC Board	25.80	23.78	23.28

571-1-1546412-1	1-1546412-1	E	With PCB & 12" cable (568B)	34.86	33.64	32.19

BULKHEAD PASSTHROUGH RECEPTACLES

The perfect solution to bring Ethernet into a cabinet or control box. Simply mount bulkhead product in a panel cutout, mate a sealed connector on the outside of the enclosure, and run a commercial patch cord from the backside RJ-45 jack to your PLC, I/O, or Ethernet control board. No conduit entry is required.

Backside RJ-45 Jack Specifications:
- Base Material: Copper alloy with30u" gold alloy
- Underplating: 2.54 microns of nickel
- Mating Cycles: 250 min.
- Current Rating: 1.5A
- Voltage Rating: 125 V DC

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	TE Part No.	Fig.	Description	Price Each 1	5	10

TE CONNECTIVITY Industrial Ethernet Connectors

RoHS Compliant This page of product is compliant.

TE connectivity Authorized Distributor

SERIES 45 ETHERNET CPC (CIRCULAR PLASTIC CONNECTOR)

This series of CPC products accepts RJ45 inserts. The same CPC performance interface that is widely accepted over many markets has been expanded to handle Ethernet communications through Category 5 and 5e requirements.

Applications:
- Industrial machinery, Diagnostic equipment, Communications equipment, Printers, and any potential application where Ethernet is used when the connector requirement calls for a sealed, rugged connector interface.

Features:
- For Category 5 and 5e cables
- Sealing performance per IP67
- Protective sealing cap available for the receptacles
- Available pass-through and field installable receptacle styles
- Positive lock coupling ring provides for reliable connections

For quantities greater than listed, call for quote.

INDUSTRIAL CIRCULAR ETHERNET CONNECTORS (ODVA)

This rugged connector series meets the Ethernet/IP RJ45 requirements/standards. Designed for use in harsh environments, connector features a quick-connect bayonet coupling mechanism per the ODVA interoperability interface specification.

Applications:
- Industrial machinery, Diagnostic equipment, Communications equipment, Printers and any potential application where Ethernet is used where the connector requirement calls for a sealed, rugged connector interface.
- Harsh environments where chemicals, corrosive gases and liquids are commonplace
- Inside and outside industrial plant and equipment that interface with industrial Ethernet networks

Features:
- For Category 5e cables
- Sealing performance per IP67
- Protective cover available for the receptacles
- Positive lock coupling ring provides reliable connections in harsh environments
- Temperature range of -40°C to +85°C

Sealed RJ-45 ODVA Connectors

INDUSTRIAL MINI I/O CONNECTOR SYSTEM

The Industrial Mini I/O connector system is a small, compact, latching, wire-to-board I/O interface is suitable for the stringent demands of an industrial device. The system is most commonly used as an RJ45 replacement. It consists of 8 individual circuits that accommodate I/O signals.

Features:
- Two points on contact interface for increased reliability
- Small compact size
- Latching feature
- Polarized
- Meets CAT5e requirements

For quantities greater than listed, call for quote.

BULGIN USB and Firewire Connectors

USB BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

- IP68 Rated - Dust and waterproof sealing when mated
- USB version 2.0 performance - Low and high speed bus connection, 1.5Mbs to 480Mbs
- Plug and play capability - Hot pluggable, standard 4 pole interface
- Visual mating indication - Alignment indicator reduces risk of damage during mating
- Shielded system - High noise immunity and EMI protection
- Screw coupling - Secure, proven locking system
- RoHS Compliant per Bulgin documentation

Patch Cords

- Single and double ended cables - Suitable for PC and peripheral configuration
- IP68 'A' type USB connector to standard 'B' type USB connector, mates with PX0842/A
- IP68 'B' type USB connector to standard 'A' type USB connector, mates with PX0842/B
- IP68 'A' type USB connector to IP68 'B' type USB connector, mates with PX0842/A and PX0842/B
- Available in 2m, 3m and 5m lengths

RoHS Compliant

For quantities greater than listed, call for quote.

AMPHENOL® Renewable Energy Connectors

Amphenol®

RoHS Compliant **This product is RoHS compliant.**

ePOWER CONNECTORS

- IP2X on pin and socket
- Environmental IP67 rating
- Two HVIL circuits
- 1000vdc rating
- Integrated EMI shielding
- Radsok Technology
- 11.1mm RADSOK® technology for 300 to 400A current capability
- Strain relief for jacketed cable incorporated into shell
- Excellent vibration resistance
- All aluminum shell
- Multiple wire size capability: from 50mm2 to 95mm2

For quantities greater than listed, call for quote.

HELIOS H4 SOLAR CONNECTOR

Features and Benefits:

- Meets all new NEC 2008 requirements
- NEC required locking mechanism built into the connector
- Quick and easy secure snap lock mating
- Simple unlocking tool meets NEC requirements
- Radsok Technology
- Long-term UV and Ozone resistance
- Highest current rating in industry
- Low contact resistance means low power loss
- Ready for field assembly
- No assembly required, no small parts to lose

- IP68 • IEC/CEI • DIN V

Amphenol's Helios solar products withstand:

- UV
- Ozone
- Hydrolysis
- Oil, chemicals
- Abrasion, corrosion
- Temperature extremes

For quantities greater than listed, call for quote.

SURLOK™

Features:

- Copper alloy construction
- High ampacity
- Built in locking feature
- Low insertion force
- High cycle durability
- High reliability
- Radsok Technology

Markets:

- Printed circuit boards
- Telecommunications
- Oil and drilling rigs
- Wind and solar power applications
- Heavy equipment
- Medical devices
- Rail/Mass Transit

Solar Connectors

RoHS Compliant **This product is RoHS compliant.**

SOLAR SPEC PAK®

Features:

- Configurable to 1000 Volts
- Chemical & UV Resistant Ruggedized Shells
- Touch Safe Housings (UL1977, Section 10.2)
- IP68 Interfacial Sealing Gasket
- Locking Latch
- Power Contacts (up to 4) and / or
- Signal Contacts (up to 16)
- Industry Standard Sealing Components
- First Mate / Last Break Ground Contacts
- Housing Colors to Match Wire Colors for ease of Assembly

molex SOLAR SPEC™ DC CONNECTORS

one company > a world of innovation

SolarSpec™ DC Connectors from Molex with quick, easy 'snap-lock' mating and internal locking mechanism for superior safety provide a rugged, durable, IP-67 sealed connection for series cabling of PV solar panels

Features and Benefits:

- Reliable, robust industry standard pin and socket DC connectors for series cabling of silicon photovoltaic (PV) panels
- Simple 'snap-lock' mating for quick and easy factory or field assembly
- Polarization and an audible 'click' ensure successful mating of the connectors
- Internal locking mechanism protected by latch guards prevents accidental and unauthorized decoupling of connectors; ensures reliable connection and safe handling
- "Touch-proof" safety design provides protection from electrical current even when connectors are unmated
- IP67 sealing protection against dust and water
- Resistant to UV and ozone damage
- Dual-qualification by TÜV and UL; guarantees long-life in harsh environments
- Exclusive molded surface ribs allow for secure gripping, especially with work gloves
- Contact resistance <0.5mΩ; lowest contact resistance compared with competitor products for greatest efficiency
- Strain relief ensures strong, secure, enduring cable connections
- Meets NEC 2008 and NFPA 70; US-code compliant for "The safe installation of electrical wiring and equipment"
- Accommodates 14, and 12 to 10AWG cable

Markets and Applications:

- A junction box is assembled on to each PV panel during the panel manufacturing process
- DC connectors, terminated to cables, are used to link the junction boxes and PV panels in a serial grid array (parallel arrangements are also possible)
- Applications for solar silicon photovoltaic (PV) panels include:
  - Stadiums
  - Home Installations
  - Public buildings
  - Solar farms (power plants)

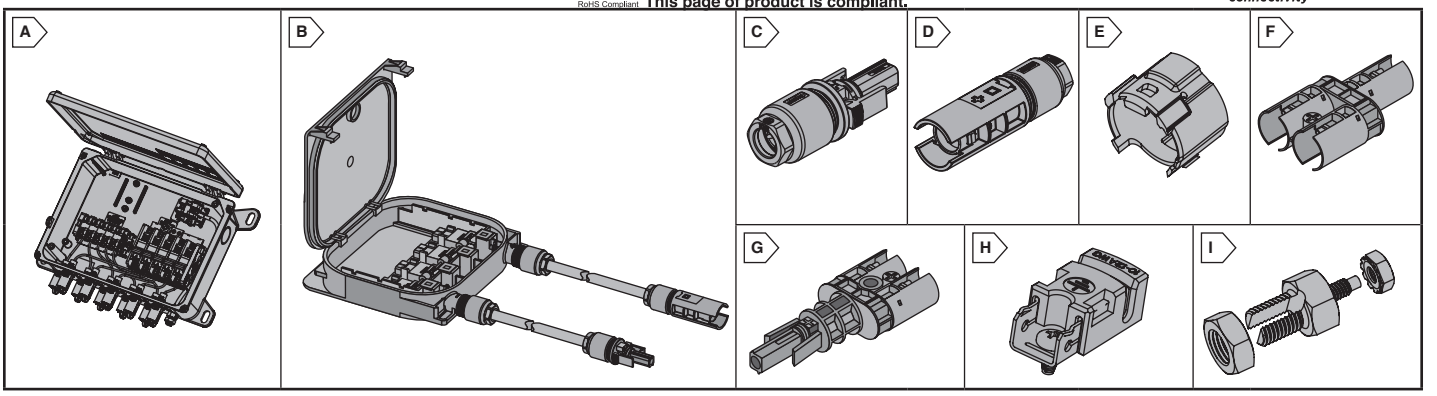
TE CONNECTIVITY SOLARLOK Connector System

RoHS Compliant **This page of product is compliant.**

TE connectivity Authorized Distributor



TE is contributing to the establishment of this enviromentally friendly technology with the introduction of its SOLARLOK Connector System. The SOLARLOK Connector System delivers a flexible solution for easy and reliable interconnections from photovoltaic modules to the DC/AC converter. The entire system concept is based on cost-effective and reliable processing of individual connector system components. This significantly reduces installation costs of the solar energy system.

Features:

- Simple on-site processing
- Mating safety provided by keyed housing
- Semi-automatic assembly capability possible
- First-mate/last-break contacts support hot plugging
- Multiple plugging and unplugging cycles
- Accomodates solar cable with different insulation diameters
- High current carrying capacity
- Wide temperature operating range
- Polarized, keyed housings
- TÜV and UL approved
- Locking collar meets NEC 2008 Code

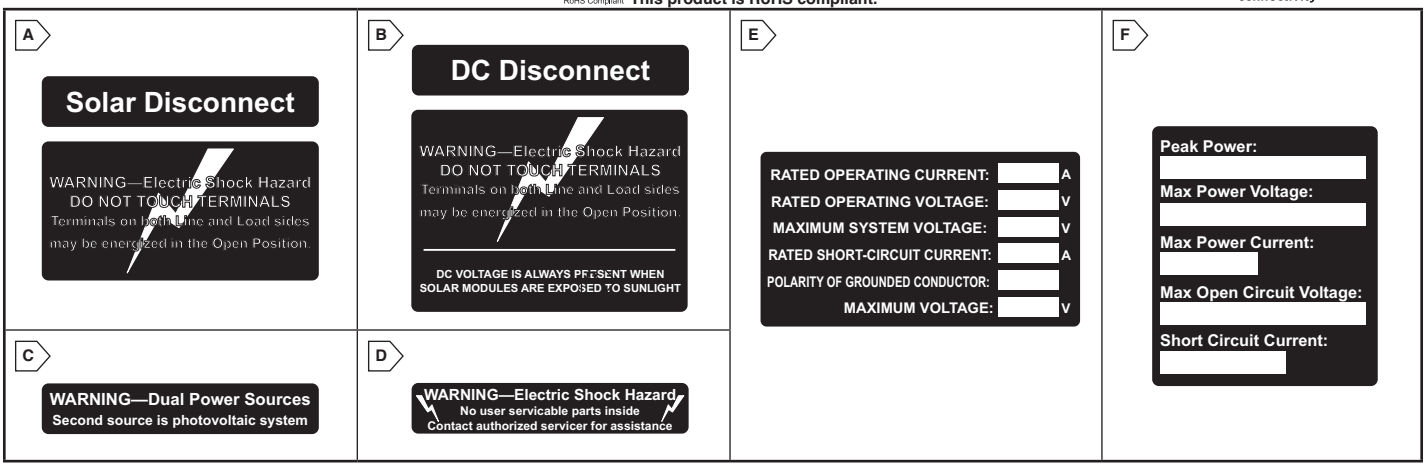
TE CONNECTIVITY Solar Identification Labels

RoHS Compliant **This product is RoHS compliant.**

TE connectivity Authorized Distributor



SOLAR IDENTIFICATION LABELS

TE introduces label solutions for Solar Panel Installation per the National Electric Code (NEC) specification. Labels are manufactured using ultraviolet (UV) resistant ink, permanent acrylic adhesive and base material designed to withstand environmental elements. A laminate is added to provide additional protection against prolonged UV exposure.

Features:

- For use in identification of DC disconnects and inverters
- Designed to use on painted smooth metal and textured metal surfaces
- Excellent durability in extreme outdoor elements
- Resistant to UV, rain, humidity, cold, and salt spray
- Service Temperature: -51˚C to 93.3˚C (-60˚F to 200˚F)

Materials:

- High performance vinyl base material
- UV resistant ink
- UV resistant clear lamination

For quantities greater than listed, call for quote.

REFLECTIVE SOLAR LABELS

Reflective solar labels are manufactured using retro reflective marking to provide emergency responders with appropriate warning and guidance relative to isolating the solar electric system. The labels were designed to be in accordance with the dimensional, functional, and verbiage requirements established by the California Fire Marshall's April 2009, Solar Photovoltaic Installation Guideline.

Features:

- Reflectivity even in poor visibility and bad weather conditions
- 7-10 year outdoor durability (longer if indoors or protected from weather)
- Highly flexible for uneven surfaces, painted, smooth metal or textured metal surfaces
- Reflective properties are built in, not a "charge time" film
- Special impact and scratch resistant surface and flexibility make it suitable for identification in darkened areas

For quantities greater than listed, call for quote.

CANADIAN SOLAR INSTALLATION WARNING LABELS

TE Connectivity introduces solar labels for the Canada solar installers per the Electrical Safety Authority (ESA) specification. Labels are manufactured using ultraviolet (UV) resistant ink, permanent acrylic adhesive and base material designed to withstand environmental elements.

Features:

- For use on smooth painted metal and textured metal surfaces
- Excellent durability in extreme outdoor elements such as UV, rain, humidity, cold and salt spray
- RoHS compliant

Materials:

- High performance vinyl base material
- UV resistant inks
- UV resistant clear over lamination

8000 SERIES SOLDER CUP D SUB WIREMOUNT CONNECTORS

Applications:
- Communication
- Industrial and Instrumentation
- Data
- Military

For quantities greater than listed, call for quote.

3000 SERIES D RIBBON WIREMOUNT CONNECTORS

Features:
- Accepts .050" round, flat or jacketed cable
- Insulation material: Glass Filled Polyester (PBT)
- Flammability: UL 94V-0
- Color: Gray
- Contact material: Copper alloy
- Current rating: 1A
- Temperature rating: -55°C to +105°C
- Plating: 30µ" Gold
- Wire Accommodation: 26 and 28 AWG solid or stranded
- Metal faced plug provides complete EMI shielded system when mated to a metal faced female connector

MINI D RIBBON (MDR) CONNECTORS

- Wiper-on-wiper contact for reliable repetitive plugging
- Interface latch design for connection stability
- Withstanding voltage: 500 Vrms for 1 minute
- Insulation material: Beige glass reinforced polyester (PCT), UL94V-0
- Current rating: 1A
- RoHS Compliant per 3M documentation

.050" Boardmount Thru-Hole Right Angle Shielded Receptacles

RoHS Compliant

- Rugged die cast metal case construction (N102XX-52XXXX only)
- IEEE 1284C Interface as a 36 contact connector
- Contact material: Copper alloy (C521)
- Plating: 30µ" Gold
- Temperature rating: -55°C to +105°C

* MDR Digital LCD interface as a 20 or 26 contact connector

For quantities greater than listed, call for quote.

.050" Surface Mount Right Angle Die Cast Shielded Connector

- Weight-balanced die-cast body resists tipping during automated soldering operations
- MDR digital LCD interface as a 20 or 26 contact connector
- Ultra-low signal skew for high data rate transmission
- Suitable for thumbscrew attach
- Tail length: .134mm

For quantities greater than listed, call for quote.

3M™ IDC D-Subminiature Connectors

RoHS Compliant **This product is RoHS compliant.**

D-SUB CONNECTORS

Available in preassembled or two piece covers. Improved metal strain relief hooks directly to metal shell - Ordered Separately.

Features:
- Low profile
- Insulation Material: Glass Filled Polyester (PBT)
- Flammability: UL94V-0
- Insulation Color: Gray
- Contact Material: Copper alloy
- Contact Plating: 30µ" Gold
- Shell Material: Steel
- Shell Plating: Tin
- Wire Accommodation: 26 and 28AWG solid or stranded
- Current Rating: 1A
- Withstanding Voltage: 1000Vrms @ Sea level
- Temperature Rating: -15°C to +105°C
- RoHS Compliant per 3M documentation

LR40971 E68080

Plugs - 8200 Series

For quantities greater than listed, call for quote.

METAL D-SUB CONNECTOR EMI HOODS

Designed to fit the 3M 8200 and 8300 series D-Sub connectors listed above.

Features:
- Provides EMI/ESD protection
- Provides option in grounding for discrete wire applications
- Light weight, compact design
- Color: Black
- Flammability: UL94V-0
- Material: Steel
- Plating: Nickel
- Cover Nut Material: Glass Filled Polyester (PBT)
- RoHS Compliant per 3M documentation

For quantities greater than listed, call for quote.

COOLPOWER® COMBO D-SUBS

Specifications:
- Current Rating
  Power Contacts: 55 Amperes (per contact)
- Contact Resistance:
  Power Contacts: 0.25 milliohms max
- Insulation Resistance: 5000 Megohms
- DWV: 1500V DC
- Operating Temperature: -55°C to +105°C

Applications:
- Networking, Telecom and Wireless
- Power Supply and Amplifier
- Industrial and Medical
- Military/Aerospace

PLATED PLASTIC BACKSHELLS 2-PIECE DESIGN

Features:
- Fits most standard and high-density D-Subs
- Meets FCC 20780 Requirements
- EMI/RFI shielding

For quantities greater than listed, call for quote.

D*U SERIES 0.109" DENSITY METAL SHELL

Features:
- Crimp and Poke Machined contacts supplied loose with connector
- Commercial grade metal shell connectors intermate with all existing D-subs of comparable pin contacts
- With .120 mounting holes
- Use with 20-24 AWG wire
- UL Recognized: Files E170218 (UL1977) & E130965 (UL1863)
- CSA Approved: File LR31996

Specifications:
- Plug and Socket contact material: copper alloy
- Insulator Material: Glass-filled nylon, black
- Connector shell: steel with zinc plating and clear chromate finish
- Operating temperature: -65°C to +125°C
- Withstanding voltage: minimum 1000V RMS @ sea level
- RoHS Compliant per Cinch documentation

For quantities greater than listed, call for quote.

BASIC-D SERIES 0.109" DENSITY METAL SHELL, SOLDER POT CONTACTS WITH SHELL

Specifications:
- Insulator Material: Glass-filled polyester, white
- Connector shell: Steel with zinc plating and clear chromate finish
- Contact Material: Copper alloy
- Contact plating: Gold flash over nickel
- Tail length: .375"
- Operating temperature: -65°C to +125°C
- Withstanding voltage: minimum 1250V RMS @ sea level
- RoHS Compliant per Cinch documentation

Features:
- With .120 mounting holes
- Stamped contacts

For quantities greater than listed, call for quote.

DEEP STRAIGHT CLAMP JUNCTION SHELL

Materials:
- Shell Material: Zinc plated low carbon steel with clear chromate finish
- Clamp and Screw: Zinc-plated steel with clear chromate finish
- Stop Nut: Zinc-plated brass with clear chromate finish
- RoHS Compliant per Cinch documentation

For quantities greater than listed, call for quote.

COMMERCIAL SCREW LOCK ASSEMBLIES

- Two screwlocks are required per connector.
- Female screwlocks consist of one #4-40 screw, two flat washers, one lockwasher, and one #4-40 nut.
- Male screwlocks consists of one #4-40 slotted screw and a spring tension clip.

✻ Indicates Use With Junction Shells (P = Plug; S= Socket)

For quantities greater than listed, call for quote.

SLIDE LOCK ASSEMBLIES

- Each assembly consists of the lock retainer plate, two screws, 2 washers, and two nuts.
- Two lock posts, part # D-53018, are required to fit into the mounting holes of the mating connectors, must be ordered separately.
- Compatible with all Cinch metal shell D-sub connectors, Backshells, hoods, and junction shells except D*H Series, SDH Series, and Phenolic hood.

For quantities greater than listed, call for quote.

STRAIGHT BACKSHELLS - TWO-PIECE D*H SERIES

- Fits Standard and High Density D-Subminiature Connectors.
- Backshell includes hardware: 4-40 screws, hex nuts 4-40 mounting bracket and grommets to accommodate most cable sizes and function as strain reliefs.
- Backshells are individually bagged.
- Slide locks may not be used with these backshells.
- Optional thumbscrew for backshells must be ordered separately if required.
- RoHS Compliant per Cinch documentation

For quantities greater than listed, call for quote.

CONEC D-Subminiature Connectors

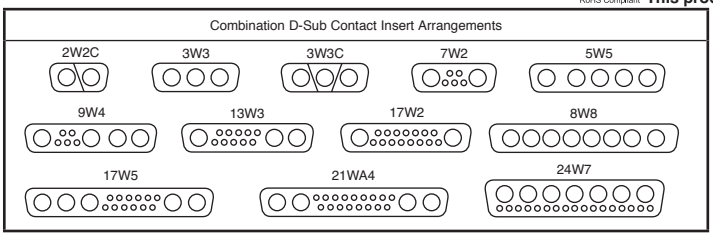
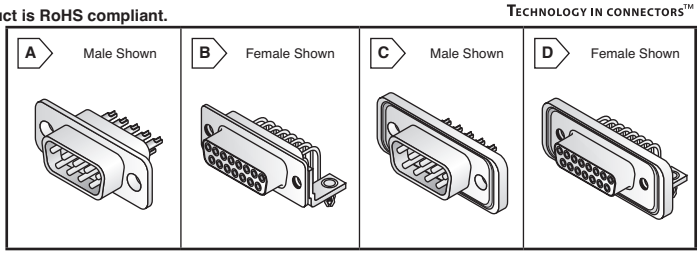
RoHS Compliant **This product is RoHS compliant.**

CONEC TECHNOLOGY IN CONNECTORS™





COMBINATION D-SUBS

- Shell: Tin Plated Steel
- Insulator: UL94V-0
- Mating Cycles: 500
- RoHS Compliant per CONEC documentation

✻4-40 Threaded insert

For quantities greater than listed, call for quote.

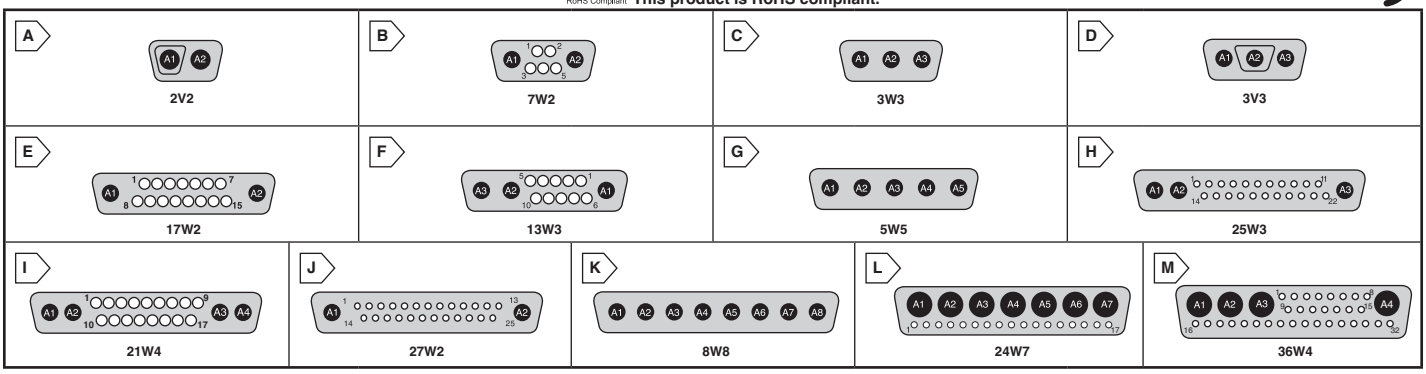
FCI Mixed Power D-Sub Connectors

RoHS Compliant **This product is RoHS compliant.**



MIXED POWER CABLE CONNECTORS

(Power Contacts not Included)

Specifications:
- Shell: Steel
- Insulator: Thermoplastic
- Contacts: Copper Alloy

Standard Plating:
- Shell: Tin
- Contact: Active Area: Gold over Nickel
  Termination Area: Tin over Nickel

Current Rating:
- Power contacts: K-40A per contact
- Signal contacts: 7.5A/contact at 30°C

Features:
- Signal solder bucket contacts are preassembled in the connector
- Power contacts are sold and assembled separately in solder bucket or crimp versions

- RoHS Compliant per FCI documentation

For quantities greater than listed, call for quote.

HARTING D-Sub Connectors

RIGHT ANGLE SMT BOARDMOUNT D-SUB CONNECTORS

Specifications:

- Contact material: Phosphor Bronze
- Contact plating: Terminating side: Gold flash; Mating side: Selective gold plating per performance level
- Flammability: UL94V-0 tested in accordance with IEC 60807-2
- RoHS Compliant per HARTING documentation

Features:

- Incorporates a flat area for full compatibility with standard vacuum pick and place equipment
- Die cast brackets for controlled center of gravity
- Special "no insertion force" pegs for reliable positioning on the PCB
- Nickel Plated steel resists corrosion

Mating Cycles:

- PL3 = 50 mating cycles
- PL2 = up to 200 mating cycles

RoHS Compliant

Right Angle SMT with Die Cast Grounding and 4-40 UNC Rear Nut

For quantities greater than listed, call for quote.

HIGH DENSITY D-SUB CONNECTORS

Specifications:

- Plug and Receptacle versions 15, 26, 44, 62, 78 pos
- PCB Terminations (straight and right angle)
- Crimp Terminations
- Working Current: 2A max
- 4 - 40 UNC hardware
- Temperature Range: - 55°C to +105°C
- Performance level 3 ≥50 mating cycles according to DIN41652

Features:

- Metal Shell - tinned steel
- Right Angle versions include board lock
- Straight versions with & without board lock
- Crimp Contacts AWG 26-24
- UL recognized
- Increased density up to 70% vs standard D Sub

For quantities greater than listed, call for quote.

Crimp - Through Hole

- Housing only, order pin or socket contacts separately.

KYCON Ferrite Filtered D-Subminiature Connectors

RoHS Compliant **This product is RoHS compliant.**

KF22 SERIES - RIGHT ANGLE, .318" FOOTPRINT

Specifications:

- PCB Mount - .318" Footprint
- Grounding board locks
- Riveted threaded inserts
- Shell: Steel, Tin plated
- Insulator: PBT Thermoplastic with glass-fiber reinforcement, UL94V-0 rated
- Color: Black
- Contact Material: Plug: Brass; Socket: Phosphor Bronze
- Contact Plating: Gold flash on mating end with Nickel underplate on entire contact, Tin over Nickel on termination end
- Current Rating: 2A
- Voltage Rating: 30V RMS
- Insulation Resistance: more than 1000MΩ
- Operating Temperature: -55°C to +105°C
- RoHS Compliance per Kycon Documentation

Features:

- EMI/RFI noise suppression in data communication lines
- Cost effective way to meet FCC and VDE Class B requirements
- Does not require any more board space than a standard D-Sub

Ferrite filters provide an easy and efficient way of reducing both radiated and conducted interference. KYCON uses a medium permeability nickel zinc ferrite material that is effective at attenuating frequencies above 30MHz.

Ferrite Specifications		
Test Frequency	Edge Hole	Inner Hole
30MHz	17-27 Ohms	22-30 Ohms
50MHz	22-30 Ohms	29-37 Ohms
100MHz	29-34 Ohms	35-40 Ohms

c US LR78160

RoHS Compliant

KF66 SERIES - RIGHT ANGLE HIGH DENSITY, .350" FOOTPRINT

Specifications:

- PCB Mount - .350" Footprint
- Grounding board locks
- Riveted threaded inserts
- Shell: Steel, Tin plated
- Insulator: PBT Thermoplastic with glass-fiber reinforcement, UL94V-0 rated
- Color: Black
- Contact Material: Plug: Brass; Socket: Phosphor Bronze
- Contact Plating: Gold flash on mating end with Nickel underplate on entire contact, Tin over Nickel on termination end
- Current Rating: 2A
- Voltage Rating: 30V RMS
- Insulation Resistance: more than 1000MΩ
- Operating Temperature: -55°C to +105°C
- RoHS Compliance per Kycon Documentation

Features:

- EMI/RFI noise suppression in data communication lines
- Cost effective way to meet FCC and VDE Class B requirements
- Does not require any more board space than a standard D-Sub

Ferrite filters provide an easy and efficient way of reducing both radiated and conducted interference. KYCON uses a medium permeability nickel zinc ferrite material that is effective at attenuating frequencies above 30MHz.

Ferrite Specifications		
Test Frequency	Outer Row	Inner Row
30MHz	20-23 Ohms	31-38 Ohms
50MHz	24-27 Ohms	37-43 Ohms
100MHz	29-31 Ohms	41-48 Ohms

KF66 VESA SERIES - RIGHT ANGLE HIGH DENSITY, .350" FOOTPRINT

Specifications:

- PCB Mount - .350" Footprint
- Grounding board locks
- Riveted threaded inserts
- Shell: Steel, Tin plated
- Insulator: PBT Thermoplastic with glass-fiber reinforcement, UL94V-0 rated
- Color: Blue
- Contact Material: Plug: Brass; Socket: Phosphor Bronze
- Contact Plating: Gold flash on mating end with Nickel underplate on entire contact, Tin over Nickel on termination end
- Current Rating: 2A
- Voltage Rating: 30V RMS
- Insulation Resistance: more than 1000MΩ
- Operating Temperature: -55°C to +105°C
- RoHS Compliance per Kycon Documentation

Features:

- Pin# 9 recessed 0.050" for last mate/first break on 5V supply voltage
- EMI/RFI noise suppression in data communication lines
- Cost effective way to meet FCC and VDE Class B requirements
- Does not require any more board space than a standard D-Sub

Ferrite filters provide an easy and efficient way of reducing both radiated and conducted interference. KYCON uses a medium permeability nickel zinc ferrite material that is effective at attenuating frequencies above 30MHz.

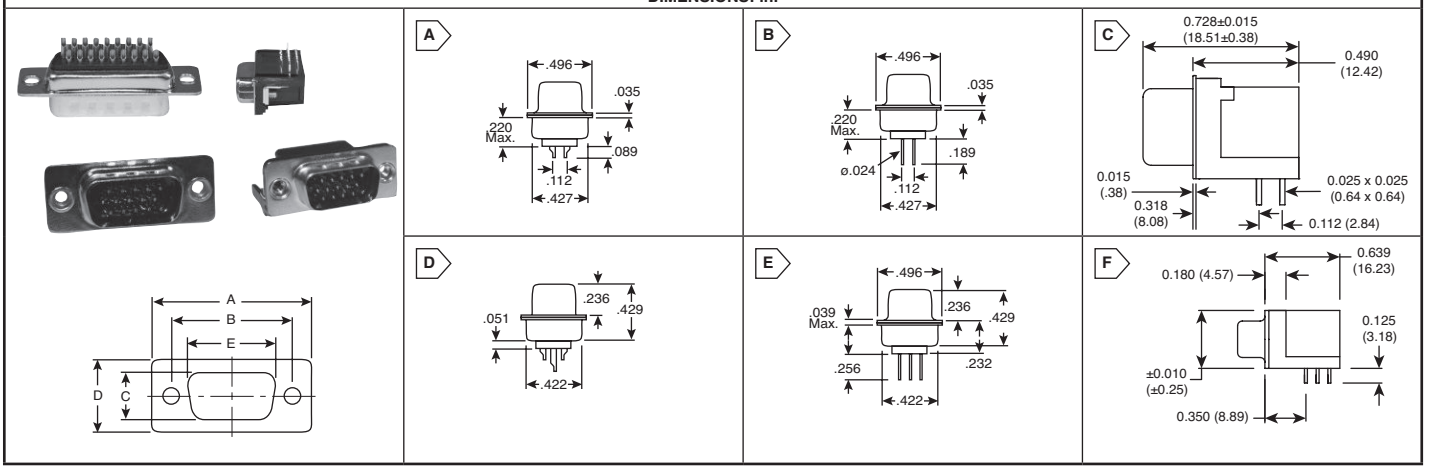
NORCOMP IP66 SEAL-D™ D-Sub Connectors

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: in.



671 SERIES

Features:

- Available in 3 industry sizes/positions (9, 15, 25) Male/Plug Only
- Meets IEC-529-IP66 Requirements
- Unique sealing method maintains STD D-Sub profile allowing drop in replacement of current D-Sub connectors.
- Non-Removable Contacts

Materials:

- Shell: Steel, Nickel Plated
- Insulator: Glass-filled thermoplastic. U.L. rated 94V-O
- Stamped contacts: Male pins - Brass
- Plating: Gold flash on entire contact

For quantities greater than listed, call for quote.

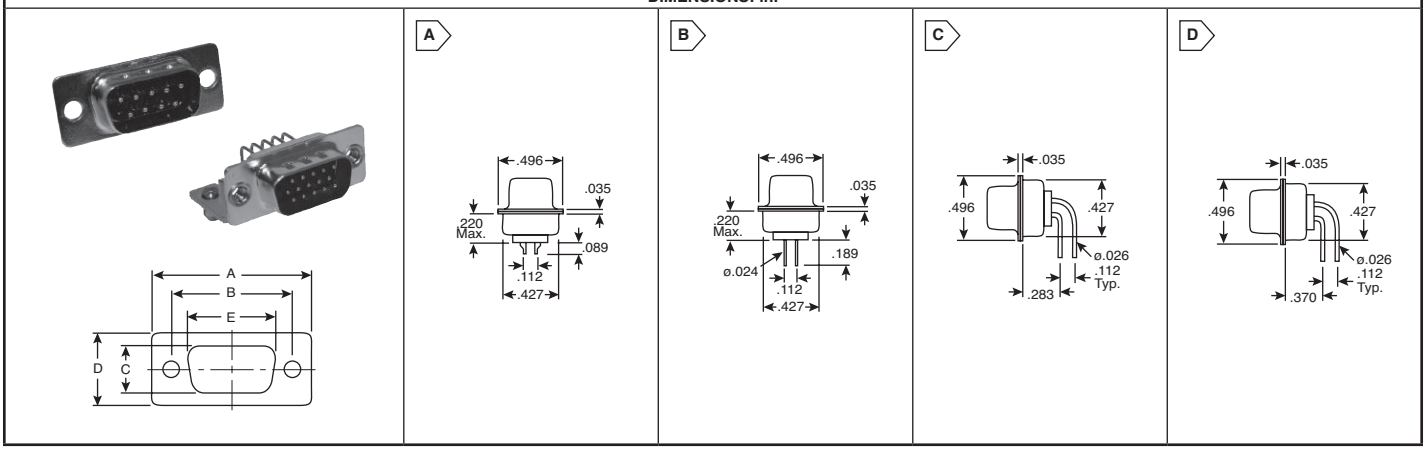
NORCOMP IP67 SEAL-D™ D-Sub Connectors

NorComp
A DIVISION OF EDAC (AMERICA) LIMITED

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: in.



NorComp has developed a new line of IP67 SEAL-D™ D-Subs. These connectors utilize a proprietary sealing technology which maintains the same physical size and footprint as standard D-Sub products. This reduces space on new designs, and eliminates the need to redesign enclosures and PC boards when implementing IP67 design upgrades.

Specifications:

- Voltage: 500VAC for 1 minute
- Current rating: 5A
- Contact resistance: 15mOhms Max.
- Operating temperature: -50°C to 100°C
- Wire size for solder cup termination: 26-20 AWG
- Meets IEC-529-IP67 Requirements

Applications:

- Hand held computers, scanners & printers that are used outdoors
- Remote sensors, gauges & data loggers that are exposed to the elements
- Industrial & medical equipment that is routinely subjected to wash down
- Transmitters & emergency beacons that are subject to short term immersion
- Gas, electric & water metering systems with embedded Smart Grid electronics
- Consumer & commercial shipboard electronics, meters and sensors

NORCOMP IP67 SEAL-D™ D-Sub Connectors

NorComp
A DIVISION OF EDAC (AMERICA) LIMITED

RoHS Compliant **This product is RoHS compliant.**

NorComp has developed a new line of IP67 SEAL-D™ D-Subs. These connectors utilize a proprietary sealing technology which maintains the same physical size and footprint as standard D-Sub products. This reduces space on new designs, and eliminates the need to redesign enclosures and PC boards when implementing IP67 design upgrades.

Specifications:

- Voltage: 500VAC for 1 minute
- Current rating: 5 AMPS
- Contact resistance: 15mOhms Max.
- Operating temperature: -50°C to 100°C
- Wire size for solder cup termination: 26-20AWG
- Meets IEC-529-IP67 Requirements

Applications:

- Hand held computers, scanners and printers that are used outdoors
- Remote sensors, gauges and data loggers that are exposed to the elements
- Industrial and medical equipment that is routinely subjected to wash down
- Transmitters and emergency beacons that are subject to short term immersion
- Gas, electric and water metering systems with embedded Smart Grid electronics
- Consumer and commercial shipboard electronics, meters and sensors

SOLDER CUP HIGH DENSITY - 780-M SERIES

IP-67 SEAL-D® BACKSHELLS

Features:

- Available in 3 industry sizes (9, 15, 25)
- Straight/top entry
- 4-40 thumbscrews supplied with backshell
- Internal bushings and front baffle provide waterproof (IP-67) seal to mating panel

For quantities greater than listed, call for quote.

NORCOMP D-Sub Connectors

RoHS Compliant **This product is RoHS compliant.**

SERIES 170 CRIMP AND POKE D-SUB CONNECTORS

Specifications:
- Shell: Steel, nickel plated
- Insulator: Glass-filled thermoplastic, UL94V-0
- Contact current rating: 5A

Features:
- RoHS Compliance per NorComp documentation (Low Temperature Material)
- Allows for easy loading of only the positions required using Crimp and Snap-in contacts (sold separately)

For quantities greater than listed, call for quote.

SERIES 182 AND 183 ECONOMY VERSION RIGHT ANGLE D-SUB CONNECTORS

Specifications:
- Shell: Steel, nickel plated
- Insulator: Glass-filled thermoplastic, U.L. 94V-O
- Contacts: Brass or Phosphor Bronze

Features:
- RoHS Compliance per NorComp documentation (High Temperature Material - 260°)
- Hardware: Two 4-40 inserts on mating side and 2 forked board locks
- Male shells have indents to provide grounding and additional retention
- Non-removable contacts

✻Two 4-40 threaded inserts on mating side, inside ground straps

For quantities greater than listed, call for quote.

NORCOMP High Density D-Sub Connectors

RoHS Compliant **This product is RoHS compliant.**

SOLDER CUP HIGH DENSITY - SERIES 180

Specifications:
- Shell: Nickel Plated Steel
- Insulator: Glass-filled thermoplastic, UL94V-0
- Contacts: Male - Brass Pins, Female - Phosphor Bronze Pins
- Plating: Gold flash on the entire contact

Features:
- RoHS Compliant per NorComp documentation
- Interfaces with IBM PS/2
- Approximately 65% higher density than standard D-Subs
- Connectors will fit in standard D-sub backshells

For quantities greater than listed, call for quote.

SERIES 180 HIGH DENSITY CRIMP AND POKE

Specifications:
- Shell: Steel, nickel plated
- Insulator: Glass-filled thermoplastic, UL94V-0

Features:
- RoHS Compliance per NorComp documentation (Low Temperature Material)
- Male shells have indents to provide grounding and additional retention

For quantities greater than listed, call for quote.

SERIES 181 HIGH DENSITY RIGHT ANGLE D-SUB CONNECTORS

Specifications:
- Shell: Steel, nickel plated
- Insulator: Glass-filled thermoplastic, UL94V-0

Features:
- RoHS Compliance per NorComp documentation (High Temperature Material - 260°C)
- Two 4-40 threaded inserts on mating side, inside ground straps

For quantities greater than listed, call for quote.

NORCOMP Machined Contact D-Sub Connectors

NorComp
A DIVISION OF EDAC (AMERICA) LIMITED

SERIES 172 MACHINED CONTACT D-SUB CONNECTORS

Specifications:
- Insulator: Glass-filled thermoplastic, UL94V-0
- Shell: Steel, plated with nickel
- Machined Contacts: Brass male and female pins
- Plating: Gold flash over entire contact area

Features:
- Non-removable contacts
- Shells have indents to provide grounding and additional retention
- Screw machine contacts offer high reliability
- RoHS Compliant per NorComp documentation

RoHS Compliant

Solder Cup

For quantities greater than listed, call for quote.

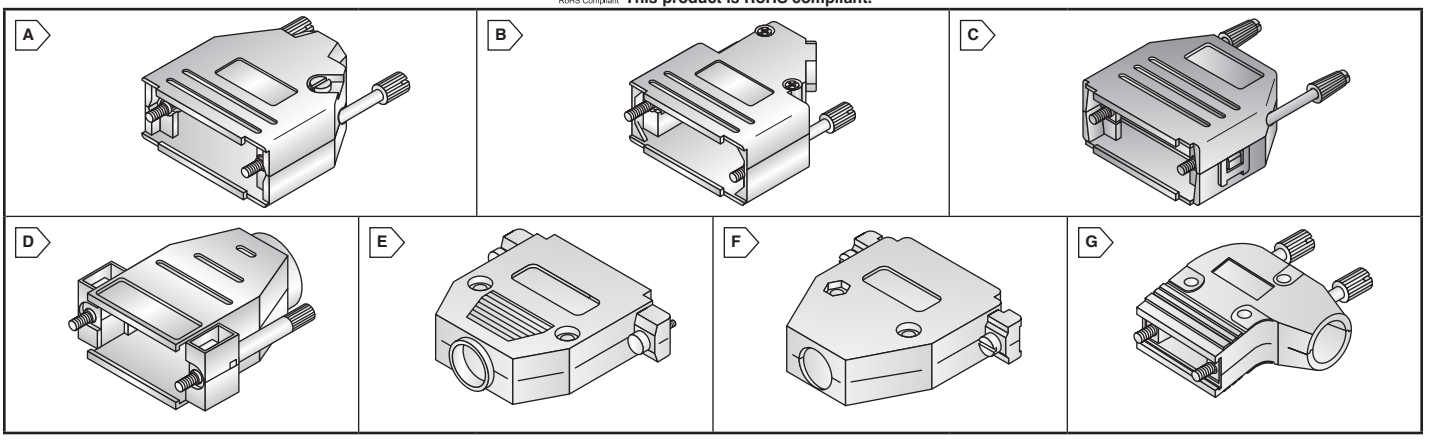
NORCOMP D-Sub Backshells

RoHS Compliant **This product is RoHS compliant.**



D-SUB BACKSHELLS

- Perimeter sealing lips for secure assembly
- Die Cast Material: Lightweight zinc
- Die Cast Plating: Nickel over copper or black chromate
- Metalized Plastic Material: High temperature plastic UL94V-0
- Metalized Plastic Plating: Nickel over copper
- Plastic Material: High temperature plastic UL94V-2
- RoHS Compliant per NorComp documentation

970 and 971 Series Backshells

- Kit includes: (2) Backshell Halves, (2) 4-40 Thumbscrews, (2) Housing Screws, 2 pc. Grommet - Various sizes
- Fully tapped assembly holes allow easy assembly

RoHS Compliant

D-SUB BACKSHELLS

Straight/Top Entry Backshells - 978 Series

- Kit includes: (2) Backshell Halves, (2) 4-40 Mounting Screws, (2) Saddle Washers, (2) Housing Screws, (2) 4-40 Housing Nuts, (1) Strain Relief Threaded Rod
- Metalized plastic provides up to 60 dB shielding
- Metalized Plastic Material: High temperature - UL94H-B
- Plastic: High temperature plastic - UL94H-B
- RoHS Compliant per NorComp documentation.
- Strain Relief design ensures secure fit no matter what cable diameter is used
- Metalized Plastic Plating: Chrome
- Perimeter sealing lips for secure assembly.

RoHS Compliant

For quantities greater than listed, call for quote.

Top Entry Backshells - 979 Series

- Kit includes: (2) Backshell Halves, (2) 4-40 Mounting Screws, (2) Saddle Washers, (2) Housing Screws, (2) 4-40 Housing Nuts, (1) Grommet Tree - Various Sizes
- Die Cast Zinc backshell is nickel plated for over 70 dB shielding
- Perimeter sealing lips for secure assembly
- Backshell cable entry designed for sure grip on cable jacket or grommet and provide proper strain relief
- Non-conductive grommet/strain relief supplied to enhance EMI/RFI shielding

RoHS Compliant

For quantities greater than listed, call for quote.

Straight/90° Backshells - 982 Series

- Kit includes: (2) Backshell Halves, (2) 4-40 Mounting Screws, (2) Strain Relief Clamps, (2) Strain Relief Screws, (1) Compression Spring, (1) Cable Slot Shut-Off, (1) Cable Slot Feed-Thru, (3) Housing Screws
- Metalized plastic provides up to 60 dB shielding
- Metalized Plastic Material: High temperature - UL94V-0
- Separate strain relief mechanism is useable in either top or 90 degree entry
- Perimeter sealing lips for secure assembly
- Metalized Plastic Plating: Electro-plated nickel over copper
- Gray Plastic Material: High temperature plastic - UL94V-0
- RoHS Compliant per NorComp documentation

Straight Snap Backshells - 983 Series

- Kit includes: (2) Backshell Halves, (2) 4-40 Mounting Screws, (2) Saddle Washers, (1) Yoke, (2) Strain Relief Clamps, (2) Strain Relief Screws
- Metalized plastic provides up to 60 dB shielding
- Cable Clamp with self-tapping screws provide positive strain relief
- Gray Plastic Material: ABS Plastic - UL94V-0
- Metalized Plastic Material: ABS Plastic - UL94V-0
- Perimeter sealing lips for secure assembly
- Metalized Plastic Plating: Chrome
- May be used as "Gender Changer", pin-out changer or standard cable entry backshell

RoHS Compliant

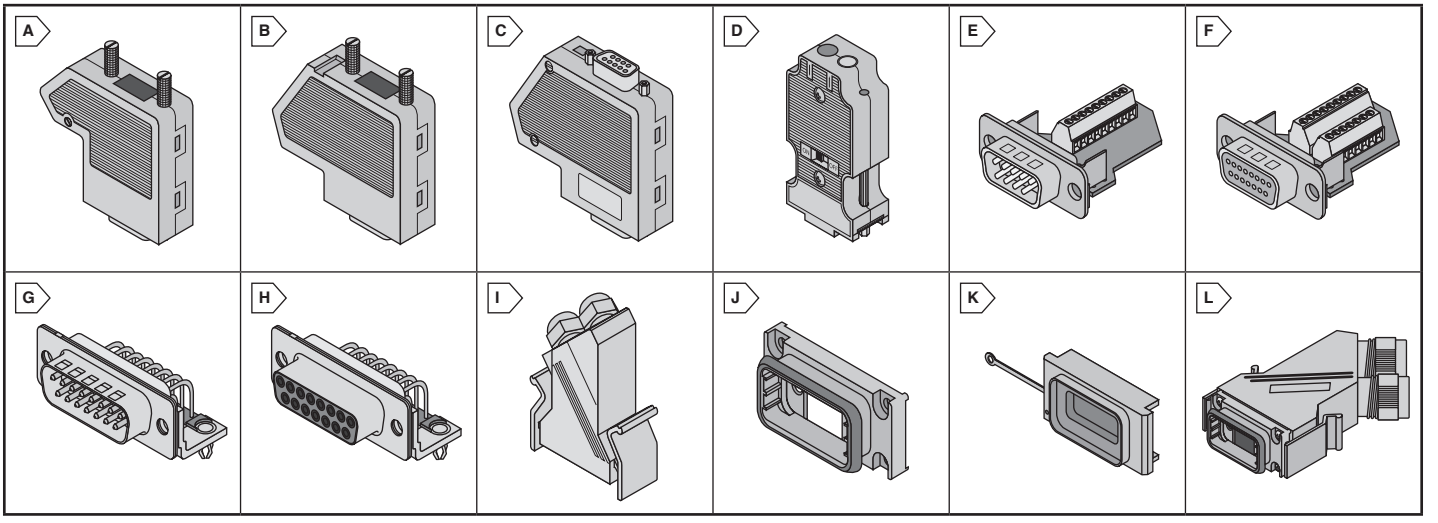
PHOENIX CONTACT D-Sub Connectors

PHOENIX CONTACT
INSPIRING INNOVATIONS



SUBCON D-SUB CONNECTORS

Phoenix Contact's SUBCON products provides a means to make D-SUB assemblies without the hassle of soldering or crimping. The SUBCON product provides connection from the pins of a D-SUB connector to individual screw actuated terminal blocks all in a D-SUB clamshell housing. This means that the only tool required to configure a cable is a screwdriver.

- EMI/RFI Shielded, secure connection of cable assembly to mating receptacle
- Cable feed-in is designed for one cable

For quantities greater than listed, call for quote.

SUBCON-PLUS D-SUB CONNECTORS

- SUBCON-PLUS is for applications where 2 cable feed-ins are required.
- SUBCON-PLUS-PROFIB is designed for use in Profibus systems up to 12 Mbit/s.
- Number of Contacts: 9
- PROFIBUS-Terminating resistor is already integrated in all versions.

For quantities greater than listed, call for quote.

VARIOSUB D-SUB CONNECTORS

VARIOSUB-D-SUB is the IP67 protected plug connector range with commercially available D-SUB contact inserts.

- Male and female insert format enable 9,15, or 25 data lines and cable shields to be connected.
- VARIOSUB housings offer space and time-saving Push-Pull locking which snaps with a noticeable click.

For quantities greater than listed, call for quote.

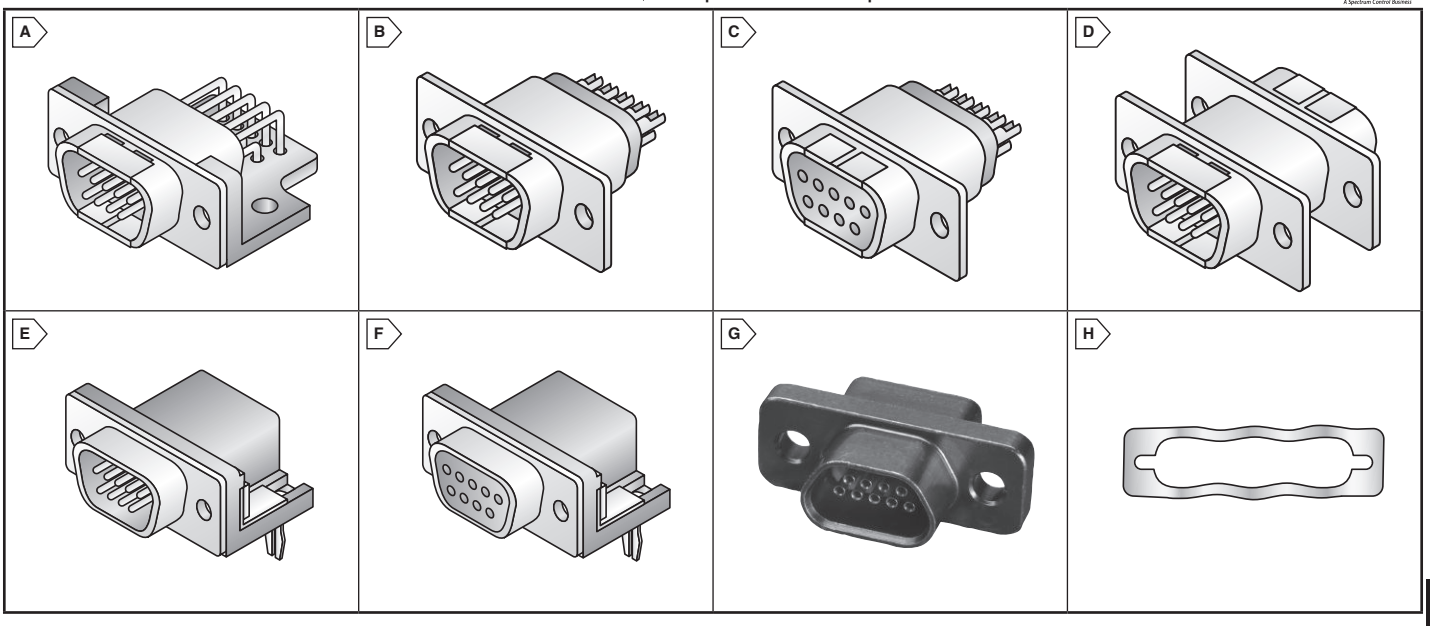
SPECTRUM ASP Filtered D-Sub Connectors

RoHS Compliant **This product is RoHS compliant.**



SERIES 700 HIGH PERFORMANCE FILTERED CONNECTORS

The Series 700 Connectors offer the highest performance filtering for all types of professional applications.

Features:
- One piece diecast housing design
- Tubular capacitor filtering provides effective performance through 10GHz
- UL Recognized: File #E149046
- RoHS Compliant per Spectrum ASP documentation

Specifications:
- Shell: Zinc diecast, nickel plated
- Contacts: Copper alloy
- Plug Contacts: 15μ" Gold plated over nickel
- Receptacle Contacts: 30μ" Gold plated over nickel
- Temperature: -55°C to +125°C
- Current Rating: 5A
- Contact Resistance: 10MΩ maximum

RoHS Compliant

Connectors

Plug/Receptacle Adapter

In-line design allows EMI/RFI filtering to be added externally to equipment. Utilizes existing D-Sub connectors. No gender changer required. Offers same protection as soldered in filters.

- RoHS Compliant per Spectrum ASP documentation

✻ LI Suffix=4-40 UNC Inserts

SERIES 400 FERRITE FILTERED CONNECTORS

The Series 400 Ferrite Filtered Connector is designed as a low cost EMI solution for high frequency interference. The space saving connectors incorporate a solid slab of ferrite material as the filtering element.

Features:
- Prevents common-mode noise in signal lines of data communication terminals and digital devices
- Drop In replacements for standard .318" D-Sub connectors
- Replaces individual ferrite beads, saving cost and space
- Effective in helping meet requirements of FCC, VDE, EN55022 and Japan's VCCI
- RoHS Compliant per Spectrum ASP documentation

Specifications:
- Operating Temperature: –40°C to +105°C
- Frequency Range: 10 – 300MHz
- Current Rating: 5A
- Dielectric Withstand Voltage: 1000 VAC for one min
- Shell: Steel (Tin Plated)
- Plug Contacts: Brass
- Receptacle Contacts: Phosphor Bronze
- Contact Plated: Gold Flash

RoHS Compliant

For quantities greater than listed, call for quote.

FILTERED MICRO D CONNECTORS

Features:
- Light weight
- Compact size
- Environmentally sealed contact area when mated
- Corrosion resistant
- Durable (500 cycles min.)
- Superior electrical performance
- RoHS compliant

Specifications:
- Operating Voltage: 100 VDC Dielectric
- Withstanding Voltage: 300 VDC
- Current Rating: 3A
- Insulation Resistance: 5G ohms @ 100 VDC

For quantities greater than listed, call for quote.

WAVED METAL GASKETS

Waved metal gaskets adjust for mounting surface irregularities, resulting in optimum filtering performance.

Specifications:
- Material: Beryllium Copper
- Finish: Electro Tin Plate
- Material Thickness: .005" Compresses
- Wave Length: .030"
- RoHS compliant per Spectrum ASP documentation

RoHS Compliant

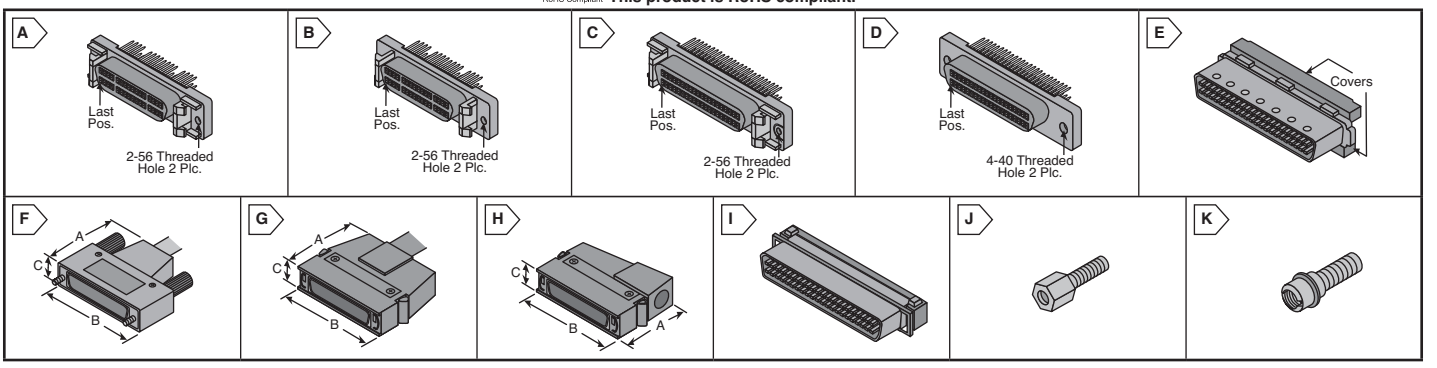
RoHS Compliant **This product is RoHS compliant.**



Description:

- Compatible with SCSI-2, EIA RS-232, HIPPI and IPI-2 standards
- High-density D type interface
- Shields mate before contacts, with ground mating first and breaking last
- Recognized under the Component Program of Underwriters Laboratories, Inc. File No. E28476
- Certified by Canadian Standards Association, File No. LR 7189A-207
- Series I - will intermate with 50, 68 and 96 position connectors in Series II and Series III
- Series III - will intermate with all Series II positions and the 50, 68, and 96 position Series I

VERTICAL RECEPTACLE HEADERS, SERIES III

.125 (3.18) Solder Tail Length

RoHS Compliant

Material and Finish:

- Housing: Thermoplastic, UL94V-0 rated, black, SMT compatible
- Shell: Steel, plated .000200 (0.00508) min. bright tin over .000050 (0.00127) min. copper
- Bracket: Zinc, plated nickel over copper
- Contacts: Phosphor bronze, duplex plated .000030 (0.00076) min. gold on mating end
- .000120 (0.00304) min. tin-lead on solder end all underplated .000050 (0.00127) min. nickel

For quantities greater than listed, call for quote.

SHIELDED BACKSHELL KITS, SERIES III

With Male Jackscrews

Materials:

- Jackscrews: Steel, plated black zinc
- Jackscrew Caps: Polyolefin or PVC, black
- 2-56 Screws: Stainless Steel
- Backshell: Zinc, plated nickel over copper
- Strain Relief Staple: Steel, plated tin-lead over nickel

Features:

- Each kit includes upper and lower backshells, two male jackscrews, one strain relief staple and two 2-56 screws.
- Packaged unassembled

RoHS Compliant

For quantities greater than listed, call for quote.

TE CONNECTIVITY D-Subminiature PCB Connectors

RoHS Compliant This product is RoHS compliant.

TE connectivity Authorized Distributor

HD-20 SERIES RIGHT ANGLE CONNECTORS, FRONT METAL SHELL

- Shell: Steel, tin plated
- Contacts: Pins-brass, sockets - phosphor bronze
- .318 PCB footprint
- Housing: UL 94V-0 black thermoplastic
- Contact Plating: (a) Gold on mating end, tin on termination end, nickel underplated
  (b) Gold flash on mating end, tin on termination end, nickel underplated

RoHS Compliant

HD-22 FRONT METAL SHELL, RIGHT ANGLE CONNECTORS

Features:

- PCB Mount
- High density, .350 PCB footprint with boardlocks
- Front shell: steel tin plated
- Housing: black thermoplastic, UL94V-0
- Contacts: pin-brass, socket-phosphor bronze .22DF
- Plating:
  (a) 30µ" gold on mating end, tin on termination end, all nickel underplated
  (b) Gold flash on mating end, tin on termination end, all nickel underplated
- Shell: nickel plated steel
- Boardlocks: tin plated brass
- Threaded Inserts: tin plated brass
- Female Screwlocks: nickel plated brass

HD-20 STACKED PCB CONNECTORS

AMPLIMITE HD-20 Stacked PCB Connectors add the advantage of reducing overall board real estate normally consumed by individual PCB connectors.

UL 28476 CSA LR 7189

Materials:

- Housing: UL94V-0, Thermoplastic, Black
- Front Metal Shell: Tin Plated Steel
- Boardlocks: Tin Plated Brass
- Female Screwlocks: Nickel Plated Brass
- Threaded Inserts: Tin Plated Brass
- Brackets: Zinc
- Contact Pins: Brass
- Contact Sockets: Phosphor Bronze
- Plating: .000030 (0.00076) gold on mating end, tin on solder tails with overall nickel underplate

MIL-DTL-22992 SERIES

The Amphenol Class "L" heavy duty connectors are now available in a lower cost commercial version. The Class L meets the demands for heavy duty & heavy power connectors that are critical for rugged environmental conditions.

NEW PRODUCT

Features:

- 40-200 Amps
- Foolproof Mating
- Serviceable Contacts
- Arc Quenching Design
- Programmed Coupling Sequence
- IP67 Waterproof Design
- Rugged Construction

For quantities greater than listed, call for quote.

MIL-DTL-D38999 SERIES III TV

MIL-Qualified to MIL-DTL-38999, Rev. K, the Amphenol® Composite Tri-Start Connector offers a lightweight, corrosion resistant connector with the same high performance features as its metal counterpart. The Composite Tri-Start Connector also includes the following features:

- Lightweight: 17–40% weight savings vs. Aluminum; 60–70% weight savings vs. Stainless steel
- Durability - 1500 couplings minimum
- Extended Life Contact
- Corrosion Resistance - available in standard MIL-DTL-38999 olive drab cadmium with standing 2000 hours of salt spray exposure.
- Qualified to BACC63CT and BACC63CU specifications

Wire Splices

The 48 Series wire splice connector is a low cost, space saving connector.

- Utilizes a metal retention clip for single size 16 pin and socket
- Uses standard M39029/39-229 pin and M39029/32-248 socket contacts

For quantities greater than listed, call for quote.

MIL-DTL-38999 SERIES I LJT

Amphenol® LJT and JT Series subminiature cylindrical connectors are qualified to MIL-DTL-38999, Series I and II respectively. These connectors were developed to meet the needs of the aerospace industry. Meeting or exceeding MIL-DTL-38999 requirements, Amphenol® JT/LJT connectors feature:

- Lightweight, Space Saving Design
- Contact Protection - 100% scoop-proof LJT design prevents bent pins and short circuits during mating
- Quick Positive Coupling - 3 point bayonet lock system
- Mismating Eliminated - with 5 key/keyway design
- Error Proof Alternate Positioning - insured by different key/keyway locations
- EMI Shielding - grounding fingers standard in LJT Series; optional in JT Series

LC = Less Contacts

MIL-DTL-26482 SERIES 2 MATRIX®

- Medium size, environmentally resistant connector
- Recommended operating voltage to 1,000 VAC (RMS) at sea level
- Quick positive coupling assured by 3 point bayonet coupling system
- Eliminates mismating by the use of five key/keyway design
- Sealing over a range of wire diameters is assured by a triple webbed grommet at the rear of the connector
- Visual confirmation of complete coupling
- Contacts are qualified to SAE AS39029 requirements
- Grommets are constructed of tear-resistant elastomer and experience no degradation when exposed to a broad range of fluids
- Closed entry socket side of the insert is designed with a lead-in chamfer and a hard face that will accept a pin contact bent within pre-established limits
- Elastomer interfacial seal on the pin side has raised barriers around each pin which displace into the socket chamfer when mated, providing a positive moisture seal

For quantities greater than listed, call for quote.

MIL-DTL-5015 SERIES MATRIX®

This series provides an alternative to the older MIL-DTL-5015 solder type. It bridges the gap between an old connector standard and the environmental and high performance needs of current technologies.

- Medium to heavy weight cylindrical
- MS345( ) series intermateable with existing MIL-DTL-5015 solder or crimp versions on existing equipment
- Captive coupling nut mechanism, utilizes retaining rings in combination with "L" washers to prevent inadvertent disassembly
- Multiple interlock systems ensure permanent insert retention
- Positive control of dielectric separation with guaranteed ease of contact insertion
- Positive contact retention provided by a closely toleranced damage-proof metal retention clip
- Completely sealed against environmental extremes with:
  - Individual contact seals
  - Interfacial seals between contacts
  - Peripheral gasket shell-to-shell seals
  - Redundant rear wire seals and insert-to-shell seals

For quantities greater than listed, call for quote.

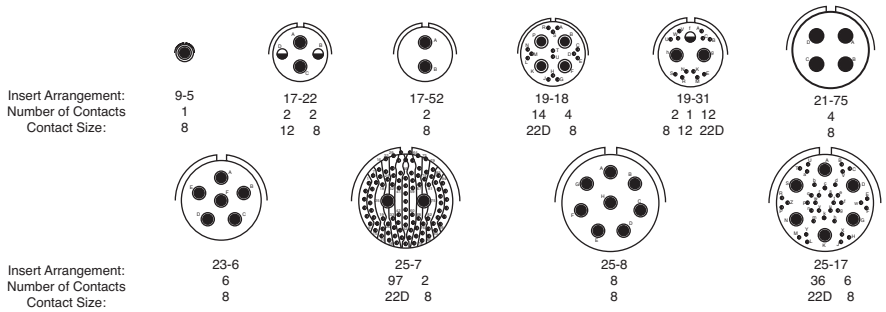
HD38999 CONNECTORS WITH QUADRAX CONTACTS



Features:
- Amphenol's new high density HD38999 design allows for up to 46% more contacts in the same shell as the standard Mil Spec arrangement and meets all of the environmental performance of MIL-DTL-38999 Series III
- The connector allows users to increase the number of contacts without increasing the size of the connector
- The HD38999 is a drop in replacement for standard 38999 connectors, but offers 30% more density

Electrical Specifications:
- Voltage: 22 AWG: 5.0 AMPS
  24 AWG: 3.0 AMPS
  26 AWG: 2.0 AMPS
  28 AWG: 1.5 AMPS
- Insulation Resistance: 5000 megohms min.@500 VDC 25C
- Dielectric Withstanding Voltage: 1000 VRMS@sea level

Mechanical Specifications:
- Metallic Shells: Material: Aluminum alloy, Stainless Steel Protection: Electroless Nickel, O.D. Cadmium, Durmalon (Nickel PTFE), Zinc Nickel
- Composite Shells: Thermoplastic Protection: Electroless Nickel, O.D. Cadmium, Durmalon (Nickel PTFE), Zinc Nickel

For quantities greater than listed, call for quote.

Quadrax Contacts

High speed Quadrax contacts consist of an outer contact with four inner contacts spaced to form two 100 or 150 Ohm controlled impedance differential pair. Both contacts, when used in Amphenol MIL-DTL-38999 Series III and ARINC type connectors, provide an excellent alternative for harsh environment applications such as:
- Ethernet 100 Base-T-100 Ohm
- Gigabit Ethernet 1000 Base-T-100 Ohm
- Fibre Channel-150 Ohm
- IEEE1394B FireWire-110 Ohm

Size 8 pin and socket Quadrax Contacts are gold plated, crimp termination. Amphenol's Quadrax Contacts offer several advantages for high data transfer rates, low power consumption and excellent EMI compatibility.

Quadrax Size 8 Contact Performance:
- Bandwidth: Up to 3 Gigahertz
- Data Rate: Exceeding 3 Gbits/sec.
- Voltage Rating: 500 Vrms max. @ sea level
- Dielectric Withstanding Voltage:
  1000 VAC rms between all inner contacts @ sea level
  500 VAC rms between inner and outer contacts @ sea level

For quantities greater than listed, call for quote.

97 SERIES SOLDER TYPE (MIL-DTL-5015 STYLE)

The Amphenol 97 series connectors are a general duty standard cylindrical connector, MIL-DTL-5015 style. The 97 series is a widely used connector for the automotive, robotics, machine tool, and welding industries, as well as numerous other commercial applications. Shell components are fabricated from high grade aluminum alloy. A complete connector assembly consists of a shell with an installed insert.
All connectors shipped assembled and individually packaged

Features:

- Medium to heavy weight cylindrical
- Durable, field-proven design
- Single key/keyway polarization
- Threaded coupling, hard dielectric inserts
- Operating temperatures from -55ºC to +125ºC
- Intermateable and intermountable with existing 97 series and MIL-DTL-5015 connectors

Materials:

- Shells: High grade aluminum alloy, with a conductive cadmium plate finish and an olive drab chromate after treatment.
- Inserts: Hard Blue Diallyl-phthalate
- Contacts: Silver plated with pre-tinned solder cups

✻ RoHS Version Materials:

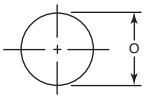
- Plating: Black Zinc Cobalt
- Insert: Hard Blue Diallyl Phthalate
- Contacts: Silver Plated with non-filled solder cups
- Add (946) to end of part number to designate black zinc cobalt RoHS finish
- Other RoHS finishes are available. Contact your Mouser sales representative for more information.

Recognition File #E115497

Certification File # LR 69183

Receptacle Mounting Holes:
.173" (4.394) Diameter for shell sizes 32 and 36
.147" (3.734) Diameter for shell sizes 24 and 28
.120" (3.048) Diameter for all other shell sizes

Panel Opening



Quick selection guide for the standard Amphenol 97 series.

1. **How many wires are you going to connect and what gauge?**
   Use the insert arrangement table on the following page for selecting insert configuration .
2. **What kind of receptacle shell do you need?**
   Wall Mounting: 3100 Shell Series, Box Mounting: 3102 Shell Series, Cable Mounting: 3101 Shell Series
3. **What kind of plug shell do you need?**
   Straight Cable: 3106 Shell Series, Right Angle Cable : 3108 Shell Series
4. **Do you need a plug with a solid or split back shell?**
   The solid shell (A Type) has greater strength and saves space. The split shell (B Type) allows for quick inspection of solder terminals.
5. **Which connector shell gets the socket insert? The receptacle or the plug shell?**
   Either pin or socket inserts can be used with plug or receptacle shells. The rule of thumb is use the socket insert for the connector on the "hot" side of the circuit.
6. **Which accessories are needed?**
   Cable clamps and protection caps are available and are shown at the end of this product section.

97 SERIES SOLDER TYPE (MIL-DTL-5015 STYLE) (CONT.)

How to build a standard Amphenol 97 series part number:

Combine the shell part number with insert arrangement number to complete the Amphenol part number. For Example: From the table below, combine a wall mount shell number **(97-3100A-)** with an insert number **(18-16P)** to create a complete Amphenol part number **(97-3100A-18-16P)**. The standard Amphenol 97 series shells are constructed with a high grade aluminum alloy and come in a olive drab chromate finish. The blue diallyl-phthalate inserts have pre-installed silver plated contacts with solder cups. **All connectors are shipped fully assembled, labeled, and individually packaged.** For complete connector specifications and descriptions see the 2 previous pages.

✻**Mouser Part No. prefix is 654-** (example of full Mouser part number: **654-PT02A-8-2P**)

To make a mating receptacle - plug connection:

From the table below, select a plug combination off of the same line as the selected receptacle combination. For Example: A **97-3100A-18-16P** wall mount receptacle will mate with any of the plugs with the **18-16S** insert. **Receptacles only mate with plugs on the same line.**

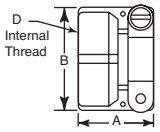
ACCESSORIES FOR AMPHENOL 97 SERIES CONNECTORS

Cable Clamp MS 3057A Type and Bushing

For quantities greater than listed, call for quote.

Cable Clamp MS3057A Type

For jacketed cable or wires protected by tubing. Both clamping halves float for maximum strain relief. For unjacketed cable or wires, use corresponding MS3420 bushing. Clamp and bushing can be ordered together.



Bushing MS3420

Rubber bushing specifically designed for MS3057A type cable clamp. Can also be used as a reducing bushing. Order separately or with cable clamp.

MIL-DTL-5015 TYPE CIRCULAR CONNECTORS

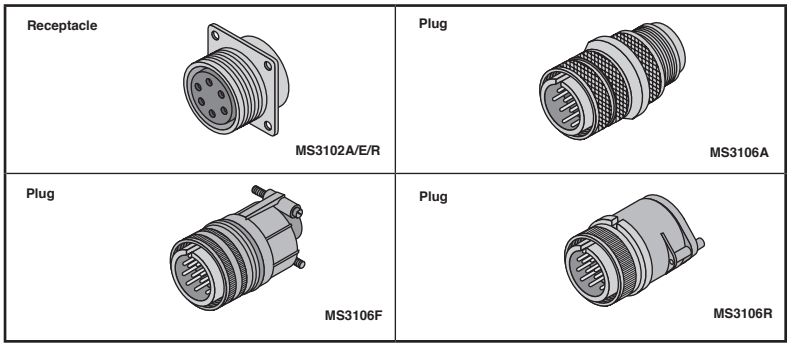
MS connectors meet the latest performance requirements of MIL-DTL-5015. These connectors represent well-proven electrical capability at an acceptable cost for most equipment where durability is important. MS connectors are best suited to commercial applications where low cost and durability are necessary.
MIL-DTL-5015 features threaded couplings and single key/keyway polarization, representing maximum simplicity in design.

Materials:

- Shells: Fabricated from high grade aluminum alloy with an olive drab chromate finish
- Contacts: Machined copper alloy with a sliver plated finish
- Inserts: Black resilient neoprene

Insert Arrangements:

- Please see the insert arrangement table in the 97 series catalog section
- A – Solid Shell – for general, non-environmental applications.
- E/F –Environmental Resisting with Strain Relief – designed for applications where the connector will be exposed to moisture, vibration, and rapid change in pressure and temperature.
- R – Lightweight Environmental Resisting – shorter in length and lighter in weight than the E and F classes, the MS-R offers a high degree of reliability under adverse conditions. Recommended for new design applications



Features:

- Durable, field-proven design
- Environmental resistant
- Resilient inserts
- Operating voltage to 3000 VAC (RMS) at sea level
- Threaded couplings
- Single key/keyway shell polarization
- Cost effective

Applications:

- Engines
- Sensors
- Motion Control
- Off-Road Vehicles
- Mobile Equipment
- Industrial Machinery
- Telecommunications
- Power Generators
- Ships

A-Type - Standard Duty

MS-A class connectors perform many of the vital functions in powering, testing and ground support systems. Class A applications include communications equipment, computers and shipboard installations where mechanical forces and physical parameters are not subject to environmental changes. Inserts offer high dielectric strength, high arc resistance and resistance to vibration.

MIL-DTL-5015 TYPE CIRCULAR CONNECTORS (CONT.)

E/F-Type - Environmental Resisting

MS Class F connectors satisfy all the performance requirements of MIL-DTL-5015. These connectors are recommended for conditions where vibration, moisture, pressure and temperatures are extreme. Inserts provide an outstanding moisture barrier, high dialectic strength and resistance to vibration. Either pin or socket insert can be pressurized.

R-Type - Lightweight Environmental

Specification requirements for greater reliability in a shorter, lighter weight environmental resistant connector led to the design of the MS-R. MS Class R connectors satisfy all the performance requirements of MIL-DTL-5015.

This low profile assembly was attained by moving the axial compression nut and grommet assembly forward and flush with the rear of the insert. The neoprene grommet, with its low coefficient of friction, assures easier threading of wire bundles and quicker assembly and serviceability of the unit. Molded webs in each wire hole insure a moisture barrier around each wire.

The addition of an "O" ring at the main joint of all MS3106R plugs provide a main joint seal supplementary to the interfacial seal, thus insuring a higher degree of reliability when connector halves from different sources are employed. MS-R types are recommended for new design applications.

Inserts provide an outstanding moisture barrier, maximum vibration resistance and high dielectric strength. Either pin or socket insert can be pressurized.

Box Mount Receptacles | **Straight Plugs** | For quantities greater than listed, call for quote.

PT SERIES SOLDER TYPE (MIL-DTL-26482, SERIES 1)

Amphenol Miniature Cylindrical connectors offer twice the number of contacts in just half the size of a standard connector. The PT series offers quick positive three point bayonet lock coupling. A complete connector assembly consists of a shell with an installed insert. **All connectors shipped fully assembled, labeled and individually packaged.**

Features:

- Medium size, widely used cylindrical connector
- Corrosion resistant cadmium plate with an olive drab chromate finish
- Five key/keyway polarization
- Quick positive three point bayonet lock coupling
- Audible, tactile and visual indication of full coupling
- Suitable for wide temperature range
- Spring tension provided by a wave washer ensures maintenance of interfacial seal between mating halves
- Resilient neoprene insert and main joint gasket provides excellent moisture sealing and superior electrical contact isolation
- Some styles available in RoHS Compliant versions

Specifications:

- Temperature range: -65°C to +257°C
- Current rating: 7.5 Amps to 23 Amps

Materials:

- Shells: High grade aluminum alloy, with a conductive cadmium plate finish and an olive drab chromate after treatment. ✻RoHS available
- Inserts: Black resilient neoprene
- Contacts: Gold plated copper alloy. Socket contacts are a closed entry design.

Recognition
File #E115497

Quick selection guide for the standard Amphenol PT series.

1. How many wires are you going to connect and what guage?
Use the insert arrangement table on the following page for selecting insert configuration.

2. What kind of receptacle shell do you need? The plug only mates with receptacles.
Box Mount: PT02, Jam Nut: PT07, Wall Mount: PT00

3. Which connector shell gets the socket insert? The receptacle or the plug shell?
Either pin or socket inserts can be used with plug or receptacle shells. The rule of thumb is use the socket insert for the connector on the "hot" side of circuit.

PT Service Classes:

A General Duty; back shell is threaded for conduit attachment of MS3057 cable clamp†
A (SR) General Duty; with strain relief clamp for cable or wire bundle support
E Environmental resistant connectors - supplied with a multi-holed grommet and clamping nut for moisture-proofing individual open wires
E (SR) Environmental resistant strain relief clamp and grommet for moisture proofing individual wires; provides added wire bundle support

† T02 Shells do not have a threaded back shell

PT SERIES SOLDER TYPE (MIL-DTL-26482, SERIES 1) (CONT.)

How to build a standard Amphenol PT series part number:

Combine the shell part number with insert arrangement number to complete the Amphenol part number.
Receptacle Example: From the table below, combine a box mount shell number **(PT02A-)** with an insert number **(8-2P)** to create a complete Amphenol part number **(PT02A-8-2P)**.

Plug Example: From the table below, combine a plug shell number **(PT06A-SR)** with an insert number **(8-2S)** to create a complete Amphenol part number **(PT06A-8-2S-SR)**. The standard Amphenol PT series shells are constructed with a high grade aluminum alloy and come in a olive drab chromate finish. The black resilient neoprene inserts have pre-installed gold plated contacts with solder cups. **All connectors are shipped fully assembled, labeled, and individually packaged.** For complete connector specifications and descriptions see the previous pages.

To make a mating receptacle - plug connection:

From the table below, select a plug combination off of the same line as the selected receptacle combination. For Example: A **PT02A-8-2P** box mount receptacle will mate with any of the plugs with the **8-2S** insert.
Receptacles only mate with plugs on the same line.

PT SERIES CRIMP TYPE (MIL-DTL-26482, SERIES 1)

Amphenol SE crimp type miniature connectors provide performance and versatility needed for applications demanding high reliability and crimp removable contacts. These crimp contacts are rear insertable/front release and are held in position by an MS approved spring tower retention system. Crimp contacts are supplied with connectors. Product specifications are comparable, intermateable, and intermountable to the PT solder series.
(See above text for ordering information.)

AMPHENOL® Miniature Cylindrical Connectors

MS TYPE ENVIRONMENTAL MINIATURE BAYONET CONNECTORS (MIL-DTL-26482, SERIES 1)

Features:
- Bayonet couplings with 5 key/keyway polarization
- Visual confirmation of complete mating
- Durable, field-proven design
- Solder contacts
- All connectors shipped assembled and individually packaged

Specifications:
- Temperature Range: -40°F to + 185°F (IEC 60068-1)
- Shells: Fabricated from high grade aluminum alloy with an olive drab chromate finish
- Contacts: Machined copper alloy
- Inserts: Black resilient neoprene with white printing

Mating Information:
- Receptacles mate with plugs on the same line.

AMPHENOL KTK HIGH PRESSURE DOWNHOLE CONNECTORS

Features:

- High Pressure: 20,000 PSI (137 MPA) bi-directional
- Medium and High Temperature versions: 200°C and 170°C
- Fully compatible with Kintec and GE Tensor layouts

RoHS Compliant

For quantities greater than listed, call for quote.

ENVIRONMENTALLY SEALED IN-LINE JUNCTIONS/LUMINOUS CONNECTORS

- Developed to meet MIL-T-81714 criteria
- Environmental sealing that meets ECA EIA-364D-03B to 12,000 feet
- Lock firmly together with straight push
- Unlock with a "twist and pull" (single splice) or "squeeze and pull" (triple splice)
- Accepts standard MIL-DTL-39029 contacts

RoHS Compliant

For quantities greater than listed, call for quote.

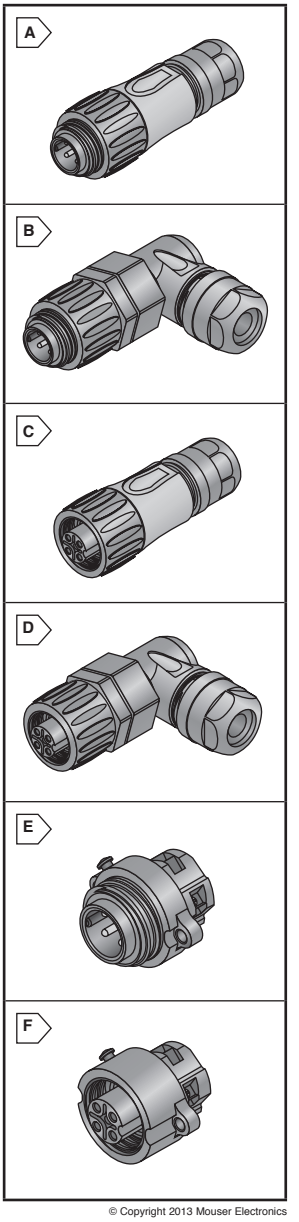
ECO MATE CIRCULAR CONNECTORS, SERIES C16-M

The Eco mate Series is designed to have ease of operation using reduced dimensions while withstanding harsh conditions. This series is compatible and interchangeable with the well established C16-1 Series. The connector is primarily used for measuring and controlling applications such as control technology for engineering; Ideal for green energy applications.

Features:
- Quick and easy assembly
- Vibration safe with non-sensitive screw locking
- Ergonomic coupling sleeve for better grip and safer handling
- Pre-loaded ground contact
- Screwed cable gland with clamping ring; threaded cable gland

Specifications:
- Cable O.D.: 6 - 12.5mm
- Contact Plating: Silver
- IP Degree: IP65/IP67 (DIN EN 60529)
- Temperature range: -40°C to +100°C



Cable Connectors

AMPHENOL® Rugged Circular DIN Connectors

Amphenol®

RoHS Compliant **This product is RoHS compliant.**

CIRCULAR DIN CONNECTORS, SERIES C091A

Features:

- Metal locking ring; screw locking according to DIN EN 60130-9/IEC 60130-9
- Internal metal strain relief with half shell construction and snap-in latching
- UL Approval File # E63093
- Complete EMI shielding in fully mated and locked position
- Solder termination
- Cable connector length: 2.658"
- Cable connector diameter: .670"

✻Contact plating: silver unless noted with (Gold)

Male Cable Connector, Max. Cable O.D = 6mm

For quantities greater than listed, call for quote.

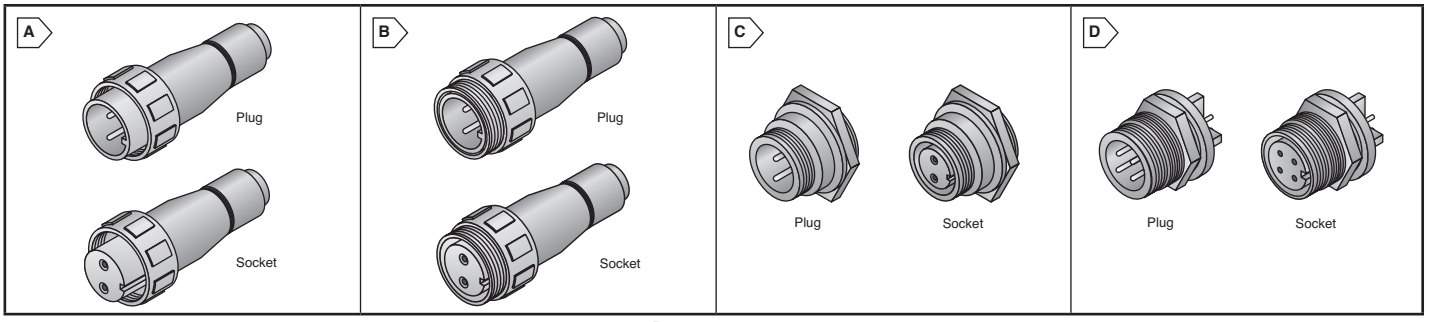
BULGIN 400 Series Buccaneer® Sealed Connectors

RoHS Compliant This product is RoHS compliant.

400 SERIES BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

Specifications:

- Sealed to IP68 when mated
- Contact inserts are part of body moulding
- Cable range from 3 to 7mm
- Diameter over coupling ring 19.1mm
- Flame retardant moulding material: Polyamide UL94V-0
- RoHS Compliant per Bulgin documentation
- Secure sealing system
- UL, CSA, and VDE approvals



Flex Cable Connectors

- Mates with flex in-line or panel mounting versions
- Screw locking ring
- Contacts supplied separately
- RoHS Compliant per Bulgin documentation

RoHS Compliant

For quantities greater than listed, call for quote.

BULGIN 900 Series Large Buccaneer® Sealed Connectors

RoHS Compliant This product is RoHS compliant.

900 SERIES LARGE BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

Specifications:

- Water and dustproof to IP68 when mated
- Positive locating keyways - cannot be mis-connected
- Compact design
- Easy assembly - no special tools required
- UL, CSA, and VDE approved
- Axial screw terminals
- Current rating: 2, 3, 4, 5, & 7 poles 32A
  10 poles 10A
- Voltage rating: 2, 3, 4, & 5 poles 600V,
  7 poles 430V, 10 poles 250V
- Contact resistance: <10mΩ initial
- Insulation resistance: >10^6MΩ @ 500 VDC
- Operating temperature: -40°C to +85°C
- Body material: Polyamide UL94V-0
- Contact material: Machined solid brass, nickel plated
- Cable Diameter: PX0: 13-15mm
  PXA: 20-22mm

Flex Cable Connectors

- Mates with in-line flex, panel or flange mounting versions
- Positive, fast acting locking ring - can be turned with a gloved hand
- PXA - strain relief clamp included
- RoHS Compliant per Bulgin documentation

For quantities greater than listed, call for quote.

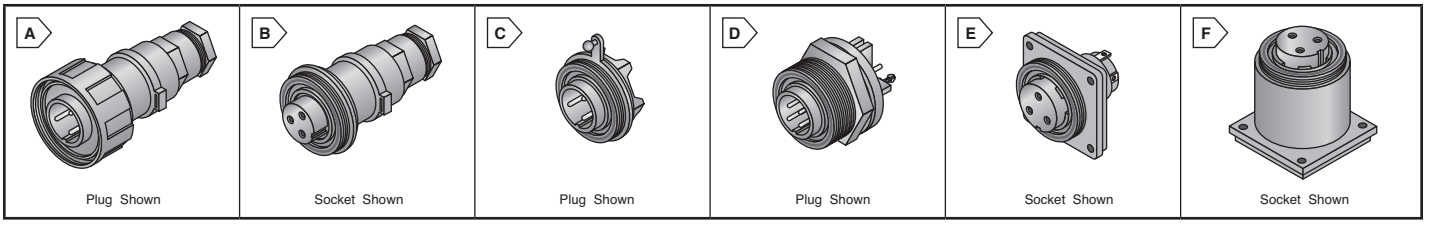
BULGIN Standard Buccaneer® Sealed Connectors

RoHS Compliant This product is RoHS compliant.

STANDARD BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

- Water and dustproof to IP68 when mated
- Positive locating keyways -cannot be mis-connected
- Compact design, easy assembly
- UL, CSA, and VDE approvals
- Diameter over coupling ring 38mm
- Cable range: 3.5mm - 9mm
- Body material: Glass filled polyamide UL94HB
- Operating temperature: -20°C to +70°C

RoHS Compliant



Flex Cable Connectors

- Mates with in-line flex or panel mounting versions
- Screw locking ring
- Standard cable acceptance (2 to 9 pole) 6-8mm
- RoHS Compliant per Bulgin documentation

For quantities greater than listed, call for quote.

BULGIN Mini and SMB Buccaneer® Sealed Connectors

RoHS Compliant This product is RoHS compliant.

MINI BUCCANEER® ENVIRONMENTALLY SEALED CONNECTORS

- Sealed to IP68 when mated
- Cable range from 3.5 to 9mm
- Diameter over coupling ring 26mm
- Positive locating keyways - cannot be mis-mated
- Flammability rating UL94V-0
- Compact design
- Easy assembly - no special tools required on screw terminal versions
- RoHS Compliant per Bulgin documentation

RoHS Compliant

Flex Cable Connector

- Mates with flex in-line or panel mounting versions
- Cable Acceptance: 3.5 - 9mm (Standard 5 -7mm)
- Suitable for plug or socket inserts sold separately
- Screw locking ring

For quantities greater than listed, call for quote.

Panel Mounting Connectors

- Mates with re-wirable and pre-wired flex versions
- Supplied with SMB jack terminated with RG-174 cable
- Single hole fixing

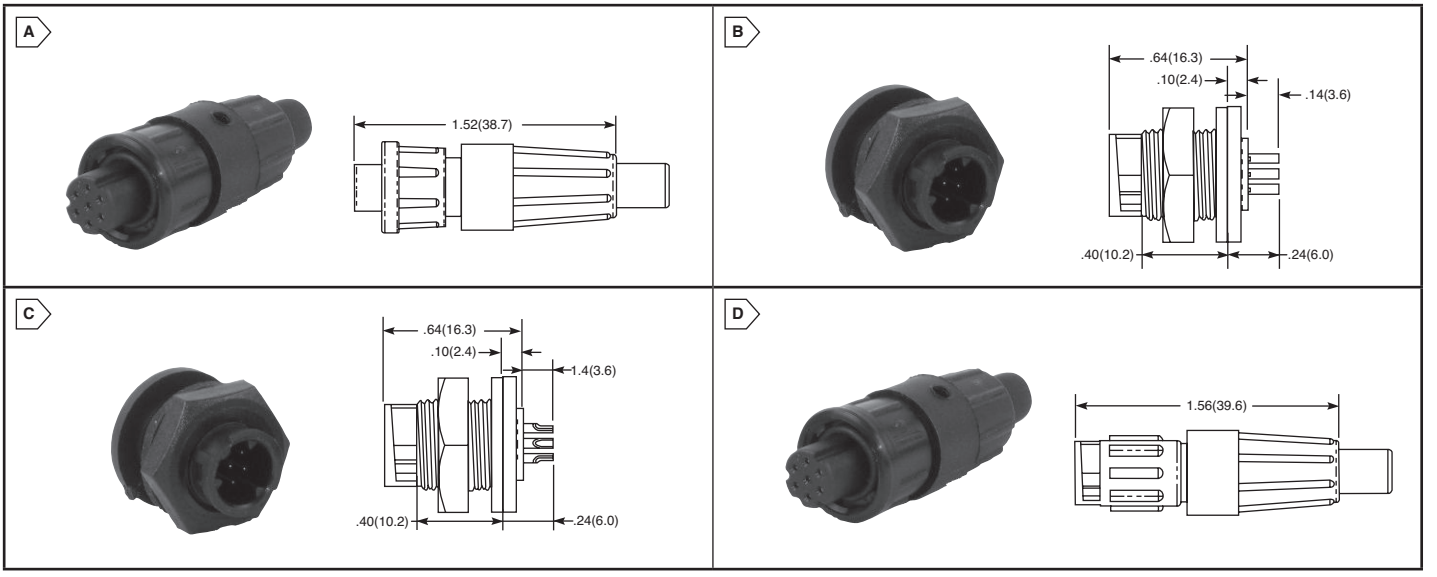
CONXALL Micro-Con-X® Series

conxall®
Harsh Environment Connectivity Solutions
A HEICO Company



Features:
- Up to 7 contacts in a compact design
- IP-67 rating
- IP-68 overmolded cable assemblies
- All plastic design is light weight
- Variety of standard options to meet all design specifications
- Custom cable assemblies available

Applications:
- Instrumentation
- Medical Equipment
- Lighting
- GPS
- Data Acquisition
- General Industrial Electronic Applications

Specifications:
- Rating: 3.0 thru 7.5A, 600V
- Conductor Size: 20 thru 24AWG
- Configuration: 2 and 3 #20 Contacts

Certification:
- UL Recognized File #E150822 - 600V AC/DC
- CSA Certified File #181200 - 600V
- U.L. Temperature 75ºC max.
- Not for current interruption

SOCKET TYPE (FEMALE) - MICRO-CON-X® SERIES CONNECTORS

CONXALL Micro-Con-X® and Mini-Con-X® Series

conxall® Harsh Environment Connectivity Solutions
A HEICO Company

RoHS Compliant **This product is RoHS compliant.**

FIELD INSTALLABLE CONNECTORS

Low cost Standard connectors for Industrial and Marine Applications
The all plastic connector is corrosion resistant, non-conductive and withstands substantial abuse, hostile environments, and heavy impacts that would otherwise cause metal connectors to corrode, deform or become electrically conductive and thus become unusable or unsafe.

Features:

- Solder Cup Termination
- Corrosion resistant and non-conductive connectors
- Suitable for use in hostile environments
- Coupling rings have overriding locking feature to prevent loosening or separation of connector
- RoHS compliance per Conxall documentation
- UL Recognized File # E138878-250V
- CSA Certified File # LR89277-600V
- Cable OD Range Suffix:
  311— .09" - .14" ;
  315— .15" - .17" ;
  318— .18" - .20"
- 3DC - Daisy Chain grommet (.125", .188", .250")

Specifications:

- Connector body and Backshell: Black Nylon
- Connector: Gold over Nickel
- Grommet: Black Santoprene Rubber
- Voltage: 600V
- Durability: Minimum 300 mate/unmate cycles w/out mechanical or electrical failure
- Temperature Rating: -55°C to +125°C (-67°F to +257°F)
- Watertight: Up to IP67/NEMA 6P

RoHS Compliant

Mini-Con-X® Shielded Series

Features:

- Protects circuits from EMI and RF interference
- Rugged machined metal housing and construction
- Scoop-proof connector design
- Same panel cutout as MINI-CON-X®
- Suitable for use in hostile environments
- RoHS compliant per Conxall documentation

Specifications:

- Panel Shell, Cable Housing and Coupling Nuts: Nickel plated copper alloy
- Backshell and Strap: G.F. Nylon
- Operational Temperature limits: -40°C (-40°F) to +65°C (+149°F)
- Harsh Environment IP66/IP68, Shielded

✻Amperage is limited also by wire specifications. **For quantities greater than listed, call for quote.**

CONXALL Mini-Con-X® and Multi-Con-X® Series

conxall®
Harsh Environment Connectivity Solutions
A HEICO Company

RoHS Compliant **This product is RoHS compliant.**

MINI-CON-X® SHIELDED FIELD INSTALLABLE CONNECTORS (CONT.)

Low-cost shielded connectors for industrial and marine applications.

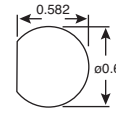
Features:

- Protects circuits from EMI and RF interference
- Rugged machined metal housing and construction
- Scoop-proof connector design
- Same panel cutout as MINI-CON-X®
- Suitable for use in hostile environments
- RoHS compliant per Conxall documentation

Specifications:

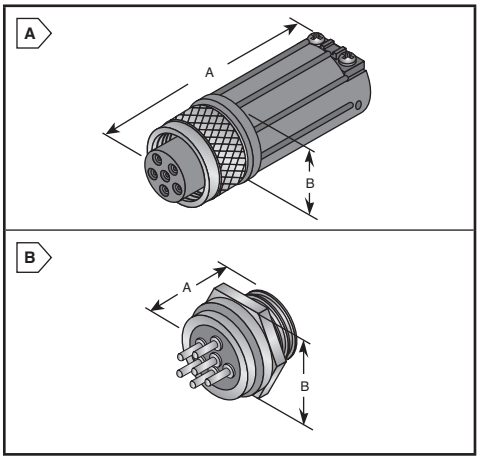
- Panel Shell, Cable Housing and Coupling Nuts: Nickel plated copper alloy
- Backshell and Strap: G.F. Nylon
- Operational Temperature limits: -40°C (-40°F) to +65°C (+149°F)
- Harsh Environment IP66/IP68, Shielded

DIMENSIONS: in.



Recommended Panel Cut-Out ±.003 for All Mini-Con-X Series

RoHS Compliant



✻Amperage is limited by wire specifications

For quantities greater than listed, call for quote.

MULTI-CON-X® SHIELDED FIELD INSTALLABLE CONNECTORS

Low cost Standard connectors for Industrial and Marine Applications

The all plastic connector is corrosion resistant, non-conductive and withstands substantial abuse, hostile environments, and heavy impacts that would otherwise cause metal connectors to corrode, deform or become electrically conductive and thus become unusable or unsafe.

RoHS Compliant

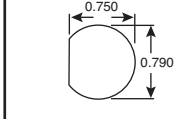
Features:

- Solder Cup Termination
- Corrosion resistant and non-conductive connectors
- Suitable for use in hostile environments
- Coupling rings have overriding locking feature to prevent loosening or separation of connector
- RoHS compliance per Conxall documentation
- UL Recognized File # E138878-250V
- CSA Certified File # LR89277-600V
- 3DC - Daisy Chain grommet 3 ID's (.125", .188", .250")

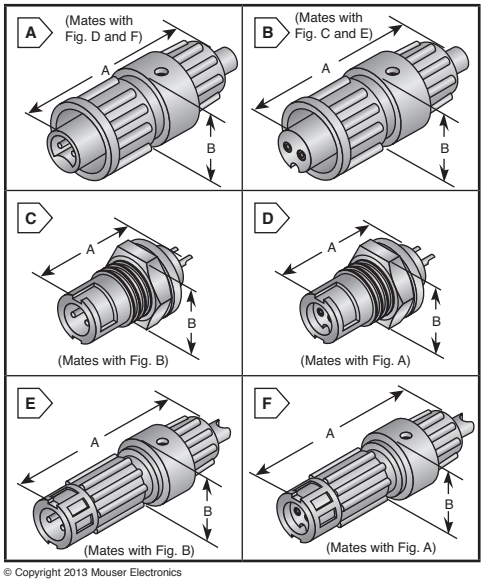
Specifications:

- Connector body & Backshell: Black Nylon
- Connector: Gold over Nickel
- Grommet: Black Santoprene Rubber
- Voltage: 600V
- Watertight: Up to IP67/NEMA 6P
- Durability: Minimum 300 mate/unmate cycles w/out mechanical or electrical failure
- Temperature Rating: -55°C to +125°C (-67°F to +257°F)

DIMENSIONS: in.



Recommended Panel Cut-Out ±.003 for Multi-Con-X Series



✻Amperage is limited also by wire specifications. 3DC=Daisy chain grommet with 3 I.D.'s (.125, .188, .250)

For quantities greater than listed, call for quote.

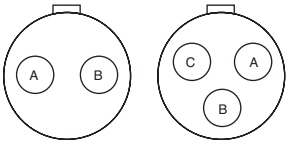
HARWIN MIL-DTL-5015 COMPATIBLE CIRCULAR CONNECTORS

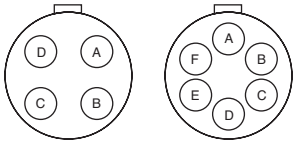
Highly durable threaded, circular Military and Commercial connectors designed for use in fixed or mobile equipment. They are particularly suitable for commercial, industrial equipment, machine tools, robotics and automation applications requiring low cost and high reliability. This RoHS compliant range of connectors are fully compatible with the MIL-DTL-5015 standard and ensures these connectors are intermateable as well as being fully sealed against water and dust ingress. The aluminium alloy body is finished in black and provides good resistance to corrosion, while each contact is rated to 13A (test current).

Specification:
- Current Rating: 13A
- Insulation Resistance: 5,000 MΩ Minimum
- Voltage Rating AC: 10SL = 500
  14S = 200
- Dust cap with external thread for use with Straight Plugs (C90-3106F)
- Supplied fitted with chain
- Wire Size: 16 to 22AWG
- Water Resistance (sealing): 1.8m for 48 hours (exceeds IP67)
- Voltage rating DC: 10SL = 700
  14SL = 700
- Durability: 500 Cycles
- Operating Temperature: -55°C to 125°C
- Dust cap with internal thread for use with Cable connectors (C90-3101F) and Panel Mount connectors (C90-3102R)

RoHS Compliant



10SL, 4P 2 Pins — 10SL, 3P 3 Pins



14S, 2P 4 Pins — 14S, 6P 6 Pins

Environmental Test Data:
- Vibration: MIL-STD-1344 Method 2005. 10 ~ 500Hz (10G)
- Shock: 50G/ Time 11 ± 1μ sec. Test Current 100mA
- Salt Spray: MIL-STD-1344 Method 1001. Salt solution 5% 48 hrs
- Humidity: 95% ± 3% temperature 71°C ± 2°C

Materials:
- Housing: Aluminium Alloy, Zinc with Black Chromate finish
- Contacts: Copper Alloy with Silver plate finish
- Insulators and Seals: Synthetic Rubber

HIROSE Circular Connectors

HIROSE ELECTRIC CO., LTD.

RoHS Compliant This product is RoHS compliant.

Shell Size	LF07		LF10		LF13	
Contact Configuration						No. of Contacts	3	6	4	12	11	20

LF SERIES MINIATURE WATERPROOF SHIELDED CONNECTORS

All components are self-aligning and do not require complex assembly tooling. The shield of the cable is connected using a simple shielding clamp, supplied with the connector with the metal housing of the connector.

RoHS Compliant

Features:
- Short turn bayonet lock
- Contact Plating: Gold
- IP67

Applications:
- Sensors
- Robots
- Factory Automation
- Medical
- Surveillance
- Surveying Instruments

Plugs

Mini-DIN and DIN Connectors

KOBICONN MINI-DIN CONNECTORS SHIELDED/ UNSHIELDED

Features:
- Compact miniature design
- Ideal for I/O connector applications
- Versatile right angle PCB mounting
- Available 3-9 contact positions

Specifications:
- Voltage rating: 100VAC
- Current rating: 1A
- Insulation resistance: 50MΩ
- Breakdown voltage: 250VAC
- Contact resistance: 30mΩ

PCB Unshielded Receptacles

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Contact Positions	Price Each			
			1	10	100	500
161-2203	A	3 pin	1.06	.888	.813	.738
161-2204	A	4 pin	1.27	.974	.888	.803
161-2206	A	6 pin	1.27	1.06	.963	.877
161-2208	A	8 pin	1.48	1.13	1.04	.942

PCB Shielded Receptacles

For quantities greater than listed, call for quote.
