ALPHA FOOT SWITCHES

Specifications:

- Rating: 6A/125V AC, 3A/250V AC, 4A/30V DC
- Contact resistance: 50mΩ silver contacts
- Insulation resistance: 500V DC-100MΩ min.
- Dielectric strength: 1000V AC for 1 minute
- Operating life: 30,000 cycles

RoHS Compliant

For quantities greater than listed, call for quote.

ALCOSWITCH Pushbutton Switches

TE connectivity Authorized Distributor

BLUE SERIES PUSHBUTTON SWITCHES

Features:
- Miniature snap acting pushbutton
- Tactile and audible feedback
- Wire lug or PC board terminals
- Single Pole - Double Throw Configuration (Pole-Throw)
- Contact Rating = 0.4VA

Applications:
- Industrial equipment
- Medical equipment
- Instrumentation
- Communication equipment
- Control equipment

MSP3/MSPS SERIES: PANEL MOUNT PUSHBUTTON SWITCHES

Specifications:
- Actuator material: Thermoplastic
- Contact material: Silver plate over copper alloy
- Terminal material: Silver plate
- Case material: Thermoplastic
- Contact rating: MSP = 3A @ 125 VAC; MSPS = 0.5A @ 125VAC
- Operating force: Single pole = 7-14oz. Double pole = 14-25oz.
- Contact timing: Break-before-make
- Contact resistance: 100mΩ max.

For quantities greater than listed, call for quote.

MSPM SERIES: HERMETICALLY SEALED PUSHBUTTON SWITCHES

Specifications:
- Actuator material: Polyamide
- Contact material: Gold
- Case material: Steel
- Contact rating: 1.0VA
- Operating force: 4-7oz.
- Life expectancy: 5 million cycles @ 0.1VA
- Contact resistance: 100mΩ max.

For quantities greater than listed, call for quote.

TP SERIES: TINY PUSHBUTTON SWITCHES

Specifications:
- Actuator material: Nylon
- Contact material: Gold over nickel barrier
- Terminal material: Tin lead plate
- Terminal seal: Epoxy
- Operating force: 50-400 grams
- Contact rating: 0.4VA @ 20VDC
- Contact timing: Break-before-make
- Contact resistance: 20mΩ max.
- Case: LCP, black UL94V-0

APEM Pushbutton Switches

RoHS Compliant This product is RoHS compliant.

MHPS SERIES MINI KEY PUSHBUTTON SWITCHES

Specifications:
- DPDT
- Maintained action
- Non-shorting contacts
- Contact rating: 100mA # 30VDC
- Dielectric withstanding voltage: 500VAC for 1 minute
- Contact resistance: 100mΩ max.

Materials:
- Case: PBT (model MHPS2266 only -Type 6/6 nylon)
- Cover: Acetal (model MHPS2266 only - Type 6/6 nylon)
- Actuator: Acetal
- Terminals: silver plated brass

DIMENSIONS: mm

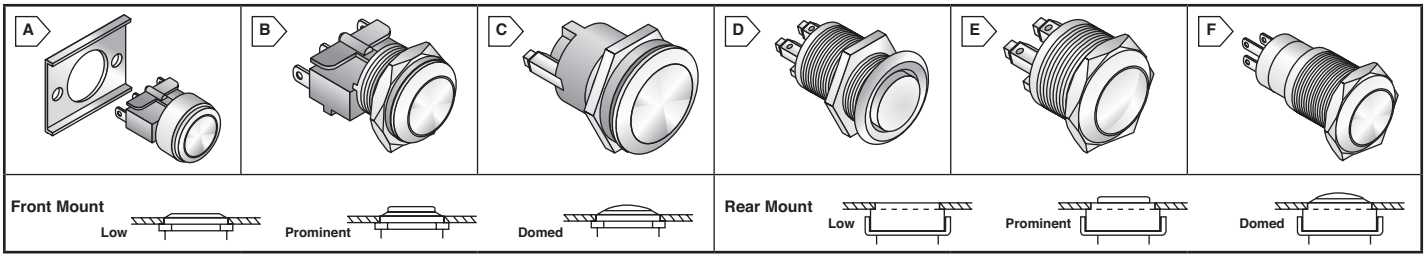
BULGIN Pushbutton Switches

RoHS Compliant **This product is RoHS compliant.**



BULGIN VANDAL-RESISTANT SWITCHES

Specifications:

- Contact Resistance: <15mΩ
- Insulation Resistance: >1000MΩ
- Stainless Steel Manufacturing
- Termination: Solder Lug or Screw Terminal

✻117-MP0033 internally sealed against ingress of water and dust.

For quantities greater than listed, call for quote.

C&K Pushbutton Switches

RoHS Compliant **This product is RoHS compliant.**

AP SERIES INDUSTRIAL PUSHBUTTON SWITCHES

Features:

- IP67 sealed
- Sealed against dirt and fluids, UV tolerant
- 1,000,000 life cycle
- Illumination / non-illumination
- Multiple colored caps
- Threaded or snap-in mounting
- SPST, normally open
- Termination styles: solder lug, PC terminals (non-illuminated only), or 12" wire leads (22 AWG)
- Caps can not be removed and don't spin after installation. Caps available in different colors and dome, concave, or extended dome.
- 2N and 4N operating force options

Applications:

- Harsh environments
- Off-Road transportation
- Automotive
- Marine
- Industrial
- Medical
- Transportation
- Joystick control modules, grips
- Gaming
- Food & Beverage
- Military
- Anywhere there are industrial/agricultural chemicals present (bases, hydrocarbons, various oils and fuels)

Non-Illuminated Industrial Pushbutton Switches

For quantities greater than listed, call for quote.

C&K Pushbutton Switches

RoHS Compliant This page of product is compliant.

C&K ELUM SERIES: RIGHT ANGLE ILLUMINATED LATCHING PUSHBUTTON SWITCHES

Specifications:

- Fixed contacts and terminals: Stainless steel, silver plated with gold flash (STD)
- Movable contacts: Copper alloy, silver plated with gold flash (STD)
- Base: Glass filled LCP (UL94V-0)
- Acutator: Glass filled nylon 4/6 (UL94V-0)
- Cover: Stainless steel
- Maximum power: 3.5VA

For quantities greater than listed, call for quote.

C&K PWR SERIES: POWER PUSHBUTTON

Features/Benefits:

- Movable contact with redundant high power contact points to form a momentary, SPST, double break switch
- Rubber actuator provides sealing and tactile feel
- Small SMT packaging allows applications to integrate power and signal switch on same PCB
- IP65 • UL 61058

PRODUCT NEW

For quantities greater than listed, call for quote.

C&K EP SERIES: SEALED TINY PUSHBUTTON SWITCHES

Features:
- Epoxy sealed against solder & cleaning processes

Applications:
- Telecommunication equipment
- Computer peripherals
- Instrumentation

Specifications:
- Contact material: B - Cu alloy, with Au plate over Ni plate, Au plate terminal
  K - Are with SN/PB
  P - Cu alloy, with Au plate over Ni plate, matte tin plate terminal
- Contact rating: B & P - 0.4VA @ 20VAC or DC max.
- Plunger material: Thermoplastic polyester or glass filled nylon (UL94V-0) with o-ring seal
- IP67 degree of protection

For quantities greater than listed, call for quote.

C&K TP SERIES: TINY PUSHBUTTON SWITCHES

Features:
- Subminiature size capable of switching up to 1A

Applications:
- Telecommunication equipment
- Computer peripherals
- Instrumentation

Specifications:
- Contact material: B - Cu alloy, with Au plate over Ni plate, Au plate terminal
  Q - Cu alloy, with Ag plate, Ag plate terminal
- Contact rating: B - 0.4VA @ 20VAC or DC max.
  Q - 1A @ 120VAC or 28VDC
- Plunger material: Thermoplastic polyester (UL94V-0)

For quantities greater than listed, call for quote.

C&K E020 SERIES: SEALED SNAP-ACTING PUSHBUTTON SWITCHES

Features:
- Sealed construction - internal o-ring & epoxy base

Applications:
- Telecommunication equipment
- Computer peripherals
- Instrumentation

Specifications:
- Contact material: B - Cu alloy, with Au plate over Ni plate, Au plate terminal
  G - Coin Ag, with Au plate over Ni plate, Au plate terminal
- Contact rating: B - 0.4VA @ 20VAC or DC max.
  G - 0.4VA @ 20VAC or DC max., or 1A @ 120VAC
- Vinyl splashproof boot supplied standard. Discard only after soldering and cleaning processes are complete

For quantities greater than listed, call for quote.

C&K Pushbutton Switches

C&K PVA SERIES SHORT STROKE KEY SWITCHES

Features:
- Compact design
- Short stroke to latch
- Wide variety of actuator heights and styles
- Adapted for medium power applications

Applications:
- Automotive (air conditioning, lighting)
- Video, remote controls
- Electronic games

For quantities greater than listed, call for quote.

E-SWITCH LP1/LP4 SERIES ILLUMINATED PUSHBUTTON

Features:
- Panel Mount
- Multiple Illuminated options
- Aesthetic look

Specifications:
- Computer Servers/peripherals
- Performance Audio
- Instrumentation
- Telecommunications/networking

LED Specifications	Blue	Red	Green
Forward Current (mA)	20mA	20mA	20mA
Forward Voltage@20mA	3.4-4.0 VDC	1.5-2.4 VDC	2.0-2.4 VDC
Luminous Intensity	200 mcd@5mA	300 mcd	50 mcd

For quantities greater than listed, call for quote.

ITW SWITCHES Pushbutton Switches

ITW Switches

RoHS Compliant **This product is RoHS compliant.**

ITW SERIES 59: ZINC ALLOY SEALED PUSHBUTTON SWITCHES

This rugged panel sealed pushbutton is made of a special high creep strength non-spark zinc alloy suitable for use in mining or other potentially explosive atmospheres where dust and moisture are problematic.

Specification:
- Switch function: Momentary
- Contact resistance: 50mΩ
- Dielectric strength: 1000VAC
- Current rating: 125mA @ 125VAC
- Panel mounting: 1.5mm - 3mm

Features:
- Non-spark material
- Gold contacts
- Impact resistant
- 500,000 life cycles @ max power
- Wide temp range: -55°C to +125°C
- Panel sealed to IP67
- Nut and sealing washer included
- 3 year warranty

Applications:
- Communications
- Instrumentation
- Data processing
- Process controls
- Transportation/material

For quantities greater than listed, call for quote.

ITW SERIES 57: MINIATURE VANDAL RESISTANT SEALED PUSHBUTTON SWITCHES

This rugged miniature, momentary action, sealed switch series is ideal for a variety of applications in harsh environments where durability is key.

Specification:
- Contact resistance: 50mΩ
- Switching power: 16VA AC
- Current rating: 125mA - 400mA
- Contact form: SDST

Features:
- Non-spark material
- Impact resistant
- Panel sealed to IP67
- Gold plated palladium nickel contacts
- Wide temp range: -40°C to + 125°C
- Nut and sealing washer included
- 3 year warranty

Applications:
- Security access controls
- Computers
- Military/aerospace
- Transportation

For quantities greater than listed, call for quote.

ITW SERIES 76-95: 10A VANDAL RESISTANT PUSHBUTTON SWITCHES

This low profile switch makes it difficult to pry the switch from its mounting. Uses Butterfly® snap action switches for switching loads up to 10.1 Amps.

Features:
- Wide temp range: -30°C to + 105°C
- Panel sealed to IP67
- 3 year warranty
- Solder terminals

Applications:
- Industrial equipment
- Military/aerospace
- Transportation

Specification:
- Contact resistance: 50mΩ
- Dielectric strength: 1,000VAC for 1 minute

For quantities greater than listed, call for quote.

ITW SERIES 47: MINIATURE SEALED PUSHBUTTON SWITCHES

The Series 47 is an uniquely designed sealed miniature pushbutton switch. The silicone button and body can be panel mounted and terminated with a standard connector or mounted in a P.C. board. The switches come in two levels of sealing a panel sealed only version and a fully sealed version with epoxy sealed base.

Specifications:
- Button material: Silicone
- Operating temp: -40°C to +85°C
- Terminal finish: Gold over nickel

Features:
- SPST-NO
- Long life
- Small size
- Low cost
- Sealed to IP67
- 3 year warranty

Applications:
- Medical equipment
- Marine equipment
- Outdoor controls
- Appliances
- Recreational vehicles

For quantities greater than listed, call for quote.

ITW SERIES 48: FLEX-TECH MINIATURE SEALED PUSHBUTTON SWITCHES

This rugged multi-option sealed pushbutton series offers the utmost in choices for mounting style, colors, terminations, bezels, lighting and momentary or alternate-action switching.

Specifications:
- Circuit: SPST-NO-DB
- Operating force: 3N/306g
- Temperature index: -40°F to +185°F
- Panel thickness: .02-.12/1.5-3mm

Features:
- Gold contacts
- Long life
- Compact package size
- Sealed to IP67
- 3 year warranty

Applications:
- Medical equipment
- Office equipment
- Outdoor controls
- Mass transportation
- Industrial machinery

For quantities greater than listed, call for quote.

ITW SERIES 48: MINIATURE HALL-EFFECT SEALED PUSHBUTTON SWITCHES

This rugged sealed pushbutton switch uses a Hall-Effect sensor to achieve extremely long life.
This switch is suited for harsh environments where long life and reliability are needed.

Specifications:
- Circuit: SPST-NO-DB
- Operating force: 3N/306g
- Temperature index: -40°F to +185°F
- Panel thickness: .02-.12/1.5-3mm

Features:
- Hall-effect technology
- 1,000,000 cycles momentary
- 100,000 cycles maintained
- Sealed to IP67
- 3 year warranty

Applications:
- Communications
- Data entry
- Outdoor controls
- Mass transportation
- Instrumentation

For quantities greater than listed, call for quote.

SERIES MB2400 SNAP-ACTION SNAP IN MOUNT PUSHBUTTONS

Features:

- Anti-jamming design protects contacts from damage due to excessive downward force on the actuator
- High torque bushing construction prevents rotation or separation from frame during installation
- Prominent external insulating barriers increase insulation resistance and dielectric strength
- Epoxy sealed terminals prevent entry of solder flux and other contaminants
- Internal o-ring protects against contamination
- Snap-acting mechanism gives smooth actuation and audible feedback.
- Longer center solder lug terminal simplifies wiring and soldering
- Patented silver contacts of specially composed alloy for hardness.
- Stainless steel frame resists corrosion
- Short stroke and light touch

RoHS Compliant

For quantities greater than listed, call for quote.

GB Series: Process Sealed Ultra-Mini Pushbuttons

Specifications:
- Actuator: .130" length plunger
- 0.4VA max. @ 28 VAC/DC max.

RoHS Compliant

For quantities greater than listed, call for quote.

NKK Illuminated and Non-illuminated Pushbuttons

RoHS Compliant **This product is RoHS compliant.**

LP01 SERIES: SHORT BODY PUSHBUTTONS

Features:
- Contact material: Silver
- Rating: 3A @ 125VAC/250VAC
- Solder lug
- Bushing or snap-In mounting
- Suited for lead free soldering
- Environmentally friendly components
- UL 94V-0 housing and base
- Tamper proof caps

LED Specifications for LP01 Series	Red	Amber	Green
Forward peak current	30mA	30mA	30mA
Continuous forward current	20mA	20mA	20mA
Forward voltage	1.95V	2.0V	2.1V
Reverse peak voltage	5V	5V	5V
Current reduction rate above 25°C	0.41mA/°C	0.29mA/°C	0.39mA/°C
Ambient temperature range	-10°C ~ +50°C		

Non-Illuminated and Illuminated

NKK Pushbuttons

RoHS Compliant **This product is RoHS compliant.**

NKK KP SERIES : MINIATURE AUDIO/VIDEO PUSHBUTTONS

NKK SWITCHES KP series offers a complete switch solution for all broadcast panel needs, including home keys and the custom rectangular switch/cap assembly. Distinct, long total travel of .177" (4.5mm) for KP01 or shorter stroke of .138" (3.5mm) for KP02.Available with red/green bicolor LED and custom RGB LEDs. The RGB LED full color spectrum in a switch package provides unlimited color combinations. Specially designed snap-in standoff for simple and secure PC board mounting and alignment. Unique actuation guide gives positive indication of circuit transfer as well as smooth and silent operation. (Patent pending). Choices of tactile, nontactile or tactile/audible actuation. Compact design with height of .906" (23.0mm) from PC board to top of cap. (Same height as IS series programmable SmartSwitchTM.) Flat, sculptured or home key square caps in three common sizes for design flexibility in audio/video applications. Twin contacts with gold plating assure high reliability and long life of 5,000,000 operations minimum. Epoxy sealed terminals to lock out flux, dust, and other contaminants, plus standard PCB spacing of .100" (2.54mm).

RoHS Compliant

Custom RGB LED Specifications			
Color	Red	Green	Blue
Forward Peak Current	30mA	30mA	30mA
Continuous Forward Current	20mA	15mA	15mA
Forward Voltage	2.0V	3.3V	3.4V
Reserves Peak Voltage	5V	5V	5V
Dominant Wavelength	625nm	525nm	470nm
Current Reduction Rate	0.50mA/°C	0.50mA/°C	0.50mA/°C
Ambient Temperature Range	-25°C ~ +50°C		

Super Bright Bicolor LED Specifications 6CF		
Color	Red	Green
Minimum Luminous Intensity	450mcd	820mcd
Standard Luminous Intensity	700mcd	1100mcd
Forward Peak Current	30mA (25 for amber)	25 (22 for amber)
Continuous Forward Current	15mA	15mA
Forward Voltage	2.1V	3.2V
Reserves Peak Voltage	5V	5V
Wavelength of Peak Emission	630 ~ 640nm	520 ~ 535nm
Current Reduction Rate above 25°C	0.40mA/°C	0.36mA/°C
Ambient Temperature Range	-25°C ~ +50°C

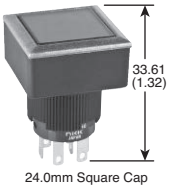
NKK YB2 SERIES: 24MM SQUARE PANEL SEAL PUSHBUTTONS

Specifications:
- Contact Resistance: 50 millions max. for silver, 100 milliohms max. for gold
- Insulation Resistance: 200 megohms min. @ 500VDC
- Electric Life: 100,000 operations min.
- Operating Force: Single pole: 1.5N
  Double pole: 3.0N
- Contact Material/Ratings: Silver Rated 3A @ 125VAC

Distinctive Characteristics:
- 24mm pushbutton with the shortest above panel dimensions (1.8mm) in the industry for splashproof design
- Meets IP65 of IEC60529 standards (similar to NEMA 4 and 13), providing dust tight and splashproof panel seal protection
- Tamper resistant 18mm square actuator
- Short body of .965" (24.5mm) conserves behind panel space



24.0mm Square Cap

For quantities greater than listed, call for quote.

NKK SmartSwitch™ Kits

NKK's SmartSwitch™ programmable LCD and OLED switches offer designers new, expansive options. NKK's SmartSwitch™ technology is suited for a wide variety of applications, displaying industry specific text and graphics with real-time sequencing. Complex switching can be attained when the switches are used in ganged or grouped fashion to facilitate sequential functions. The SmartSwitch™ simplifies and improves complex, multi-decision operations. NKK Switches' SmartSwitch™ can be programmed to display an infinite variety of text, graphics or moving images.

Features:
- Programmable to display graphics, alphanumeric characters and animated sequences
- Integrated liquid crystal display provides wide viewing angle with high contrast and clarity
- All switches are SPST, momentary ON, gold contacts, and straight PC terminals

NKK SmartSwitch™ DEVELOPMENT KITS

This enables engineers to easily test their programs on actual pushbuttons and displays. Engineers can then present their concepts and product ideas to colleagues and clients. Development kits include the following supplied hardware: logic board, controller, power supply and cable.

Features
- SmartSwitch™ development kits are a cost effective tool for rapidly prototyping new design ideas
- Engineers can present their concepts and product ideas to colleagues and clients

NKK SmartSwitch™ DEMONSTRATION KITS

The NKK SmartSwitch™ demonstration kits are used to display bitmaps, up to 64 bitmaps, that have been created via the user's PC. These kits are supplied with a red/green LCD module, software, USB cable and programming instructions. Once downloaded, the bitmaps can be displayed and advanced by means of the address control lines without the need of a PC. These kits can be incorporated into your end product as the PCB has been designed with allowance for standoffs. Both units can be made portable by using the battery box which is sold separately.

Features
- Can be programmed on line or through stand-alone software provided on CD
- LCD can be interchanged to meet user's specific color application once designed in

NKK SmartSwitch™ OLED ROCKER

Features
- Rocker Switch with Built - In OLED Display
- IP64 Dust & Water Protection
- Controller on Board/SPI
- Largest Smartswitch Display Area
- Up to 8 Lines with 16 Characters Each
- 180° Viewing Angle

Specifications:
- Operating Temperature: -20°C to +70°C
- Display Life: 52,000 hrs. at 30% illumination
- Mechanical /Electrical Life: 1,000,000 actuations min.
- SP3T Momentary

RoHS Compliant

SCHURTER Sealed, Double Pole & Latching Switches

SCHURTER ELECTRONIC COMPONENTS

RoHS Compliant This product is RoHS compliant.

SCHURTER MSM19, MSM22 AND MSM30 SERIES: METAL PUSHBUTTON SWITCH WITH SEALED MICROSWITCH

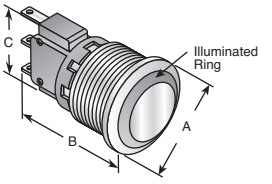
The MSM SPDT has seal protection to the front of the actuator, as well as to the panel with a sealing o-ring. An IP 67 microswitch option has been added, which provides an integrated seal between the actuator and the microswitch, as well as around the switch terminals. The completely sealed switching unit can be used in adverse conditions when increased humidity, condensation or water seeps in through openings in the equipment housing.

Specifications:

- Contact material: Silver
- Max switching voltage: 125VAC/250VAC
- Max switching current: 5A/3A
- Contact form: SPDT
- Lifetime: 200,000 cycles
- Actuation force: 3.7N
- Degree of protection: IP 67

Benefits:

- Stainless steel housing is vandal resistant
- IP67 complete seal protection from front and back protects microswitch from affects of moisture
- High shock resistance temperature range and IP67 seal protection for outdoor installation
- Point and ring illumination – red, green & blue
- Access to applications up to 250VAC standard and customized lettering available



RoHS Compliant

✻ Rated 100mA/30VDC

For quantities greater than listed, call for quote.

SCHURTER MSM19, MSM22 AND MSM30 SERIES: METAL PUSHBUTTON SWITCH WITH DOUBLE POLE CONTACTS

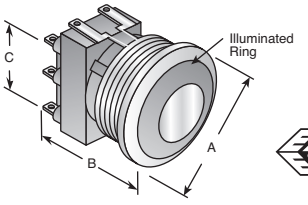
The new MSM DPDT momentary switch is designed with two separate switching contacts. The contacts can be used as normally open, normally closed or as change-over. The MSM DP is ideal for switching primary and secondary circuits where an additional set of contacts is required for an auxiliary function. In other applications, the MSM double pole can be installed to operate only when depressed and held by an operator.

Specifications:

- Max switching voltage: 125VAC/250VAC
- Max switching current: 5A/3A
- Contact form: DPDT
- Lifetime: 200,000 cycles
- Actuation force: 5.8N
- Degree of protection: IP67 (front)

Benefits:

- Stainless steel housing is vandal resistant
- Double pole – two separate switching contacts for a variety of applications
- Quick connect terminals
- High Shock Resistance
- Temperature and IP67 protection rated for outdoor installation
- Point and ring illumination – red, green & blue
- Access to applications up to 250VAC



RoHS Compliant

SCHURTER MSM19 AND MSM22 SERIES: METAL PUSHBUTTON SWITCH WITH LATCHING ACTION

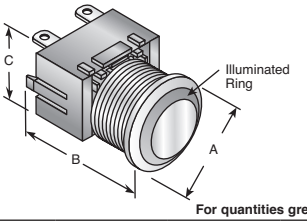
The new MSM LA offers latching-action (ON/OFF) actuation for use in primary or secondary switching applications. It is rated 30VDC up to 250VAC with a maximum switching current of 12 amps, and features two isolated contacts for 1- or 2- pole switching functions. The switch provides mechanical indication when in the ON and OFF positions. The actuator is raised above the switch housing in the resting OFF state and is recessed into the housing when depressed to switch ON. The distinct difference in position makes the mode of operation immediately evident. It also prevents inadvertent switching; for instance in the event persons or objects lean on the switch. The version with ring illumination can be used for optical indication of the switching status in the ON or OFF state. Illuminating the switch in the OFF state is ideal for locating it in dark areas or where the ambient light is less than optimal. Due to the raised actuator, a 180° lateral view of the switch is possible.

Specifications:

- Max switching voltage: 30VDC/250VAC
- Max switching current: 0.1A/12A
- Contact form: DPDT
- Lifetime: 50,000 cycles, 8A @ 250VAC
- Actuation force: 10N
- Degree of protection: IP67 (front)

Benefits:

- Latching action for ON/OFF switching
- Mechanical indication of operational status - actuator raised above housing when OFF and recessed when ON
- Double pole (DPDT) – Two separate switching contacts for a variety of applications
- Stainless steel housing is vandal resistant
- High shock resistance
- Wide temperature range rated for outdoor installation
- IP67 seal protection rating against jetting water
- Wide range of switching voltage and current: 30VDC to 250VAC and 0.1A to 12A.
- Ring illumination may be installed to indicate OFF or ON state
- Ring illumination in OFF state offers 180° lateral viewing angle
- Ring illumination - red, green or blue



RoHS Compliant

For quantities greater than listed, call for quote.

SCHURTER VANDAL-PROOF MECHANICAL SWITCHES

Specifications:

- Contact material: Silver
- Max switching voltage: 48VDC
- Max switching current: 125mA
- Lifetime: 1,000,000 cycles
- Switching function: N.O.
- Actuation force: 3.7 N
- LED forward voltage: Red - 1.6V; green - 2.0V; yellow - 2.0V
- LED forward current: All colors = 20mA
- All switches supplied with nut and o-ring seal

For quantities greater than listed, call for quote.

SCHURTER VANDAL-PROOF CAPACITIVE SWITCHES

Specifications:

- Max switching voltage: 7VDC-24VDC
- Max switching current: 175mA
- All switches supplied with nut and o-ring seal
- Lifetime: 1,000,000 cycles
- Input current (irrespective of LEDs): 5V - 2mA not in action/3mA in action; 12V - 2mA not in action/ 6mA in action; 24V - 4mA not in action/8mA in action

Features:

- Pressure-free operation of input systems due to no actuation force
- IP67 degree of protection

For quantities greater than listed, call for quote.

SCHURTER
ELECTRONIC COMPONENTS

SCHURTER MSM16, MSM19 AND MSM22 SERIES: VANDAL-PROOF MOMENTARY MECHANICAL SWITCHES

The robust vandal-proof MSM switch has a high shock resistance and an extremely flat front construction of only 1.7mm. Housing and actuator are made of top-quality stainless steel. The MSM is designed for quick mounting: the wires are simply plugged onto the quick connect terminals of the detachable contact module. Then the module is snapped into the switch, which is simply mounted beforehand. There are variants with point or ring illumination for night applications or for optical status indications.

Specifications:
- Contact material: Silver
- Max. switching voltage: 125VAC
- Max. switching current: 5A
- Contact form: SPDT
- Lifetime: 200,000 cycles
- Actuation force: 4.5 N
- IP67 protected

Benefits:
- High shock resistance
- Pleasant tactile feeling
- Flat front design
- Easy mounting
- Made of top-quality stainless steel

LED Characteristics:
- LED forward voltage: Red - 1.6V; Green - 2.0V, Blue-3.2V
- LED forward current: Red/Green - 40mA, Blue-20mA

For quantities greater than listed, call for quote.

SCHURTER MSM30 SERIES: VANDAL-PROOF MOMENTARY MECHANICAL SWITCHES

The new MSM30 offers the same robust characteristics as its smaller counterparts, only it has a larger, ergonomically designed, actuating area of 30mm for superb tactile feel. The MSM30 is ideal for systems where a large actuating area is required for operation, information and vending systems, dashboards, consoles and broadcasting systems.

Specifications:
- Insulation resistance: 100,000kΩ
- Contact bounce time: < 5ms
- Lifetime (rated braking capacity):
  0.1A/3A = 200,000 cycles
  10A = 50,000 cycles

Benefits:
- High shock resistance
- Pleasant tactile feeling
- Flat front design
- Easy mounting
- Made of top-quality stainless steel

LED Characteristics:
- LED forward voltage: Red - 1.6V; Green - 2.0V, Blue-3.2V
- LED forward current: Red/Green - 40mA, Blue-20mA

For quantities greater than listed, call for quote.

SCHURTER PSE M22R SERIES: VANDAL-PROOF MOMENTARY PIEZO SWITCHES

This new piezo switch has been specifically designed for applications in hostile environments. Its vandal-proof housing with a compact M22 metric thread screw socket encloses a powerful ring illumination, which is available in a choice of one or two colors and can be attached to a 12V or 24V power supply. It can be ordered complete with Molex connector or wires.

Specifications:
- Contact material: Aluminum natural
- Switching current: 0.1A
- Switching capacity max: 1W
- Actuation force: 1.5N - 3.0N
- IP67 protected

For quantities greater than listed, call for quote.

ALCOSWITCH Toggle Switches

RoHS Compliant **This product is RoHS compliant.**

TE connectivity Authorized Distributor

A SERIES (GEMINI SERIES) MINIATURE TOGGLE SWITCHES

Specifications:

- Contact rating: Gold - 0.4VA @ 20 VAC/DC; silver - 2A @250VAC, 5A @ 125VAC
- Terminal seal: Epoxy
- Case material: Thermoset
- Contact timing: Break before make
- Actuation force: Momentary - 950g max.; maintained - 1750g max.
- Actuator travel: 25°
- Life expectancy: 30,000 cycles

( ) Momentary

For quantities greater than listed, call for quote.

MTA/MTA-PC SERIES (GREEN SERIES) 6A TOGGLE SWITCHES

Specifications:

- Contact rating: 6A @ 125VAC, 3A @ 250VAC
- Terminal seal: Insert molded
- Each switch supplied with:
  (2) 1/4-4C UNS-2B hex nuts
  (1) Internal tooth lockwasher
  (1) Locating ring
- Contact material: Gold flash over silver
- Mechanical life expectancy: 2 Pos. - 150,000; 3 Pos. - 100,000; 4 Pos. - 60,000 hrs.
- MTA-PC has PC tail
- Actuation force: .05-1.5kg
- Actuator travel: 24°
- High torque bushing shoulder standard
- Contact timing: Break before make

( ) Momentary

For quantities greater than listed, call for quote.

TT SERIES: TINY TOGGLE SWITCHES

Specifications:

- Contact rating: Gold - 0.4VA; Silver - 3A
- Terminal seal: Epoxy on single pole, optional on double pole
- Contact material: Gold over nickel or silver plate
- Dielectric strength: 1000Vrms
- Actuator Travel: 26°
- High torque bushing shoulder standard
- Contact timing: Break before make

For quantities greater than listed, call for quote.

C&K Toggle Switches

C&K GT SERIES: SEALED ULTRAMINIATURE TOGGLE SWITCHES

- Contact Material: Gold Terminal Plating
- Internal O-ring seal standard with all actuators
- Epoxy sealed termination
- Lead Free

- Contact Rating: 0.4VA @ 20VAC or DC max.
- Case and actuator material: Glass filled nylon (UL94V-0)
- Body Height: .210"

RoHS Compliant LEAD-FREE

For quantities greater than listed, call for quote.

C&K T SERIES: SEALED SUBMINIATURE TOGGLE SWITCHES

- Contact Material: B- Cu alloy, with Au plate over Ni plate, Au plate terminal
  Q- Cu alloy, with Ag plate, Ag plate terminal
- Actuator material: Chrome plated brass
- Housing material: Stainless steel

- Contact Rating: B- 0.4VA @ 20VAC or DC max.
  Q- 5A @ 120VAC; 2A @ 250VAC
- Bushing material: Nickel plated brass
- Case material: Glass filled nylon or DAP

RoHS Compliant

For quantities greater than listed, call for quote.

DIMENSIONS: in.

SEALING BOOTS FOR 7000, T, MIL, AND 9000 SERIES TOGGLES

Features/Benefits:

- Minimum IP65 Sealing
- Silicon Construction Remains Pliable in Cold Weather
- High Tear Strength
- Full and Half Boot Options
- Ideal for Sealing an Unsealed Switch

Typical Applications:

- Harsh environments
- Marine
- Industrial
- Medical
- Offroad Transportation
- Military
- Food and Beverage

RoHS Compliant

For quantities greater than listed, call for quote.

CARLING POWER TOGGLE SWITCHES

PRODUCT NEW

Specifications:

- Actuator/Bushing Material: Brass/Nickel Plate
- 15/32" Threaded Bushing, 11/16" Toggle, 3/4" HP
- Combi Terminals Function as Both .250 QC Tabs and Solder Lug Terminal

✻ 1 HP ✻✻( ) = Momentary

Miniature Toggle Switches

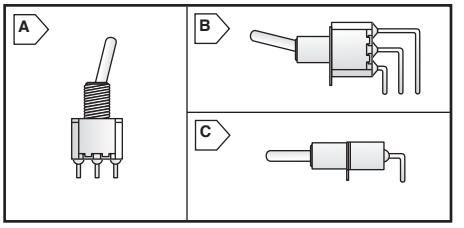
E•SWITCH™ MINIATURE TOGGLE SWITCHES, 100 AND 100A SERIES

Specifications for 100 and 100A Series:

- Contact resistance: 10mΩ max. initial @ 2-4VDC 100mA for both silver and gold plated contacts.
- Insulation resistance: 1,000MΩ min.
- Dielectric strength: 1,000VRMS @ sea level
- Operating temperature: -30°c to 85°C

Contact Material Options:

- **Q** - Fixed terminal and moving contact: silver plated over copper alloy
  Contact rating: 5A with resistive load @ 120VAC or 28VDC, 2A with resistive load @ 250VAC
- **R** - Fixed terminal and moving contact: copper alloy with gold plate over nickel plate
  Contact rating: 0.4VA max. @ 20V max. (AC or DC)



( ) = Momentary

For quantities greater than listed, call for quote.

SEALED MINIATURE TOGGLE SWITCHES

Specifications:
- Rating: 2A/250, 5A/120VAC or 28VDC
- Contact Resistance: 10mΩ max.
- Insulation Resistance: 1000MΩ min.

For quantities greater than listed, call for quote.

MOUNTAIN SWITCH Toggle Switches

RoHS Compliant **This product is RoHS compliant.**

Mountain Switch

MINIATURE TOGGLE SWITCHES - PANEL MOUNT

Specifications:

- Contact Rating: 5A/120VAC or 28VDC; 2A/250VAC
- Contact Resistance: 10mΩ max. initial @ 2-4VDC 100mA
- Insulation Resistance: 1,000MΩ min.
- Dielectric Strength: 1000VRMS @ sea level
- Operation Temperature: -30°C to +85°C

For quantities greater than listed, call for quote.

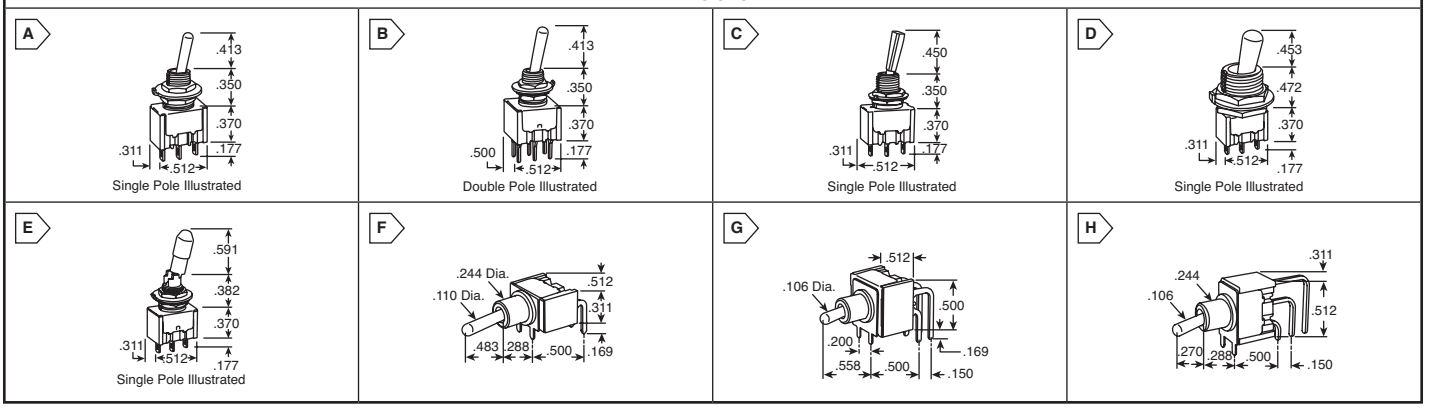
NKK Toggle and Tilt Switches

RoHS Compliant **This product is RoHS compliant.**

NKK SWITCHES

DIMENSIONS: in.



NKK M SERIES: MINI SWITCHES WITH SMALL TOGGLES

Power Rating:
- 6A @ 125VAC and 3A @ 250VAC/30DC
- 4A @ 30VDC for On-None-On & On-None-Off

RoHS Compliant

For quantities greater than listed, call for quote.

NKK DS SERIES - CONTACTLESS TILT SWITCH

Specifications:
- Operating Angle: ±30° to ±60°
- Return Angle: 10° min.

Features:
- Photo interrupter ensures high reliability
- Sealed Construction
- UL94V-0

RoHS Compliant

For quantities greater than listed, call for quote.

NKK DSA SERIES - HIGH CONTACT TILT SWITCH

Specifications:
- Contact Resistance: 100 milliohms maximum
- Contact Bounce (for reference) 500ms maximum

Features:
- Environmentally friendly, contains non mercury
- PCB adaptor available as an accessory
- Housing : PBT

RoHS Compliant

For quantities greater than listed, call for quote.

G SERIES: PROCESS SEALED ULTRA-MINIATURE TOGGLES

RoHS Compliant

Specifications:
- 0.4VA max. @ 28VAC/DC max.

Features:
- Ultra-miniature size for high density mounting
- Extremely light weight, 0.25g
- Totally sealed body construction
- .100" x .100" terminal spacing

()=Momentary

For quantities greater than listed, call for quote.

B SERIES: PROCESS SEALED ANTISTATIC SUBMINIATURE TOGGLES

RoHS Compliant

Specifications:
- Static capability: 3 kilovolts ESD
- 0.4VA max. @ 28VAC/DC max.

Features:
- Saves space on PC boards
- Developed for logic-level applications
- Totally sealed body construction
- .100" x .100" terminal spacing

()=Momentary

For quantities greater than listed, call for quote.

Rocker Switches

ALPS SDDJF SERIES ROCKER POWER SWITCHES

DIMENSIONS: mm

Specifications:
- High capacity switch for TVs and other electronic devices supports regular 8A current and 128A inrush current
- Highly robust structure for rapid open/close operation (1m/sec.)
- Terminals support both one touch connector (faston #187) and soldering

Applications:
- Flat panel TVs (LCD, plasma, displays) and monitors

For quantities greater than listed, call for quote.

Carling Technologies V SERIES: CONTURA SEALED ROCKER SWITCHES

The symmetrically curved the perfect complement to the Contura IV's "Shape to create a Shape " design concept. It can be mounted in between two Contura IV's, by itself, or in groups. This actuator style is available with all flush style mounting brackets.

✻ The Contura II actuators are constructed of thermoplastic polycarbonate, and are offered with either a hard nylon overlay or a "soft-touch" elastomer overlay. The Contura II incorporates an aesthetic design of two rows of raised "bumps" on the top and bottom of the rocker.

NEW PRODUCT

Specifications:
- IP66/IP68 certified
- Meet UL1500/ISO8846 for ignition protection
- Temperature range: -40°C to +85°C
- Rating: 20A @ 12VDC
- Termination: 10 terminals, .250 QC without barriers

( ) Momentary Flexibility of options with interchangeable actuators (sold separately below)

For quantities greater than listed, call for quote.

C&K SW SERIES: ROCKER AND PADDLE SWITCH

- Contact Rating: 6.5 AMPS @ 125VAC
- Different colors available
- Oval Shape

Typical Applications

- Designed for overhead oven/range hoods

NEW PRODUCT

For quantities greater than listed, call for quote.

CHERRY Rocker Switches

RoHS Compliant **This product is RoHS compliant.**

CHERRY MINIATURE ROCKER SWITCHES

Specifications:
- Dielectric Strength: 1000VAC for 1 minute
- Insulation Resistance: 10^8 Ω min at 500VDC
- All part numbers have a black bezel.
- .187" Q.C. Terminals

RoHS Compliant

LR Series - Power Rating: 10A 125 VAC and 8A 250 VAC

For quantities greater than listed, call for quote.

CW INDUSTRIES Rocker Switches

RoHS Compliant This product is RoHS compliant.

CW INDUSTRIES SEQUENCING DP3POS MINI ROCKER SWITCH

Specifications:
- Ratings: 3(1.5)A 250~ TUV
- Operating Temperature: 10,000 Cycles at rated load
  Endurance:25,000 Cycles no load Minimum

PRODUCT NEW

DIMENSIONS: in

For quantities greater than listed, call for quote.

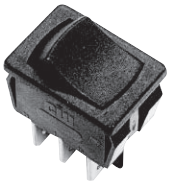
CW INDUSTRIES MINIATURE ROCKER INDICON SWITCHES

Specifications:
- Contact Resistance: <.01mA @ 10mA
- Operating Temperature: 65°C max.
- Rating: 16A/125VAC
- Housing and actuator material: Nylon
- Terminals and contact material: Copper
- Terminal Type: .187" QC
- Actuator: Black with Red Indicator

Features:
- High current switching
- Markings are hot stamped
- Crisp detent action
- Self cleaning contacts

DIMENSIONS: in.



For quantities greater than listed, call for quote.

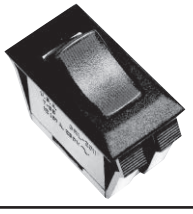
CW INDUSTRIES STANDARD ROCKER SWITCHES

Specifications:
- Contact Resistance: < .01Ω @ 10mA
- Operating Temperature: 105°C max.
- Dielectric Strength: 2,500V, 60Hz for 1 minute
- Housing and actuator material: nylon
- Terminal and contact material: copper
- Terminal Type: .250" QC
- Illuminated style has 120VAC neon bulb
- Markings are hot stamped

Features:
- Crisp detent action
- Self cleaning contacts
- High current switching
- All 16A and non-illuminated have UL, CSA, and VDE approvals
- All 13A and illuminated have UL, CSA approvals

DIMENSIONS: in.



For quantities greater than listed, call for quote.

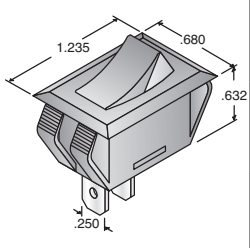
CW INDUSTRIES INDICON™ ROCKER SWITCHES

Specifications:
- Ratings: 16A/125VAC; 12A/250VAC
- Housing and knob material: nylon
- Terminal and contact material: copper

Features:
- Two-color knob provides positive indication of switch position
- Economical alternative to expensive lighted switches

DIMENSIONS: in.



For quantities greater than listed, call for quote.

E•SWITCH®

R1966 SERIES ROCKER SWITCHES

Specifications:
- Contact resistance: <10mΩ
- Rating: 15A @ 125V
- Dielectric strength: >1500V for one minute, >3000V between poles
- Electric life: 10,000 cycle
- Mechanical life: 15,000 cycles
- Insulation resistance: >1,000 MΩ
- Contact form: SPST

Features:
- Black semi-gloss finish
- Contact material: coin silver, silver plated
- terminal material: silver plated copper alloy

For quantities greater than listed, call for quote.

R1966 SERIES ILLUMINATED ROCKER SWITCHES

Specifications:
- Contact resistance: <10mΩ
- Rating: 15A @ 125V
- Dielectric strength: >1500V for one minute, >3000V between poles
- Electric life: 10,000 cycles
- Mechanical life: 15,000 cycles
- Insulation resistance: >100MΩ
- Contact form: SPST

Features:
- Contact material: coin silver, silver plated
- Terminal material: Silver plated copper alloy

RoHS Compliant

For quantities greater than listed, call for quote.

R5 SERIES ROCKER SWITCHES

Specifications:
- Contact resistance: 20 mΩ initially
- Dielectric strength: >1500V for one minute, >3000V between poles
- Contact rating: 10A @ 250VAC, 15A @ 125VAC
- Mechanical life: >30,000 cycles
- Electrical life: >10,000 cycles
- Faston termination

Features:
- Black housing
- Contact material: Coin silver, silver plated

NKK ENVIRONMENTALLY SEALED ROCKER SWITCHES

Specifications:
- Power rating: 15A @ 125/250V AC or 15A @ 30V DC
- Wire leads: AWG 16 heat resistant PVC
- Actuator color: Black
- IP67 of IEC529
- UL94V-0 Flammability Rating

For quantities greater than listed, call for quote.

SHIN CHIN Rocker Switches

RoHS Compliant **This product is RoHS compliant.**

ROCKER SWITCHES

Specifications:

- Contact Resistance: 50mΩ max.
- Insulation Resistance: 500VDC 100MΩ min.

R13-49 Series

- Rating: 10A/125VAC, 6A/250VAC
- Terminal Type: Solder
- Screw Type Mounting

LR45128 RoHS Compliant

For quantities greater than listed, call for quote.

ALCOSWITCH Slide Switches

TE connectivity Authorized Distributor

RoHS Compliant **This product is RoHS compliant.**

ASE/F SERIES: SLIDE SWITCHES

Specifications:
- Terminal seal: Insert molded
- Contact timing: Shorting
- Contact resistance: 40mΩ max.
- Contact rating: Gold, 0.4VA; Silver, 300mA @ 115VAC

For quantities greater than listed, call for quote.

C&K Slide Switches

C&K AYZ SERIES: MINIATURE SLIDE SWITCHES

Specifications:

- Dielectric Strength: 0.1kV @ 50Hz/1 min.
- Max Switching Power: 1.2VA
- Max Switching Voltage: 12VDC
- Max. Switching Current: 100mA
- PC thru-hole termination
- Silver plated contacts

RoHS Compliant

For quantities greater than listed, call for quote.

C&K ES SERIES: SEALED TINY SLIDE SWITCHES

Specifications:

- Actuator Height: .121"
- Contact Rating: 0.4VA max. @ 20VAC or DC max.
- Lead free
- Mechanical and Electrical Life: 40,000 make-and-break cycles at full load
- Dielectric Strength: 500Vrms min.

C&K SS SERIES: SLIDE SWITCHES

Features:

- Miniature slide switch
- 10,000 cycles

Typical Applications:

- Industrial control, sensor control machine, etc.

NEW PRODUCT

RoHS Compliant

C&K Slide Switches

C&K TS SERIES: TINY SLIDE SWITCHES

Features:
- Epoxy terminal seal makes these compatible with bottom-wash cleaning

Applications:
- Instrumentation
- Computer peripherals

Specifications:
- Contact Material: B- Cu alloy, with Au plate over Ni plate, Au plate terminal
- Contact Rating: B- 0.4VA @ 20VAC or DC max.
- Dielectric Strength: 1000 Vrms min. @ sea level
- Electrical Life: TS01 models - 60,000 cycles @ full load
  TS03 models - 30,000 cycles @ full load

RoHS Compliant

For quantities greater than listed, call for quote.

RoHS Compliant **This product is RoHS compliant.**

ALPHA MINIATURE SLIDE SWITCHES

Specifications:
- Contact Resistance: 10mΩ max
- Electrical Life: 30,000 cycles
- Operating Temperature: -30°C to +85°C
- Insulation Resistance: 1000MΩ min.

RoHS Compliant

For quantities greater than listed, call for quote.

MOUNTAIN SWITCH TRAVEL SLIDE SWITCHES

2mm Travel Slide Switch

Specifications:
- Rating: Non-Switching-100mA/50VDC Switching-25mA/24VDC
- Contact Resistance: 100mΩ max.
- Insulation Resistance: 100MΩ min.
- Operating Temperature: -20°C to +70°C
- Dielectric Strength: 500VAC/1 minute

RoHS Compliant

For quantities greater than listed, call for quote.

SHIN CHIN SLIDE SWITCHES

R13-602 Series

Specifications:
- Rating: 6A/125VAC, 3A/250VAC
- Insulation Resistance: 500VDC 100MΩ min.
- Contact Resistance: 50mΩ max.

c UL us RoHS Compliant

For quantities greater than listed, call for quote.

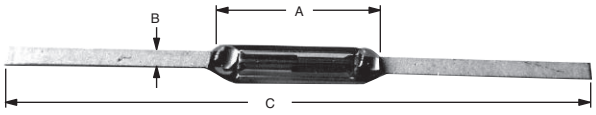
MEDER Reed Switches

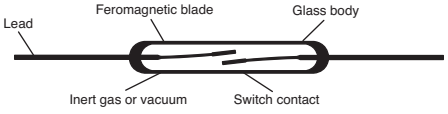
RoHS Compliant **This product is RoHS compliant.**



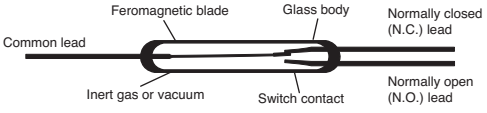
Energy Efficient
A reed switch draws zero power and requires no circuitry in its normally open or off state. A permanent magnet is used to change the state of reed contacts with absolutely no power consumption.

Sustainable
With no wearing parts, load switching under 5 volts at 10mA, the reed switch will reliably operate into the billions of operations for an extended life expectancy.

Eco-Friendly
The reed switch emits zero gases or particles into the air. Its hermetic glass seal both protects it while providing an environmental barrier making it eco-friendly.



(The basic hermetically sealed 1 Form A (normally open) Reed Switch and its component makeup.)



(The 1 Form C (single ploe double throw) three leaded Reed Switch and its component makeup.)

MEDER REED SWITCHES

Features:

- High breakdown voltage
- Super ultra-miniature
- Super ultra-miniature SMD
- High power
- Miniature high-performance
- Miniature offset -type
- Long life
- Miniature wide differential
- Miniature offset-type long reed
- Form A = normal open contact (N.O.)
- Form C = change over contact (S.P.D.T.)
- AT = Ampere Turns; Paramet that describes magnetic sensitivity.

ALCOSWITCH DIP Switches

TE connectivity — Authorized Distributor

GD SERIES LOW PROFILE DIP SWITCHES

Specifications:

- Contact rating: 0.4VA @ 24VDC max.
- Contact resistance: 100mΩ max.
- Contact material: Au over Ni over Cu alloy
- Tape seal standard

For quantities greater than listed, call for quote.

AD SERIES DIP SWITCHES

Specifications:

- Contact rating: 0.4VA @ 20VDC max.
- Contact resistance: 50mΩ max.
- Dielectric strength: 500VAC
- Life expectancy: 1000 cycles
- High pressure wiping contact allows aqueous or solvent cleaning without tape seal
- Polyester base, cover, and actuator material
- Gas-tight contacts

For quantities greater than listed, call for quote.

DIP Switches

RoHS Compliant **This product is RoHS compliant.**

OMRON A6A SERIES: SUBMINIATURE DIP SWITCHES FOR HIGH-DENSITY PACKAGING

Specifications:
- Switching capacity: 100mA @ 28VDC
- Contact resistance: 200MΩ max.
- Dielectric strength: 500VAC
- Insulation resistance: 10MΩ min. (@ 250VDC)

Features:
- A slider lock and rotating PCB system achieve stable contact reliability.
- Sealed construction equivalent to IP64 prevents flux penetration and provides high-contact reliability

For quantities greater than listed, call for quote.

CTS SERIES 193/194/195 SIDE ACTUATED DIP SWITCHES

RoHS Compliant

Specifications:
- Series 193 and 194 - Gold plated contacts
- Series 195 - Tin plated contacts
- Operating Temperature –40°C to +85°C
- Positive detent action

For quantities greater than listed, call for quote.

CTS SERIES 204 SMD MULTI-FUNCTIONAL DIP SWITCHES

Specifications:
- Gold plated contacts
- Operating Temperature -55°C to +85°C
- Coplanarity: 0.1mm / .004" max.
- PCB washable with top tape and bottom seal
- Enclosed actuators shield contacts from foreign particles throughout life of switch

RoHS Compliant

For quantities greater than listed, call for quote.

CTS SERIES 206/208 MULTI-FUNCTIONAL THRU HOLE DIP SWITCHES

RoHS Compliant

Specifications:
- Series 206- Gold plated contacts
- Series 208- Tin plated contacts
- Operating Temperature -55°C to +85°C
- Contact wiping action on make and break
- Electrostatic discharge shield rated to 22KV

For quantities greater than listed, call for quote.

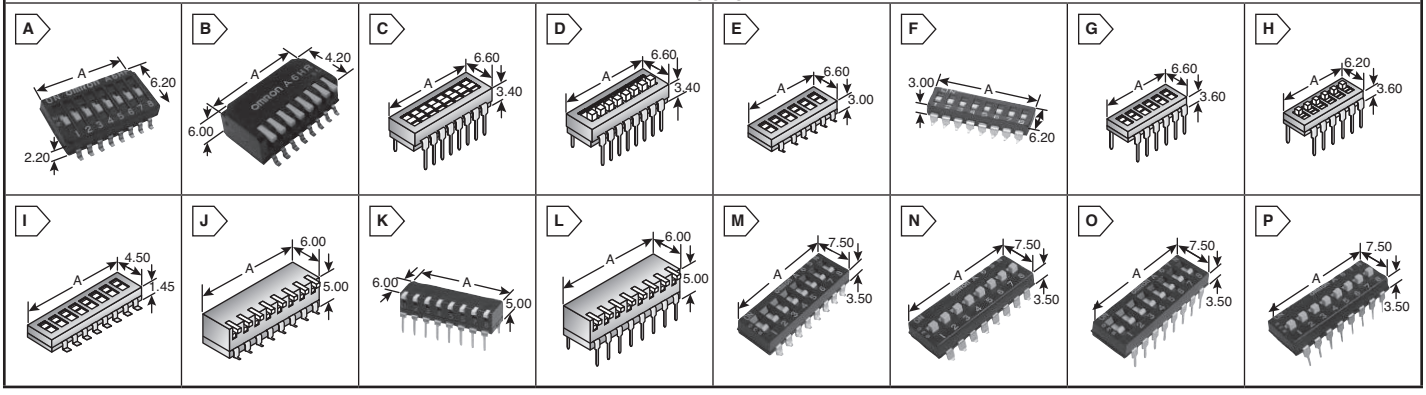
OMRON DIP Switches

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: mm



OMRON A6HF/HR SERIES: HALF-PITCH DIP SWITCHES

Specifications:
- Switching capacity: 25mA @ 24VDC
- Operating force: 500 gf max.
- Dielectric strength: 300VAC

Features:
- Gold-plated twin contacts
- Temperature-resistant resin allows peak reflow temperatures of 260°C.

For quantities greater than listed, call for quote.

OMRON A6D SERIES: SUBMINIATURE DIP SWITCHES

Specifications:
- Switching capacity: 30mA @ 30VDC
- Operating force: 500 gf max.
- Dielectric strength: 500VAC

Features:
- Space-saving and IP64 sealed construction
- Smooth, sure switching action enables comfortable operation.

For quantities greater than listed, call for quote.

OMRON A6S/T SERIES: SLIDE DIP SWITCHES

Specifications:
- Switching capacity: 25mA @ 24VDC
- Operating force: 30 gf
- Dielectric strength: 500VAC

Features:
- Gold-plated twin contacts and a slide-type, self-cleaning mechanism ensure high-reliability.

For quantities greater than listed, call for quote.

OMRON A6H SERIES: HALF-PITCH DIP SWITCHES

Specifications:
- Switching capacity: 25mA @ 24VDC
- Operating force: 30 gf
- Dielectric strength: 300VAC

Features:
- Ultra-low profile of 1.55mm
- Half-pitch (1.27mm) design
- Compact and reduced mounting space

For quantities greater than listed, call for quote.

OMRON A6SR/TR SERIES: PIANO DIP SWITCHES

Specifications:
- Switching capacity: 25mA @ 24VDC
- Operating force: 795 gf max.
- Dielectric strength: 500VAC

Features:
- Low-profile design with a height of only 5mm
- Pitch of 2.54mm for end-stackable mounting
- Gold-plated twin contacts

For quantities greater than listed, call for quote.

OMRON A6SN/TN SERIES: SLIDE DIP SWITCHES

Specifications:
- Switching capacity: 25mA @ 24VDC
- Operating force: 806 gf max.
- Dielectric strength: 300VAC

Features:
- Knife-edge structure with high-contact pressure mechanism assures high-reliability and enables washing without seal.

For quantities greater than listed, call for quote.

SR10010F SERIES

- Rating: 0.1A/16VDC
- Contact Resistance: 50mΩ max.
- Insulation Resistance: 100VDC-100MΩ min.
- Dielectric Strength: 100VAC for 1 minute
- Operating Life: 10000 cycles
- Shaft Type: 6.35mm D
- Timing: Non-shorting
- Terminals: PC mount

RoHS Compliant

Coded Rotary DIP Switches

APEM ROTARY DIP SWITCHES

Specifications:
- Operating voltage: 24VDC max
- Contact rating, static: 400mA max

Features:
- 3+3 terminal layout
- Completely sealed for process compatibility
- Clockwise or counterclockwise settable
- Solder coated terminals

For quantities greater than listed, call for quote.

BOURNS SEALED ROTARY SWITCHES

Specifications:
- Contact Form: SPST
- Max. Current Rating: 100mA
- Max. Voltage Rating: 16V
- Contact Timing: Non-Shorting
- Rotational Life: 2000 cycles

Features:
- Tape and Reel packaging on surface mount terminal types.

Applications:
- Security Systems
- Portable Electronics
- Instrumentation

For quantities greater than listed, call for quote.

C&K CD SERIES: 8MM ULTRA-MINIATURE CODED ROTARY

Specifications:
- Process sealed to withstand soldering and cleaning
- Contact rating: 0.4VA max. @ 20VAC or VDC max.
- Mechanical and Electrical life: 20,000 actuations
- Dielectric Strength: 250V RMS min.

RoHS Compliant

For quantities greater than listed, call for quote.

C&K SERIES A: 1-4 POLE ROTARY SWITCHES

Features/Benefits:
- Multi-pole and multi-position
- Positive detent
- Non-shorting contacts
- Panel and PCB mounting

Specifications:
- Contact Rating: 2.5A @ 125VAC; 350mA @ 125VDC
- Dielectric Strength: 1000Vrms min. @ sea level
- Insulation Resistance: $10^9\Omega$ min.
- Contact Material: Silver

Typical Application:
- Automotive
- Major and small appliances
- Industrial equipment

RoHS Compliant

For quantities greater than listed, call for quote.

C&K SERIES M: HALF-INCH ROTARY SWITCHES

Features/Benefits:
- Multi-pole and multi-positions
- Panel and PCB mounting
- Stainless steel actuator
- Non-shorting contacts

Specifications:
- Contact Rating: Carry 6A cont.; Switch 250mA max. @ 125VAC or 28VDC
- Dielectric Strength: 600Vrms min. @ sea level
- Insulation Resistance: $10^{10}\Omega$ min.
- Contact Material: Copper alloy, silver plated
- MA, MB, and MD supplied with stop pins; MD, ME, and MH supplied with stop rings

Typical Application:
- Test equipment
- Industrial equipment
- Medical equipment

RoHS Compliant

C&K SERIES MIL: 1-4 POLES RIGHT ANGLE ROTARY SWITCHES

Features/Benefits:
- Bushing option for panel mount
- 1-4 poles per bank and up to 5 banks per switch
- Totally sealed, insert molded contact and terminals
- Low profile - 12mm above PCB

Specifications:
- Contact Rating: Carry 1A; Switch 20mA, 1VA max.
- Dielectric Strength: 500Vrms
- Insulation Resistance: $10^9\Omega$
- Contact Material: Brass, gold plated

Typical Application:
- Telecom switching equipment
- Military communications
- Instrumentation
- Medical monitors

RoHS Compliant

ELECTROSWITCH ADJUSTABLE STOP ENCLOSED ROTARY SWITCHES

C1 Series: .865" Wide

Specifications:
- Shaft diameter: .125"
- Current & Voltage Rating: .25A @28VDC; 0.1A @125VAC
- Current carrying capacity: 6A
- Dielectric Strength: 600VAC
- Insulation Material: Diallyl phthalate
- Terminals and contacts: Brass with silver plate
- Index: Dual-ball, hill and valley
- Termination: Solder lug
- Stops set at 2 pos.
- Non-shorting

For quantities greater than listed, call for quote.

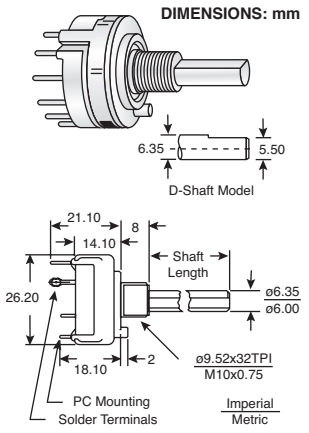
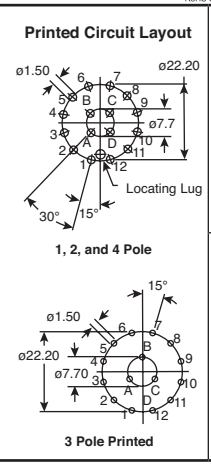
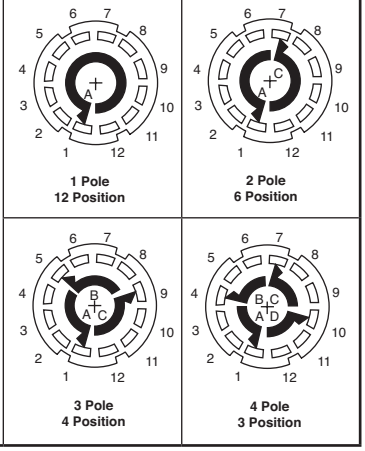
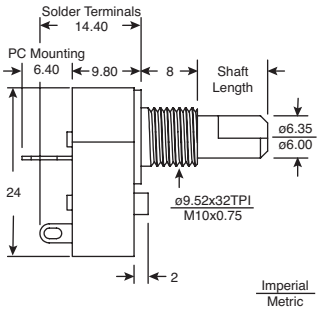
LORLIN Fully Enclosed Adjustable Rotary Switches

RoHS Compliant This product is RoHS compliant.









DIMENSIONS: mm

IMPERIAL ROTARY SWITCHES 6.35MM ROUND AND D-SHAFT

Features:
- Fully enclosed contacts
- Glass filled nylon
- Nylon design provides maximum shock hazard protection.

Specifications:
- Dielectric Strength: 1000VRMS
- Contact Resistance: less than 50mΩ max.
- Index Angle: 30°
- Contact Life: over 10,000 operations
- Rating: .15A/250VAC or DC
- Contact material: silver plated brass

For quantities greater than listed, call for quote.

NKK Rotary Switches

NKK MR SERIES: HALF-INCH PROCESS SEALED ROTARY SWITCHES

- Power rating: 125VAC for MRA, MRX, & MRY; 28VAC for MRF & MRK
- Shaft actuated switches are supplied with knob and mounting hardware

RoHS Compliant

For quantities greater than listed, call for quote.

NKK FR SERIES: 10MM ULTRA-THIN DIP ROTARY SWITCHES

Specifications:
- Power Rating: 100mA @ 5VDC switching; 100mA @50VDC non-switching
- Contact resistance: 100mΩ max.
- Insulation resistance: 1000MΩ min. @ 250VDC
- Dielectric strength: 250VAC min. for 1 minute

Features:
- Environmentally friendly
- Slim: .150" (3.8mm) body
- Highly visible legends
- Gold plated contacts
- Actuator knob available for screwdriver adjusted

RoHS Compliant

For quantities greater than listed, call for quote.

NKK FRO2 SERIES: 10MM ULTRA-THIN SMT DIP ROTARIES

Features:
- Slim. 150"(3.8mm) body has the lower profile in the industry and allows close stacking of PC Boards.
- Highly visible legends and choice of screwed or shaft actuators with arrow position indication provide trouble free code setting.
- Detent mechanism gives crisp, positive action for accurate switch setting.
- Use of heat resistant resin allows infrared convection reflow soldering.
- Gull-winged terminals ensure mechanical stability during soldering and simplify solder joint inspection.
- Cam activated movable contact and gold contacts assure contact reliability and continuity

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON Rotary DIP Switches

RoHS Compliant **This product is RoHS compliant.**

OMRON A6C SERIES: SEALED ROTARY DIP SWITCHES

Specifications:
- Switching capacity: 100mA @ 30VDC
- Contact resistance: 200MΩ max.
- Insulation resistance: 100MΩ min. (@ 250VDC)
- Dielectric strength: 250VAC for 1 minute between terminals

Features:
- Highly reliable subminiature DIP switch
- A precise rotary cam and contact driving mechanism achieves compactness for high-precision mounting
- Offset between terminal pins and side of case allows simple circuit inspection

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Omron Part No.	Fig.	No. of Positions	Actuator	Output Code 1-2-4-8	Price Each

OMRON A6RS SERIES: SURFACE MOUNT ROTARY DIP SWITCHES

Specifications:
- Switching capacity: 25mA @ 24VDC
- Contact resistance: 200MΩ max.
- Insulation resistance: 100MΩ min. (@ 250VDC)

Features:
- Temperature-resistant resin allows use in peak reflow temperatures of 260°C
- Two different types of terminal arrangements are available to allow flexibility in the circuit design

✻ Full reel is 250

For quantities greater than listed, call for quote.

OMRON A6R/A6RV SERIES: LOW-COST ROTARY DIP SWITCHES

Specifications:
- Switching capacity: 25mA @ 24VDC
- Contact resistance: 200MΩ max.
- Insulation resistance: 100MΩ min. (@ 250VDC)

Features:
- The rotor has an O-ring sealed construction that prevents the ingress of dirt and dust
- Two different types of terminal arrangements are available for each model to allow flexibility of circuit design

For quantities greater than listed, call for quote.

OMRON A6K/A6KS/A6KSV SERIES: MINIATURE ROTARY DIP SWITCHES

Specifications:
- Contact resistance: 200mΩ max. (initial value)
- Insulation resistance: 100MΩ min.

Features:
- Mounting space reduced by 50% compared with conventional models
- Gold-plated contacts ensure high reliability

For quantities greater than listed, call for quote.

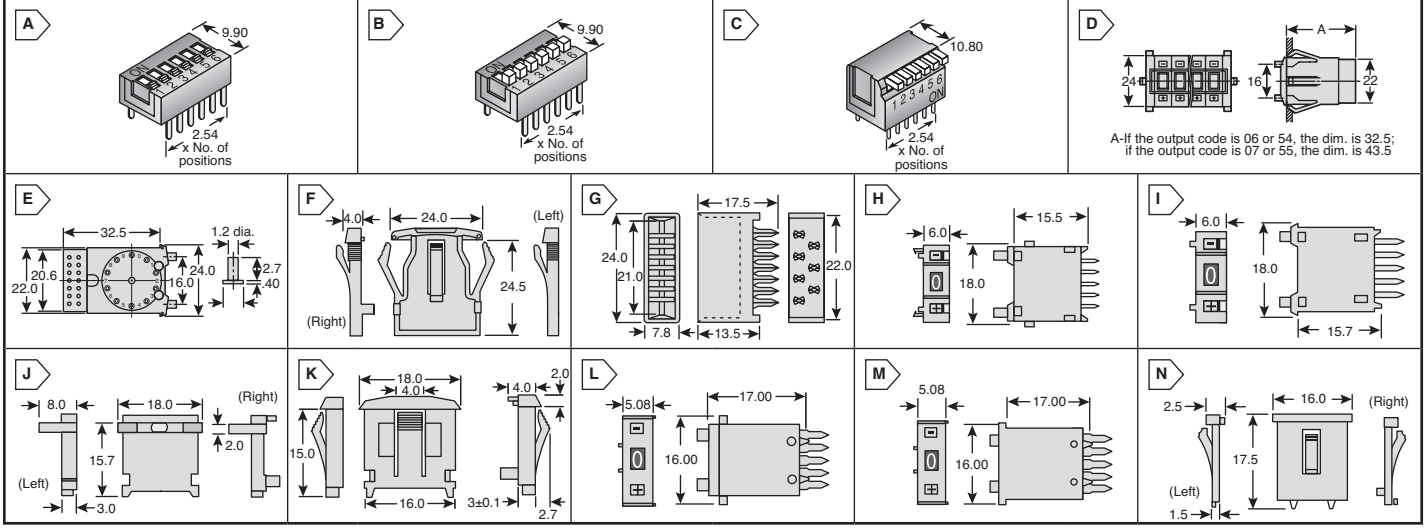
OMRON DIP and Thumbwheel Switches

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: mm



OMRON A6E/A6ER SERIES: DIP SWITCHES

Specifications:
- Switching capacity: 25mA @ 24VDC
- Contact resistance: 200mΩ max.

Features:
- The sealed bottom prevents flux penetration
- Gold-plated contacts ensure high reliability

For quantities greater than listed, call for quote.

OMRON A7BS SERIES: THUMBWHEEL SWITCHES

Specifications:
- Switching capacity: 0.1mA @ 28VDC
- Contact resistance: 300mΩ max.
- ✻ With external stopper

Features:
- Character height of 4.8mm makes for easy-to-view display

For quantities greater than listed, call for quote.

OMRON A7D SERIES: THUMBWHEEL SWITCHES

Specifications:
- Switching capacity: 0.1A @ 30VDC
- Contact resistance: 200mΩ max.

Features:
- Ultra-small, low-cost, push-operated switches
- All-in-one design means fewer parts required

For quantities greater than listed, call for quote.

LIMITLESS™ DIN-RAIL RECEIVER - WDRR SERIES

Benefits:

- Enables presence/absence detection in remote of application/ achinery, where wiring is costly or not feasible
- Ability to reconfigure and network multiple inputs, or point-o-point with personalized addresses which allows for adding, subtracting or relocating Limitless™ inputs easily
- Reduced installation/maintenance costs with no wiring to Limitless™ inputs conduit, strain, clips, connectors, connection boxes, etc.
- Eliminates issues with wire connection integrity on moving equipment
- LEDs indicate change of status,low batterym RF signal loss pairing function & diagnostic functions
- Communications security per the IEEE 802.15.4 standard (16-bit PAN ID,16-bit address and 128-bit security key)

For quantities greater than listed, call for quote.

785-WDRR1A05B0A	WDRR1A05B0A	5.5 dBi omni antenna (tilt/swivel design) with remote magnetic mounting with 10ft cable, for use in all other approved countries	736.05	705.58	675.12

LIMITLESS™ WIRELESS HEAVY DUTY LIMIT SWITCH - WLS SERIES

Wireless Design Features:

- Radio (license-free and global): WPAN 802.15.4, 2.4GHz, point-to-point
- FCC 15, IC, ACMA & ETS
- EMI Immunity
- Up to 305 m [1000 ft] communication range when used with a Limitless™ wireless monitor or receiver module (sold separately)
- Reliable, flexible, and secure wireless transmission
- Standard replaceable battery with ultra-low power consumption
- Direct or remote mount antenna options

Mechanical Design Features:

- IP67; NEMA 1, 3, 4, 6, 6P, 12, 13
- Unique all-metal drive train
- Twin shaft seals (rotary)
- Zinc head and body are phosphate treated and epoxy finished making it less susceptive to effects from environmental exposure
- Captive head and body screws
- Full complement of operating heads and levers
- Chemical resistant fluorocarbon seals (optional)

Switch Benefits:

- Built on field-proven MICRO SWITCH™ HDLS heritage
- Operating head rotary tested in excess of 50 million cycles for enhanced reliability
- Diaphragm seal between head and body cavity provides sealing protection
- Twin shaft seals protect head and internal components from corrosion and debris
- Sintered bronze bearings provide extended mechanical life

CE

For quantities greater than listed, call for quote.

785-WLS1A02AA1A	WLS1A02AA1A	Limitless™ heavy-duty limit switch, 2.2 dBi tilt/swivel antenna, US/Canada, momentary action, side rotary, fixed 1.5 in lever with nylon roller	410.49	367.88	347.44
785-WLS1A02AA1B	WLS1A02AA1B	Limitless™ heavy-duty limit switch, 2.2 dBi tilt/swivel antenna, US/Canada, momentary action, side rotary, fixed 1.5 in lever with steel roller	431.03	386.26	364.81
785-WLS1A02AA2A	WLS1A02AA2A	Limitless™ heavy-duty limit switch, 2.2 dBi tilt/swivel antenna, US/Canada, momentary action, side rotary, adjustable 3.5 in lever with nylon roller	418.37	374.39	354.16
785-WLS1A02AA2B	WLS1A02AA2B	Limitless™ heavy-duty limit switch, 2.2 dBi tilt/swivel antenna, US/Canada, momentary action, side rotary, adjustable 3.5 in lever with steel roller	439.29	393.10	371.87
785-WLS1A00AA1A	WLS1A00AA1A	Limitless™ heavy-duty limit switch, US/Canada, momentary action, side rotary, fixed 1.5 in lever with nylon roller	411.59	369.74	348.51
785-WLS1A00AA1B	WLS1A00AA1B	Limitless™ heavy-duty limit switch, US/Canada, momentary action, side rotary, fixed 1.5 in lever with steel roller	411.59	369.74	348.51
785-WLS1A00AA2A	WLS1A00AA2A	Limitless™ heavy-duty limit switch, US/Canada, momentary action, side rotary, adjustable 3.5 in lever with nylon roller	419.86	376.03	355.51
785-WLS1A00AA2B	WLS1A00AA2B	Limitless™ heavy-duty limit switch, US/Canada, momentary action, side rotary, adjustable 3.5 in lever with steel roller	456.36	405.52	386.87
WPMM Series Monitor					
785-WPMM1A03A	WPMM1A03A	Limitless™WPMM Series Monitor, 2.4 GHz, 3.0 dBi omni antenna with remote adhesive mounting with 9.8 ft cable, for use in US/Canada	286.20	262.67	244.14
785-WPMM1A04A	WPMM1A04A	Limitless™ WPMM Series Monitor, 2.4 GHz, 5.5 dBi omni antenna (tilt & swivel design) with remote magnetic mounting with 5 ft cable, for use in US/Canada	319.14	292.90	272.24
785-WPMM1A05A	WPMM1A05A	Limitless™ WPMM Series Monitor, 2.4 GHz, 5.5 dBi omni antenna (tilt & swivel design) with remote magnetic mounting with 10 ft cable, for use in US/Canada	349.21	320.50	297.90
785-WPMM1A02A	WPMM1A02A	Limitless™ WPMM Series Monitor, 2.4 GHz, 2.1 dBi omni antenna (tilt & swivel design), for use in US/Canada	283.62	260.31	241.95
WCA Series Cable					
785-WCA200RNPRSP-002	WCA200RNPRSP-002	200 Series coax cable assembly, reverse polarity N plug, reverse polarity SMA plug, 2 ft of cable	87.61	68.21	62.76
785-WCA200RNPRSP-010	WCA200RNPRSP-010	200 Series coax cable assembly, reverse polarity N plug, reverse polarity SMA plug, 10 ft of cable	99.25	77.29	71.10

LIMITLESS WIRELESS OPERATOR INTERFACE - WOI SERIES

Benefits:

- Enables operator indication (i.e. push button) from remote locations where wiring is to costly or not possible
- Flexibility for users to choose and install their desired operator type; i.e. 22 mm rotary switch, 22 mm key switch, etc.
- Ability to reconfigure and network multiple WOI inputs, or point-to-point with personalized addresses, which allows for adding, subtracting or relocating of Limitless™ WOI switches easily
- Offers the ability to be used in conjunction with Limitless™ switches configured on a single Limitless™ receiver
- Reduced installation/maintenance costs with no wires, conduit, strain relief, clips, connectors, connection boxes, etc.
- Eliminates issues with wire connection integrity on moving equipment
- Consumes ultra-low power to prolong battery life

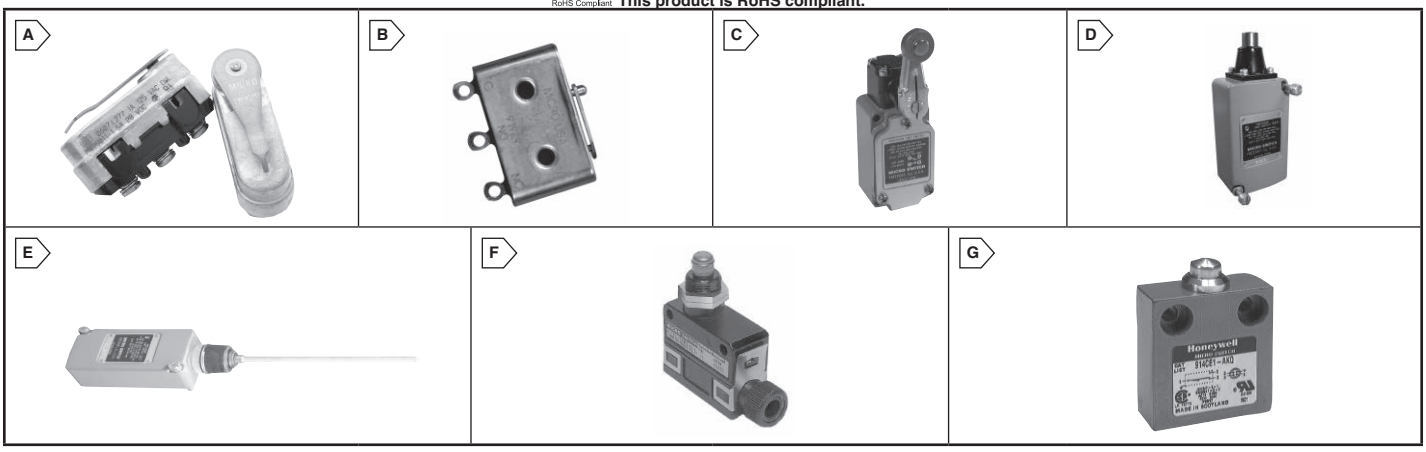
HONEYWELL Limit Switches

Honeywell

RoHS Compliant **This product is RoHS compliant.**



MICRO SWITCH™ SEALED AND HIGH TEMPERATURE SWITCHES

Contain a spring and set of contacts that convert mechanical energy applied to an actuator into an electrical output. Environmentally sealed switches are basic precision switches enclosed within a corrosion-resistant aluminum housing that seals the switch contacts from contamination. Hermetically sealed switches include those that maintain the contact in a gas-tight seal while transmitting force and motion to the switch mechanism through a metal diaphragm. High temperature versions have the switching element mounted on a ceramic base with a stainless steel enclosure. Wide variety of actuators, terminations, circuitry configurations, electrical ratings, contact materials and operating characteristics provide application flexibility. Meet military standards. U.S., European and other approval agency allow global use.

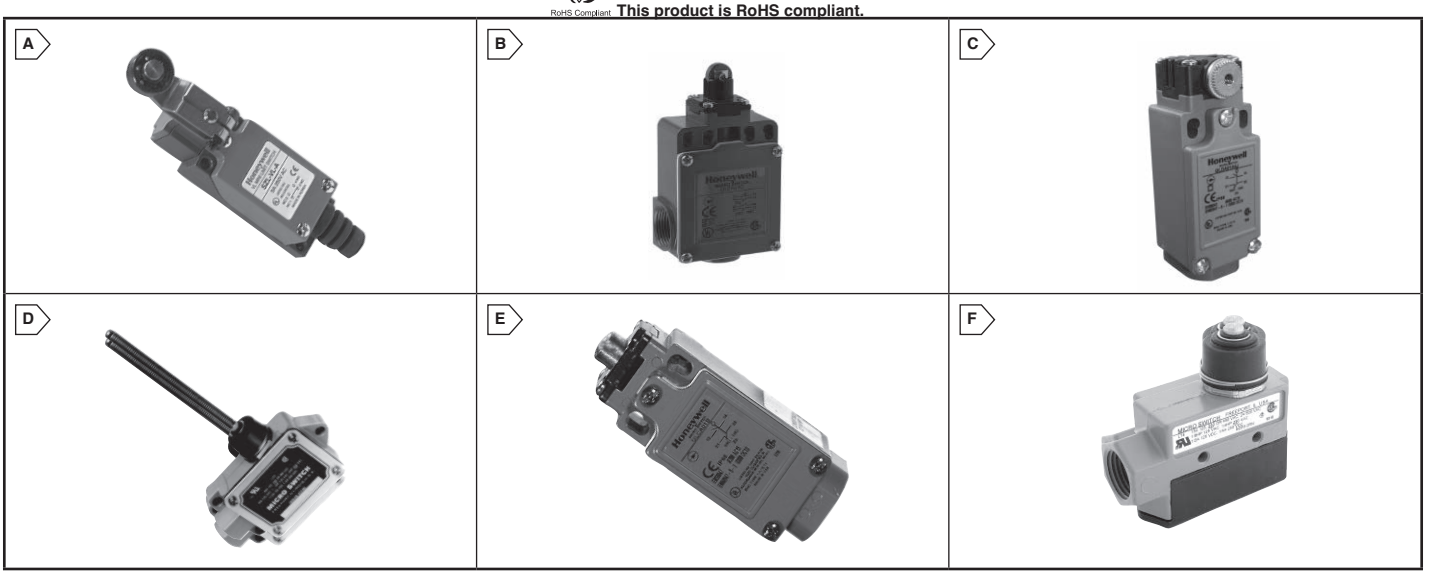
HONEYWELL Limit Switches

Honeywell

RoHS Compliant **This product is RoHS compliant.**



MICRO SWITCH™ GLOBAL LIMIT SWITCHES

Designed to IEC standard for world-wide acceptance. These metal or plastic switches are available with a wide variety of actuators, electrical specifications, terminations, circuitry and sealing ratings.

✻ Part is UL only.

HONEYWELL Limit Switches

Honeywell

RoHS Compliant **This product is RoHS compliant.**

LIMITLESS™ WGLA GLOBAL LIMIT SWITCHES & WPMM MONITOR

The new Limitless™ product line combines the best of MICRO SWITCH™ global limit switches with the latest commercial off-the-shelf wireless technology. Wireless-enabled limit switches can now be used for position sensing and presence/absence detection for an endless number of applications. The Limitless™ Series is especially beneficial for remote monitoring applications where wiring or wire maintenance is not physically possible or economically feasible. Combining this greater flexibility with proven harsh duty packaging can result in increased efficiencies and improved safety for machine and equipment OEMs and operators.

Honeywell's Limitless™ solutions should prove to be cost-effective when compared with traditional, wired limit switch solutions based on installation costs, on-going maintenance, and wiring integrity. The WGLA Series features the strong switching specifications and the metal EN 50041 housing of the MICRO SWITCH™ GLA Series further strengthened with wireless capabilities.

RoHS Compliant

Switch

Value Propositions:
- Functionality: Wireless connectivity meets existing wireless protocol standards and existing mounting configurations. It also maintains the ability to add more I/O devices as needed
- Installed cost: The Limitless™ Series greatly reduces the costs of wiring, installation, and maintenance for all devices and equipment
- Flexibility: Can be quickly reconfigured to be used point-to-point or potentially network up to 16 switches. WGLA Series switches provide increased productivity (uptime), reduced zcomponent complexity, and danger
- Honeywell: The Honeywell brand, with over 75 years of sensing and switch experience, delivers a broad limit switch portfolio with existing configurations and custom products. The Limitless™ Series is an extension of our vast energy-driven experience and resources

Features:
- Enables presence/absence detection in remote parts of applications or machinery, where wiring is an issue or not feasible
- Integration of existing wireless technology with proven reliability of Honeywell's MICRO SWITCH™ limit switch series
- Ability to reconfigure and network multiple switches or point-to-point personalized addresses, thus easily allowing adding, subtracting, or relocating of Limitless™ switches
- Reduced installation/maintenance costs with no wires, conduit, strain relief, clips, connectors, or connection boxes
- Consumes ultra-low power to prolong battery life (replaceable)
- Long-range signal of 1000 ft/304 m line-of-sight in North America
- RF board operating in 2.4 GHz globally license-free frequency band; WPAN 802.15.4
- EN 50041 metal enclosure; IP67; NEMA 1, 4, 12, 13
- Full complement of operating heads and levers, as well as monitor/ receivers and accessories

Applications:
- Valve position
- Construction/Ag machines
- Crane boom/jib/skew position
- Remote or temporary equipment
- Lifts
- Moveable machinery
- Material handling
- Grain diverters or flaps
- Presses
- Hose attachment verification
- Conveyors
- Specialty machines

MICRO SWITCH™ BX2 SERIES HAZARDOUS AREA SWITCH

The MICRO SWITCH™ BX2 Series has a stainless steel housing that provides enhanced corrosion resistance in applications exposed to aggressive, caustic agents. The stainless steel housing helps protect the switch mechanism from corrosion often present in chemical processing plants, off-shore/near shore sites and other hazardous areas. To comply with explosion-proof switching requirements, the flame path within the switch housing is designed to contain the cool escaping hot gases/fumes which could cause an explosion outside of the switch.

Features:
- Same high performance as the MICRO SWITCH™ BX series with a stainless steel housing
- New stainless steel housing provides corrosion resistance in aggressive environments up to four times longer than standard housing switches
- IP67; NEMA 1, 3, 4, 6, 13
- UL, CSA, ATEX, IEC Ex approvals
- Tracking interchangeable with MICRO SWITCH™ BX Series for drop-in replacement
- Conduit selection for global connectivity
  -1/2 in and 3/4 in NPT on BX2 products
  -20 mm on BX24 products
- Variety of heads & non-sparking actuators

Applications (Industrial):
- Off-shore drilling/pipeline (oil and gas, pigging)
- Control valves and actuators
- Gas recovery and blowout preventer units
- Petrochemical plans
- Chemical processing
- Grain elevators
- Waste treatment
- Paint booths
- Mining conveyors
- Pulp and paper handling
- Hazardous waste handling

RoHS Compliant

APM HEXSEAL Environmental Sealing Boots

APM HEXSEAL SEALING SPECIALISTS

APM HEXSEAL PUSHBUTTON SWITCH BOOTS

- Silicone rubber boot, with molded-in mounting nut
- Completely covers actuator
- Meets MIL-B-5423
- Resistant to sunlight, weather, salt spray, ozone, fungus and most acids and lubricating oils
- RFI suffix are EMI shielded

RoHS Compliant

For quantities greater than listed, call for quote.

APM HEXSEAL TOGGLE SWITCH BOOTS

- Silicone rubber with molded-in hex mounting nut
- Seals both switch and panel cutout
- Meets MIL-B-5423
- Resistant to sunlight, weather, salt spray, ozone, fungus and most acids and lubricating oils
- RFI suffix are EMI shielded

RoHS Compliant

For quantities greater than listed, call for quote.

APM HEXSEAL ROCKER SWITCH BOOTS

- High tear strength, transparent silicone rubber
- Resistant to sunlight, weather, salt spray, ozone, fungus and most acids and lubricating oils
- Does not compromise switch operability, position status viewing, or legend visibility
- Meets MIL-B-5423

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON Frequency Relays

OMRON

RoHS Compliant This product is RoHS compliant.

OMRON G6Y SERIES: 900MHZ SPDT HIGH-FREQUENCY RELAYS

Specifications:
- Insertion loss: 0.5dB max. @ 900MHz
- Max. carry power: 10W
- Power consumption: 200mW
- Contact rating: .5A

Features:
- Ideal for cable TV, HDTV, cellular, satellite communications, VCRs
- Fully sealed construction
- Form, fit, and function replacement to G5Y relay with improved characteristics

For quantities greater than listed, call for quote.

OMRON G6K-RF SERIES: DPDT COMPACT HIGH-FREQUENCY RELAYS

Specifications:
- Insertion loss: 0.2dB max. @ 1GHz
  0.6dB max. @ 3GHz
- Max. transmission capacity: 3W
- Rated power consumption: 100mW

Features:
- Ideal for instrumentation and high-speed LAN network equipment
- Gull-wing surface mount terminals
- Handles 1A, 30VDC and 1W @ 1GHz high frequency load

OMRON G6Z SERIES: 2.6GHZ SPDT HIGH-FREQUENCY RELAYS

Specifications:
- Insertion loss: 50Ω - 0.3dB @ 2.6GHz;
  75Ω - 0.5dB @ 2.6GHz
- Power consumption: 200mW
- Rated carry current: 0.5A
- Isolation: E-shape 30dB min. @ 2.6GHz
  Y-shape 40dB min. @ 2.6GHz
- Terminals: G6Z-1F Surface mount
  G6Z-1P PCB through-hole

Features:
- Non-latching
- Fully sealed construction
- Triplate micro stripline technology assures superior high-frequency characteristics

Packaged in tubes of 25 pcs.
Also available on tape and reel.
Contact Mouser for these options.

✻ Reverse contact arrangement

Meet the growing demand for wireless communication with Omron's new RF relays. The G6K-RF, G6Z, G6Y, and G6W are the smallest relays of their type on the market!

Features:
- Low power consumption
- Good isolation characteristics

Applications:
- Wireless infrastructure equipment
  - Filter and duplex switching
  - Antenna switching
  - Amplifiers

DIMENSIONS: mm

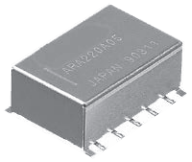
PANASONIC RF Relays

Panasonic

RoHS Compliant **This product is RoHS compliant.**

A



B

PCB Board Type Shown

C

D

E

Panasonic high frequency relays and coaxial switches are RoHS compliant and specifically designed for instrumentation, test & measurement, wireless communications, and cable TV/satellite equipment markets.

ARA SERIES

- Impedance: 50Ω, 1.0GHz
- Surface mount terminal
- Low Profile
- Nominal operating power: 140mW
- High contact reliability

For quantities greater than listed, call for quote.

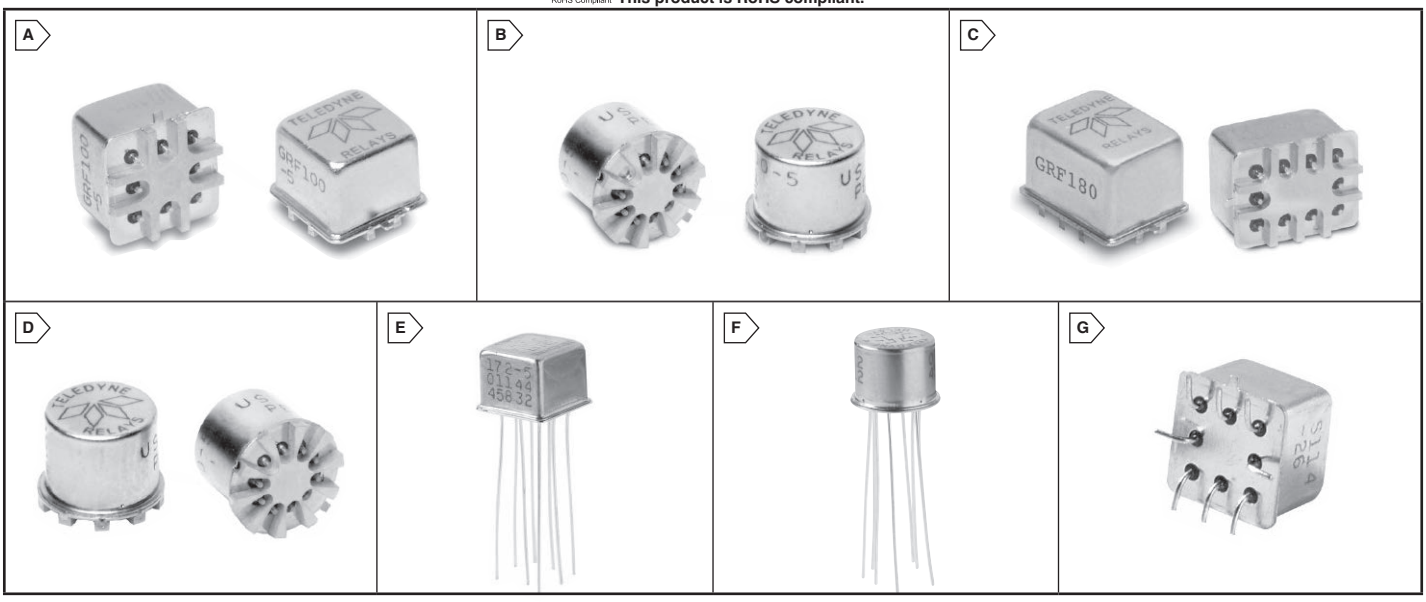
TELEDYNE RF, General Purpose Centigrid & TO-5 Relays

TELEDYNE RELAYS
A Teledyne Technologies Company

RoHS Compliant **This product is RoHS compliant.**



GRF SERIES SURFACE MOUNT RF RELAYS

GRF100/103 Series

RoHS Compliant

Features:
- GRF100/103 Series surface mount RF relays are designed to provide excellent RF signal repeatability.
- Repeatability = ±0.1dB

✻ High sensitivity

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Freq.	Coil Res. (Ω)	Price Each 1	Price Each 25
881-GRF100-5	GRF100-5	A	5V	DC-6GHz	0.10W	50.20	43.41
881-GRF100-12	GRF100-12	A	12V	DC-6GHz	0.10W	50.20	43.41
✻ 881-GRF103-5	GRF103-5	A	5V	DC-6GHz	0.10W	52.59	48.71
✻ 881-GRF103-12	GRF103-12	A	12V	DC-6GHz	0.10W	52.59	45.50

GRF172 Series

RoHS Compliant

Features:
- GRF172 Series surface mount RF relays are designed to provide excellent RF signal repeatability.

† With internal diode

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Freq.	Coil Res. (Ω)	Price Each 1	Price Each 25
881-GRF172-5	GRF172-5	A	5V	DC-6GHz	0.15W	35.60	34.76
881-GRF172-12	GRF172-12	A	12V	DC-6GHz	0.15W	37.39	35.88
† 881-GRF172D-5	GRF172D-5	A	5V	DC-6GHz	0.15W	38.63	37.62

GRF300/303 Series

RoHS Compliant

Features:
- GRF300/303 Series surface mount RF relays are designed to provide excellent RF signal repeatability.
- Repeatability = ±0.1dB

✻ High sensitivity

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Freq.	Coil Res. (Ω)	Price Each 1	Price Each 25
881-GRF300-5	GRF300-5	B	5V	DC-6GHz	0.10W	53.85	47.12
881-GRF300-12	GRF300-12	B	12V	DC-6GHz	0.10W	58.13	51.40
✻ 881-GRF303-5	GRF303-5	B	5V	DC-6GHz	0.10W	64.81	57.76

GRF312 Series

Features:
- The ultraminiature GRF312 relay is designed to improve upon the GRF300/GRF303 relay's high frequency performance.
- High Repeatability
- DPDT

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Freq.	Coil Res. (Ω)	Price Each 1	Price Each 25
881-GRF312-5	GRF312-5	B	5V	DC-8GHz	0.15W	79.75	69.46

GRF SERIES HIGH ISOLATION LATCHING RELAYS

GRF180 Series

RoHS Compliant

Features:
- GRF180 Series DPDT magnetic latching relays are designed to optimize isolation across contacts @4GHz Isolation = 36dB, Insertion Loss = 0.38dB, VSWR = 1.20:1

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Freq.	Coil Res. (Ω)	Price Each 1	Price Each 25
881-GRF180-5	GRF180-5	C	5V	DC-6GHz	0.15W	59.47	57.30
881-GRF180-12	GRF180-12	C	12V	DC-6GHz	0.15W	59.47	57.30

GRF342 Series

RoHS Compliant

Features:
- GRF342 Series DPDT magnetic latching relays are designed to optimize isolation across contacts @4GHz Isolation = 36dB, Insertion Loss = 0.38dB, VSWR = 1.20:1

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Freq.	Coil Res. (Ω)	Price Each 1	Price Each 25
881-GRF342-5	GRF342-5	D	5V	DC-6GHz	0.15W	73.51	64.31
881-GRF342-12	GRF342-12	D	12V	DC-6GHz	0.15W	78.86	69.66

DPDT GENERAL PURPOSE CENTIGRID AND TO-5 RELAYS

Features:
- Hermetically sealed
- Surface mount (S172 Series)
- Gold-plated contacts
- Dry circuit to 1A, 28VDC
- Superb RF performance, DC to 1GHz

RoHS Compliant

✻With internal transistor driver

† With internal diode

For quantities greater than listed, call for quote.

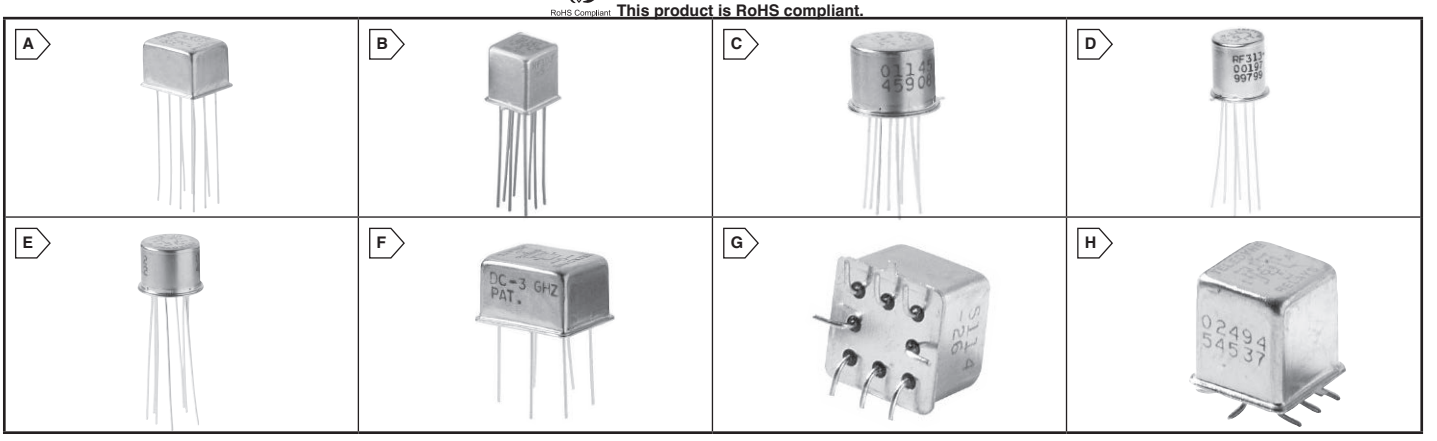
TELEDYNE RF, General Purpose Centigrid & TO-5 Relays

TELEDYNE RELAYS
A Teledyne Technologies Company

RoHS Compliant **This product is RoHS compliant.**



RF180 SERIES HIGH ISOLATION LATCHING RELAYS

Features:

- RF180 Series DPDT magnetic latching relays are designed to optimize isolation across contacts @4GHz Isolation = 30dB, Insertion Loss = 0.38dB, VSWR = 1.20:1

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Frequency	Contact Res.	Price Each 1	Price Each 25

RF311 SERIES HIGH REPEATABILITY, TO-5 RELAY

Features:

- The ultraminiature RF311 and RF331 relays are designed to provide improved RF signal repeatability over the frequency range
- SPDT

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Frequency	Contact Res.	Price Each 1	Price Each 25
881-RF311-5/G	RF311-5/G	B	5V	DC-8GHz	0.15	58.02	50.29

RF312 SERIES HIGH REPEATABILITY 12GBPS SIGNAL INTEGRITY TO-5 RELAY

Features:

- The RF312 offers monotonic insertion loss to 8GHz.
- DPDT

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Frequency	Contact Res.	Price Each 1	Price Each 25
881-RF312-5/G	RF312-5/G	C	5V	DC-8GHz	0.15	80.91	72.96

RF313 SERIES HIGH REPEATABILITY, NORMALLY CLOSED BYPASS RF RELAYS

Features:

- RF313 Series normally closed high repeatability broadband relays are designed with an internal bypass to provide low insertion loss and VSWR through the bypass.

RoHS Compliant
✻ High Sensitivity

For quantities greater than listed, call for quote.

A150 SERIES ULTRAMINIATURE BROADBAND ATTENUATOR RELAY

Features:

- A150 Series ultraminiature attenuator relays are designed for attenuating RF signals in 50-ohm systems over a frequency range from DC-3GHz.

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Frequency	Coil Res. (Ω)	Price Each 1	Price Each 25
881-A150-20-5	A150-20-5	F	5V	DC-3GHz	50	74.80	65.12

A152 SERIES ULTRAMINIATURE ATTENUATOR RELAY

Features:

- The Series A152 highly repeatable ultraminiature attenuator relays are designed for attenuating RF signals in 50-ohm systems over a frequency range from DC to 5GHz.

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Teledyne Part No.	Fig.	Coil Voltage	Price Each 1	Price Each 25

TELEDYNE RF, General Purpose Centigrid & TO-5 Relays

TELEDYNE RELAYS
A Teledyne Technologies Company

RoHS Compliant **This product is RoHS compliant.**

SERIES 114 DPDT CENTRIGRID® RF RELAYS

Features:
- All welded construction
- High force/mass ratios

♦ With internal diode
❊ M4 pad included
† With internal diode and polarity reversal protection

RoHS Compliant

For quantities greater than listed, call for quote.

A SERIES MINIATURE RELAYS

Features:

- 2 Poles - 1 to 2A (for signal switching)
- Extremely low profile and light weight
- UL, CSA recognized
- High Reliability - bifurcated contacts
- Plastic Sealed type
- Contact Form: DPDT
- Height: 5mm
- Weight: approx. 1.2g
- Wide Operating range
- DIL through-hole terminals
- Contact Rating: .5A

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fujitsu Part No.	Fig.	Nominal Voltage (VDC)	Coil Resistance (±10%)	Nominal Power	Price Each			
						1	100	500	1000
817-A-3W-K	A-3W-K	A	3	64.3Ω	140mW	3.19	2.71	2.31	2.12

FTR-B3 SERIES MINIATURE HORIZONTAL RELAYS

Features:

- 2-Contact 1A (for switching signals)
- Flat Type ultra miniature (SMT)
- Ultra slim and light weight
- High efficiency polar electromagnet structure
- Contact Form: DPDT
- Gold-plated silver alloy bifurcated contacts
- UL, CSA recognized
- Contact Rating: .3A

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fujitsu Part No.	Fig.	Terminal Type	Nominal Voltage (VDC)	Coil Resistance (±10%)	Nominal Power	Price Each

FTR-B4 SERIES ULTRA MINIATURE SLIM SIGNAL RELAYS

Features:

- High reliability bifurcated contacts
- Lower power consumption
- 10mm Max. height SMT
- Contact Form: DPDT
- ✻Reduced mounting area
- Weight: Approx. 1.0g
- Conforms Bellcore and FCC part 68
- Contact Rating: 1A

RoHS Compliant

For quantities greater than listed, call for quote.

FTR-C1 SERIES ULTRA MINIATURE RELAYS

Features:

- High reliability bifurcated contacts
- Lower power consumption
- Contact Form: DPDT
- Weight: Approx. 1.0g
- Surge Strength: 5000V
- Conforms to IEC 60950 / EN60950 / UL1950 / C22.2
- Contact Rating: 1A

RoHS Compliant

For quantities greater than listed, call for quote.

MZ SERIES MINIATURE RELAYS

Features:

- 1 Pole - 1 to 2A (for signal switching)
- Subminiature size
- Standard and high sensitivity types available
- DIL through-hole terminals
- Contact Form: SPDT
- Plastic sealed type
- High reliability bifurcated contacts
- UL, CSA recognized
- Contact Rating: .5A

RoHS Compliant

For quantities greater than listed, call for quote.

NA SERIES MINIATURE RELAYS

Features:

- 2 Poles - 1 to 2A (for signal switching)
- Slim type relay for high density mounting
- High sensitivity and low consumption power
- Maximum switching capacity - 4.2A 700VAC
- Contact Form: DPDT
- High reliability - bifurcated contacts
- DIL through-hole terminals
- Plastic sealed type
- Contact Rating: .5A

RoHS Compliant

For quantities greater than listed, call for quote.

RY SERIES MINIATURE RELAYS

Features:

- 2 Poles - 1 to 2A (for signal switching)
- Ultra high sensitivity
- Wide operating temperature range
- Contact Form: DPDT
- DIL through-hole terminals
- Plastic sealed type
- UL, CSA recognized

RoHS Compliant

For quantities greater than listed, call for quote.

SY SERIES MINIATURE RELAYS

Features:

- 1 Pole - 1A (for signal switching)
- Very small size and weight
- High sensitivity
- Contact Form: SPDT
- Wide operating temperature range
- DIL through-hole terminals
- Plastic sealed type
- Contact Rating: .5A

RoHS Compliant

For quantities greater than listed, call for quote.

NEC UA2/UB2 SERIES: MINIATURE SIGNAL RELAYS

- Surge voltage: 2500V between coil and contact (Complies with Bellcore EN60950)
- Breakdown voltage between open contacts: 1000VAC (Complies with FCC Part 68)
- Contact form: DPDT
- Max. switching current: 1A
- Contact Rating: 1A

For quantities greater than listed, call for quote.

OMRON G5V-1 & G5V-13 SERIES: 1A SPDT SMALL LOW SIGNAL RELAYS

Specifications:
- Contact resistance: 100mΩ max.
- Contact material: Ag (Au clad)
- Power consumption: 150mW

Features:
- Ultra-miniature, highly sensitive relay for signal circuits
- High-sensitivity: 150mW nominal power consumption
- Wide switching power of 1mA to 1A
- Conforms to FCC part 68 requirements for coil to contacts
- Fully-sealed construction
- Ideal for use in telecommunications, security, and computer/peripheral equipment

✻ 2% pickup voltage

For quantities greater than listed, call for quote.

OMRON G5V-2 SERIES: 2A DPDT GENERAL USAGE LOW SIGNAL RELAYS

Specifications:
- Contact resistance: 50mΩ max.
- Power consumption:
  Standard type 500mW
  High-sensitivity type 360mW
  Ultra-sensitive type 150mW

Features:
- Miniature relay for signal circuits
- Suitable for handling low signals in computer peripherals, telecommunications and security equipment
- Capable of switching loads 10μA to 2A
- Conforms to FCC part 68: 1500V surge withstand
- Reliable Ag + Au-clad, bifurcated crossbar contacts
- Fully-sealed construction

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON G6L SERIES: 1A SPST-NO LOW PROFILE LOW SIGNAL RELAYS

Specifications:
- Contact resistance: 100mΩ max.
- Max. switching current: 1A
- Power consumption: 180mW

Features:
- Extremely thin and flat relay, one of the thinnest relays in the world
- Uses 20% less mounting area and 67% less volume in comparison with the G5V-1 relay
- High dielectric strength: 1000VAC between coil and contacts and 750VAC between contacts of the same polarity
- Conforms to FCC part 68

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON Low Signal Relays

RoHS Compliant This product is RoHS compliant.

OMRON G6A SERIES: 3A DPDT LOW SIGNAL RELAYS

Specifications:
- Contact material: G6A-234P AgPd (Au clad)
  G6A-274P Ag (Au clad)
- Max. resistive switching capacity: 125VAC / 60W
- Minimum permissible load: 10μA @ 10mVDC

✻ BABT approved

Features:
- Unique moving magnet armature (Moving Loop System) reduces relay size, magnetic interference, and contact bounce time.
- Due to low magnetic leakage, units can be mounted side by side.
- Fully sealed construction

For quantities greater than listed, call for quote.

OMRON G6K SERIES: 1A DPDT ULTRA-SMALL LOW SIGNAL RELAYS

Specifications:
- Rated load: 0.3A @ 125VA / 1A @ 30VDC
- Contact material: Ag (Au clad)
- Max. resistive switching capacity: 37.5VA / 30W
- Minimum permissible load: 10μA @ 10mVDC

✻ Tape and reel packaging; Full reel size is 1800

Features:
- Compact fourth generation design offers excellent board space savings.
- "-Y" models meet 2.5kV Bellcore surge requirements.
- Conforms to FCC Part 68

For quantities greater than listed, call for quote.

OMRON Low Signal Relays

Products may be RoHS compliant. Check mouser.com for RoHS status.

OMRON G6E SERIES: 3A SPDT LOW SIGNAL RELAYS

Specifications:
- Rated load: 0.40A @ 125VAC / 2A @ 30VDC
- Contact material: Ag (Au clad)
- Contact resistance: 50mΩ max.
- Power consumption: Standard 200mW
  Low-sensitivity 400mW
- Terminals: PCB straight
- Standoffs: 0.64mm

Features:
- Subminiature, sensitive signal relays
- High sensitivity with pick-up coil power of 98mW
- Surge withstand voltage meets FCC Part 68 requirements.
- Unique moving loop armature reduces relay size, magnetic interference, and contact bounce time.
- Bifurcated crossbar contact assures high reliability.
- Fully sealed construction

✻ Standoffs: 0.3mm

For quantities greater than listed, call for quote.

OMRON G6S SERIES: 2A DPDT LOW SIGNAL RELAYS

Specifications:
- Rated load: 0.5A @ 125VAC / 2A @ 30VDC
- Contact material: Ag (Au clad)
- Contact resistance: 75mΩ max.
- Max. carry current: 2A
- Power consumption:
  G6S (3-12VDC) 140mW / G6S (24VDC) 200mW
  G6SU (3-12VDC) 100mW / G6SU (24VDC) 150mW
  G6SK (3-12VDC) 200mW / G6SK (24VDC) 300mW
  G6S Euro (5-12VDC) 200mW / G6SK (24VDC) 230mW

Features:
- Design based on worldwide communications, office automation, and computer peripheral relay requirements
- High dielectric withstand voltage of 2000VAC between coil and contacts (standard type); 1500VAC between contacts of different polarity
- Meets FCC Part 68 and Telcordia 2.5kV surge withstand
- European version certified for EN60950/EN41003 Supplementary Insulation at 250V at Pollution Degree 2.
- Low power consumption of 140mW (non-latching)

RoHS Compliant

✻ Tape and reel packaging; Full reel size is 800

For quantities greater than listed, call for quote.

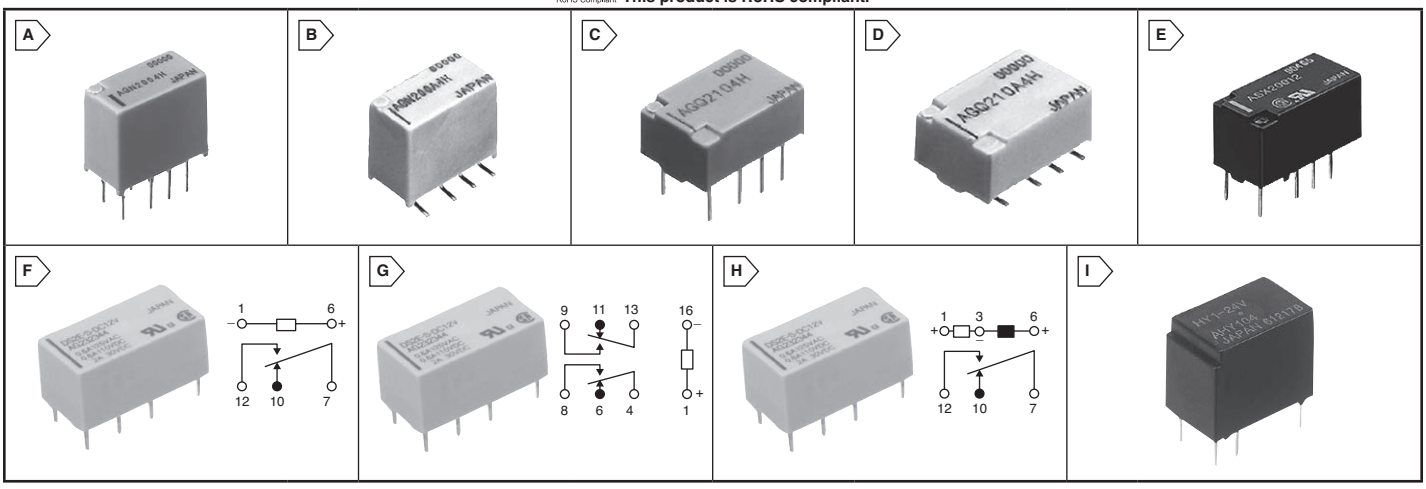
PANASONIC Low Signal Relays

Panasonic

RoHS Compliant **This product is RoHS compliant.**



Panasonic signal relays are RoHS compliant and offer high-reliability and space-saving solutions for today's applications in telecom, WiFi, handheld devices, instrumentation, and ATE. Panasonic is the leading provider of signal relays in North America (VDC 2004).

AGN SERIES

Features:
- Compact slim body
- Surge Resistance
- Nominal operating power: 140mW
- Vibration and Shock resistance
- High Contact reliability
- Available in PCB and SMD

For quantities greater than listed, call for quote.

AXICOM Low Signal Relays

RoHS Compliant **This product is RoHS compliant.**

TE connectivity — Authorized Distributor

IM SERIES: LOW PROFILE 2A POLARIZED LOW SIGNAL RELAYS

Specifications:

- High surge capability meets FCC Part 68
- Contact form: DPDT
- Maximum switching current: 2A
- Surface mount product; tape and reel packaging
- Contact material: Palladium-ruthenium, gold-covered
- Contact assembly: Bifurcated contacts
- Immersion cleanable, IP67 degree of protection

P2 (V23079): SLIM CASE 5A POLARIZED LOW SIGNAL RELAYS

Specifications:

- High surge capability meets FCC Part 68
- Contact form: DPDT
- Maximum switching current: 5A
- Surface mount product tape and reel packaging
- Contact material: Silver nickel, gold-covered
- Contact assembly: Bifurcated contacts
- Immersion cleanable, IP67 degree of protection

T81N/T81H SERIES: ULTRAMINIATURE PCB RELAYS

- High dielectric strength - 1000Vrms, 50/60Hz, for 1 minute contact to coil
- Contact material: Gold overlay silver-palladium alloy
- Contact rating: 1A @ 24VDC; 0.5A @ 120VAC
- Enclosure: Immersion cleanable, plastic sealed case
- Expected Mechanical life: 10 million operations min.
- Operate/Release Time (Excluding bounce): 5ms/2ms
- Nominal power: T81N - 450mW; T81H - 200mW
- T81N - standard coil; T81H - sensitive coil
- Contact form: SPDT

FUJITSU Power Relays

FTR-F1 SERIES: 2 POLES - 5A LOW PROFILE TYPE

Features:
- DPST/DPDT 5A, TV-3 rating available
- Higher isolation by employing insulation construction
- Plastic sealed relay
- UL, CSA, VDE, SEMKO BSI recognized

RoHS Compliant

For quantities greater than listed, call for quote.

FTR-K1 SERIES: 1 POLE - 16A LOW PROFILE TYPE

Features:
- High density mounting
- High Isolation
- Heat Resistance, Flammability 94V-0
- Cadmium free contact for eco-program
- UL, CSA, VDE, SEMKO approved
- TV-5 rating approved, TV-8 available

RoHS Compliant

For quantities greater than listed, call for quote.

FTR-F3 SERIES: 1 POLES - 6A SLIM TYPE RELAY

Features:
- High density mounting
- Higher isolation
- Insulation Distance: Minimum 6mm between coil and contact (conforms to IEC 65)
- Dielectric Strength: 4KV
- High coil sensitivity
- High flammability resistance
- Flammability 94V-0
- UL class B (130°C)
- Cadmium free contact for eco-program
- UL, CSA, VDE approved
- Plastic sealed relay

RoHS Compliant

For quantities greater than listed, call for quote.

FTR-H3 SERIES: SILENT POWER RELAY 1 POLE - 10A LOW PROFILE TYPE

Features:
- Pin compatible with widely used VS and FTR-H1 series
- Ultra silent relay unique U-shape design
- Noise level is about 50dB at 5cm
- High insolation in small package
- Contact Material: Gold overlay silver alloy
- Lead free and cadmium free contacts
- Plastic sealed relay
- UL, CSA, BSI, VDE, SEMKO, DEMKO approved
- Low profile (height 16.5mm)
- Dielectric = 3,000VAC Surge =10,000V
- Contact Rating = 10A
- UL, CSA, VDE, CQC safety standards
- Sealed type relay
- Nominal Power = 530mW

RoHS Compliant

For quantities greater than listed, call for quote.

FTR-K3 SERIES: 20A POWER RELAY

Features:
- Heavy duty for compressor and inverter loads
- High Sensitivity in small package
- Nominal Power 780mW
- High insulation with reinforced insulation system
- Clearance distance = 8mm Creepage distance = 9.5mm
- Dielectric = 5,000VAC Surge = 8,500V
- Contact Rating = 20A
- UL, CSA, VDE, CQC safety standards

RoHS Compliant

For quantities greater than listed, call for quote.

FUJITSU Power Relays

FTR-MY SERIES: 1 POLE - SLIM POWER RELAY

Features:
- Width: 5mm
- Height: 12mm
- Weight: 2.5g
- High Sensitive
- High reliability
- Dielectric Strength: 3000VAC

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fujitsu Part No.	Fig.	Contact Form	Nominal Voltage (VDC)	Contact Rating	Price Each 1	100	500	1000

JS SERIES: 1 POLE - 8 A (MEDIUM LOAD CONTROL)

Features:
- Low profile and space saving
- High sensitivity in small package
- Plastic sealed type
- UL Class B (130°C) insulation
- UL, CSA, VDE, SEV, SEMKO, FIMKO, BSI recognized

RoHS Compliant

For quantities greater than listed, call for quote.

JV SERIES: 1 POLE - 5 A (MEDIUM LOAD CONTROL)

Features:
- Low profile and space saving
- High sensitivity in small package
- Plastic sealed type
- Cadmium free contacts
- High Insulation with reinforced insulation system

RoHS Compliant

For quantities greater than listed, call for quote.

JY SERIES: 1 POLE - 3, 5 A (MEDIUM LOAD CONTROL)

Features:
- High sensitivity and low power consumption
- High isolation
- Wide operating temperature range
- DIL through-hole terminals
- Plastic sealed type
- UL, CSA, VDE recognized

RoHS Compliant

For quantities greater than listed, call for quote.

LZ SERIES: 1 POLE - 1, 3, 5, 10 A (MEDIUM LOAD CONTROL)

Features:
- 4 kinds of contact ratings
- Standard and high sensitivity types available
- High surge strength version available
- Printed circuit terminals - fits grid with 0.1 inch
- UL class B (130°C) insulation type

RoHS Compliant

For quantities greater than listed, call for quote.

FTR-LY SERIES: 1 POLE - 6 A (MEDIUM LOAD CONTROL)

Features:
- Slim Design
- High insulation in small package
- Insulation distance: 8mm min.
- Dielectric strength: 4000VAC
- UL, CSA, VDE Recognized
- Cadmium Free Contacts
- Contact Material: Silver Alloy

RoHS Compliant

For quantities greater than listed, call for quote.

NY SERIES: 1 POLE - 5 A ULTRA SLIM 5MM THICKNESS

Features:
- Ultra slim type with 5mm thickness
- Low power consumption and high sensitivity
- Wide operating range
- SIP through-hole terminals
- Plastic sealed type
- UL, CSA, VDE recognized
- Cadmium free contacts

RoHS Compliant

For quantities greater than listed, call for quote.

MAGNECRAFT PCB and Solid State Relays

Magnecraft CLASS 276 SEALED LOW PROFILE POWER PCB RELAYS

UL Recognized File No. E190964

- Contact resistance: 100mΩ initial @ 6VDC, 1 Amp
- Coil power: 200mW approx
- Coil resistance: ±10%
- Contact material: silver alloy
- Dielectric strength: 2000V rms
- Insulation resistance: 500VDC exceeds 1000MΩ min
- Operating temperature: -40°C to +70°C
- Electrical life: 100,000 operations @ rated resistive load
- DTL compatible single-side stable design
- 5KV surge resistance coil to contact

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Magnecraft® Part No.	Fig.	Contact		Coil		Price Each

OMRON Power PCB Relays

OMRON

This product is RoHS compliant.

OMRON G4A SERIES: 20A SPST-NO MINIATURE POWER PCB RELAYS

Specifications:
- Rated load: 20A @ 250VAC
- Contact resistance: 100 mΩ max.
- Electrical endurance:
  With motor load (250VAC) 200,000 ops.
  With overload (250VAC) 1,500 ops.
  With Inverter load (100VAC) 30,000 ops.

Features:
- Miniature single-pole relay with 80A surge
- 20A switching current
- Ideal for motor switching
- Miniature relay with high switching power and long endurance
- Highly noise-resistive insulation materials

For quantities greater than listed, call for quote.

OMRON G4W SERIES: 15A POWER PCB RELAYS

Specifications:
- Rated load: 15A @ 250VAC/24VDC
- Terminals: PCB straight
- Coil power consumption: 800mW

Features:
- Impulse withstand voltage as high as 10kV with 4kV dielectric
- Ideal for power supply switching
- International 2.54mm terminal pitch

✻ VDE Approved

For quantities greater than listed, call for quote.

OMRON G5CA SERIES: SPST-NO POWER PCB RELAYS

Specifications:
- Contact material: Silver alloy
- Rated carry current: 10A
- Contact resistance: 30mΩ max. (QC terminals 100mΩ max.)

Features:
- Flat relays that switch 10A/15A loads
- Ideal for switching power in household appliances or outputs from industrial devices

For quantities greater than listed, call for quote.

OMRON G5Q SERIES: COMPACT, HIGH-ISOLATION POWER PCB RELAYS

Specifications:
- Contact material: Ag Alloy
- Contact rating:
  (NO) 10A @ 125VAC / 5A @ 30VDC
  (NC) 3A @ 125VAC / 3A @ 30VDC
- Power consumption: SPST-NO 400mW; SPDT 200mW

Features:
- Ensures a withstand impulse voltage of 8,000V between the coil and contacts
- Low coil power consumption
- UL class F coil insulation
- Ideal for appliance and HVAC controls

For quantities greater than listed, call for quote.

OMRON G5LE SERIES: 10A "SUGAR CUBE" POWER PCB RELAYS

Specifications:
- Contact rating: 10A @ 120VAC for Standard (5/9VDC)
  10A @ 240VAC for Standard (12/24VDC)
  10A @ 35VDC for 0.8mm Contact Gap
  16A @ 250VAC for High-Capacity

Features:
- Withstands impulse of up to 4500V
- Ideal for applications in security equipment, household electrical appliances, garage door openers, and audio equipment

✻VDE Approved ✻✻Contacts are Au plated

For quantities greater than listed, call for quote.

OMRON G5NB SERIES: 3A SPST-NO PCB RELAYS

Specifications:
- Rated load: 3A@125VAC/30VDC for Standard
  5A@250VAC / 3A@30VDC for High-Capacity
- Contact resistance: 100mΩ max.

Features:
- Standard models switch up to 3A and high-capacity models switch up to 5A (AC loads only)
- Low power consumption (200mW)

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON Power PCB Relays

RoHS Compliant **This product is RoHS compliant.**

OMRON G2RL SERIES: LOW PROFILE POWER PCB RELAYS

Specifications:
- Rated load: 12A @ 250VAC/24VDC GP 1-Pole
  8A @ 250VAC/30VDC GP 2-Pole
  16A @ 250VAC/30VDC High-Capacity
  10A @ 250VAC/24VDC High-Sensitivity
- Contact material: Ag alloy (Cd free)

Features:
- Designed for cooking and HVAC controls: blower motor, damper, active air purification, duct flow boost fans, etc.
- Coil insulation system: Class F
- Clearance and creepage distance: 10mm/10mm
- Tracking resistance: CTI>250

For quantities greater than listed, call for quote.

OMRON G5RL SERIES: 16A POWER PCB RELAYS

Specifications:
- Rated load: SPST-NO 16A @ 250VAC/24VDC
  SPDT 5A @ 250VAC/24VDC
- Contact material: Ag alloy (Cd free)

Features:
- Creepage distance 8mm between coil and contacts
- 10kV impulse withstand voltage
- Enclosure rating: Flux protection

For quantities greater than listed, call for quote.

OMRON G5SB SERIES: SPDT COMPACT POWER PCB RELAYS

Specifications:
- Rated load: 3A(NO)/3A(NC) @ 125VAC
  5A(NO)/3A(NC) @ 125VAC/30VDC
  5A(NO) @ 250VAC
  3A(NC) @ 250VAC
- Contact material: Ag alloy

Features:
- Switches up to 5A (NO)
- Ideal for fan control of air conditioners and heating control of small appliances
- Ensures an impulse withstand voltage of 8000V between coil and contacts

For quantities greater than listed, call for quote.

OMRON Power PCB Relays

RoHS Compliant **This product is RoHS compliant.**

OMRON G2R SERIES: VERSATILE POWER PCB RELAYS

Specifications:
- Rated load: @ 250VAC/30VDC
  1-Pole (General Purpose/Upper Mount) 10A
  1-Pole (High-Capacity) 16A
  2-Pole (General Purpose) 5A
  2-Pole (High-Sensitivity/Latching) 3A
- Contact material: Ag alloy

Features:
- Creepage distance of 8.0mm between coil and contact
- Highly stable magnetic circuit for latching endurance and excellent resistance to vibration and shock
- Safety-oriented design assures high surge resistance: 10,000V min. between coil and contacts

For quantities greater than listed, call for quote.

OMRON G2RG SERIES: DPST-NO FULLY SEALED POWER PCB RELAYS

Specifications:
- Rated load: 8A @ 250VAC
- Contact material: AgSnO
- Power consumption: 800mW

Features:
- Power relay with 1.5mm contact gap
- Tracking resistance: CTI > 250V
- 10kV impulse withstand voltage between coil and contacts

For quantities greater than listed, call for quote.

OMRON Power PCB Relays

RoHS Compliant This product is RoHS compliant.

OMRON G6B SERIES: SWITCHING, SUBMINIATURE POWER PCB RELAYS

Specifications:
- Rated load: 5A @ 250VAC/30VDC
  8A @ 250VAC/30VDC for High-Capacity
- Contact material: Ag alloy
- Terminals: PCB straight

Features:
- Low power consumption: 200mW
- Unique moving loop armature reduces relay size, magnetic interference, and contact bounce time
- Fully sealed construction

✻Reverse coil polarity ✻✻Contact material: AgSnIn

For quantities greater than listed, call for quote.

OMRON G6D-ASI SERIES: SLIM POWER PCB RELAYS

Specifications:
- Rated load: 5A @ 250VAC/30VDC
- Terminals: PCB straight

Features:
- Reduced board space ideal for high-density mounting
- Sealed construction allows automatic soldering and cleaning

✻ Non-paraffin coil

OMRON G6M SERIES: SIL PACKAGE POWER PCB RELAYS

Specifications:
- Rated load: 3A @ 250VAC/30VDC
- Power consumption: 120mW

Features:
- Fully sealed
- Reduced area is ideal for high density mounting.

RoHS Compliant

For quantities greater than listed, call for quote.

PANASONIC Power Relays

Panasonic

RoHS Compliant **This product is RoHS compliant.**

Panasonic Power relays are RoHS compliant and ideal for Home Appliances, HVAC and vehicle applications as well as Lighting, Spa and Elevator Control and Industrial Equipment.
Miniature package types for space savings with low power consumption. Polarized Latching types featuring high switching capacity and excellent vibration resistance Safety Relays, with EN50205 forcibly guided contacts High Capacity DC Cutoff types up to 300A General Purpose - available with sockets.

PANASONIC Power Relays

Panasonic

RoHS Compliant **This product is RoHS compliant.**

Panasonic Power relays are RoHS compliant and ideal for Home Appliances, HVAC and vehicle applications as well as Lighting, Spa and Elevator Control and Industrial Equipment.
Miniature package types for space savings with low power consumption. Polarized Latching types featuring high switching capacity and excellent vibration resistance Safety Relays, with EN50205 forcibly guided contacts High Capacity DC Cutoff types up to 300A General Purpose - available with sockets.

NC SERIES

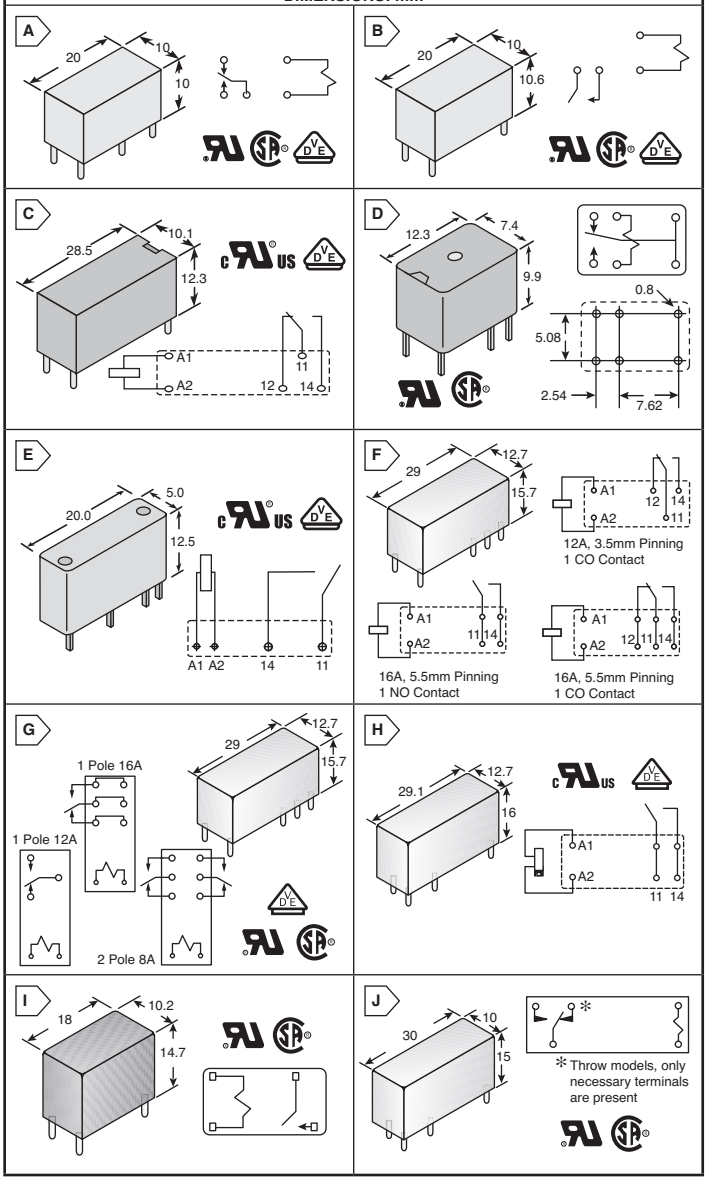
TE PCB Relays

TE connectivity Authorized Distributor

DIMENSIONS: mm



PE SERIES: 5 AMP MINIATURE PCB RELAYS

Specifications:

- Flux-light for wave soldering
- Contact material: Silver-Nickel 90/10
- Expected Mechanical life: 15 million operations min.
- Operate/Release/Bounce Time: 5ms/2ms/1ms typical

For quantities greater than listed, call for quote.

RE SERIES: 6 AMP MINIATURE PCB RELAYS

Specifications:

- Fully sealed with vent hole
- Contact material: Silver-cadmium oxide
- Expected Mechanical life: 30 million operations min.
- Operate/Release/Bounce Time: 6ms/1ms/1ms typical

For quantities greater than listed, call for quote.

RYII SERIES: 8A MINIATURE POWER PCB RELAYS

Specifications:

- Contact form: SPDT
- Rated current: 8A
- Rated voltage: 250VAC
- Contact material: Silver nickel 0.15
- Contact assembly: Single contact
- Conforms to UL508

For quantities greater than listed, call for quote.

TSC SERIES: 1AMP MINIATURE PCB RELAYS

Specifications:

- Low coil power requirement for IC compatibility
- Sealed plastic case
- Nominal power: Standard coil = 300mW; Sensitive coil = 150mW

Common Applications:

- Telecommunications
- Appliances
- Office machines
- Security systems

For quantities greater than listed, call for quote.

PCN SERIES: 3 AMP MINIATURE PCB RELAYS

Specifications:

- Contact form: SPST-NO
- Rated current: 3A
- Rated voltage: 250VAC
- Contact material: Silver nickel
- Contact assembly: Bifurcated contact
- Conforms to UL508

For quantities greater than listed, call for quote.

RZ SERIES: PCB RELAYS

- 1 pole 12/16A, 1 CO or 1 NO contact
- DC-coil 400mW
- 5kV/10mm coil-contact, reinforced insulation
- Ambient temperature 85°C (clear cover: 70°C)
- Product in accordance to IEC60335-1

For quantities greater than listed, call for quote.

RT SERIES: MINIATURE PCB RELAYS

- Enclosure: RT 1,3,4 - Flux-light, top vented, plastic case; RT B,D,E - Immersion cleanable, plastic case
- Pin spacing: RT 1,B - 3.5mm; RT 3,4,D,E - 5mm
- Contact material: Silver-Nickel 90/10
- Expected Mechanical life: 10 million operations min.
- Operate/Release Time: 7ms/3ms typical
- DC - UL Class F coil insulation; AC -UL Class A coil insulation

For quantities greater than listed, call for quote.

RTX SERIES: POWER PCB RELAYS

- Contact arrangement: 1 form A (NO) contact
- Rated voltage: 250VAC
- Rated current: 16A
- Mechanical endurance: >105 operations
- Contact style and material: W pre-make contact and AgSnO2
- Limiting making current incandescent lamps max. 20ms: 200A peak, fluorescent lamps, max 1.2ms: 320A peak

P&B PCB and Panel Mount Relays

RoHS Compliant **This product is RoHS compliant.**

TE connectivity Authorized Distributor

T90 SERIES: PCB RELAYS

Specifications:
- UL Class F coil insulation system
- Contact material: Silver-cadmium oxide
- Meets UL 508 and UL 873 spacing
- Expected Mechanical life: 10 million operations min.
- Operate/Release Time (Including bounce): 15ms/15ms
- Max. coil power: 2.8 Watts
- Contacts: Silver-cadmium oxide

For quantities greater than listed, call for quote.

T92 SERIES: 2 POLE 30 AMP RELAYS

Specifications:
- Designed to control compressor loads to 3.5 tons, 25.3 FLA, 110 LRA
- UL Class F coil insulation construction
- Meets UL 508 and UL 873 spacing
- Expected Mechanical life: 5 million operations min.
- Operate/Release Time (Typical): 15ms/10ms
- UL approved for 600VAC switching (1.5HP)
- Flange type: .250" x .032" QC terminals
- Contact material: Silver-cadmium oxide

For quantities greater than listed, call for quote.

Automotive Relays

FUJITSU FTR-P2 SERIES: SILENT TWIN AUTOMOTIVE RELAYS

Features:
- 1 POLE x 2, H-Bridge, 25A
- Low operating sound
- Compact, high density package
- High capacity
- Ease of PCB layout
- High breaking capability

Applications:
- Power windows
- Doorlocks
- Power seat
- Wiper (for H-bridge circuit)

For quantities greater than listed, call for quote.

FUJITSU FTR-P4 SERIES: COMPACT TWIN AUTOMOTIVE RELAYS

Features:
- 1 POLE x 2, H-Bridge - 25A
- High density package
- High contact capacity
- Coil power savings

Applications:
- Power windows/seat
- Doorlocks
- Sun roof
- Tilt steering
- Retractable antenna

For quantities greater than listed, call for quote.

NEC EP2/EP1 SERIES: 25A AUTOMOTIVE RELAYS

- The EP2 H bridge type is a twin relay for forward and reverse control of motors (SPDT x 2 contact form)
- The EP2 separate type contains 2 separated relays in 1 package (SPDT x 2 contact form)
- The EP1 series is a single SPDT relay
- Nom. Operating Power: 640mW
- Flux tight housing

For quantities greater than listed, call for quote.

Automotive Relays

FUJITSU FTR-G1 SERIES: COMPACT POWER RELAY FOR AUTOMOTIVE APPLICATIONS

Specifications:
- Compact for high density packaging
- High contact capacity with proven contact material
- Coil power savings
- Ease of PCB layout
- Lower noise (57dB average at 5cm)
- Contact arrangement: 1Form C

Typical Applications:
- Power window
- Door lock
- Sun roof

For quantities greater than listed, call for quote.

FUJITSU FTR-P6 SERIES: MICRO SURFACE MOUNT RELAY FOR AUTOMOTIVE APPLICATIONS

Specifications:
- Surface mount relays
- Miniature size
- High contact capacity with proven contact material
- Coil power savings
- Semi-quet relay (average accoustic noise level: 60dB distance 5cm)

Typical Applications:
- Power window
- Door lock
- Power seat

For quantities greater than listed, call for quote.

OMRON G8HN SERIES: MICRO ISO AUTOMOTIVE RELAYS

Specifications:
- Max. switching current: 60A (NO), 30A (NC), steady 20A (NO), 10A (NC)
- Coil resistance ±20: 110Ω
- Electrical service life: 100,000 cycles min.
- Contact material: Silver tin oxide (cadmium free)
- Rated voltage: 12VDC

For quantities greater than listed, call for quote.

OMRON G8JN SERIES: GENERAL PURPOSE AUTOMOTIVE RELAYS

Specifications:
- Contact form: SPDT
- Standard ISO terminal footprint
- Resistance without suppression resistor: 78Ω ±15%
- Rated voltage: 12VDC
- Max. resistive load: 35A (NO)/ 20A (NC)
- Max. inrush current (inductive load): 100A (NO)/40A (NC)
- Electrical service life: 100,000 cycles min.

PANASONIC Automotive Relays

Panasonic

RoHS Compliant **This product is RoHS compliant.**

Panasonic automotive relays offer a sealed construction, ideal for harsh environments where resistance to moisture and contamination is essential. In addition to standard automotive applications, they are used extensively in construction and agricultural vehicles, as well as recreational vehicles and commercial landscaping equipment. Panasonic offers a full range of automotive relays.

CB1 SERIES

RoHS Compliant

- High thermal resistance of 125°C 257°F (heat resistant type)
- Dimensions: L=26(1.024), W=22(.866), H=25(.984)
- Surge absorbing built-in diode type that works when the relay coil is off
- Terminals are all solder plate

For quantities greater than listed, call for quote.

PANASONIC Signal Relays

Panasonic

RoHS Compliant **This product is RoHS compliant.**

Panasonic automotive relays offer a sealed construction, ideal for harsh environments where resistance to moisture and contamination is essential. In addition to standard automotive applications, they are used extensively in construction and agricultural vehicles, as well as recreational vehicles and commercial landscaping equipment. Panasonic offers a full range of automotive relays.

TN SERIES

- 2 Form C Slim type: 14.0(L) × 9.0(W) × 5.0(H)
- Dimensions: L=14(.551), W=5.6(.220), H=9.5(.374)
- Surge breakdown voltage: 1500V FCC Part 68
- Low thermal electromotive force
- Outstanding vibration and shock resistance

RoHS Compliant

For quantities greater than listed, call for quote.

TQ SERIES

- Flat compact size: L=14.0(.551) × W=9.0(.354) × H=5.0(.197)
- High density mounting possible
- DIL terminal array enables use of IC sockets
- Low thermal electromotive force
- A range of surface-mount types is also available:
  SA: Low-profile surface-mount terminal type
  SL: High connection reliability surface mount terminal type
  SS: Space saving surface mount

RoHS Compliant

Panasonic automotive relays offer a sealed construction, ideal for harsh environments where resistance to moisture and contamination is essential. In addition to standard automotive applications, they are used extensively in construction and agricultural vehicles, as well as recreational vehicles and commercial landscaping equipment. Panasonic offers a full range of automotive relays.

TX SERIES

- 2,000V breakdown voltage between contact and coil
- Outstanding surge resistance
- Outstanding vibration and shock resistance
- Nominal operating power: High sensitivity of 140mW
- The use of gold-clad twin crossbar contacts ensures high contact reliability
- Sealed construction allows automatic washing

- A range of surface-mount types is also available:
  SA: Low-profile surface-mount terminal type
  SL: High connection reliability surface mount terminal type
  SS: Space saving surface mount terminal type

✻ Coil latching

RoHS Compliant

For quantities greater than listed, call for quote.

COTO Reed Relays

MICROMINIATURE REED RELAY

DIMENSIONS: in. (mm)

Specifications:
- Storage Temp: -35°C to +100°C
- Operating Temp: -20°C to +85°C
- Solder Temp: 270°C max; 10 sec. max
- Vibration: 20G's to 2000Hz; Shock: 50G's

Features:
- High Insulation Resistance
- High Speed Switching
- Very Small (0.17")
- High Reliability

For quantities greater than listed, call for quote.

LOW THERMAL EMF REED RELAY

Specifications:
- Storage Temp: -35°C to +100°C
- Operating Temp: -20°C to +85°C
- Solder Temp: 270°C max; 10 sec. max
- Vibration: 20G's to 2000Hz; Shock: 50G's

Features:
- High Insulation Resistance: 10Ω
- Control/ Signal Isolation of 1500VDC
- Low Power Coils To Ensure Low Thermal EMF
- Patented Low Thermal Design

RoHS Compliant

For quantities greater than listed, call for quote.

HIGH VOLTAGE REED RELAY

Specifications:
- Storage Temp: -35°C to +100°C
- Operating Temp: -20°C to +85°C
- Solder Temp: 270°C max; 10 sec. max
- Vibration: 20G's to 2000Hz; Shock: 50G's

Features:
- High Dielectric Strength
- High Contact Rating: 200 Watts
- Low Contact Resistance: 0.03Ω typical
- Magnetic Shield Standard

RoHS Compliant

For quantities greater than listed, call for quote.

SPARTAN DIP RELAY

Specifications:
- Storage Temp: -35°C to +100°C
- Operating Temp: -20°C to +85°C
- Vibration: 20G's to 2000Hz; Shock: 50G's

Features:
- Available Coils in 5V, 12V, 24V
- Molded Thermoset Body On Integral Lead Frame Design
- Drop-In Low Cost Replacement For Standard DIP Packages

For quantities greater than listed, call for quote.

SIP REED RELAY

Specifications:
- Storage Temp: -35°C to +100°C
- Operating Temp: -20°C to +85°C
- Vibration: 20G's to 2000Hz; Shock: 50G's

Features:
- Magnetic Shielding Reduces Interaction
- High Speed Switching
- UL File # E67117
- 9012 is the smallest 10W SIP Relay
- 9011 is the smallest 3W SIP Relay
- 9091 is a 10W SIP Relay

RoHS Compliant

For quantities greater than listed, call for quote.

COTO Reed Relays

SPARTAN SIP RELAY

Features:
- High Insulation Resistance: $10^{10}\Omega$
- High Speed Switching
- UL File # E67117, CSA File # LR 28537
- Coaxial Shield for 50Ω Impedance and Switching

Specifications:
- Storage Temp: -35°C to +100°C
- Operating Temp: -20°C to +85°C
- Solder Temp: 270°C max; 10 sec max
- Vibration: 20G's to 2000Hz; Shock: 50Gs

RoHS Compliant

For quantities greater than listed, call for quote.

SURFACE MOUNT REED RELAY

Features:
- 50Ω Coaxial Shield for RF and Fast Rise Time Pulse Switching
- External Magnetic Shield

Specifications:
- Storage Temp: -35°C to +100°C
- Operating Temp: -20°C to +85°C
- Vibration: 20G's to 2000Hz; Shock: 50Gs

For quantities greater than listed, call for quote.

MAGNETICALLY SHIELDED SURFACE MOUNT REED RELAY

Features:
- High Insulation Resistance: $10^{12}\Omega$
- High Speed Switching
- Small Surface Mount Package (0.225" x 0.550")
- 50Ω Coaxial Shield for RF and Fast Rise Time Pulse Switching

Specifications:
- Storage Temp: -35°C to +100°C
- Operating Temp: -20°C to +85°C
- Vibration: 20G's to 2000Hz; Shock: 50Gs

For quantities greater than listed, call for quote.

9092 SERIES: MINIATURE SIP RELAYS

Features:
- 10W SIP relay measuring .600" x .150" x .350"
- High speed switching
- Molded thermoset body on integral lead frame design
- High insulation resistance
- Magnetic Shield Option
- Diode Option

Specifications:
- Storage Temperature: -35°C to +100°C
- Operate Temperature: -20°C to +85°C
- Solder Temperature: 270°C max 10 sec. max
- Vibration: 20G's to 2000Hz Shock: 50G's
- Switching Current (A): 0.5
- Carry Current (A): 1.2

RoHS Compliant

For quantities greater than listed, call for quote.

9104 SERIES: HIGH VOLTAGE SIP REED RELAYS

Features:
- High voltage switching up to 1000V
- High speed switching
- Molded thermoset body on integral lead frame design
- High insulation resistance
- High dielectric strength 2000VDC
- Diode Option

Specifications:
- Storage Temp: -35°C to +100°C
- Operate Temp: -20°C to +85°C
- Solder Temp: 270°C max 10 sec. max
- Vibration: 20G's to 2000Hz Shock: 50G's
- Switching Current (A): .5
- Carry Current (A): 1.3

RoHS Compliant

For quantities greater than listed, call for quote.

9117 SERIES: MINIATURE SIP RELAY

Features:
- 9117 is the smallest 3W SIP relay (.270" x .150" x .385")
- High speed switching
- High insulation resistance
- High reliability, hermetically sealed contacts
- Molded thermoset body on integral lead frame design
- Diode Option

Specifications:
- Storage Temperature: -35°C to +100°C
- Operate Temperature: -20°C to +85°C
- Solder Temperature: 270°C max 10 sec. max
- Vibration: 20G's to 2000Hz Shock: 50G's
- Switching Current (A): .25
- Carry Current (A): .5

RoHS Compliant

For quantities greater than listed, call for quote.

MAGNECRAFT Reed Relays

RoHS Compliant **This product is RoHS compliant.**

Magnecraft 117 SIP 4 PIN REED RELAYS

Specifications:

- Contact resistance: 200mΩ max.
- Pin spacing of 0.2 between pins
- Standard 0.1 grid spacing
- Rated @ 10VA, 0.5 amp switching and can carry up to 1.5 amps
- Dielectric strength: 500Vrms (coil to frame)

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Magnecraft Part No.	Fig.	Nom. Volts	Coil (Ω)	Max. Pick-up VDC	Nom. Power mW	Price Each 1	10	25	50

Magnecraft CLASS 107 AND 171 DRY REED RELAYS

Specifications:

- Contact resistance: 200mΩ max.
- Insulation resistance: 100MΩ @ 500VDC min.
- Dielectric withstanding voltage between contacts: 200Vrms

RoHS Compliant

✻ With clamping diode

MEDER Reed Relays

RoHS Compliant **This product is RoHS compliant.**

Standex MEDER ELECTRONICS — Custom Engineered Solutions for Tomorrow

MEDER CRF SERIES-7GHz HIGH FREQUENCY

Features:
- Available with BGA
- Very low profile
- Minimum path length for RF

Applications:
- High frequency applications
- High speed applications

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Meder Part No.	Fig.	Description	Price Each 1	Price Each 10
876-CRF05-1A	CRF05-1A	A	Reed Relay 1 Form A, 5V Surface Mount High Frequency	8.16	7.56

MEDER CRR SERIES-SURFACE MOUNT

Features:
- Ceramic/Thermoset molded package
- Gold plated leads
- Very low profile

Applications:
- Telecommunications
- Test and measurement systems
- Medical applications

876-CRR05-1A	CRR05-1A	B	Reed Relay 1 Form A, 5V Surface Mount Ultra Small Low Profile	8.39	6.93

MEDER DIP SERIES-MOLDED DIP

Features:
- Low and high profile package
- Standard pin configurations
- Versions with diode available
- IC - pin compatible

Applications:
- Test and Measurements
- Telecommunications
- Security

MEDER HIGH VOLTAGE/HIGH CURRENT REED RELAYS

A full spectrum of sizes, power, and high voltage switching options are just a few features offered, among the seven types of MEDER High Voltage/High Current Reed Relays, Switching voltages as high as 10kVDC and breakdown voltages to 15kVDC. Continuous carry current up to Amps and pulsed currents 30 Amps.

H Series					
876-H24-1A83	H24-1A83	C	Reed Relay, 1 Form A SPST-NO 12V HiV PCB	88.11	79.73
HE Series					
876-HE12-1A83-02	HE12-1A83-02	D	Reed Relay 1 Form A SPST-NO 12 V High Voltage PCB	39.88	38.46
876-HE12-1A83-03	HE12-1A83-03	D	Reed Relay 1 Form A SPST-NO 12 V High Voltage PCB	39.88	38.46
HM Series					
876-HM12-1A69-150	HM12-1A69-150	E	Reed Relay, 1 Form A SPST-NO 12V HiV PCB	70.11	66.41
876-HM24-1A83-02	HM24-1A83-02	E	Reed Relay, 1 Form A SPST-NO 24V HiV PCB	65.30	61.87

MEDER LI SERIES-MINIATURE HIGH VOLTAGE PCB MOUNTING

Features:
- Smallest possible housing
- Spacing saving package
- High resistance available
- Breakdown voltage 4.5kVDC

Applications:
- High voltage test systems
- Cable and in-circuit test equipment
- Battery operated high voltage test equipment

876-LI12-1A85	LI12-1A85	F	Reed Relay 1 Form A, 12V High Voltage PCB Mounting (Small Package)	8.01	7.42

MEDER MS SERIES MICRO SIL REED RELAY

Features:
- Contact Form 1A, 1B and 2A
- Coaxial shield option for 1A
- Internal magnetic shield on all relays
- Diode option available
- High coil resistance option for 1A
- UL available on most models

876-MS05-1A87-75DHR	MS05-1A87-75DHR	G	Reed Relay 1 Form A 5 V Micro SIL w/diode	5.76	5.01
876-MS05-1A87-75LHR	MS05-1A87-75LHR	G	Reed Relay 1 Form A 5 V Micro SIL hi resist	4.30	4.09
876-MS05-2A87-78D	MS05-2A87-78D	G	Reed Relay 2 Form A DPST-NO 5V Micro SIL with Diode	11.43	10.43
876-MS05-2A87-78L	MS05-2A87-78L	G	Reed Relay, 2 Form A, DPST-NO, 5V Micro SIL (Single In-Line)	10.94	10.40
876-MS05-2A87-78L	MS05-2A87-78L	G	Reed Relay, 2 Form A, DPST-NO, 5V Micro SIL (Single In-Line)	10.94	10.40
876-MS12-1A87-75D	MS12-1A87-75D	G	Reed Relay 1 From A 12 V Micro SIL with diode	5.95	5.66

MEDER MRX SERIES-EX-APPROVED REED RELAYS

Features:
- Up to 4 form A switches or 1 form C switch are available according to the different castings

876-MRX05-1C21	MRX05-1C21	H	Ex-Approved Relays, 1 Form C, SPDT, 5V	28.65	26.45
876-MRX05-1A71	MRX05-1A71	H	Ex-Approved Relays , 1 Form A, SPST-NO, 5V	15.17	14.01
876-MRX12-1A71	MRX12-1A71	H	Ex-Approved Relays, 1 Form A, SPST-NO,12V	14.45	13.72
876-MRX12-1C90	MRX12-1C90	H	Ex-Approved Relays, 1 Form C, SPDT, 12V	27.01	24.31

MEDER SIL SERIES-SINGLE IN LINE

Features:
- High resistance coils of up to 2000 Ω at 12V
- Magnetic shield available
- Breakdown voltage coil-contact up to 4.25kVDC

Applications:
- ATE
- Measurement equipment
- Telecommunications

876-SIL05-1A72-71D	SIL05-1A72-71D	I	Reed Relay 1 Form A, 5V SIL (Single In-Line) w/Diode	3.80	3.51
876-SIL05-1A72-71L	SIL05-1A72-71L	I	Reed Relay 1 Form A, 5V SIL (Single In-Line)	3.76	3.36
876-SIL05-1A85-76D2K	SIL05-1A85-76D2K	I	Reed Relay RELAY REED SPST-NO 5V 100W SIL	11.91	10.87
876-SIL05-1A85-76L2K	SIL05-1A85-76L2K	I	Reed Relay RELAY REED SPST-NO 5V 100W SIL	10.75	9.81
876-SIL051A8576L3K	SIL05-1A85-76L3K	I	Reed Relay, 1 Form A, SPST-NO, 5V SIL, High Power, 3kV breakdown	5.66	5.15
876-SIL051A8576L4K	SIL05-1A85-76L4K	I	Reed Relay, 1 Form A, SPST-NO, 5V SIL, High Power, 4kV breakdown	8.92	8.71
876-SIL05-1A85-76D3K	SIL05-1A85-76D3K	I	Reed Relay 1 Form A SPST-NO 5V SIL, HP 3kV with Diode	14.36	11.96
876-SIL05-1A85-76D4K	SIL05-1A85-76D4K	I	Reed Relay 1 Form A SPST-NO, 5V SIL, HP 4kV with Diode	14.36	11.96
876-SIL12-1A72-71L	SIL12-1A72-71L	I	Reed Relay 1 Form A 12 V SIL	4.25	3.51
876-SIL12-1A72-71D	SIL12-1A72-71D	I	Reed Relay, 1 Form A, SPST-NO, 12V SIL (Single In-Line) w/Diode	3.03	2.48
876-SIL24-1A72-71D	SIL24-1A72-71D	I	Reed Relay, 1 Form A, SPST-NO, 24V SIL (Single In-Line) w/Diode	3.12	2.57
876-SIL24-1A72-71L	SIL24-1A72-71L	I	Reed Relay, 1 Form A, SPST-NO, 24V SIL (Single In-Line)	3.50	3.16

MEDER UMS SERIES/MICRO SIL REED RELAYS

Features:
- Ultra miniature size
- Standard in-line package
- Internal diode
- Internal magnetic shield
- PCB through hole mounting
- Hermetically sealed thermoset
- Molded encapsulation
- Dynamically tested contacts

876-UMS05-1A80-75D	UMS05-1A80-75D	J	Reed Relay, 1 Form A SPST-NO 5V SIL with Diode	5.48	4.93

JWD SERIES: DIP DRY REED RELAYS

Specifications:

- Contact Material: Ruthenium
- Mechanical Life: 100 million operations
- Maximum Switched Current: 500mA
- Operating Time (including bounce): 1.5ms max.
- Release Time (including bounce): 0.5ms max
- 14-pin DIP

For quantities greater than listed, call for quote.

Cii Solid State Relays

Invensys Cii Continental

PANEL MOUNT POWER RELAYS

- Superior Surge Survival™
- 4000V Isolation
- Zero Cross Turn-On
- Direct Copper Bonded SCR's
- Current Limited Inputs
- Rated @ 40°C
- Safety Cover Included
- 800V Peak Blocking V (300V)
- 1200V Peak Blocking V (600V)
- High Surge Capability
- Built in Snubber

CE compliant EN60947

SVAA Series, 100VAC Input, Current Limited to 19mA Max.

DIN RAIL MOUNT RELAYS, 48-660VAC OUTPUT

- Rugged Snubber Circuit
- Current Limited Inputs
- 4000V Isolation
- Superior Surge Survival™
- DIN Rail or Panel Mount
- Zero Cross Turn On
- Wide Input Ranges
- Rated @ 40°C
- No Need for Burden Resistor on AC Circuits
- Oversized SCR's (1400 Blocking Volts on 600v units)
- Super Efficient, 1.0W dissipated per Amp switches

CE compliant EN60947

RVAA Series, Single Phase AC Control

For quantities greater than listed, call for quote.

THREE PHASE SOLID STATE RELAYS

- Superior Surge Survival™
- Rugged Snubber Circuit
- Current Limited Inputs
- MOV Option Available
- Din Rail or Panel Mount
- Rated @ 40°C
- No Need for Burden Resistor on AC Circuits
- Oversized SCR's (1400 Blocking Volts on 600v units)
- 4000V Isolation

These units can be wired for 3 phase 2 leg with a rating of 37.5 Amps per leg. 500V units have internal MOV installed

RVA3 Series, Three Phase AC Control

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cii Part No.	Fig.	Output Voltage (VAC)	Output Current (Amps)	Control Voltage (min/max)	Control Current (mA) (min/max)	Must Release	Price Each 1	10	25	50

FULLY INTEGRATED "INTELLIGENT" SOLID STATE RELAY

- DIN Rail or Panel Mount
- 4000V Isolation
- Zero Voltage Turn-On
- Direct Copper Bonded SCR's
- LED Indicator (Function and Alarm)
- Auto Shutdown on Over Temperature
- Touch Safe
- Safety Cover Included
- 1200V Peak Blocking V
- Built in, Replaceable Semiconductor Fuse

CE compliant EN60947

RSDA Series

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cii Part No.	Fig.	Line Voltage Range	Load Current Range	Min. Control Voltage and Current Draw	Price Each 1	10	25	50

RELAY ACCESSORIES

- Ten position jumper strips used to interconnect logic terminals, eliminating the need for small jumper wires. Plated and insulated. Can be cut to length.
- Thermal Transfer Pads are Die-cut to fit the base of our panel mount relays - an excellent replacement for thermal greases.
- DIN Rail mountable Heat Sinks are Drilled and Tapped to Fit Panel Mount Relays.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cii Part No.	Fig.	Description	Price Each 1	10	25	50

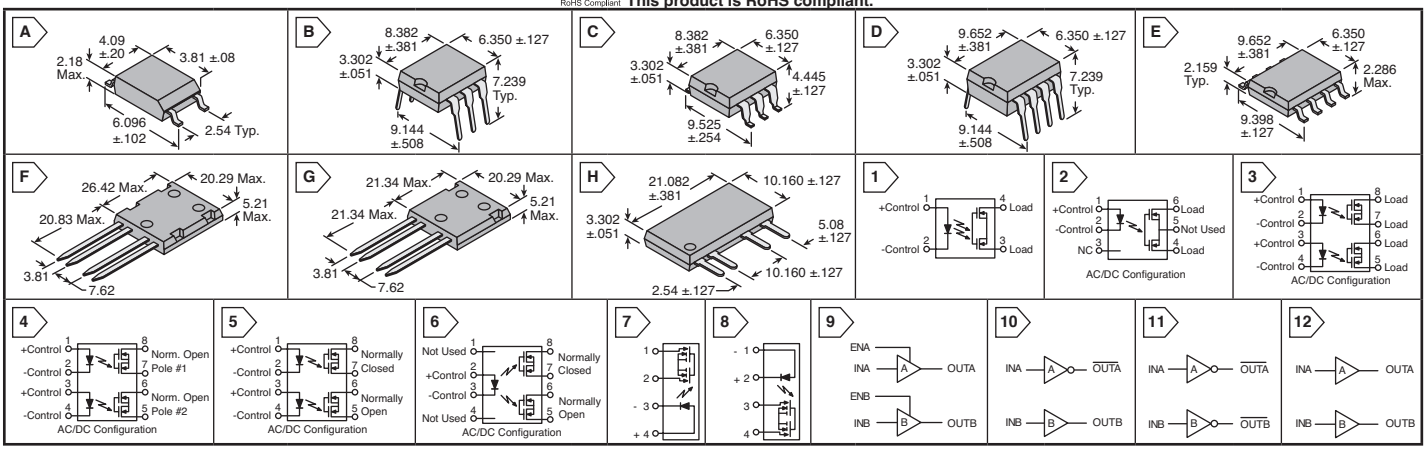
CLARE OptoMOS, Power Solid State Relays and MOSFETS

RoHS Compliant **This product is RoHS compliant.**



CLARE OPTICALLY ISOLATED SOLID STATE RELAYS

DIMENSIONS: mm

Features:
- Low drive current
- High reliability
- Optically isolated I/O
- Operating Temp: -40°C to 85°C
- Machine washable, wave solderable
- AC/DC switching

Applications:
- Telecommunications
- Datacommunications
- Electronic switching
- Industrial controls
- Medical equipment
- Security
- Instrumentation

For quantities greater than listed, call for quote.

CLARE POWER SOLID STATE RELAYS

Features:
- Handles loads up to 10A (rms)
- Voltage Ratings up to 1000V
- Switching speed (on/off): 20/5(ms)
- Isolation Voltage - 2500Vrms
- Input Control Current - 10mA

Applications:
- Consumer Appliances
- Test and Measurement equipment
- Industrial controls
- Medical Equipment
- Robotics/Motor controls

For quantities greater than listed, call for quote.

CRYDOM SERIESONE DR DIN RAIL MOUNTED AC AND DC OUTPUT SOLID STATE RELAYS

Features:

- Ratings of 6 and 12 Amps
- Load voltage ratings of 2-60VDC, 2-100VDC, 24-280VAC and 48-600VAC
- Fits standard 35mm DIN-RAIL
- LED input status indicator
- AC or DC control
- Zero-crossing (resistive loads) or random turn-on (inductive loads) output
- 100K-cycle UL 508 Endurance Rating for Enhanced Reliability

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Crydom Part No.	Fig.	Output Voltage	Control Voltage	Price Each 1	10	50

CRYDOM CTR SERIES

Features and Benefits:

- Ratings 25A per phase @ 600VAC
- DIN-RAIL or Panel Mount 90mm (width) package
- 100K-cycle UL 508 Endurance Rating for Enhanced Reliability
- SCR output for heavy industrial loads
- LED input status indicator
- AC or DC control
- Zero-crossing (resistive loads) or random-fire (inductive loads) output
- 48 to 600VAC line voltage rating
- UL Recognized, CE, RoHS and EMC Compliant

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Crydom Part No.	Fig.	Control Voltage	Price Each 1	10	25
558-CTRD6025	CTRD6025	B	4 - 32VDC	194.87	185.71	181.43

CRYDOM CN SERIES OF SINGLE IN-LINE PLUGGABLE SOLID STATE RELAYS, DIN RAIL MOUNTED SOCKETS AND ASSEMBLIES

CN Series SSRs Features and Benefits:

- 5mm Mini SIP SSRs
- Ratings 24VDC @ 3.5A, 48VDC @ 100mA and 240VAC @ 2Ar
- DC Control 5, 24 and 60V
- IP67-protected fully encapsulated

DRACN Series Assemblies Features and Benefits:

- 6.2mm Base Terminal Block Design
- 5 and 24VDC and 120 and 240VAC Control Input Options
- 24VDC @ 3.5A, 48VDC @ 100mA and 240VAC @ 2A Operating Voltage Rating
- Socket clip fits all standard 35 mm DIN rails

RoHS Compliant

For quantities greater than listed, call for quote.

CRYDOM SERIES CKM (DIN RAIL AND PANEL MOUNT)

Features and Benefits:

- Ratings from 10A to 30A @ 60VDC
- Slim 22.5mm (width) package
- Low Leakage
- LED input status indicator
- DC control

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Crydom Part No.	Fig.	Max Load Current	Price Each 1	10	25

CRYDOM CMX SERIES

Features and Benefits:

- SIP SSR
- Ratings to 20A @ 60VDC, 10A @ 100VDC, 10A @ 60VDC and 3A @ 200VDC
- MOSFET output
- DC control
- Low on-state impedance

RoHS Compliant

For quantities greater than listed, call for quote.

CRYDOM UPD SERIES

Features and Benefits:

- SIP SSR
- 3 Output Channels in one package with common control input
- Ratings per channel of 15A @ 280VAC
- PCB Mount Package or Panel Mount quick connect terminals (F option)
- SCR output for heavy industrial loads
- Zero-crossing (resistive loads) or random-fire (inductive loads) output
- Single Channel Ratings of 15A and 25A @ 280VAC

RoHS Compliant

For quantities greater than listed, call for quote.

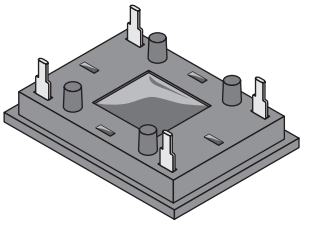
CRYDOM SERIES LR (25-40 AMP, 120/240/480 VAC, AC OUTPUT)



Features/Specifications:
- DC Control, AC Output
- Zero cross switching
- Up to 1200V transient capability
- SCR Output
- Switching voltage mode: AC
- Min. load current: 15mA
- Min. turn off voltage: 1VDC
- Control voltage: 4-32VDC

For quantities greater than listed, call for quote.

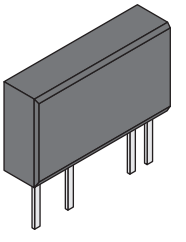
CRYDOM SERIES LC: (1.5 AMP, 120/240 VAC - AC OUTPUT MINI-SIP)



The LC241 series is rated up to 1.5A (SPST-NO) and is designed for general purpose AC loads. In most applications a snubber is not required.

Features/Specifications:
- Compact for high density PCB mount
- Cost effective solution
- DC Control, AC Output

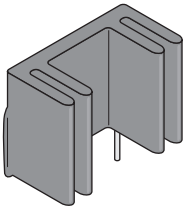
CRYDOM SERIES PF (25A, 280VAC OUTPUT, MINI-SIP)



Crydom's PowerFin™ series delivers the highest ratings of any single in-line package (SIP). The integral heat sink design can operate at 25 amps RMS in forced air at 85°C case temp. With natural convection in free air, it rates 10 amps RMS at 25°C ambient. Built-in advantages include Surface Mount Technology and SCR output.

Features/Specifications:
- SCR Output
- DC Control
- Isolation voltage: 4000Vrms

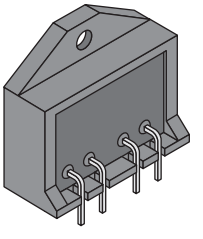
CRYDOM SERIES LS (8-12 AMP, 120/240 VAC, AC OUTPUT SIP)



Crydom's LS family of SPST-NO relays achieves the highest power switching capability in a PC-mounted air-cooled package. Output consists of an SCR AC switch and is available in zero-cross and random turn-on (Suffix R). Advanced features include exceptional steady state current, plus high surge ratings. Metal baseplate design for direct attachment of external heatsink to achieve higher current rating.

Features/Specifications:
- High surge rated SCR output
- No moving parts
- Zero cross turn on

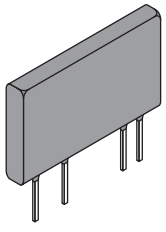
CRYDOM SERIES AO/ASO (1-2A, AC MINI-SIP)

AO models offer Triac output, ASO models are SCR output. The AO241 (R) are rated up to 1.0A, the ASO241(R) up to 1.5A SPST-NO, and the ASO242(R) up to 2.0A. ASO models are designed for switching highly inductive, low current loads such as solenoids. Available in either zero voltage or random switching (R) versions.



Features/Specifications:

- Triac (AO) or SCR (ASO) output
- DC Control, AC Output
- Operating temperature: -30°C to 80°C
- Control voltage: 4-10VDC
- Control current: 15mA @ 5VDC
- Must release voltage: 1VDC
- Isolation voltage: 2500Vrms

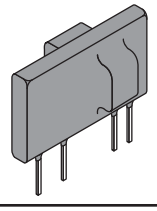
CRYDOM SERIES DO/DMO (1-3A, DC MINI-SIP)

SPST-NO DC output relays in epoxy coated packages utilize the popular .10" grid lead spacing. They are available with either bipolar transistor output (DO), or the DMO063 with MOSFET output rated at 3A/60VDC.



Features/Specifications:

- Bipolar (DO) or MOSFET (DMO) Output
- DC Control, DC Output
- Operating temperature: -30°C to 80°C
- Isolation voltage: 2500Vrms, 4000Vrms (DO)

For quantities greater than listed, call for quote.

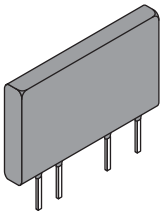
CRYDOM SERIES CX (5A, AC SIP)

Crydom's family of SPST-NO relays achieves the highest power switching capability in a PC-mounted air-cooled package. Advanced features include exceptional steady state current, plus ultra-high surge ratings. Models are available to switch up to 669 Vrms with AC or DC control, and either zero-cross or random turn-on (R) switching versions. Pinout is compatible with OAC type I/O modules.



Features/Specifications:

- SCR Output
- Ultra high surge rating
- Operating temperature: -30°C to 80°C
- Isolation voltage: 4000Vrms

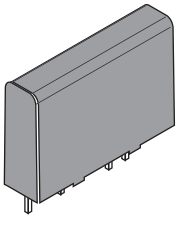
CRYDOM SERIES MP TRIAC AC OUTPUT SIP PC MOUNT SSR'S (3-4A, 120/240VAC)

Available in 3Arms and 4Arms ratings, all are SPST-NO PC-mount relays that provide greater packaging density and compatibility with pinout of Series 6 and OAC output modules.



Features/Specifications:

- Triac AC Output SIP
- 5,15, and 24 Volt logic system compatible
- SPST-NO
- Must release voltage: 1VDC
- Operating temperature: -40°C to 80°C
- Isolation voltage: 4000Vrms
- Control voltage: 3-32VDC
- Control current: 2.6mA @ 5VDC

CRYDOM DUAL RELAYS, SCR OUTPUT

Two totally independent AC output relays come in a single standard panel-mount package. Utilizing an AC switch output with internal snubber, relays provide greater protection against false triggering.

Features/Specifications:
- Industry standard package
- Zero voltage switching
- Operating temperature: -40°C to 80°C
- Isolation voltage: 4000Vrms
- Control current: 15mA @ 5VDC
- Must release voltage: 1VDC
- Random turn-on, phase controllable

For quantities greater than listed, call for quote.

CRYDOM CW SERIES (10-125A, 120/240/480/600VAC)

Features/Specifications:
- SCR AC switch output
- Integrated fingerproof cover
- EMC compliant design
- Operating temperature: -40°C to 80°C
- Isolation voltage: 4000Vrms

For quantities greater than listed, call for quote.

CRYDOM Panel Mount Solid State Relays

CRYDOM H1 SERIES 25-90 AMP, 40-660V, AC OUTPUT

- Control voltage: 4VDC-32VDC
- SCR output for heavy industrial loads
- Optional LED Status Indicator
- Zero-crossing (resistive loads) or random-fire (inductive loads) output
- UL/CSA/VDE Approved, CE Compliant to EN60950-1, IEC 60947(H12)

CRYDOM 1-DC SERIES (7-40AMP, DC 100-400VDC OUTPUT)

Features/Specifications:

- Output - DC, MOSFET
- Input - DC control
- Low on-state resistance
- Paralleling capability
- Operating temperature: -30°C to 80°C
- Isolation voltage: 2500Vrms
- Control current: 1.6mA
- Control voltage: 3.5VDC-32VDC
- Must release voltage: 1VDC

CRYDOM SSC SERIES: SOLID STATE DC CONTACTOR (25 AMP, 0-1000VDC, DC OUTPUT)

Series SSC solid state DC contactors feature IGBT technology for high voltage DC switching applications. All models come in Crydom's standard panel-mount package.

Features/Specifications:

- Control voltage: 12VDC, 24VDC, 36VDC
- IGBT Output
- High voltage
- Switching voltage mode: DC
- Min. load current: 2mA
- Min. turn off voltage: 1VDC
- Load Current Max. (ADC): 25

RoHS Compliant

For quantities greater than listed, call for quote.

CRYDOM D06D SERIES PANEL MOUNT SSR'S (0-60VDC DC OUTPUT)

DC output relays feature MOSFET technology for low on-state resistance, assuring easy paralleling and switching capabilities to 100 amps at 60VDC. Lower current models are also available to 500VDC. All models come in Crydom's standard panel mount package.

Features/Specifications:

- MOSFET Output
- Low on-state resistance
- High current ratings
- Switching voltage mode: DC
- Min. load current: 5mA
- Min. turn off voltage: 1VDC
- Control voltage: 3.5VDC-32VDC

RoHS Compliant

For quantities greater than listed, call for quote.

CRYDOM PCV SERIES ANALOG INPUT POWER CONTROLLER (15-90 AMP, 120/240, 480VAC, AC OUTPUT)

The PCV Series proportional controllers are self contained power control modules integrating a complete phase fired logic control system and a solid state relay in the same standard package. Typical applications include heaters, vibratory feeders and tungsten lamps.

Features/Specifications:

- Internal snubber
- Industry standard package
- Control circuit requires no adjustment or calibration
- Operates at 60Hz and 50Hz
- Isolation voltage: 2500Vrms
- Operating temperature: -30°C to 80°C
- Control current: 4mA @ 5VDC
- Must release voltage: 1VDC

RoHS Compliant

For quantities greater than listed, call for quote.

CRYDOM Panel Mount Solid State Relays

crydom

CRYDOM CSW SERIES LOW LEAKAGE (10-90A, 120/240VAC)

The series CSW has an SCR AC switch output featuring low off-state leakage (1mA, snubberless), zero-voltage switching and broadened operating range (24-280Vrms). This wide range permits optimum performance at both 120Vac and 240Vac line voltages.

LR81689-10 10143UG E116949 RoHS Compliant

- Low leakage
- SCR AC switch output
- Operating temperature: -40°C to 80°C
- Isolation voltage: 4000Vrms
- Line voltage: 24-280Vrms
- Control voltage: 3-32VDC
- Control current: 13mADC
- Must release voltage: 1.0

For quantities greater than listed, call for quote.

CRYDOM PC SERIES: PHASE CONTROL PANEL MOUNT SSR, (25-90AMP, 120/480VAC - AC OUTPUT)

Proportional Controllers PC Series incorporate a complete phase-fired logic system and SSR to provide phase control function within industrial standard package.

- Output SCR AC switching
- Angle firing load control
- Loads up to 90Amps
- 0-100% Control range

For quantities greater than listed, call for quote.

CRYDOM Solid State I/O Modules

crydom

RoHS Compliant **This product is RoHS compliant.**

CRYDOM DRA SERIES (DIN RAIL MOUNTED AC AND DC OUTPUT SSR ASSEMBLIES)

Features/Benefits:

- 10mm Single Channel DIN Rail Mount SSR Assembly
- 54mm Four Channel DIN Rail Mount SSR Assembly
- 90-140VAC control
- AC Ratings up to 280VAC and 5 Amps
- 3-15 and 15-32VDC control
- Cage style screw terminals for easy connection
- Fits standard 35mm DIN rail
- Includes LED Status indicator

RoHS Compliant

For quantities greater than listed, call for quote.

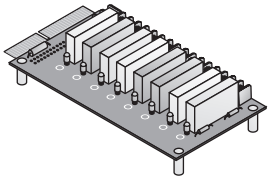
CRYDOM SOLID STATE OPTO-ISOLATED BOARD MOUNT I/O MODULES

Solid State I/O switching modules deliver an electrically clean, photo-isolated noise-free 'output' interface from logic level control systems to external loads such as motors, valves, solenoids, etc. - or an 'input' interface from the load or sensors to microprocessor or computer-based logic level systems. Designed for long, reliable service in demanding industrial environments.



Features:

- Maximum turn-on/turn off time: 20/30 msec
- Zero-Cross switching on AC only output

LR81689 E116949 RoHS Compliant

For quantities greater than listed, call for quote.

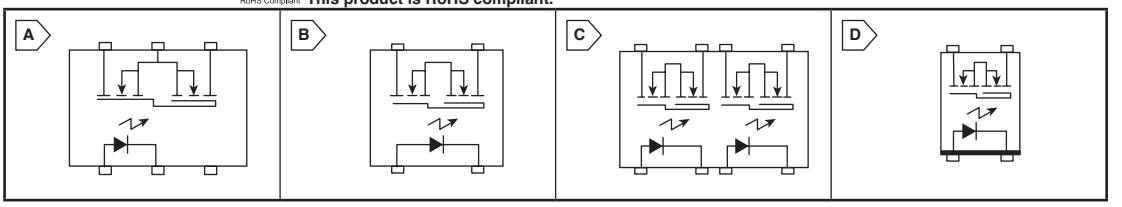
CEL Solid State Relays

RoHS Compliant **This product is RoHS compliant.**

California Eastern Laboratories

Applications:

- Measurement equipment
- Exchange equipment
- Voice telephony
- Audio equipment
- Audio instrumentation
- Telecommunications equipment



Safety Standards:

- UL = UL Recognized (E72422(S))
- UL/CSA/VDE = UL Recognized (E72422(S)),
- CSA Approved (CA101391) and VDE Recognized

All of these devices are available in leaded and lead-free versions. Lead-free versions are denoted by a "-A" at the end of CEL's part number. Please contact your sales representative if you need assistance.

OMRON G3PE SERIES: SINGLE-PHASE SOLID STATE RELAYS FOR HEATERS

Specifications:
- Isolation method: Phototriac coupler
- Operation indicator: Yellow
- Rated input voltage: 12-24VDC
- Rated input current: 7mA max.

Features:
- Slim profile industrial SSR with heatsink ideal for heater applications
- Snubber circuit for short-term surge absorption
- Zero cross function
- DIN track or panel mounting possible
- LED indicator standard on all models

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON G3DZ SERIES: 0.6A MAXIMUM SWITCHING SOLID STATE RELAYS

Specifications:
- Applicable output load: 0.6A @ 5-240VAC
  0.6A @ 5-100VDC
- Output load current: 100μA-0.6A
- Output inrush current: 6A (ms)

Features:
- 2,500VAC dielectric strength ensured between input and output terminals
- Switching full- and half- wave rectified alternating currents
- Maximum AC/DC switching current of 0.6A
- 10μA current leakage max. between open output terminals

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON G3M SERIES: SIP SOLID STATE RELAYS

Specifications:
- Isolation method: Phototriac
- Output load current: 0.1-3A 203P
  0.1-5A 205P
- Output inrush current: 45A (60Hz, 1 cycle)

Features:
- Single in-line package SSR
- Thin design for high-density PCB applications
- DC input/AC output for up to a 5A load
- Two footprints offer greater flexibility

For quantities greater than listed, call for quote.

OMRON G3MC SERIES: SIP COMPACT SOLID STATE RELAYS

Specifications:
- Isolation method: Phototriac
- Insulation resistance: 1000MΩ min. (@ 500VDC)
- Dielectric strength: 2500VAC, 50/60Hz for 1 min. 3000VAC, 50/60Hz for 1 min. for G3MC-VD
- Built-in snubber circuit
- Rated at ambient temperature: 25°C

Features:
- Compact, thin-profile, low-cost SSR with reinforced insulation
- Small bottom surface area for close PCB mounting
- Monoblock construction with an all-in-one frame incorporates a PCB, terminals, and a heatsink.
- DC and AC output for an applicable load of 1A at 40˚C

✻VDE approved models

For quantities greater than listed, call for quote.

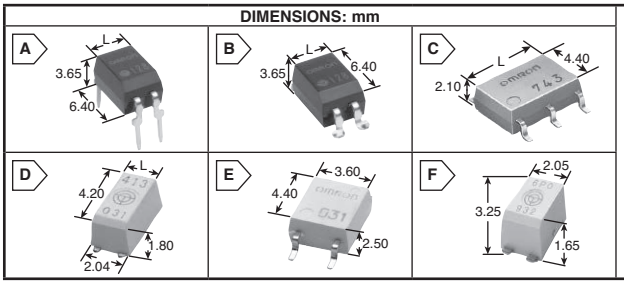
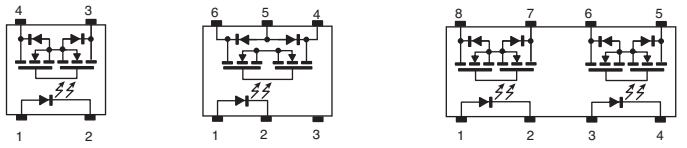
OMRON MOSFET Relays

OMRON





OMRON G3VM SERIES: MOSFET RELAYS WITH LOAD VOLTAGE 20-80V

Perfectly suited for Automated Test Equipment, Medical Equipment, Instrumentation, Security Equipment, Automated Meter Reading, Automotive Diagnostic Equipment, and Communications. Available in 1 and 2-Pole configurations in PCB, SMT, DIP, SOP, and SSOP packaging. Other options include current limiting, high dielectric voltage withstand, normally open and normally closed contact forms, high voltage and current load handling, and high-speed switching.

Features:

- Solid State performance and accuracy
- Smallest SSOP footprint in the industry (SSOP models)
- Low ON resistance (as low as 20mOhms)
- Low OFF state capacitance (as low as .45 pF)
- Low LED trigger current models (1mA)
- High speed switching
- 100,000 hours of continuous operation

✻Fast On/Off .1ms/.15ms (typical) ✻✻ Full reel is 500 † Low LED trigger 1mA (maximum)

OMRON G3VM SERIES: MOSFET RELAYS WITH LOAD VOLTAGE 100-600V

Perfectly suited for Automated Test Equipment, Medical Equipment, Instrumentation, Security Equipment, Automated Meter Reading, Automotive Diagnostic Equipment, and Communications. Available in 1 and 2-Pole configurations in PCB, SMT, DIP, SOP, and SSOP packaging. Other options include current limiting, high dielectric voltage withstand, normally open and normally closed contact forms, high voltage and current load handling, and high-speed switching.

NEW PRODUCT

Features:

- Solid State performance and accuracy
- Smallest SSOP footprint in the industry (SSOP models)
- Low ON resistance (as low as 100mOhms)
- Low LED trigger current models (1mA)
- High speed switching
- 100,000 hours of continuous operation

✻ Low LED trigger 1mA (maximum) ✻✻ Current limiting (range 150-300mA)

For quantities greater than listed, call for quote.

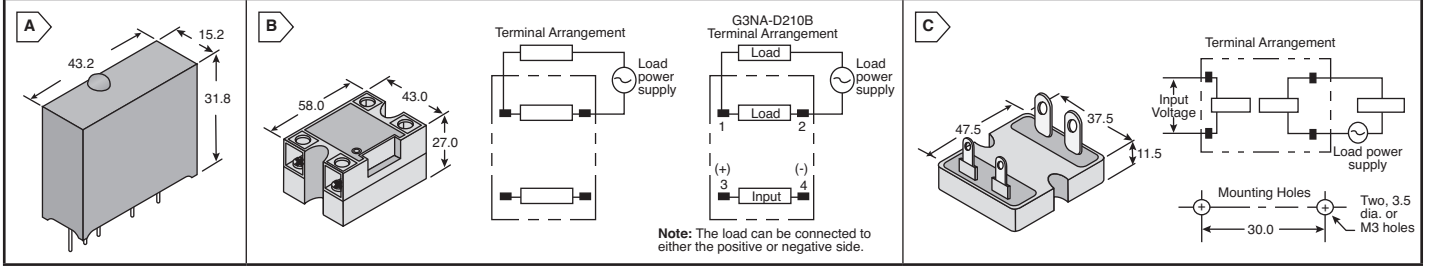
OMRON Solid State Relays

OMRON

DIMENSIONS: mm



OMRON G3TC SERIES: SOLID STATE RELAY FOR I/O MODULE MOUNTING BOARDS

Specifications:
- Insulation resistance: 100MΩ min. (@ 500VDC)
- Dielectric strength: 4000VAC

Features:
- Incorporates a rectifier to accept both AC or DC inputs
- Use I/O SSRs as interface between logic circuitry and load

RoHS Compliant

OMRON G3NA SERIES: SOLID STATE RELAYS

Specifications:
- Insulation resistance: 100MΩ min. (@ 500VDC)
- Screws: 4 - M4x8 (-205B, -210B, -220B, -D210B)
  2 - M5x12 / 2 - M4x8 (-240B, -440B)

Features:
- Built-in MOV to absorb external surges
- Operation indicator (amber LED) for monitoring
- Protective cover for greater safety

✻ TÜV approved model ✻✻ Loss time increases under 75VAC

OMRON G3NE SERIES: COMPACT SOLID STATE RELAYS

Specifications:
- Isolation method: Photo-triac
- Terminals: QC #110 and QC #250 output connections
- Insulation resistance: 100MΩ min. (@ 500VDC)

✻ Heat sinks are thin and can be DIN track mounted.

Features:
- Built-in varistor to absorb external surges
- Dedicated, compact aluminum PCB and power elements used
- Wide load voltage range: 75-264VAC

RoHS Compliant

For quantities greater than listed, call for quote.

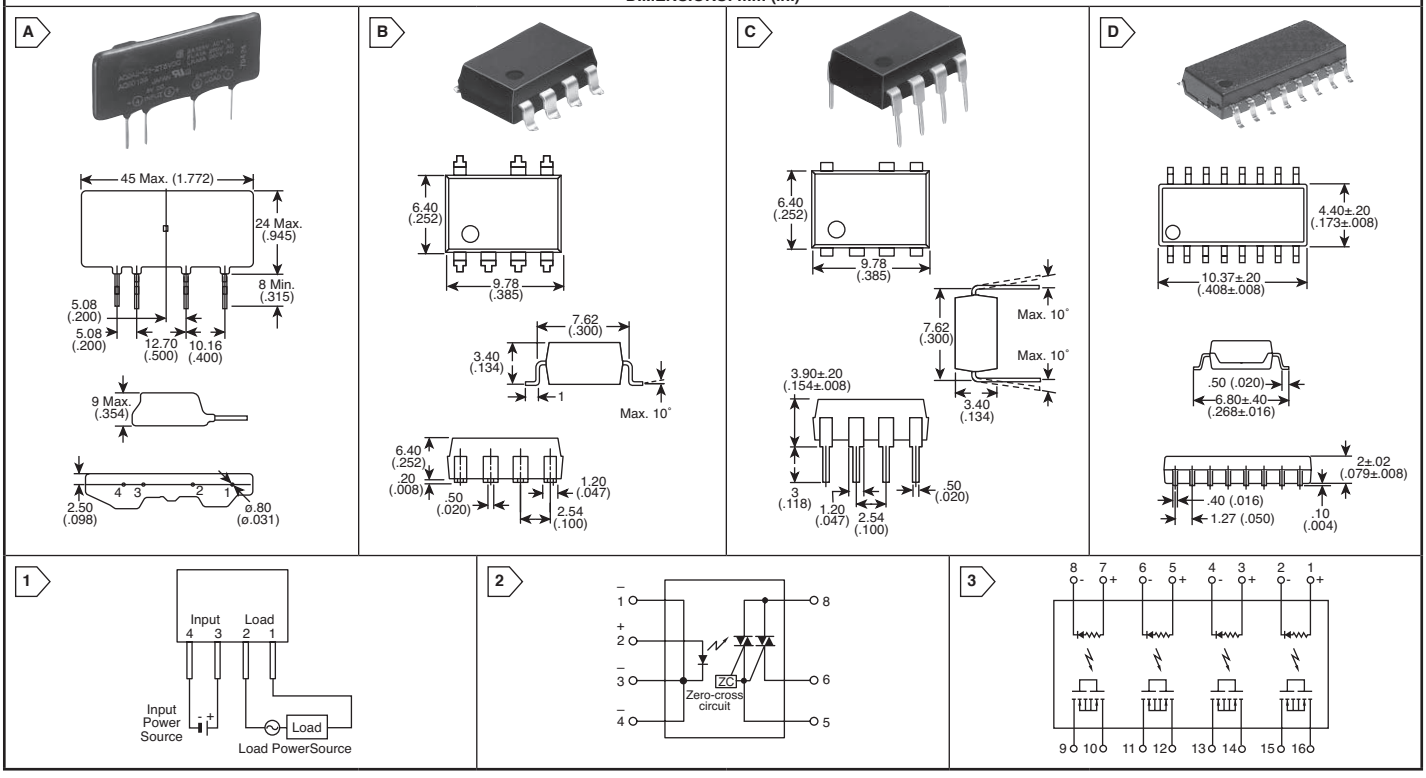
PANASONIC Solid State Relays

Panasonic

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: mm (in.)



Panasonic Solid State Relays can handle load currents from 0.5A up to 40A, and were developed specifically for industrial equipment control. Compact Phototriac Coupler and Triac Output with high on-state RMS current up to 1.2A. Versatile PC board mount AQ1 with AC and DC outputs and optional heat sink Economical AQN handles up to 40A load current

AQ2 SERIES - SOLID STATE RELAYS

Features:

- 10A high-capacity realized for PC board terminal (with heat sink): SSR for compact PC boards with 10A capacity that is two times greater than our previous model. It is suitable for longlife, highly frequent control
- VDE (EN60950-1) reinforced insulation compliant: Fully satisfies demand for safety by guaranteeing compliance with EN60950-1 safety standard and featuring 3,000V reinforced insulation (AQ3A2-ZT4/32VDC, AQ3A2-J-ZT4/32VDC and AQ10A2-ZT4/32VDC)
- Superior anti-vibration and antishock characteristics: The body is molded as a single unit with flame resistant resin which makes it highly resistant against vibration and shock, and gives it superior protection from environment. The body can also be washed
- Reduced noise generation: The load will operate at close to zero voltage even when the input signal is applied during a cycle Also, even if an input signal is cancelled during a cycle, the load is cut off at close to zero current. For this reason, hardly any noise is produced and radio frequency interference (RFI) and electromagnetic interference (EMI) are kept to a minimum
- Built-in Snubber circuit prevents malfunction

Typical Application:

- Printing machines
- Packing machines
- Traffic signal control
- Automatic ticket punchers
- Terminal equipment of data processing
- Computer peripherals
- NC machines

RoHS Compliant

For quantities greater than listed, call for quote.

AQH SERIES - SOLID STATE RELAYS

Features:

- Compact DIP type SSR that's ideal for AC load control for AC load control
- Handles both 100 and 200VAC loads
- High dielectric strength: 5,000VAC (between input and output)
- Supports 0.3A, 0.6A, 0.9A and 1.2A ON-state RMS currents
- The 1.2 A type saves space with a DIP 8-pin package

Typical Application:

- Home appliances
- Industrial equipment market

RoHS Compliant

For quantities greater than listed, call for quote.

PANASONIC PhotoMos Relays

Panasonic

RoHS Compliant **This product is RoHS compliant.**

Panasonic PhotoMOS™ relays offer high reliability with stable performance. Fast switching speed, low capacitance and small package size ensure that PhotoMOS relays meet the requirements of high performance switching applications, such as ATE, Instrumentation and Medical equipment.

AQV22 SERIES

- High frequency characteristics with low capacitance between output terminals
- High sensitivity, high speed response
- Low-level off state leakage current
- Controls low-level analog signals
- Low-level thermal electromotive force (Approx. 1μV)
- Small LED voltage drop on input side (Max. 1.5V)

RoHS Compliant

For quantities greater than listed, call for quote.

PANASONIC PhotoMos Relays

Panasonic

RoHS Compliant **This product is RoHS compliant.**

Panasonic PhotoMOS™ relays offer high reliability with stable performance. Fast switching speed, low capacitance and small package size ensure that PhotoMOS relays meet the requirements of high performance switching applications, such as ATE, Instrumentation and Medical equipment.

AQW21 SERIES

- Controls low-level analog signals
- High sensitivity, high speed response
- Low-level off state leakage current
- Low-level thermal electromotive force (Approx. 1μV)
- Stable ON resistance

RoHS Compliant

For quantities greater than listed, call for quote.

AQY221R2T SERIES

Features:

- VSSOP type with further reduction in mounting area
- Low on resistance (R type) available
- Low on resistance and low ouput capacitance available at CxR10

Application:

- Measuring and testing equipment
- Telecommunication equipment

RoHS Compliant

For quantities greater than listed, call for quote.

AQY41 S SERIES

- Controls low-level analog signals
- Low-level off-state leakage current
- 60V type couples high capacity (0.5A) with low ON resistance (1Ω)

RoHS Compliant

For quantities greater than listed, call for quote.

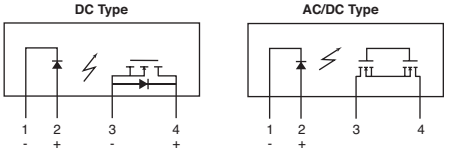
AQZ10 AND 20 SERIES

- High capacity PhotoMOS Relay in a compact and slim 4-pin SIL
- Extremely low ON resistance
- Control low-level signal
- Low-level off state leakage current
- High I/O isolation voltage 2,500V
- PC board layout is simplified
- No restriction on mounting direction



RoHS Compliant

For quantities greater than listed, call for quote.

TELEDYNE RELAYS
A Teledyne Technologies Company

S SERIES SINGLE OUTPUT, AC/DC CONTROL SOLID STATE RELAYS

Features:
- Industry standard package
- Internal Snubber
- Excellent thermal performance
- Tight zero-cross window for low EMI
- UL High Immunity to surges
- UL Recognized

For quantities greater than listed, call for quote.

TELEDYNE Solid State Power Relays

TELEDYNE RELAYS
A Teledyne Technologies Company

S20DC30/S20DC100 DC SOLID STATE RELAYS

Features:
- Output to 100Amps, 200VDC
- Ultra low on state resistance
- Ultra low output leakage current
- Low control current consumption

❊ Available with EZ Mount ™ thermal pad installed (-12 Option)

For quantities greater than listed, call for quote.

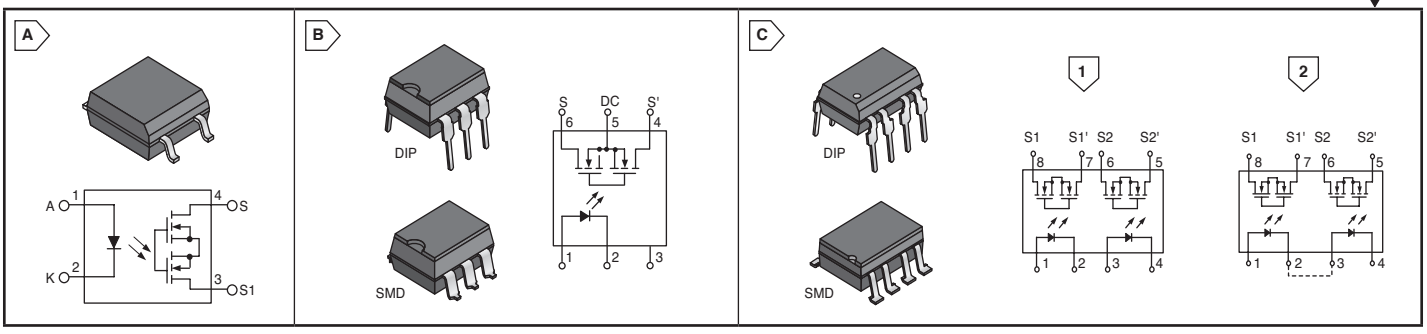
VISHAY Solid State Relays



Vishay's Solid State Relays (SSRs), previously sold under the Infineon, Siemens, and AT&T brand names, deliver fast switching while optically isolating and protecting equipment from damaging external high-voltage spikes. By eliminating the majority of wire bonds found in other SSRs, Vishay's monolithic structure has set the performance standard. With no moving parts, our solid state relays are noiseless, bounce-free and reliable, commonly replacing electromechanical relays. Used in industrial, automotive, and communication applications, all of our solid state relays feature low power consumption, small packaging, and low turn-on current. Exceeding industry standards, they are approved by VDE, UL, CSA and other safety regulatory agencies.

Applications:
- General Telecom Switching
  - On/off-hook
  - Ring Relay/Dial Pulse
  - Ground Start/Fault Protection
- Instrumentation
  - Automatic Tuning/Balancing
  - Flying Capacitor
  - Analog MultiplexOn/off-hook
- Industrial Controls
  - Triac Predrivers
  - Output Modules

Safety Standards:
UL/BSI = UL Recognized (E52744) and BSI (7980)
UL/VDE = UL Recognized (E300068) and VDE (VDE0884)
UL/CSA = UL Recognized (E52744) and CSA Approved (093751)
UL/BSI/CSA = UL Recognized (E52744), BSI (7980) and CSA Approved (093751)

MAGNECRAFT General Purpose Relays

RoHS Compliant **This product is RoHS compliant.**

Schneider Electric

Magnecraft CLASS 782 GENERAL PURPOSE RELAYS

Specifications:

- Contact material: 3 amps bifurcated - silver gold plated
- 3 amps - silver gold flashed
- 5, 10 and 15 Amps - silver cadmium oxide, gold flashed
- Coil power: 0.9 - 1.1 watts DC., 1.0 - 1.2VA (60Hz) AC. @ 25°C
- Class B insulation
- Dielectric strength: 1500Vrms

UL Recognized
File No. E43641

Solder/Plug-in Mount

MAGNECRAFT General Purpose Relays

RoHS Compliant **This product is RoHS compliant.**

Schneider Electric

CLASS 782H HERMETICALLY SEALED RELAYS

Specifications:
- UL Class 1 Div. 2 for use in hazardous locations.
- UL Listed when used with DIN mount socket 528-461 and hold down clip 528-1328 listed below
- Coil power: 0.9 watts DC. 1.2VA (60Hz) AC @ 25°C
- Class B insulation
- Dielectric strength: 1240Vrms

Features:
- Vacuum baked and dry nitrogen filled
- Removes contaminants and provides a clean and dry atmosphere for contacts
- Hermetically sealed metal enclosure

Applications:
- Ideal for use in hazardous locations

RoHS Compliant

UL Recognized File No. E43641

For quantities greater than listed, call for quote.

CLASS TDRSOX/SRX COMPACT TIME DELAY RELAYS

E43641

Specifications:

- Contact material: Silver alloy
- Contact rating: 12A
- Temp Range: -20°C to + 55°C
- Wide Time Range: 0.1 seconds to 10 hour, 8 scales, fine adjustment with knob
- Indicator LED's: Green-power applied, Red-output energized
- Compact Size: 36mm wide to optimize DIN Rail space

For quantities greater than listed, call for quote.

TDR782 MINIATURE TIME DELAY RELAYS

Features:

- A Single-function, single-voltage time delay relay with multiple time ranges
- Available as a DPDT and 4PDT to meet your individual needs
- Switching capabilities of either 3 or 5 amps
- Two LED status indicators which indicate status at a glance

Specifications:

- Timing Range: 0.1s to 100hrs
- Tolerance: Mechanical Setting 5%
- Reset Time: Maximum 50mS

RoHS Compliant

For quantities greater than listed, call for quote.

TYPE 821 TIME DELAY AND TYPE 831 VOLTAGE SENSING RELAYS

Features for Type 821:

- SPDT or DPDT
- 10 Timing Functions
- 2 Status LEDs
- Output Terminals DPDT (822 Version)
- 0.1 second to 10 days
- Clips directly to Din Rail

Features for Type 831:

- 10 Time ranges available
- Two Status LEDs
- Sense over voltage, under voltage or both
- Clips directly to 35mm Din Rail

RoHS Compliant

For quantities greater than listed, call for quote.

MAGNECRAFT Power Relays

Schneider Electric

CLASS 92 GENERAL PURPOSE POWER RELAY

Specifications:
- Rated at 30A Switching; NC Contacts rated at 3A
- Contact resistance: 100,000,000 @ initial rated current (switched)
- Contact material: silver alloy
- Class F insulation
- Dielectric strength: 1500Vrms
- Mechanical Life: 5,000,000
- Flange Mounting
- 1/4" Quick-Connect Terminals for simple connection

c UL us E43641 RoHS Compliant

For quantities greater than listed, call for quote.

Metal Enclosure			Description							
528-50-1289-1	50-1289-1	F	Designed for use with the 199 style relays. The box uses four, 1/2" knock outs for standard electrical connector. Cover hold down hardware is included.				11.41	10.18	9.66	9.20

CLASS 782 GENERAL PURPOSE POWER RELAYS (FULL-FEATURED)

Specifications:
- Coil power: 0.9 watts DC, 1.2VA (60Hz) AC @ 25°C
- Contact material: 3 amps bifurcated - silver gold plated
  3 amps - silver gold flashed
  10 and 15 amps - silver cadmium oxide, gold flashed
- Class B insulation
- Dielectric strength: 1500Vrms

Features:
- Lockdown door holds pushbutton and contacts in the operate position
- Flag indicator shows relay status of either manual or powered
- LED status lamp shows coil "on" or "off" status
- Polycarbonate dust cover

Applications:
- Ideal in low light conditions
- Ideal to test control circuits

RoHS Compliant

OMRON

OMRON LY SERIES: GENERAL PURPOSE RELAYS

Specifications:
- Operate/Release time: 25/25ms
- Mechanical Life: AC 50 million operations min. (at 18,000/hr.)
  DC 1 billion operations min. (at 18,000/hr.)
- Dielectric strength: 2000VAC, 50/60Hz for 1 minute
- Insulation resistance: 100MΩ min. (@ 500VDC)

Features:
- Arc barrier equipped
- Long dependable service life assured by Ag-Alloy contacts

For quantities greater than listed, call for quote.

OMRON MK SERIES: OCTAL BASE GENERAL PURPOSE RELAYS

Specifications:
- Operate/Release time: 20/20ms (AC); 30/20ms (DC))
- Terminals: Plug-in
- Contact resistance: 50mΩ max.
- Insulation resistance: 1000MΩ min. @ 500VDC

Features:
- Exceptionally reliable general purpose relay
- Mechanical indicator and push-to-test button
- Silver contacts
- Long life (minimum 100,000 electrical operations)
- Built-in operation indicator (mechanical, LED), diode surge supression, varistor surge suppression

For quantities greater than listed, call for quote.

OMRON MKS-X SERIES: GENERAL PURPOSE LOAD SWITCHING POWER RELAYS

Specifications:
- Operate/Release time: 20ms max.
- Contact resistance: 100mΩ max.
- Insulation resistance: 100MΩ min.
- Contact material: AgSnIn

Features:
- Models for DC loads can switch 220VDC, 10A (resistive)
- Models for AC loads can switch 250VAC, 15A (resistive)

RoHS Compliant

For quantities greater than listed, call for quote.

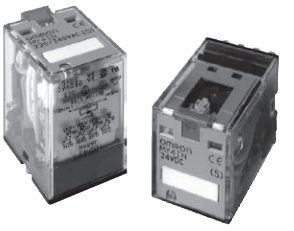
OMRON General Purpose Relays

OMRON MY SERIES: GENERAL PURPOSE, MINIATURE POWER RELAYS



Specifications:
- Operating frequency:
  Mechanical: 18,000 operations/hr.
  Electrical: 1,800 operations/hr. (under rated load)
- Insulation resistance: 1000MΩ min. (@ 500VDC)
- Operate/release time: 20ms. max.
- Power Consumption:
  AC < 50V: 1.0 - 1.2VA (60Hz)
  AC > 50V: 0.9 - 1.1VA (60Hz)
  DC: 0.9W
- Terminals: Plug-in socket/solder

Features:
- Versatile, multi-featured, miniature power relay for sequence control and power switching applications
- Maximum switching current: 10A 2-Pole, 5A 4-Pole
- Provided with nameplate

For quantities greater than listed, call for quote.

OMRON General Purpose Relays

OMRON MJN SERIES: SQUARE-BASE GENERAL PURPOSE RELAYS

Specifications:
- Contact resistance: 50mΩ max.
- Plug-in terminals
- Power consumption: AC DPDT - 1.7VA, 3PDT-2.0VA; DC-1.2W

Features:
- Rugged power driver offers superior 3/16" through-air and 3/8" over-surface spacing
- Interlocked frame and contact block prevent contact misalignment during plug-in
- Available with dust covers, indicator lamps and push-to-operate buttons

✻Socket not required for 20A models; they are flange mounted and do not require terminals

For quantities greater than listed, call for quote.

OMRON G7L SERIES: HIGH-CAPACITY GENERAL PURPOSE RELAYS

Specifications:
- Contact rating: Single-pole type 30A @ 220VAC
  Double-pole type 25A @ 220VAC
- Power consumption: AC coil 1.70-2.50VAC/DC coil 1.90W
- Contact material: Ag Alloy
- Impulse withstand voltage: 10,000V between coil and contacts
- Conforms to IEC 950
- Class B insulation
- E-Bracket type requires E-Bracket or socket to mount.

Features:
- Ideally suited for high-inrush fluid pump controls: pool/spa, water processing, emergency, chemical industry, etc.
- High-capacity, high-withstand voltage relay with no contact chattering for momentary voltage drops up to 50% of rated voltage.
- Wide-range AC-activated coil that handles 100-120VAC at either 50 or 60Hz
- Miniature hinge for maximum switching capacity, particularly for inductive loads

RoHS Compliant

✻ E-Bracket R99-07G5D sold separately

For quantities greater than listed, call for quote.

OMRON General Purpose Relays

OMRON G2RS SERIES: SLIM, POWER PLUG-IN RELAYS

Specifications:
- Contact rating: SPDT 10A @ 250VAC/30VDC
  DPDT 5A @ 250VAC/30VDC
- Power consumption: AC 0.90VA @ 60Hz
  DC 0.53W
- Terminals: Plug-in

Features:
- Slim and space-saving power plug-in relays
- Built-in mechanical operation indicator
- Provided with nameplate
- AC/LED type is equipped with a coil-disconnection, self-diagnostic function.
- High switching power (1-pole: 10A)

LEAD-FREE

RoHS Compliant

OMRON MGN SERIES: 30A HEAVY-DUTY, OPEN-FRAME POWER RELAYS

Specifications:
- Life expectancy:
  Electrical 100,000 operations (minimum)
  Mechanical 1,000,000 operations
- Dielectric strength: 2,200VRMS, 60Hz between contacts
- Terminals: Screw type

Features:
- Class F coil insulation system for 155°C (311°F)
- Coil molded in DuPont Rynite® for environmental protection
- Rugged construction rivets terminals to base
- Short Circuit Current Rating (SCCR) of 5kA, 600VAC

c UL us LISTED

OMRON G7Z SERIES: POWER RELAYS WITH AUXILIARY CONTACT BLOCKS

Specifications:
- Maximum operating frequency:
  Rated Load 1,200 operations/hour
  Mechanical 1,800 operations/hour
- Dielectric strength: 4,000VAC, 50/60Hz
- Terminal type: Screw

Applications:
- High-current or high-inrush power supplies
- Commercial
- Industrial

Features:
- 40A can be carried and switched on each of 4 poles
- Possible to reach a maximum load capacity of 160A when using 4-pole parallel connections
- EN 60947-4-1 certification for mirror contact mechanisms has been obtained by using a combination of the relay and auxiliary contact blocks

RoHS Compliant

OMRON G9EA-1 SERIES: 60A AND 100A DC POWER RELAYS

Specifications:
- Contact form: SPST-NO
- Power consumption: Approx. 5W
- Rated load: 60A @ 400VDC
  100A @ 120VDC
- Terminal type: Screw
- UL/CSA standard UL508 approved

Features:
- Switching and driving sections are gas-injected/hermetically sealed which allow relays to interrupt high-capacity loads
- Sealed construction requires no arc space, saves space, and helps ensure safe applications
- No restrictions on the mounting direction

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON G9EB-1 SERIES: 25A DC POWER RELAYS

Specifications:
- Contact form: SPST-NO
- Power consumption: Approx. 5W
- Terminal type: Screw
- UL/CSA standard UL508 approved

Features:
- Low-cost relay that is both compact 25×60×58mm and lightweight @ approx. 135g
- Unique gas-filled, fully sealed, non-ceramic construction reduces need for special processing and materials

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON G9EC-1 SERIES: 200A DC POWER RELAYS

Specifications:
- Contact form: SPST-NO
- Power consumption: Approx. 11W
- Rated load: 200A @ 400VDC
- Terminal type: Screw
- UL/CSA standard UL508 approved

Features:
- Switching and driving sections are gas-injected/hermetically sealed which allow relays to interrupt high-capacity loads.
- Sealed construction requires no arc space, saves space, and helps ensure safe applications.
- No restrictions on the mounting direction
- UL/CSA standard UL508 approved

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON Safety, Low Signal and General Purpose Relays

RoHS Compliant This product is RoHS compliant.

OMRON G7SA SERIES: SLIM, PLUG-IN SAFETY RELAYS FOR MACHINE CONTROL

Specifications:
- Rated voltage: 24VDC
- Rated load: 6A @ 250VAC/30VDC
- Flux-tight
- Electrical life: 100,000 operations min.

Features:
- Slim body
- Terminal arrangement simplifies PCB pattern design
- Positive, force-guided contacts

For quantities greater than listed, call for quote.

OMRON G2RV SERIES: 6A INDUSTRIAL, SLIM RELAYS

Specifications:
- Rated load: 6A @ 250VAC/30VDC
- Contact resistance: 100mΩ max.
- Contact form: SPDT
- Contact material: AgSnIn
- Terminal type: Screw

Features:
- Large, plug-in terminals for reliable connection
- LED indicator, clear case, and mechanical flag allows easy and immediate visual operation verification.
- Has a maximum switching voltage of 440VAC
- Low power consumption for system energy savings

For quantities greater than listed, call for quote.

OMRON G7J SERIES: MULTI-POLE POWER RELAYS

Specifications:
- Contact rating: 25A (NO) @ 250 VAC/30VDC, 8A (NC) @ 220 VAC/30VDC
- Maximum switching current: 25A (NO), 8A (NC)
- Power consumption: AC 1.8-2.6VA / DC 2.0W

Features:
- Push-to-test button on all models
- Ideal for 3-phase motor control applications
- Class F insulation
- UL508 and 1950 approved

For quantities greater than listed, call for quote.

OMRON G6J-Y SERIES: 1A DPDT ULTRA-COMPACT LOW SIGNAL RELAYS

Specifications:
- Rated load: 0.3A @ 125VAC 1A @ 30VDC
- Non-latching
- Contact resistance: 100mΩ max.
- Contact material: Ag (Au Clad)

Features:
- Slim design provides a mounting area reduction
- Dielectric strength of 1500VAC and an impulse withstand voltage of 2500V for 2x10μs which conforms to Telcordia specifications (formerly Bellcore)
- Conforms to FCC Part 68 requirments (1500V,10x160μs)

For quantities greater than listed, call for quote.

P&B General Purpose Relays

TE connectivity Authorized Distributor

K10 SERIES: 15 AMP GENERAL PURPOSE MINIATURE RELAYS

Specifications:
- DPDT contact arrangement
- UL Class B insulation system
- Continuous duty cycle
- Contact Materials: AgCdO
- Max. Coil Power: 2 Watts
- Expected Mechanical life: 100,000 operations min.
- Cover: polycarbonate (smoke color)

For quantities greater than listed, call for quote.

P&B Power Relays and Contactors

TE connectivity Authorized Distributor

PRD SERIES: HEAVY DUTY POWER RELAYS

Specifications:
- Initial breakdown voltage: 2000Vrms between all elements and ground
- Expected mechanical life: 100,000 operations
- Screw terminal termination

✻ With magnetic blow-out

For quantities greater than listed, call for quote.

S86R/S87R SERIES: LOW COST INDUSTRIAL RELAYS

Specifications:
- UL Class B coil insulation system
- Coil terminal locations: S86 - Same side as switch terminals; S87 - Perpendicular to switch terminals
- 20 Amp
- Expected mechanical life: 1 million operations
- Applications include spa controls, vending machines, and HVAC

For quantities greater than listed, call for quote.

S89R/S90R SERIES: BISTABLE IMPULSE RELAYS

Specifications:
- Operates on 75ms min. pulse
- Expected mechanical life: 100,000 operations
- Continuous coil rating
- UL Class B coil insulation system
- Applications include garage door controls, motor reversing, and lighting controls

✻ With dust cover and octal plug-in base

For quantities greater than listed, call for quote.

DEFINITE PURPOSE MAGNETIC CONTACTORS

Specifications:
- Contact material: Silver-cadmium oxide
- Expected mechanical life: AC coil - 2 million operations
  DC coil - 10 million operations
- For controlling motors, power supplies, heating elements, and lighting
- Minimum contact load: 3A @ 120VAC
- Class A insulation class
- Coil terminals: 8-32 Screw terminals and .250"QC
- Main contact terminal: screw terminal

✻ With SPDT auxiliary switch

For quantities greater than listed, call for quote.

Sockets for R10 Series				Description					
655-27E125	27E125		Solder socket with grounding strip, rated 10A, for 2 pole relays			1.75	1.53	1.39	1.09
655-27E126	27E126		Solder socket with grounding strip, rated 10A, for 4 pole relays			2.14	1.87	1.69	1.34
655-27E128	27E128		PCB terminals (stag.) socket with grounding strip or 2 pole relays			1.85	1.62	1.46	1.16
655-27E129	27E129		PCB terminals (stag.) socket with grounding strip for 4 pole relays			1.95	1.70	1.54	1.34
655-27E193	27E193		PCB terminals (stag.) socket with grounding terminal for 2 pole relays			1.72	1.50	1.36	1.07
655-27E194	27E194		PCB terminals (stag.) socket with grounding terminal for 4 pole relays			1.95	1.70	1.54	1.34
655-27E629	27E629		PCB terminals (in-line) socket without grounding for 4 pole relays			2.30	2.01	1.82	1.43
655-20C249	20C249		Hold down spring for 2 pole sockets			.31	.268	.235	.203
655-20C250	20C250		Hold down spring for 4 pole sockets			.31	.268	.235	.203
655-20C259	20C259		Hold down strap for PCB terminal sockets			.33	.286	.251	.205
655-24A110	24A110		Aluminum DIN rail track, 36"			14.46	12.65	11.45	9.04
655-24A071	24A071		Steel mounting clip with screw			2.55	2.21	2.01	1.58
655-40G432	40G432		Plastic insulator			2.00	1.74	1.58	1.25

PCLH SERIES: GENERAL PURPOSE MINIATURE RELAY

- Low cost, small size
- Snap-on cover
- Nominal power: AC = 1.4VA/1.2VA; DC = 0.9W
- Contact material: Silver Nickel alloy

For quantities greater than listed, call for quote.

V23047 SERIES: SAFETY RELAYS SR2M

Specifications:
- Forcibly guided contacts
- Current rating: 6A @ 250VAC
- Sealed case construction
- 6kV surge resistance between poles
- 2 Pole
- Ideal for emergency shut off, machine control, elevator & escalator control
- Contact material: Silver nickel alloy

For quantities greater than listed, call for quote.

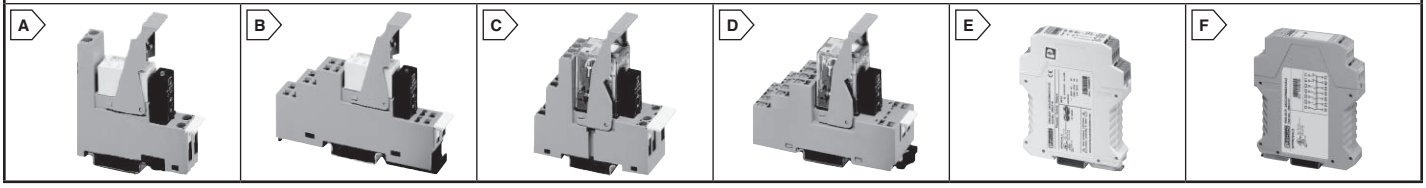
AC Version Shown



PR1 SERIES DIN RAIL RELAYS

Features:
- Fully assembled relays: includes relay, base, protection circuit, locking/ejection lever
- Connection type: Screw or Spring
- Solid State Relays
- Service friendly pluggable components
- LED indication

For quantities greater than listed, call for quote.

PR2 SERIES DIN RAIL RELAYS

Features:
- Fully assembled relays: includes relay, base, protection circuit, locking/ejection lever
- Connection type: Screw or Spring
- Industrial "ice cube" style relay
- Manual test button
- Service friendly pluggable components
- LED indication

For quantities greater than listed, call for quote.

UMK 22 PLUGGABLE DIN RAIL POWER RELAY MODULES

Features:

- Modules comes with a installed pluggable relay
- Standard relay socket installed on module
- Terminal Block has screw clamp contacts
- Modules have a coil indicator LED
- Relays are easily replaced without wiring being removed
- Built in dampening diode circuit for DC

For quantities greater than listed, call for quote.

GENERAL PURPOSE RELAYS

Applications:

- Appliance controls
- Automotive controls
- Spa and Pool controls
- Industrial controls
- Power supply controls
- Lighting controls

For quantities greater than listed, call for quote.

Controllers

VOLTAGE,CURRENT CONTROL RELAYS, ALTERNATING RELAYS AND PHASE MONITORS

Our C-Lynx measurement and control relays are dedicated to monitoring and detecting abnormal electrical (voltage, current, phase, frequency) physical (level, temperature, speed, etc.) operating values.

These products are used in applications such as heating/air conditioning, access control, heat pumps, water and air treatment, waste treatment, lifting and handling, medical equipment, pump management, and more.

CURRENT RELAYS

Features:
- Control of AC and DC currents
- Automatic recognition of AC/DC
- Measurement ranges from 2mA to 10A
- Choice between over and undercurrent
- True RMS measurement
- Selectable latching (memory) function

For quantities greater than listed, call for a quote.

MOUSER STOCK NO.	Crouzet Part No.	Fig.	Supply Voltage	Mounting	Price Each
EI Series Current Control Relay					
874-84871033	84871033	A	120VAC	Din-Rail	**108.03**
HIL & HIH Series Current Control Relay					
874-84871120	84871120	B	24-240VAC	Din-Rail	**151.24**
874-84871130	84871130	C	24-240VAC	Din-Rail	**170.67**

MIC Series Current Control Relay

- Choice of output relay action
- True RMS measurement
- Built-in current transformer

For quantities greater than listed, call for a quote.

MIC Series Current Control Relay					
874-84871122	84871122	D	24-240VAC	Din-Rail	**140.54**
IR.T Series Current Control Relay					
874-DIRT110A	DIRT110A	E	110VAC	Din rail	**109.16**
874-LIRT110A	LIRT110A	E	110VAC	11 pin plug-in	**95.52**

3-Phase Controls

- Control of 3-phase networks: phase sequence, total phase failure
- Controls its own supply voltage
- Multi-voltage from 3x208 to 3x480V AC
- LED status indication

For quantities greater than listed, call for a quote.

MWU Series 3-Phase Control					
874-84873020	84873020	F	208-480V	Din-Rail	**199.00**
MWA SERIES 3-Phase Control					
874-84873023	84873023	G	208-480V	Din-Rail	**126.55**
HWUA Series 3-Phase Control					
874-84873024	84873024	G	220-480V	Din-Rail	**140.35**
874-84873026	84873026	H	220-480V	Din-Rail	**161.77**

HSV Speed Control Relay

- Measurement via discrete sensors - 3-wire PNP or NPN, Namur, voltage 0-30V or volt-free contact type
- Control of overspeed, underspeed, operating rate, stopping
- Works with either NO or NC sensors

For quantities greater than listed, call for a quote.

874-84874320	84874320	I	24-240VAC under-over speed mount	Din-Rail	**153.51**

Voltage Relays

- Control relays monitoring their own power supply
- Over/undervoltage control
- Adjustable time delays
- Selectable latching (memory) function
- Over/undervoltage control
- Control in 50Hz, 60Hz or DC

For quantities greater than listed, call for a quote.

EU Series Voltage Control Relay					
874-84872033	84872033	J	16-600V 120VAC	Din-Rail	**102.35**

CROUZET Controllers, Counters and Timers

MILLENIUM 3 LOGIC CONTROLLERS

The Millenium 3 is the latest generation of micro-PLCs. It is easy to program (Ladder programming or using function blocks/Grafcet SFC), offers communication capabilities (via modem or network, with web supervision option) and has a wide range of accessories (display units, touch panels, sensors, power supplies).

These products are used in applications such as heating/air conditioning, access control, heat pumps, water and air treatment, waste treatment, lifting and handling, medical equipment and pump management.

HOUR COUNTERS 48X48 CHM48

Crouzet, the automation control component manufacturer offers timers for DIN rail mounting (Chronos 2) or panel mounting (TMR48). These timers are mono-function or multifunction. They offer features like delay on energisation, flip-flop, delay/timing on energisation with memory, etc. and offer a wide range of accessories.

These products are used in applications such as heating/air conditioning, access control, heat pumps, water and air treatment, lifting and handling, medical equipment, pump management, and many more.

OMRON Controllers and Counters

RoHS Compliant **This page of product is compliant.**

OMRON ZEN PROGRAMMABLE NANO CONTROLLERS

Nano sized controller has the features and functions of both a programmable controller and smart relay to allow simple yet powerful control. Apply the ZEN to small-scale control applications where simple functionality and low cost are critical. Provides an economical alternative to discrete timers, counters and general purpose relays. Control programs can be created using the 32-bit, Windows-based ZEN support software or using the operation buttons on the front panel. The ZEN is also flexible with five CPU types, multiple expansion options, and a wide selection of accessories.

Specifications:
- CPUs have relay outputs
- ZEN support software runs on Windows 95, 98, 2000, ME, XP, or NT 4.0

Features:
- Accurate analog inputs ±1.5% FS
- Wide supply voltage range of 10.8 to 28.8VDC
- Flexible mounting - either horizontal or vertical
- New CPUs with built-in RS-485 communications for data sharing
- Advanced high-value counting with 8-digit counter and 8-digit comparators, in addition to 16 standard counters
- One 150Hz high-speed counter available on models with DC power supply
- Twin-timer operation allows you to set ON and OFF times separately, greatly simplifying intermittent operation
- Password function ensures security
- Display user-set messages or analog-converted values

OMRON E5CN SERIES: 1/16 DIN SIZE DIGITAL TEMPERATURE CONTROLLERS

Specifications:
- Thermocouple input: K, J, T, E, L, U, N, R, S, B
- Voltage input: 0-50mV
- Relay output: SPST-NO, 250VAC, 3A (resistive load), electrical life: 100,000 operations
- Voltage output: 12VDC ±15% (PNP), max. load current: 21mA, with short-circuit protection circuit

Features:
- Connect to either thermocouple or platinum resistance thermometer with the same model
- Water-resistant construction (NEMA 4X)
- 2 alarms
- 3-year warranty

For quantities greater than listed, call for quote.

OMRON H7AN SERIES: SOLID STATE DIGITAL COUNTERS

DIMENSIONS: mm

Specifications:
- Power supply voltage: 100-240VAC, 50/60Hz
- Control output: SPDT and solid state output
- Max. counting speed: 30Hz or 5kHz

Features:
- DIN 72x72mm
- Easy setting with thumbwheel switches
- A draw-out construction enables maintenance without rewiring.

For quantities greater than listed, call for quote.

OMRON H7BX SERIES: MULTIFUNCTION COUNTERS

Specifications:
- External power supply: 12VDC
- Input modes:
  Increment, decrement, command (UP/DOWN A)
  Individual (UP/DOWN B)
  Quadrature (UP/DOWN C)

Features:
- DIN 72x2mm and highly visible display with backlit transmissive LCD
- Selectable display color (red/green) enables checking output status at a distance.
- Easy operation with a key for each digit
- Performs all basic settings with a DIP switch
- Provides a counter (total/preset, batch, and dual) and a tachometer

For quantities greater than listed, call for quote.

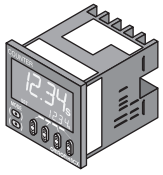
OMRON H7CX-N SERIES: MULTIFUNCTION COUNTER/TACHOMETER

Specifications:
- Body depth
  Screw terminals: 58mm on 12 to 24VDC
  78mm on 100 to 240VAC
  Socket models: 63.7mm
- Operating mode: Up/Down key for 4-digit and Up key for 6-digit
- Max. counting speed: 30Hz or 5kHZ (switchable)
- Digits: 4-digit (-999 to 9999) / 6-digit (-99999 to 999999)
- UL508 Type 4X and IP66

Features:
- Ultra short body
- Isolated power supply and input circuits for safety and reliability (except 12 to 24VDC models)
- Set value limit to prevent unexpected operation of output devices caused by setting mistakes
- Easy to read with 12mm values on 4-digit models (10mm for 6-digit)
- Present value display characters can be switched between red, green, and orange in most models.



For quantities greater than listed, call for quote.

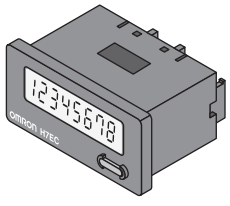
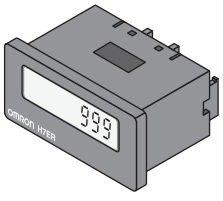
OMRON H7E SERIES: SELF-POWERED TOTALIZERS

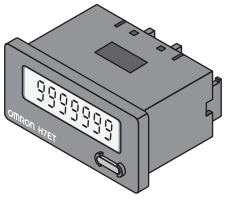
A



B



C



Specifications:
- Input: DC Voltage 4.5 to 30VDC
  AC Voltage 24 to 240VAC/VDC
- Mounting method: Flush mounting
- External connections: Screw terminals
- Reset: External/Manual

Features:
- Large display with 8.6mm (0.338in) height
- Replaceable battery
- NEMA 4/IP66 front
- Key-protect switch to prevent front resetting
- Short body, all models have a depth of 48.5mm

H7EC - Total Counters
- Operating mode: Up type
- Eight-digits, counting range 0 to 99999999

H7ER - Tachometers
- Operating mode: Up type
- Revolutions display up to five digits

H7ET - Time Counters
- Operating mode: Accumulating
- Seven digits, time range 0 to 3999d23.9h

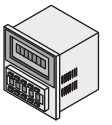
OMRON Solid State Timers

OMRON H3CA SERIES: 1/16 DIN DIGITAL-SET, SOLID STATE TIMERS

Specifications:
- Minimum applicable load:
  H3CA-A 10mA @ 5VDC
  H3CA-8H 100mA @ 5VDC
- Mounting: Surface/track or flush
- Service life:
  Mechanical 10,000,000 operations min.
  Electrical 100,000 operations min.
- Time limit contact: SPDT

Features:
- Dual power supplies for free AC/DC
- Eight operation modes selectable with one unit
- Any desired time can be set digitally within a range from 0.1 seconds to 9,990 hours
- Four external signal inputs
- ON/OFF indicator for control output and bar indicator for remaining time



Operating Modes	
A: ON-delay	E: Interval
B: Repeat cycle	F: One shot flicker
C: Signal ON/OFF-delay	G: Signal ON/OFF-delay
D: Signal OFF-delay	H: Signal OFF-delay

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Omron Part No.	Rated Supply Voltage	Terminal Form	Operating Modes (See table above)	Price Each 1	5	10
653-H3CA-8H-AC100	H3CA-8H-AC100/110/120	100/110/120VAC 50/60Hz	8-pin round	A	134.17	132.54	126.70

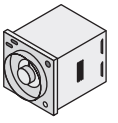
OMRON H3CR SERIES: SOLID STATE TIMERS

Specifications:
- Dimensions: 48x48mm
- Mounting: DIN
- Relay output: DPDT
- Input type:
  H3CR-A No-voltage (NPN type)
  H3CR-AP Voltage (PNP type)
  H3CR-H/F Without reset

Features:
H3CR-A
- Ecological design with reduced current consumption

H3CR-H
- Long power OFF-delay times

H3CR-F8
- Easy sequence check with instantaneous outputs for a zero set value



Operating Modes	
A: ON-delay	D: Signal OFF-delay
B: Flicker OFF start	E: Interval
B2: Flicker ON start	J: One-shot
C: Signal ON/OFF-delay	
K: Power OFF delay	

RoHS Compliant

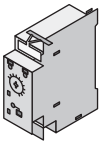
OMRON H3DS SERIES: ANALOG-SET, ULTRA-SLIM TIMERS

Specifications:
- Rated supply voltage: 24 to 230VAC (50/60 Hz) 24 to 48VDC
- Control output: 5A at 250VAC with resistive load ($\cos\phi = 1$); 5A at 30VDC with resistive
- Service life:
  Mechanical 10,000,000 operations min.
  Electrical 100,000 operations min.
- Output type: Relay SPDT
- Terminal type: Screw

Features:
- Analog set multi-function
- Ultra-slim 17.5mm timers for track mounting
- Wide AC/DC power supply range
- Smart Dial/Selector-Locking Mechanism prevents the dials and selectors on the timer's front panel from being operated without authorization (lock can only be unlocked and locked with an optional pen-type lock key)



Operating Modes	
A: ON-delay	D: Signal OFF-delay
B: Repeat cycle	E: Interval
B2: Repeat-cycle ON-start	G: Signal ON/OFF-delay
C: Signal ON/OFF-delay	J: One-shot

RoHS Compliant

OMRON H3DK SERIES: MULTI-RANGE, MULTI-MODE TIMERS

Specifications:
- Supply voltage: 24-240VAC/DC
- Terminal block:
  H3DK-S1 6 terminals
  H3DK-M1(2) 9 terminals
- Mounting: DIN
- Service life:
  Mechanical 10,000,000 operations min.
  Electrical 100,000 operations min.

Features:
- Multiple time ranges and operating modes let you cover a wide range of applications
- The time-limit DPDT output contacts can be changed to time-limit SPDT and instantaneous SPDT output contacts using a switch
- Sequence checks are easily performed by setting an instantaneous output to 0
- Start signal control for the H3DK-M

Operating Modes	
A: ON-delay	D: Signal OFF-delay
B: Flicker OFF-start	E: Interval
B2: Flicker ON-start	G: Signal ON/OFF-delay

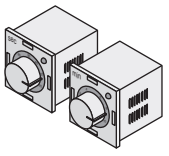
OMRON H3JA SERIES: ECONOMICAL, COMPACT SOLID STATE TIMERS

Specifications:
- Time-limit contact: DPDT
- Operation/Resetting system: Time-limit/self-resetting
- Supply voltage: 100-120VAC
- Power consumption: 3VA (1.3W)

Features:
- Dual LED indication for power and output status
- Large transparent knob
- DIN size 36x36mm fits 8-pin sockets



For quantities greater than listed, call for quote.

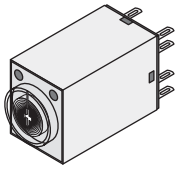
OMRON H3YN SERIES: MINIATURE SOLID STATE TIMERS

Specifications:
- Insulation resistance: 100mΩ min. (@ 500VDC)
- Service life: Mechanical 10,000,000 operations min. Electrical DPDT 500,000 / 4PDT 200,000 operations
- Timing functions: ON-delay, interval, repeat cycle, ON-start/OFF start (DIP switch selectable)

Features:
- Ultra-slim package 21.5mm max.
- Simplifies ordering and inventory by combining multiple functions and time ranges in one unit
- LED power-ON and time-UP indicators



For quantities greater than listed, call for quote.

STEP MOTOR DRIVES

2035

- Full or Half drive
- 70W of usable power
- 2.0Amps
- Drives 4, 6, or 8 lead size 11, 14, 17 and 23 step motors
- Screw terminal connectors
- Dual H-bridge, inaudible PWM amplifier

Full and Half Stepping also available.
Contact a Mouser Service Representative.

For quantities greater than listed, call for quote.

PROGRAMMABLE STEP MOTOR DRIVES

1240i

The 1240i is a programmable step motor driver suited for a wide range of motion control applications.
It includes a sophisticated controller integrated with a 48 watt microstepping amplifier.

- Software and programming cable included
- Built-in Indexer

RoHS Compliant

For quantities greater than listed, call for quote.

SI 3540 PROGRAMMABLE STEP MOTOR DRIVE

The Si3540 is a programmable stepper drive/indexer packaged in a rugged steel case painted black with white epoxy silkscreen. Integral heat sink, mounting brackets, switch covers and connectors are included with each Si3540. The drive/indexer has been matched with twelve recommended NEMA 11, 14, 17 & 23 motors and comes with all operating software necessary to create a complete stepper motion solution.

Specifications:
- 140 watts of usable power
- CE and TUV compliant
- Ideal for 4, 6 or 8 leaded step motors NEMA sizes 11, 14, 17 and 23
- Dual, MOSFET H-bridge, 3 state, pulse width modulated amplifier switching at 20 – 30KHz
- AC input 110V or 220V switch selectable, 50-60 Hz
- DC bus voltage 35VDC full load, 40 VDC nominal
- TUV Compliant

Features:
- Software and programming cable included
- 8 user programmable inputs
- Screw terminal connectors

For quantities greater than listed, call for quote.

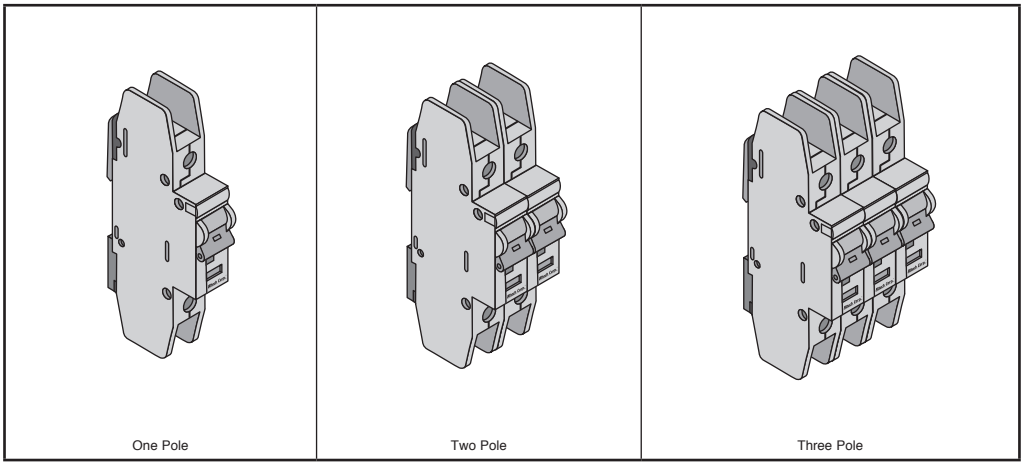
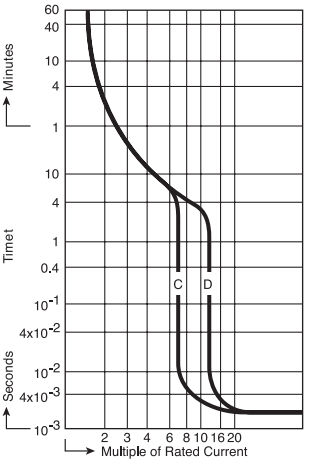
ALTECH UL489 Circuit Breakers

Altech Corp.®





Altech Corp.® L-SERIES CIRCUIT BREAKERS

Specifications:

- UL489 Listed
- DIN Rail Mounted
- 17.5mm width
- Thermal Magnetic
- 0.2-63A/240VAC, 50/60Hz
- 0.2-32A/480Y/277VAC, 50/60Hz
- Short Circuit Interrupt Capacity 10kA
- HACR Type 40°C
- Positive Trip Indicator (Green - off/tripped, Red-on)
- Line/Load reversible
- DC versions available:⁕
- 125V (1 pole) and 250V (2 pole)

RoHS Compliant

C⁕- Characteristic Thermal one-hour trip zone 1.05-1.3 times rated current (RC): magnetic 100ms trip boundary 5 to 10 times RC.

For quantities greater than listed, call for quote.

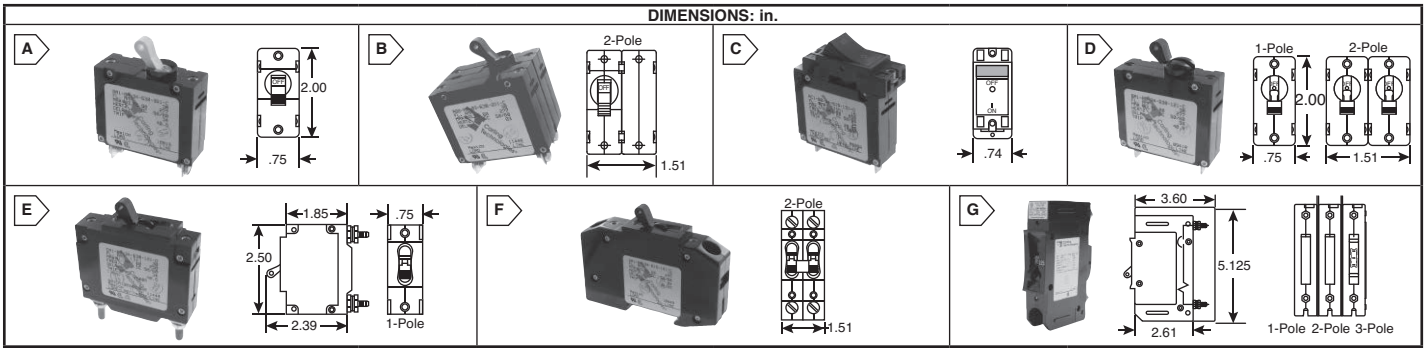
CARLING TECHNOLOGIES Circuit Breakers

Carling Technologies
Innovative Designs, Powerful Solutions.



CARLING A SERIES: CIRCUIT BREAKERS WITH HANDLE ACTUATOR

- Type: Hydraulic/Magnetic
- Circuit: Series Trip (Current)
- Poles: One
- Frequency and Delay: DC, 50/60Hz Medium
- Actuator/Legend color: Black/White
- Terminal: 10-30A rating - Screw 8-32 (bus type); 50A rating - Screw 10-32 (bus type)
- Mounting: Threaded insert 6-32 x 0.195" deep, 2/pole

PRODUCT NEW

For quantities greater than listed, call for quote.

CARLING A SERIES: CIRCUIT BREAKERS WITH VISI-ROCKER® ACTUATOR

- Type: Hydraulic/Magnetic
- Dual-color rocker actuator indicates either ON mode for AC1 items or TRIPPED/OFF mode for AF1 items
- Indicator/Legend Color: Red
- Rocker color: Black
- Circuit: Series Trip (Current)
- Poles: One
- Frequency and Delay: DC, 50/60Hz Medium
- Terminal: Push-On 0.250 Tab (Q.C.)
- Mounting: Thread Insert 6-32 x 0.195" deep
- Approvals: D suffix - UL Rec.; CSA and VDE Certified
- C suffix: UL Recognized; CSA Certified

For quantities greater than listed, call for quote.

CARLING C SERIES: CIRCUIT BREAKERS WITH HANDLE ACTUATOR

Designed for applications requiring higher amperage and voltage handling capabilities.

PRODUCT NEW

- Type: Hydraulic/Magnetic
- Max. interrupting capacity: 10,000 Amps
- Circuit: Series Trip (Current)
- Poles: CA1 - 1 pole; CA2 - 2 poles
- Actuator/Legend color: Black/White
- Frequency and Delay: DC, 50/60Hz Medium
- Actuator: Handle, 1 per pole
- Terminal: 10-32 THD Stud, .625 long
- Voltage: <300
- Approvals: All - UL489 listed; UL Recognized; CSA and VDE Certified

For quantities greater than listed, call for quote.

CARLING D SERIES: DIN RAIL MOUNT CIRCUIT BREAKERS

- Type: Hydraulic/Magnetic
- Circuit: Series Trip (Current)
- Poles: DA1 - 1 pole; DA2 - 2 poles
- Actuator/Legend color: Black/White
- Actuator: Handle, one per pole
- Frequency and Delay: DC, 50/60Hz Medium
- Terminal: Captured #10 Screw and Pressure Plate for Direct Wire or Fork Terminal Connection

For quantities greater than listed, call for quote.

CARLING E-SERIES: CIRCUIT BREAKER WITH POWER SELECTOR

The E-Series hydraulic/magnetic circuit breakers are ideally suited for higher current and voltage applications. They offer front and back mounting, screw terminals, stud terminals and heavy duty box wire connectors for solid wire or a pressure plate connector for standard wire.

With E-Series circuit breakers by Carling Technologies, circuit breakers utilize the hydraulic/magnetic principle, providing key advantages over fuses and thermal breakers. The E-Series offers a compact design and superior handling of up to 125A per pole, and is rated to 600V AC or DC through its innovative design – providing high endurance, resistance to extreme temperatures and superior protection for equipment and wires.

- Type: Hydraulic/Magnetic
- Number of Poles: 1-6
- Available Delays: Instant, Short, Meduim, Long (motor loads), High-Inrush, AC or DC
- Mounting Method: Rear Mounted or Front Panel Mounted

CARLING CLB SERIES: THERMAL CIRCUIT PROTECTORS WITH METAL BUSHING

Specifications:

- Dielectric Strength: 1500 VAC/1 minute
- Interrupting Capacity: 1200A 232VDC
- Resettable Overload Capacity: 10 x rated current
- Insulation Resistance: 100MΩ
- Operating Temperature: -10°C to 60°C

Applications:

- Appliances
- Transportation
- Marine
- Telecommunications
- Power Strips
- A-V Equipment
- Medical Equipment
- Power Supplies

For quantities greater than listed, call for quote.

CARLING CMB SERIES: THERMAL CIRCUIT PROTECTORS WITH PLASTIC BUSHING

Specifications:

- Dielectric Strength: 1500 VAC/1 minute
- Interrupting Capacity: 1000amps
- Resettable Overload Capacity: 10 x rated current
- Insulation Resistance: 100MΩ
- Operating Temperature: -10°C to 60°C

Applications:

- Appliances
- Transportation
- Marine
- Telecommunications
- Power Strips
- A-V Equipment
- Medical Equipment
- Power Supplies

For quantities greater than listed, call for quote.

CARLING M SERIES: MINIATURE CIRCUIT BREAKERS WITH VISI-ROCKER® AND ILLUMINATED ROCKER

- Type: Hydraulic/Magnetic
- Dual-color rocker actuator indicates ON mode.
- Snap-in front panel mounting
- Circuit: Series Trip (Current Coil)
- Frequency and Delay: DC, 50/60Hz Medium
- Terminal: Push-On 0.250 Tab (Q.C.)
- (Visi-Rocker) Indicator/Legend Color: Red
- (Visi-Rocker) color: Black
- (Visi-Rocker) Bezel Color: Black
- (Illuminated Rocker) color: Transparent red
- (Illuminated Rocker) illumination: Red LED (without resistor)
- (Illuminated Rocker) guard color: Gray

W23 SERIES: THERMAL CIRCUIT BREAKERS WITH PUSH/PULL ACTUATOR

Features:
- SPDT contact configuration
- May be used as ON/OFF switch
- Visible trip indicator

Specifications:
- Max. operating voltage: 50VDC or 250VAC
- Resettable overload capacity: ten times rated current
- Dielectric strength: > 1500 volts RMS
- Termination: two #8-32 screw terminals

For quantities greater than listed, call for quote.

W28 SERIES: PUSH TO RESET FUSEHOLDER-TYPE THERMAL CIRCUIT BREAKERS

Features:
- Replaces slow-blow glass cartridge fuse
- Snap-in mounting
- Button extends for visual trip indication

Specifications:
- Dielectric strength: over 1500 volts RMS
- Max. operating voltage: 32VDC; 250VAC
- Black with white rate marking
- Termination: .250" quick connects. Soldering not recommended
- Mounting: snaps into panel from front
- Button color: black

For quantities greater than listed, call for quote.

W51 SERIES: ROCKER ACTUATED THERMAL CIRCUIT BREAKER/POWER SWITCH

Features:
- Provides circuit protection and power switching in single unit.
- Compact, trip-free rocker-actuated design
- Snaps into same cutout as many common power switches

Specifications:
- Max. operating voltage: 50VDC; 125 or 250VAC
- Resettable overload capacity: Ten times rated current
- Dielectric strength: 1500VAC (60 seconds)
- Reset time: 60 seconds
- Angular button design
- Termination: .250" quick connects.
- Mounting: snaps into panel from front

For quantities greater than listed, call for quote.

W6/W9 SERIES: MAGNETIC HYDRAULIC CIRCUIT BREAKERS

Features:
- Designed for international market
- Trip-free operation
- W6-White toggle actuator (one per pole)
- W9-Black toggle actuator (one per pole)
- W6-.250" QC
- W9-Heavy duty #10-32

Specifications:
- All have standard time delay curve (W67-X2Q10-5 has instantaneous time delay curve)
- Circuit function: series trip
- Dielectric strength: 1500VAC; 1100VDC
- Insulation resistance: 100MΩ @ 500VDC

For quantities greater than listed, call for quote.

THERMO MAGNETIC CIRCUIT BREAKERS

UT 6-TMC M Thermo Magnetic Circuit Breaker - Pushbutton Type

Features:
- Resettable
- Button Switch
- Space saving, compact deisgn
- Large labeling area

Specifications:
- Housing Width: 12.5mm
- Single-pole

For quantities greater than listed, call for quote.

THERMAL MINIATURE CIRCUIT BREAKERS, TCP

TCP Pushbutton Circuit Breakers

Features:
- Can be switched back on after tripping
- Can be used for switching purposes
- Plugs into DIN Rail terminal blocks (listed below)
- Values can be swapped quickly for testing
- No searching for replacement fuses
- Pluggable Circuit Breakers

Specifications:
- Rated Surge Voltage: 2.5kV
- Max Amperage: 0.25-4A Types is 6x Rated Current
  6-10A Types is 8x Rated Current
- Contamination Class: 2
- Color: Black

For quantities greater than listed, call for quote.

TCP Terminal Blocks

Features:
- Mounts to standard 35mm DIN Rails
- Use with TCP push button circuit breakers
- Can be used with Automotive Type Fuses
- Bridgeable

Specifications:
- Color: Black
- Max Current: 30A
- Max Voltage: 300V

For quantities greater than listed, call for quote.

SCHURTER TA35 SERIES: THERMAL CIRCUIT BREAKER WITH ROCKER ACTUATOR

- TA35 is positively trip-free
- Ratings: 240VAC (3-pole: 415Y/240)
- Snap-in mount from front
- Quick-connect terminals
- Illuminated types available with red, green, yellow and blue transparent rockers

RoHS Compliant

For quantities greater than listed, call for quote.

SCHURTER TA45 SERIES: THERMAL CIRCUIT BREAKERS WITH ROCKER ACTUATOR

- TA45 is positively trip-free
- Ratings: 240VAC/60VDC
- Black switch has white printed I/O legend
- Orange switch is transparent illuminated with white printed I/O legend
- Other rocker switch colors and legends available. Call for more information.
- Snap-in mount
- IP40 degree of protection on front side
- Terminals: .250" quick connect
- DPST switch (On-Off); 3-pole also available, Call for more information
- I-Pole units use 120 Volt illumination; Z-Pole units use 240 Volt

For quantities greater than listed, call for quote.

PUI AUDIO Audio Transducers and Elements

RoHS Compliant **This product is RoHS compliant.**

ELECTROMECHANICAL AUDIO TRANSDUCERS

Features:

- Lower resonant frequency
- Smaller in size
- Available in multiple mounting types
- Multiple tones at multiple frequencies

Applications:

- Appliances and white goods
- Medical Equipment
- Test Equipment
- POS and Barcode Scanners
- Hand held devices

For quantities greater than listed, call for quote.

PIEZO CERAMIC BENDERS (ELEMENTS)

Features:

- Low cost option
- Low power consumption
- High reliability
- Available in brass, stainless steel and nickel alloy
- Can also be used as a switch

Applications:

- Appliances and white goods
- Medical Equipment
- Test Equipment
- POS and Barcode Scanners

For quantities greater than listed, call for quote.

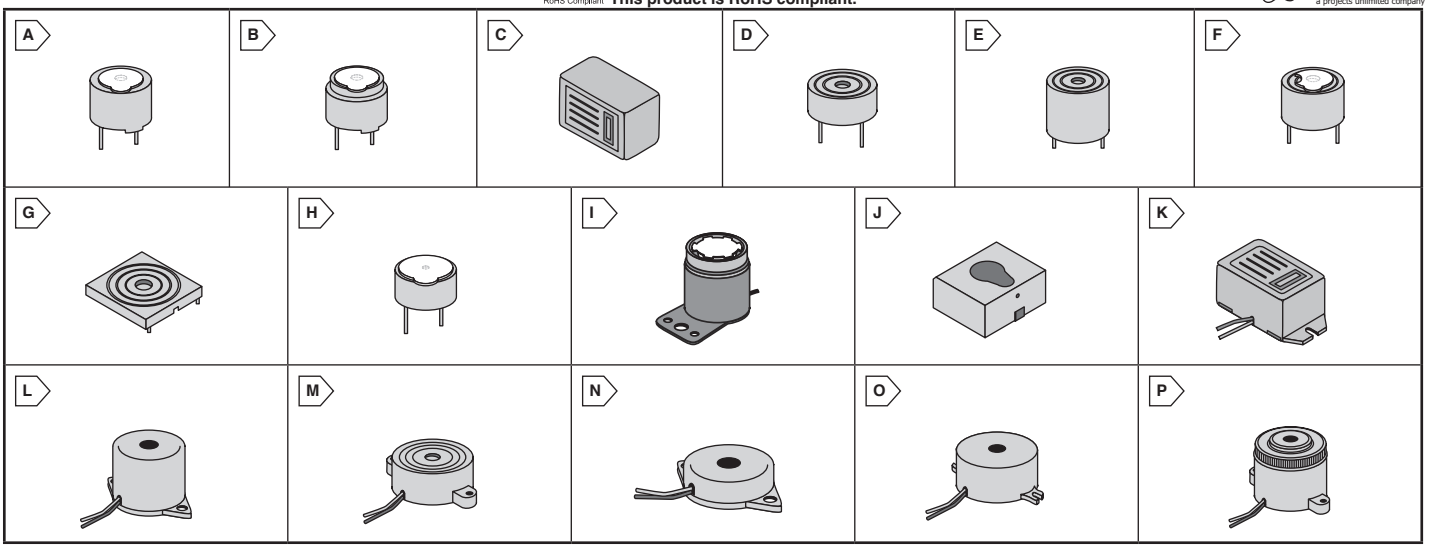
PUI AUDIO Audio Indicators

RoHS Compliant **This product is RoHS compliant.**

pui audio inc
a projects unlimited company



Projects Unlimited

Audio

AUDIO INDICATORS

Features:
- Built in drive circuit
- Available in multiple mounting types
- Available in different tones

Additional Features for Flange and Panel Mount:
- Higher SPL output
- Wider voltage range

Applications:
- Appliances and white goods
- Medical Equipment
- Test Equipment
- POS and Barcode Scanners
- Hand held devices

Additional Applications for Flange and Panel Mount:
- Industrial equipment
- Leisure equipment (golf carts, ATV's, etc.)

For quantities greater than listed, call for quote.

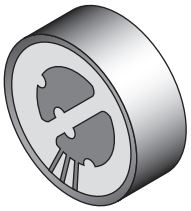
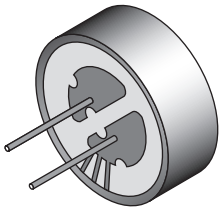
PUI AUDIO Electret Condenser Microphones

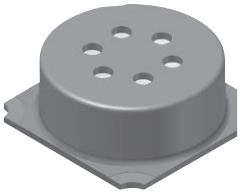
RoHS Compliant **This product is RoHS compliant.**



Solder Pad



Pin



Surface Mount

ELECTRET CONDENSER MICROPHONES

Features:

- Electret Condenser
- Small in size
- Available in omni-directional, uni-directional and noise canceling
- Available with internal feedback capacitors
- Low power consumption
- Available in multiple mounting types

Applications:

- Hand Held Devices
- Medical equipment and systems
- Security alarms and equipment
- Computer related devices
- Voice-activated equipment

Omni-Directional

For quantities greater than listed, call for quote.

PUI AUDIO Speakers

RoHS Compliant **This product is RoHS compliant.**

MULTI-LAYER PIEZO SPEAKERS

Features:
- Thin compact size
- Low power consumption
- Multiple mounting options
- Wide frequency range
- 100% Factory Tested

Applications:
- Touch panel displays
- Camera equipment
- Other handheld devices

For quantities greater than listed, call for quote.

SPEAKERS

Features:
- Wide range of sizes
- Available in paper, mylar and cloth cone
- Low profile versions available
- Multiple configurations such as round, oval, square
- Also available in surface mount and PCB mount

Applications:
- Hand held devices
- Medical equipment and systems
- Security alarms and equipment
- Industrial equipment
- Leisure equipment
- Test equipment
- POS and Barcode scanners
- Desktop Phones
- Computers

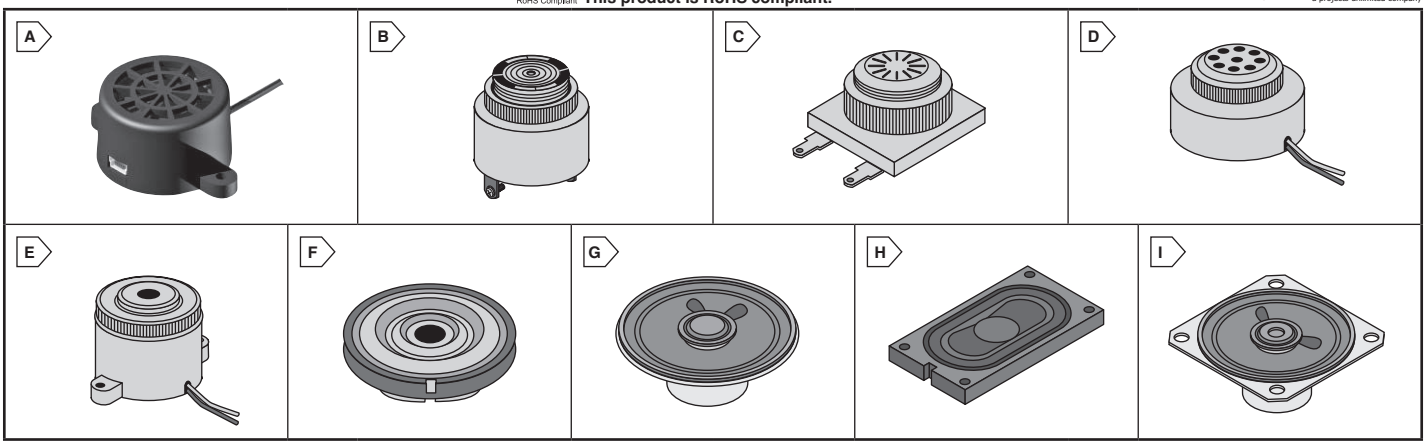
PUI AUDIO Speakers, Indicators, and Sirens

RoHS Compliant **This product is RoHS compliant.**



PROGRAMMABLE INDICATORS

Specifications:
- Voltage Range: 7 ~ 24VDC
- Max. File Length: 33 seconds

Features:
- Ability to program any WAV or MP3 file
- Simple-to-use Windows interface

For quantities greater than listed, call for quote.

SIRENS

Features:
- Extremely loud output
- Multiple tone outputs
- Available with visual notification
- Available with or without volume control
- Will operate in extreme conditions
- Can be used for warning or alerting in potentially dangerous/noisy environments

Applications:
- Fire, safety and security
- Industrial panels and devices
- Industrial vehicles
- Marine equipment
- Public transportation

For quantities greater than listed, call for quote.

WATER RESISTANT SPEAKERS

Features:
- Extends life of normal paper speaker
- Offers the sound quality of a paper diaphragm speaker with the element resistance of a mylar diaphragm speaker
- Water resistant coating has little to no effect on the quality of sound reproduction
- Coating process is FAA Approved and used daily in military and aerospace applications
- Water resistant coating material is MIL-I-46058C and IPC-CC-830 qualified and is in full compliance with RoHS standards

For quantities greater than listed, call for quote.

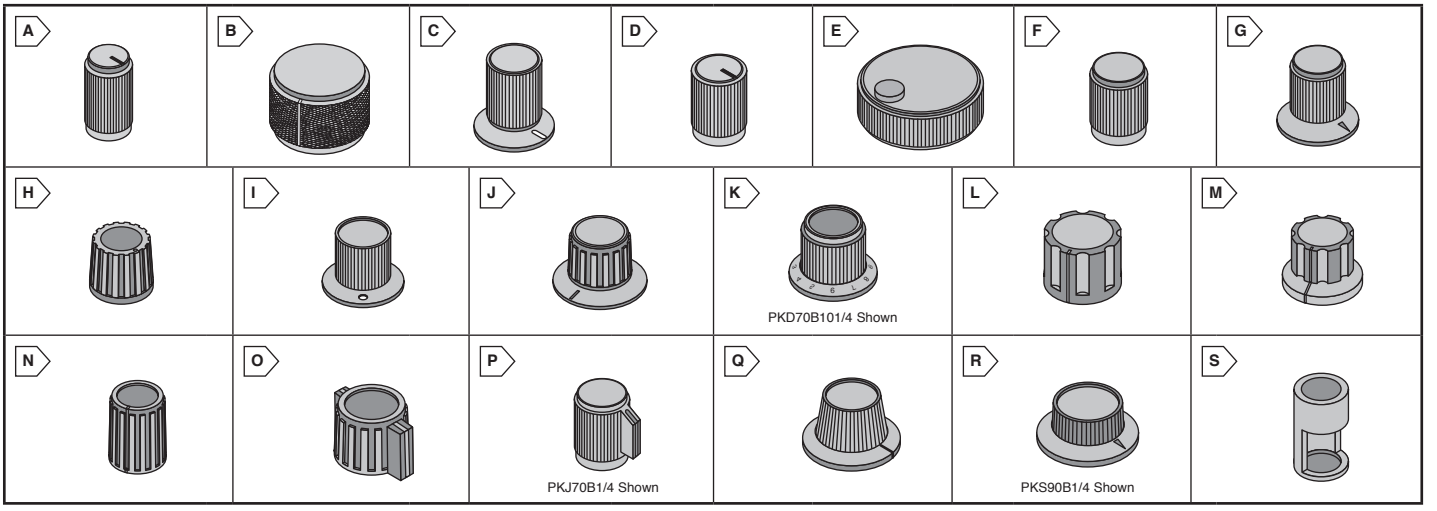
ALCOSWITCH Knobs

TE connectivity Authorized Distributor



K SERIES MACHINED ALUMINUM CONTROL KNOBS

Specifications:

- Made of machined aluminum alloy stock
- Finish is gloss anodize
- Set screws: steel, type 303, hex head, cup point

✻Parts are Black body with Natural skirt and top.

For quantities greater than listed, call for quote.

P SERIES MOLDED PHENOLIC KNOBS

Specifications:

- Made of general purpose phenolic (thermoset)
- Finish is gloss
- Insert is made of Cu alloy
- Set screws: steel, hex head, cup point
- Inlays and skirts are aluminum alloy, spun finish Wh. = White; Blk. = Black

For quantities greater than listed, call for quote.

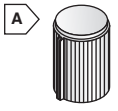
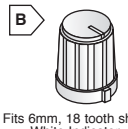
COLOR CONTROL KNOBS

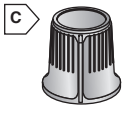


Fits .25 shafts
Black Indicator

- Black plastic with white indicator except where noted
- Brass insert with set screw .25" knobs only



Fits 6mm, 18 tooth shaft
White Indicator



Fits 6mm, 18 tooth shaft
White Indicator

For quantities greater than listed, call for quote.

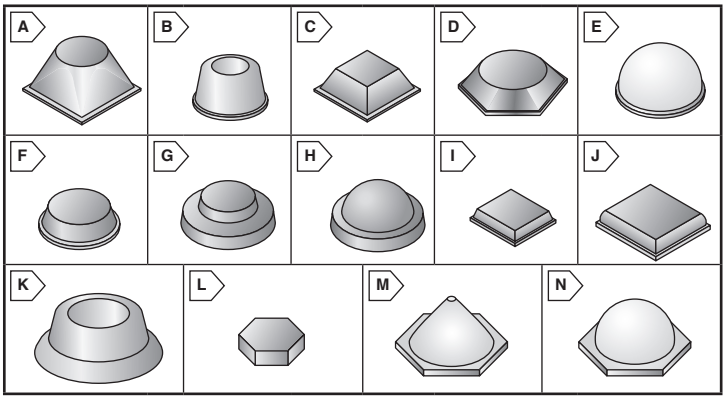
Bumpers and Grommets

RoHS Compliant **This product is RoHS compliant.**

3M™ BUMPON PROTECTIVE PRODUCTS

Bumpon Protective Products are self-sticking polyurethane bumpers that serve as high performance cushions, feet, spacers, and protectors. No need for screws, glue, rivets, or holes of any kind!



Specifications:

- Non-marring
- Non-slip
- Crack resistant

Note: all dimensions are height x width (inches)

For quantities greater than listed, call for quote.

SPACERS

Standard Spacers

• Nylon 6/6

All standard nylon spacers can be tapped two thread sizes larger than the screw size listed.

For quantities greater than listed, call for quote.

Round Tapped Spacers

Molded from type 6/6 nylon and then machine tapped, these spacers are low cost insulators that can be used in many electrical applications.

For quantities greater than listed, call for quote.

Locking Hex Spacer

Economic locking spacers eliminate screws, nuts, and lock washers in mounting P.C. boards on metal chassis or stacking in multiple tiers. Unique locking clips provide a mechanically secure, reusable connection in predrilled or punched holes while saving considerable assembly time.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each 1	100	1000	5000
561-MPH276	C	Hex locking spacer	.52	.246	.182	.161

Hex Tapped Spacers

On spacer 3/4" and longer, tap is 3/8" from each end.

For quantities greater than listed, call for quote.

SCREW INSULATORS

Nylon screw insulators are used to isolate metal screws electrically and reduce corrosion. They may also be used as light load bearings in many applications.

For quantities greater than listed, call for quote.

MALE-FEMALE CIRCUIT BOARD SUPPORT

- Molded in Natural Nylon 6/6
- 3/8" board spacing

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each 1	100	500
561-F0375	B	3/8"	.12	.107	.096
561-F0625	B	5/8"	.12	.107	.103

SQUARE STANDOFF LED MOUNT

LED mount provides secure mounting of both two and three lead devices. Nylon mount provides protection from heat, shock, and vibration. Symmetrical design with feet on both sides eliminating need for specific side rotation.

- Molded in Natural Nylon 6/6

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each 1	100	500
561-TRM001	C	TRM 001	.18	.171	.159

POWER TRANSISTOR MOUNTS

Simplify power transistor mountings and insulation, and improve thermal efficiency with molded insulators.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each 1	100	500
Standard - Molded in Natural Nylon 6/6					
561-19PT2	D	TO-66 with barrier	.20	.182	.171
Heavy Duty - Molded in Glassfilled Polyester					
561-20PTI1-HD	E	TO-3 with barrier	.23	.203	.193
561-18PT1-HD-WOB	E	TO-3 w/o barrier	.21	.203	.182

POWER TRANSISTOR COVERS

- Molded in Natural Nylon 6/6

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each 1	100	500
TO-3 Configuration					
561-C01032	F	5 hole	.49	.449	.417

NYLON PUSH SPACERS

- Hole size: .187"

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Dimensions: in. A	B	Panel Depth	Price Each 1	100	500

FEMALE NYLON CIRCUIT BOARD POSTS

Note: Self-threading posts are designed for use with a #6 self-tapping screw.

- Recommended hole size: .156"
- Panel thickness: 1/16"
- 1/4" length has a thread depth of 13/64"

For quantities greater than listed, call for quote.

EZ BoardWare PCB HARDWARE

EZ-Links

Features:
- Designed to link PCB tracks where through hole links are not possible.
- Typical applications include use on aluminum backplanes in power applications.
- Low profile options available for space saving design.
- High current
- Small footprint

For quantities greater than listed, call for quote.

✻ Non-RoHs Compliant

EZ-Shield Clips - Allows RFI Shield Component Rework without Desoldering

Features:
- SMT Device offering a fast solution for assembling RFI shields to PCBs.
- Eliminates the need for through holes and post reflow operations.
- Save PCB real estate.
- Mini Clip uses 40% less space than Midi and Maxi.
- Substantial improvement in time and simplicity of assembly tuning and re-work.

For quantities greater than listed, call for quote.

EZ-Test Points

Features:
- Ideal for use with standard probes, clips and hooks.
- Can be placed using industry standard equipment.
- Suitable for automatic or manual test.
- High speed placement
- Industry standard Tape and Reel packaging.
- Strong and Durable

For quantities greater than listed, call for quote.

✻ Non-RoHs Compliant

EZ-Spring Contacts

Features:
- Prevents EMC noise and static.
- Simple and effective method for connecting multiple PCBs.
- No special tooling required, uses standard pick and place equipment.
- Protected tips prevent product from hooking.

RoHS Compliant

For quantities greater than listed, call for quote.

EZ-Cable Clips

Features:
- Suitable for use with insulated cables with outer ø0.9 to ø0.3mm pick and placed.
- Low profile & small footprint saves PCB space.
- Cable clip can be soldered at the same time as the rest of the board, reducing additional operation time required for mounting plastic clip types.

RoHS Compliant

For quantities greater than listed, call for quote.

EZ-Coin Cell Battery Retainer

Features:
- Highly effective retention of coin cell batteries.
- Eliminates the need for soldered-in cells.
- Vertical Mount minimizes PCB real estate usage.
- Low profile design available with dual independant contact points for enhanced electrical reliability.

RoHS Compliant

For quantities greater than listed, call for quote.

EZ-Board PC Board Socket, SMT

Features:
- Accepts pins of between ø1.10mm and ø1.80mm.
- Rated to 8 Amps electrical current.
- Reduced component costs.
- Greatly reduces process costs by removing the need for secondary operations.
- SMT product is pick and place-able using standard assembly machines.

RoHS Compliant

For quantities greater than listed, call for quote.

D308 SERIES - 1.00MM SHORTING LINKS

Specifications:

- Uninsulated links can be soldered directly into PCB for permanent linking
- Moulding: Acetal Copolymer UL94-HB
- Contact: Brass
- Current Rating: 10A at 20°C
- Gold Plated

✻ Non-RoHS Compliant

For quantities greater than listed, call for quote.

HEYCO Rubber Grommets

RoHS Compliant **This product is RoHS compliant.**

HEYCO® RUBBER GROMMETS

Features:

- Used to protect or cover through holes
- Helps eliminate sharp edges so your wires are protected
- Material: Styrene Butadiene Rubber
- Adds aesthetic value to your application
- Operating Temp: -40°F to 221°F
- Good water resistance

Mounting Diameter: 0.250" to 0.562"

KEYSTONE Test Points and Hardware

KEYSTONE ELECTRONICS CORP.

THRU-HOLE MOUNT TEST POINTS - COLOR KEYED

Specifications:
- Color-Keyed for visibility and quick identification
- Economical choice for PC Test point terminations
- Snap-fit mounting provides positive retention for wave soldering
- Space saving, ultra low and low profile designs
- Ideal for reliable production testing and field service troubleshooting
- Wire form loop for safe, non-slip testing
- Practical replacement for wire-wrap posts and turrets
- Secure grip for J hooks, EZ hooks, grabbers, alligator clips, tips or probes
- Plastic base strengthens terminal for positive holding power

RoHS Compliant

For quantities greater than listed, call for quote.

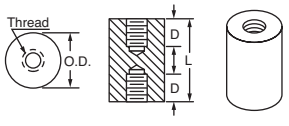
THREADED CERAMIC STANDOFFS

Features:

- Grade L5 Ceramic
- Ideal for very high temperature conditions
- Exceptional strength in compression and tension
- Withstands very high voltage without flashover

RoHS Compliant



Commercial

For quantities greater than listed, call for quote.

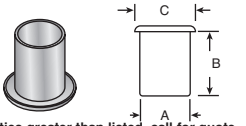
KEYSTONE WIDE ROLL EYELETS

Highest engineering standards maintained to produce these eyelets to uniform dimensions. Guaranteed to be within listed tolerances. A choice of most popular sizes in general use for electronic circuitry.

Features:

- Material: brass
- Precision made
- Plating: bright electro tin, Mil-F-14072
- Solderability retained indefinitely



For quantities greater than listed, call for quote.

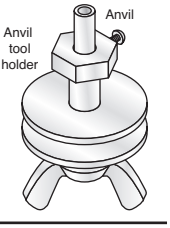
KEYSTONE "BASIC" STAKING TOOL KIT

For single end terminals, eyelets, or rivets

Each Kit Contains:

- (2) 1/4" staking tools (for shank diameters of .062" to .098" & .110" to .125" respectively)
- (2) bottom anvils
- (1) toolholder
- (1) instructions



Features:

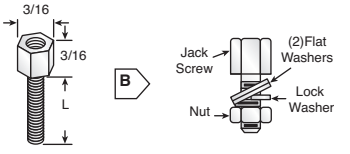
- Build terminal boards
- Mount components quickly
- Repair circuits
- Make prototypes at your desk

MOUSER STOCK NO.	Price Each 1	5
534-1721	65.76	61.79

KEYSTONE JACK SCREWS

Equivalent to Amp, Cannon and TRW jack screws.

- Meets MIL-C-24308/26
- Material: steel and zinc plate



DIMENSIONS: in.

✻Jack Screw with Hardware

STANDARDIZED TERMINALS

Features:
• Swage and thread mounting types available
• Bright tin plated for extended shelf life and excellent solderability
• Wide variety of sizes to suit space and wire size requirements

Specifications:
• Material: Free Cutting Brass- ASTM-B16
• Plating: Bright Electro-Tin per MIL-T-10727 Type 1

RoHS Compliant

For quantities greater than listed, call for quote.

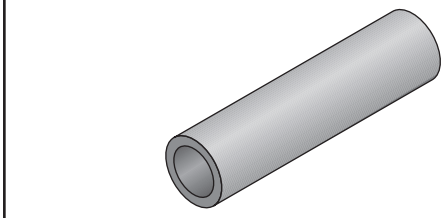
RAF HARDWARE Round Spacers

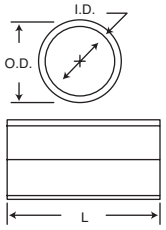
RAF ELECTRONIC HARDWARE
a Division of MW Industries, Inc.

RoHS Compliant **This product is RoHS compliant.**

FEMALE ROUND SPACERS

Used for printed circuit board mounting and other applications requiring close control of dimensions, these spacers offer a wide variety of outside dimensions and lengths. In addition to standard models, swage configurations are available to accommodate circuit boards with thickness from 1/32 to 1/4 inch.





Material Specifications:

- Aluminum: QQ-A225/3, QQ-A225/6, QQ-A225/8, QQ-A200/9
- Stainless Steel: ASTM-A-581, A-582
- Nylon: LP-410A

RoHS Compliant

ROUND SWAGE STANDOFF

Round Swage standoffs are primarily used to separate circuit boards, chassis components and other devices from each other. The swaging installation process allows them to provide a permanent fixture.

SWAGE TOOLING

Anvil Tooling

The anvil and punch tooling is used for installing swage standoffs. They are 1/2 diameter heat treated steel and require an arbor press with a 1/2 ram or a similar type of press.

RAF HARDWARE 4.5mm Hex Metric Standoffs

RAF ELECTRONIC HARDWARE a Division of MW Industries, Inc.

RoHS Compliant **This product is RoHS compliant.**

MALE/FEMALE STANDOFFS

Material Specifications:
- Aluminum: QQ-A225/3, QQ-A225/6, QQ-A225/8, QQ-A200/9
- Stainless Steel: ASTM-A-581, A-582
- Nylon: LP-410A

For quantities greater than listed, call for quote.

STAINLESS STEEL CAPTIVE SCREWS

Invaluable for equipment panels where mounting hardware is subject to loss, these captive screws and retainers assure easy and secure assembly. In addition to standard models, users choose variations such as slotted, unslotted, or hex heads, washers for oval head styles, plus retainer spring and washer sets.

For quantities greater than listed, call for quote.

SCHURTER Transipillars and Spacers

SCHURTER ELECTRONIC COMPONENTS

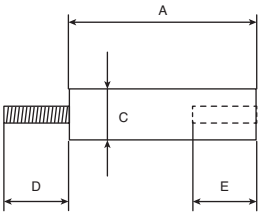
RoHS Compliant **This product is RoHS compliant.**

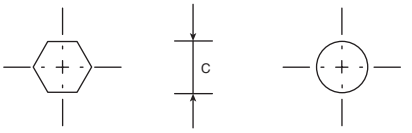
Style 1

Style 2

Style 3

Dimensions: mm





Hexagonal Cylindrical

Features:

- Versatile and rugged insulation mounting system
- Various combination of stud and insert
- Metric threads and lenghts
- Studs and inserts moulded into nylon pyllar
- Body hexagonal or cylindric
- Custom specific versions on request

c UL us

For quantities greater than listed, call for quote.

MODEL 9600 MINIATURE SPRING RETURN LINEAR MOTION POSITION SENSORS

Specifications:

- Terminal Length: 7.1mm
- Actuation Force: 4.0 Newton's Maximum
- Linearity over Active Electrical Travel: ±2%
- Mechanical Life: 2,000,000 Full Cycles, 5,000,000 Dither Cycles

Features:

- Plastic housing and shaft
- Plated brass eyelet style terminals
- 4.8mm diameter shaft

For quantities greater than listed, call for quote.

MODEL 600 LINEAR MOTION POSITION SENSORS

Specifications:

- Power Rating at 70°C: 0.25 Watts
- Output Smoothness: 0.1%
- Resolution: Infinite
- Dielectric Strength: 500VDC
- Actuation Force: 2oz. (0.56 Newtons) max.
- Repeatability: Within 0.0005 in. (0.013)
- Mechanical Life: 10,000,000 Cycles
- Temperature Range: -55°C to +125°C

Supplied with #28 AWG Teflon insulated wire 12 inches in length.

For quantities greater than listed, call for quote.

MODEL 9800 THROTTLE POSITION AND INDUSTRIAL CONTROL SENSORS

Specifications:

- Power Rating at 70°C: 0.15 Watts
- Linearity over Active Electrical Rotation: ±2%
- Mechanical Life: 1,000,000 Full Cycles, 5,000,000 Dither Cycles

Features:

- High temperature plastic housing
- Sealed for harsh environments
- Spring return

For quantities greater than listed, call for quote.

MODEL 9850/9860 SINGLE AND DUAL OUTPUT-LOW-PROFILE-PRECISION ROTARY SENSOR MODULES

Specifications:

- Power Rating at 70°C: 0.15 Watts
- Linearity over Active Electrical Rotation: ±2%
- Mechanical Life: 1,000,000 Full Cycles, 5,000,000 Dither Cycles

Features:

- High temperature plastic housing
- Sealed for harsh environments
- Spring return

For quantities greater than listed, call for quote.

MODEL 9900 DUAL OUTPUT HALL EFFECT SENSORS

Specifications:

- Resolution: Analog (continuous)
- Temperature Range: -40°C to +85°C
- Rotational Life: 10 Million

Features:

- Rotating magnet/fixed sensor configuration provides improved accuracy and reliability
- Two independent outputs for redundancy
- Fully programmable outputs; programmable offset, gain, slope, and temperature compensation

For quantities greater than listed, call for quote.

HALL-EFFECT ROTARY POSITION SENSORS

Features and Benefits:
- 12 M cycle product life
- Solid-state Hall-effect technology
- Rugged IP67-sealed package with integral connector
- Automotive-grade EMI/EMC testing, integrated reverse polarity, and short circuit
- Industry-standard AMP termination, 32 mm mounting pitch, North American and European pinout styles, and compact package
- Eight operating ranges up to 360°

HIGH SENSITIVITY BIPOLAR LATCHING DIGITAL HALL-EFFECT SENSOR ICS

PRODUCT NEW

Features:

- Fastest response time in its class
- No chopper stabilization
- High sensitivity
- Bipolar latching magnetics
- Built-in reverse voltage
- Durable design

For quantities greater than listed, call for quote.

SERIES SL353: MICROPOWER OMNIPOLAR DIGITAL HALL- EFFECT SENSORS ICS

Features:

- Lowest average current in its class
- Low supply voltage
- Promotes energy efficiency
- Reduces power consumption
- Extends battery life
- Reduces PC board space and parts count

✻Ultra low power sensing for battery-operated mobile applications

For quantities greater than listed, call for quote.

Magnetic Position Sensors

The temperature compensated Hall effect sensor consists of a quad Hall sensing element in a square integrated circuit chip, which is then encapsulated in a glass-filled thermoset molding material. The small SOT89 style package surface mounts on PC boards and flexible circuits.

✻High Accuracy

For quantities greater than listed, call for quote.

PCB LEVEL POSITION SENSORS

The APS00B is a miniature surface mount sensor for linear, angular, or rotary displacement designed for magnetic saturating field sensing. This sensor is a cost-effective and space-efficient solution for high-volume OEM designs. The VF401 is a high performance, digital, 2-wire, MR sensor in a miniature, flat,TO-92-style plastic package with a current output, designed for sensing fine pitch ring magnets.

For quantities greater than listed, call for quote.

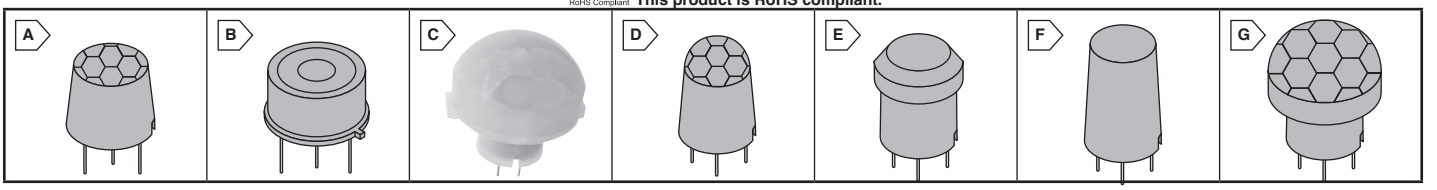
RoHS Compliant **This product is RoHS compliant.**



Panasonic PAPIRS MOTION SENSOR SP SERIES (EKMA)

Panasonic PaPIRS sensing circuits are enclosed in a metallic case which helps minimize the adverse effects of external electro magnetic fields. (i.e.: radiated noise caused by cellular phones) Since the sensors have a high S/N ratio, they are less sensitive to false starts when operated under different environmental surroundings.

For quantities greater than listed, call for quote.

Panasonic NaPiOn MOTION SENSORS

Panasonic offers a series of integrated motion sensors, enabling safety and energy conservation applications. Many packages include a built-in amplifier for simple, compact designs, and are used in ighting and HVAC control, ambient light detection and security applications.

Specifications:

- Passive Infrared (PIR) Motion Sensors with built-in lens in a miniature package for occupancy or presence detection

For quantities greater than listed, call for quote.

Panasonic LENS DRIVER WITH IRIS CONTROL

Features:

- Voltage Drive System 256-Step Microstep Drivers (2 Systems)
- Built-In Iris Controller
- Motor Control By 4-Line Serial Data Communication
- 2 Systems Of Open-Drain For Driving LED

Applications:

- Camcorder
- Security-camera
- Zoom, Focus and Iris Drivers
- Iris driver for box type security camera

SPECTRA SYMBOL Flex, Pot Sensors and Wipers

FLEX SENSORS

Features:
- Angle Displacement Measurement
- Possible Uses: Robotics, Gaming (virtual motion), Medical Devices, Computer Peripherals, Musical Instruments, Physical Therapy
- Simple Construction
- Low Profile
- Bends and Flexes physically with motion device

Specifications:
- Connector: Solder Tab
- Model: Linear
- Resistance: ≤0.43mm (0.017")

For quantities greater than listed, call for quote.

SOFTPOT MEMBRANE POTENTIOMETER SENSORS

Spectra Symbol offers the SoftPot Membrane Potentiometer Sensor for universal position sensing in linear-stroke applications such as seat position, actuator position, handheld medical device location and switch, electronic musical instrumentation, and other position feedback devices. Features of the Spectra Symbol SoftPot include a 0.5mm height with lengths extending 12.5mm to 1,000mm in length. 3M adhesive provides IP65 rating Spectra Symbol's SoftPot Membrane Potentiometer Sensors are currently a medical standard in the healthcare industry, as well as in many industrial applications. An inexpensive and low form-factor way to achieve full travel position sensing.

Specifications:
- Connector: Solder Tab
- Voltage Rating: 500VAC
- Resistance Tolerance: 20%
- Temperature Range: -40˚C to +50˚C
- Output Type: Analog-Voltage

For quantities greater than listed, call for quote.

HOTPOT MEMBRANE POTENTIOMETER SENSORS

The Spectra Symbol HotPot Membrane Potentiometer Sensor was developed with the most rugged membrane technology and boasts over a 10 million life cycle. Robust in humidity, in temperatures up to 85ºC, and as low as -40ºC, the HotPot is an industrial, military, outdoor, and automotive preferred sensor and is ideal for door and and window position sensing, as well. The Spectra Symbol HotPot Membrane Potentiometer Sensor securely bonds to the host with 3M pressure sensitive adhesive (PSA) and is IP65 rated - dust proof and water proof for intense spray.

Specifications:
- Connector: Solder Tab
- Voltage Rating: 500VAC
- Resistance Tolerance: 20%
- Temperature Range: -40˚C to +85˚C
- Output Type: Analog-Voltage

MAGNETOPOT SENSORS

The MagnetoPot is simple, yet elegant in its ability to track motion in a contactless manner. A magnet on the inside of a cylinder, or on the other side of a motion device will guide the built-in magnetics of the MagnetoPot for position output as a voltage divider. As opposed to a Reed Switch, which gives simply "open" or "close" signals, the MagnetoPot gives the full linear travel as a magnetic sensor. For the cost of a Reed Switch, the MagnetoPot offers tremendous sensing solutions for a fraction of other magnetic sensors costs. What position sensor can offer the magnetic characteristics of a reed switch with the output of a potentiometer, for the same cost of a Reed Switch? Only Spectra Symbol's MagnetoPot.

Specifications:
- Connector: Solder Tab
- Voltage Rating: 500VAC
- Resistance Tolerance: 20%
- Temperature Range: -40˚C to +85˚C
- Output Type: Analog-Voltage

For quantities greater than listed, call for quote.

THINPOT SENSORS

ThinPot membrane potentiometer has all of the attributes and benefits of the SoftPot, but is twice as narrow. Based on demand from the market, Spectra Symbol has developed this 10mm wide, 0.5mm thick sensor to fit in the most difficult locations.

Specifications:
- Connector: Solder Tab
- Voltage Rating: 500 VAC
- Resistance Tolerance: 20%
- Temperature Range: -40˚C to +50˚C
- Output Type: Analog-Voltage

For quantities greater than listed, call for quote.

PRECISION ROTARY AND LINEAR POSITION SENSORS

Features:
- Infinite Resolution
- Greater Reliability
- Best Resolution
- Longest Life
- Best Output Smoothness

Specifications:
- Output Smoothness: 0.1% Max.
- Insulation Resistance: 100 Meg Ohms Min.
- Rotation: 360°
- Rotary Housing Material: Anodized Aluminum
- Linear Housing Material: Stainless Steel

For quantities greater than listed, call for quote.

Magnetic, Linear and Position Sensors

ALPS HIGH RELIABILITY MAGNETIC SENSOR SWITCHING OUTPUT TYPE

Applications:
- To detect opening and closing of lids and doors on all kinds of consumer equipment such as mobile phones, notebook PCs and digital camcorders
- Contributes to increased flexibility in set design through a diverse lineup
- High reliability achieved through high precision and compactness
- Low-profile types made possible through magnetic sensing device technologies

Features:
- High flexibility in sensitivity design (from high to low sensitivity)
- Compact and low-profile (1.1×0.9×0.55mm for the MAP Type)
- Low current consumption (3.0µA at VDD=1.8V)
- Diverse lineup (functions, operating magnetic field and package specifications)

For quantities greater than listed, call for quote.

MURATA BOARD MOUNT HALL EFFECT/MAGNETIC SENSORS

Murata expands range of AMR sensors to include horizontal and vertical sensing Murata's AS-M and AS-V series of anisotropic magneto resistance (AMR) sensors are designed to provide a non-contact magnetic sensor of high sensitivity for use in a relatively low magnetic field.
These devices, the smallest measuring 1.2 x 1.2 x 0.37mm, can detect a magnetic field in either a horizontal or vertical direction. Compared to traditional magnetic switch components, such as a reed switch or Hall effect IC, AMR sensors are designed to offer high detection sensitivity and a wide detection area. Within the series, the AS-M15SAH-R and AS-M15KAH-R sensors feature a narrow range of sensitivity, from 0.5 to 1.6mT that suit high accuracy applications.
The AS-M15SA-R and AS-M15KA-R parts have a sensitivity range, from 0.5 to 2.2mT. The AS-V series provides vertical magnetic field detection, and is designed as a more cost effective replacement for Hall IC designs. Both the AS-M series and AS-V series have the same land compatibility as SOT23 and SON4, and are suitable for reflow soldering.

RoHS Compliant

For quantities greater than listed, call for quote.

PIHER 15MM CARBON POSITION SENSORS

Here is Piher's "revolutionary" answer to the majority of Multi-Purpose Control and Rotary Sensor design problems which were un-resolvable until now. The N15 series offers you full endless rotation, 340° ± 10° wide electrical angle, SMD or through-hole mount, extended working temperature range of -40°C to +120°C plus a whole series of customization possibilities making it the most flexible product on the market. The N15 is ideal for Appliance and Automotive Control and Sensor applications.

Specifications:
- Resistance Values: 5K, 10K, 100K
- Tolerance: ±30%
- Nominal Power: 0.15W @ 50°C
- Linearity (absolute): ±3%
- Taper: Linear
- Mechanical Life: 100,000 cycles
- Temperature Range: -40°C to +120°C
- Mechanical Angle: 360°
- Electrical Angle 340° ± 10°
- Rotational Torque: ≤ 20 mN.m
- Max. Voltage: 250VDC

RoHS Compliant

For quantities greater than listed, call for quote.

CHERRY Hall Effect Speed and Proximity Sensors

CHERRY GEARTOOTH SPEED SENSOR

Features:
- ESD resistant to 15kV (contact discharge)
- Mating connector Packard sealed female connector assembly 3F
- Supplied with installed Vit on O-ring
- Installs into a standard M20 x 1.5 O-ring port
- Capable of operating up to 140ºC

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cherry Part No.	Fig.	Description	Supply Voltage	Supply Current Max.	Price Each 1	50	100

CHERRY SOLID STATE MAGNETIC PROXIMITY SENSORS

Packaged Hall Effect magnetic proximity sensors are ready to use, requiring only an external pull-up resistor. All are three-wire devices with sinking output compatible with any logic family. These sensors are operated by approaching magnet. These solid state devices have virtually unlimited life and are resistant to dirt, moisture, etc.

Specifications:
- Operating Temperature Range: -40°C to +85°C

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cherry Part No.	Fig.	Description	Supply Voltage	Supply Current Max.	Output Voltage Max.	Price Each 1	50	100	250

CHERRY MAGNETIC PROXIMITY SENSORS

The Cherry reed sensor is an omnipolar, magnetically activated switch. These sensors consume zero power and are hermetically sealed for resistance against moisture and dirt. All sensors include 12" PVC-insulated flying leads.

Specifications:
- Operating Temperature Range: -40°C to +105°C

For quantities greater than listed, call for quote.

CHERRY SOLID STATE SPEED SENSORS

These magnetically-biased Hall Effect devices sense the rotation of a ferrous target, such as a geartooth, or sprocket. They offer high speed and near-zero speed sensing capability. All have current sinking output. All but GS100701 provide additional circuit protection for immunity against electrical interference. M12 Integral connector meets IEC60947-5-2

Specifications:
- Operating Temperature Range: -40°C to +105°C

For quantities greater than listed, call for quote.

CHERRY VANE SENSORS

Magnetically-activated digital vane switch in a rugged, overmolded plastic housing with three pins or 3 individual wires. Immune from moisture and dust, they are reliable and repeatable, with no mechanical contacts to wear out. Compatible with all logic families.

Specifications:
- Operating Temperature Range: -40°C to +85°C

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cherry Part No.	Fig.	Description	Supply Voltage	Supply Current Max.	Output Voltage Max.	Price Each 1	50	100	250

CHERRY INTRINSICALLY LINEAR ANGULAR POSITION SENSOR

The Intrinsically Linear Angular Position Sensor (ILAPS™) uses Cherry's patent-pending non-contact design to achieve linear output from 5° to 90° of rotation. With no contacts to wear out, it is not vulnerable to dither, and life is tested to over 10 million operations.

Specifications:
- Operating Temperature Range: -40°C to +85°C

For quantities greater than listed, call for quote.

CHERRY AN8 SERIES THIN ANGULAR POSITION SENSORS

Programmable, non-contact magnetic position sensors capable of continuous rotation

Specifications:
- Absolute angular position sensor with single output
- Provides non-contact angular position sensing to full 360° rotation
- No mechanical interface means no parts to wear out
- 5VDC ratiometric device
- Resilient to mechanical misalignment

Applications:
- Replacement for smart bearings
- PRNDL switch for harsh environments
- Steer wheel position for drive by wire systems

RoHS Compliant

For quantities greater than listed, call for quote.

Specifications:
- Current consumption: 30mA max.
- Supply voltage: 12-24VDC

Features:
- Compact sensor offers long sensing
- Superior noise-immunity

RoHS Compliant

✻ Polarized retro-reflective and sensing distance is 3m with E39-R1, 4mm with E39-R1S

For quantities greater than listed, call for quote.

OMRON E3X-NA SERIES: FIBER-OPTIC AMPLIFIERS WITH CABLES

Specifications:
- Control output: ON/OFF
- Supply voltage: 12-24VDC
- Current consumption: 35mA max.

Features:
- User-friendly
- Streamlined features provide basic sensing immediately after plug-in.

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON FIBER-OPTIC CABLES

Specifications:
- Permissible bending radius: 25mm
- Core material: PMMA
- Sheath material: Black polyethylene

Features:
- Coiled and ultra-flexible cables are ideal for flexing and reciprocating machinery such as robots

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON REFLECTIVE, NON-AMPLIFIED, PULSE-MODULATED PHOTOMICROSENSORS

Specifications:
- Output configuration: Photo IC
- Supply voltage: 7VDC
- Output current: 30mA

Features:
- Photo IC circuitry greatly improves response time
- Pulse modulation effectively reduces external light interference
- Convergent technology ensures enhanced sensing area

RoHS Compliant

OMRON REFLECTIVE, AMPLIFIED, NON-MODULATED PHOTOMICROSENSORS

Specifications:
- Indicator mode: Incident light

Features:
- Easy adjustment with a built-in sensitivity adjuster
- Easy optical axis monitoring with a bright light indicator
- Compact design incorporating a built-in amplifier and special IC enables direct switching capacity of up to 100mA.

RoHS Compliant

For quantities greater than listed, call for quote.

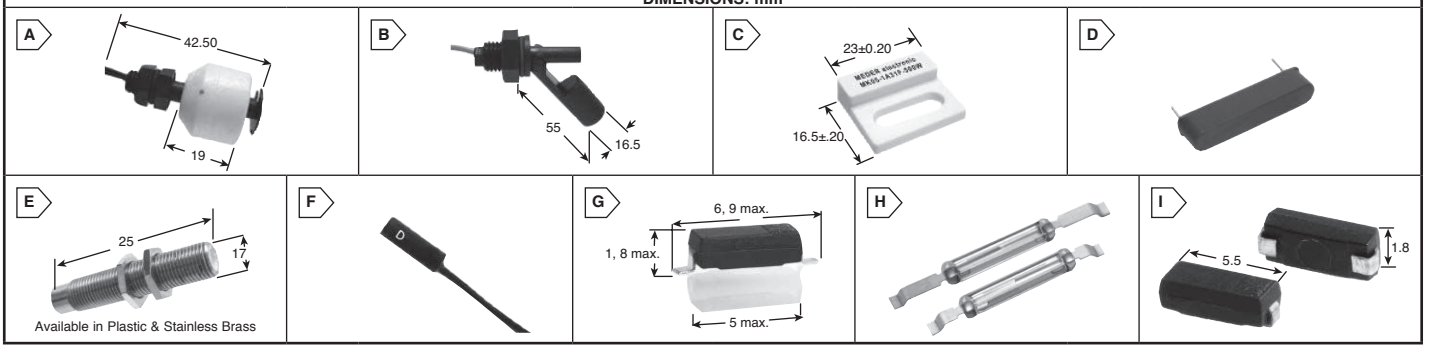
MEDER MKXX Series Reed Sensors and Magnets

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: mm



MKXX/LS01 LEVEL AND REED SENSORS

Features:

- Millions of reliable operations
- Various mounting options

For quantities greater than listed, call for quote.

ROLLING-BALL TILT SENSOR SWITCHES

Mechanical Specifications:

- Differential Angle: 30°max.
- Operating Temperature: 0°C~+100°C
- Soldering Process: Temperature: 250°C for 3 seconds (Soldered by hand only)

Electrical Specifications:

- Rating: <6mA/24VDC
- Differential Angle: 30°max.
- Electrical Life: >50,000 cycles
- Contact Resistance: 2Ω max. (measured at 45° tilt)

RoHS Compliant

For quantities greater than listed, call for quote.

Sensors

SFERNICE 20 LHE LINEAR POSITION HALL EFFECT SENSOR

Features:
- Accurate linearity down to ±1%
- Electrical strokes from 0mm to 10mm
- Long life: greater than 10M cycles
- Non contacting technology: Hall effect
- Model dedicated to all applications in harsh environments

For quantities greater than listed, call for quote.

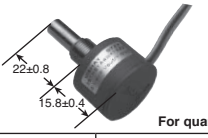
SPECTROL 351 HE SINGLE TURN BUSHING MOUNT HALL EFFECT SENSOR

Features:
- Accurate linearity down to 0.5%
- Long life: greater than 10M cycles
- Non contacting technology: Hall effect
- Model dedicated to all applications in harsh environments
- All electrical angles available up to 360° (no dead band)



DIMENSIONS: mm

SPECTROL 34 THE - 10 TURN SERVO OR BUSHING MOUNT HALL EFFECT SENSOR

Features:
- Accurate linearity down to ± 0.5 %
- All electrical angles available up to 3600°
- Very long life: 50M cycles for servo, 10M cycles for bushing
- Non contacting technology: Hall effect; true power on sensor
- Model dedicated to applications requiring long life

PIHER PSC-360 CONTACTLESS SENSOR

The PSC-360 Series from Piher is a vertical Hall-effect magnetic rotary sensor. The Contactless Sensor is programmable and features a unique switch function not offered with other 360° absolute position sensors. The permanent magnet is the only moving part, providing a mechanical life cycle of up to 50 million cycles. The completely sealed IP67 rated Piher PSC-360 Sensor, ideal for harsh environments, also offers high temperature performance at -40ºC to +150ºC. The PSC-360U model features a panel mount package for easy bush mounting.

PIHER MTS-360 THRU SHAFT CONTACTLESS SENSOR

The MTS360 provides a true breakthrough in contactless sensor technology by combining a through-shaft design with 360° absolute position feedback in an ultra miniature size. The result is the smallest fully featured rotary sensor on the market with reliability up to 50 million cycles.

With its tiny size of only 6mmx17mmx18mm (HxWxL), engineers can now integrate a fully featured rotary sensor directly on their PCB without the packaging issues that typically accompany encoders or other absolute position devices. The exceptionally low profile fits easily in places that were previously too small for pre-packaged rotary sensors.

OMRON 2SMPP SERIES: MEMS GAUGE PRESSURE SENSORS

Specifications:
- Pressure type: Gauge pressure
- Applicable gas: Air (Non-corrosive, dust free)
- Withstand pressure: Max. 53kPa
- Supply current: 100µADC
- Current consumption: Max. 130µADC

Features:
- Piezo resistive element provides electrical characteristics that are superior to capacitive type pressure sensors
- Low power consumption of 0.2mW
- Low temperature influence

Applications:
- Medical equipment
- Home appliance
- Air movement control
- Level indicators
- Leak detection

NEW! TECHNOLOGY

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Omron Part No.	Fig.	Description	Price Each 1	25	50

OMRON D6F SERIES: GAS MASS-FLOW SENSORS

Specifications:
- Dielectric strength: 500VAC between terminals and base
- Operating temperature: -10°C to 60°C
- Power supply (Vcc max.): 26.4VDC

Features:
- Small size
- Fast response
- Applicable to air, non-corrosive gas, LNG
- Ideal for looking at low pressure medical gases, boiler emissions, and HVAC system airflow

Applications:
- Medical equipment
- Combustion control
- Analysis instruments

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Omron Part No.	Fig.	Rated Range	Applicable Fluid	Case Material	Power Supply (Vcc Max.)	Output Voltage (Vout Max.)	Price Each 1	2	5

OMRON 50A SERIES: MEMS AIRFLOW SENSORS

Specifications:
- Dielectric strength: 500VAC between lead terminals
- Operating temperature: -10°C to 60°C

Features:
- Precision mass-airflow up to 50LPM
- Stable output across full scale
- Low power consumption

Applications:
- Industrial processes
- Medical respirators and ventilators
- Mass-flow controllers
- Fuel cell controls

OMRON D6F-P SERIES: MEMS MASS-FLOW SENSORS

Specifications:
- Power supply: 4.75-5.25VDC
- Output voltage: Vout, 0.5-2.5VDC
- Flow range/pressure range: +1.0 SLM (+0.84 in H2O)
- Applicable gas: Air
- Operating temperature: -10°C to 60°C

Features:
- Compact, highly reliable flow sensor with unique Dust Segregation System (DSS)
- Cyclone flow structure diverts particulate from sensor element
- High-accuracy, reliable mass-flow measurement
- Alternative to differential pressure sensing
- High-resolution and repeatability even at low-flow rates

For quantities greater than listed, call for quote.

OMRON D6F-W, -V SERIES: MEMS AIR VELOCITY SENSORS

Specifications:
- Operating temperature: -10°C to 60°C
- Insulation resistance: 20MΩ min. @ 500VDC between lead terminal and the case

Features:
- Integral passive Dust Segregation System (DSS) prevents contamination of sensor element
- Full-scale repeatable accuracy achieves consistent air velocity measurement in a cost efficient package

For quantities greater than listed, call for quote.

OMRON D6T SERIES: MEMS THERMAL IR SENSORS

Specifications:
- Target temperature: Detection range: 5-50°C Output accuracy: within +/- 1.5°C
- Power supply voltage: DC4.5-5.5V
- Output form: Binary code (10 times detected temperature (°C))
- Temperature resolution (NETD): 0.14°C

Features:
- High sensitivity enables detection of stationary human presence
- MEMS and ASIC technologies achieve high SNR
- Superior noise immunity with a digital output
- High-precision area temperature detection with low crosstalk field of view characteristics
- Application notes available upon request

Applications:
- Energy-saving household appliances
- Building and office energy conservation systems
- Security systems
- Factory automation

Honeywell 3455RC REDI-TEMP SERIES CERAMIC AUTOMATIC RESET THERMOSTATS

- Cost effective
- Rivet sleeve construction
- High profile
- High temperature
- High current
- Amperage: 15A/10A resistive max.
- Voltage-120Vac/240Vac
- Operating Temperature Range: 0°C to 260°C (32°F to 500°F)

RoHS Compliant

measurement SPECIALTIES TSYS01 DIGITAL TEMPERATURE SENSORS

Features:
- High Accuracy ±0.1°C @ Temp.: -5°C to +50°C
- Adjustment of high accuracy temperature range on request
- Low Current: <12.5 μA (standby <0.14 μA)
- SPI/I²C Interface
- Small Package: QFN16
- Operating Temperature Range: -40°C to +125°C

Applications:
- Industrial Control
- Replacement of Thermistors and NTCs
- Heating/Cooling Systems
- HVACR

RoHS Compliant

For quantities greater than listed, call for quote.

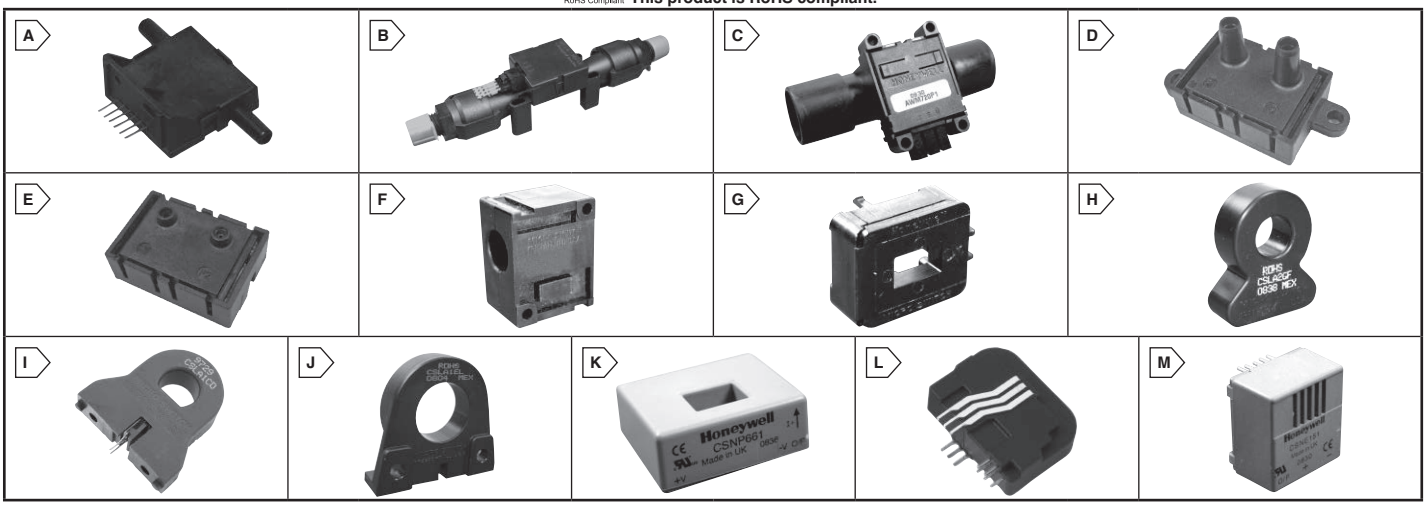
HONEYWELL Sensors

Honeywell

RoHS Compliant **This product is RoHS compliant.**



AIRFLOW SENSORS

Contain a thin-film, thermally isolated bridge structure that consisting of heater and temperature sensing elements. This microbridge structure provides a sensitive and fast response to the flow, amount and direction of air or other gas over the chip and provides a proportional output voltage. State-of-the-art chip design and manufacturing techniques allow the microbridge to be remarkably sensitive, fast and small. Amplified versions provide a higher output signal and require less external circuitry while unamplified versions allow more options in external circuit deign. A variety of port styles provides greater application flexibility.

RoHS Compliant

For quantities greater than listed, call for quote.

ZEPHYR™ ANALOG AIRFLOW SENSORS, HAF SERIES HIGH ACCURACY

Honeywell Zephyr™ Analog Airflow Sensors: HAF Series-High Accuracy, provide an analog interface for reading airflow over the specified full scale flow span and temperature range. Their thermally isolated heater and temperature sensing elements help these sensors provide a fast response to air or gas flow.

ZEPHYR™ DIGITAL AIRFLOW SENSORS, HAF SERIES

Honeywell Zephyr™ Digital Airflow Sensors: HAF Series-High Accuracy, provide a digital interface for reading airflow over the specified full scale flow span and temperature range. Their thermally isolated heater and temperature sensing elements help these sensors provide a fast response to air or gas flow. Zephyr sensors are designed to measure mass flow of air and other non-corrosive gases. They are available in standard flow ranges and are fully calibrated and temperature compensated with an on-board Application Specific Integrated Circuit (ASIC).

RoHS Compliant

For quantities greater than listed, call for quote.

LINEAR CURRENT SENSORS

MICRO SWITCH™ CS series linear current sensors incorporate our 91SS12-2 and SS94A1 linear output Hall effect transducer (LOHET™). The sensing element is assembled in a printed circuit board mountable housing. This housing is available in four configuration as shown in mounting dimension figures 1, 1a, 2 and 2a. Normal mounting is with 0.375 inch long 4-40 screw and square nut (not provided) inserted in the housing or a 6-20 self-tapping screw. The combination of the sensor, flux collector, and housing comprises the holder assembly. These sensors are ratiometric.

RoHS Compliant

For quantities greater than listed, call for quote.

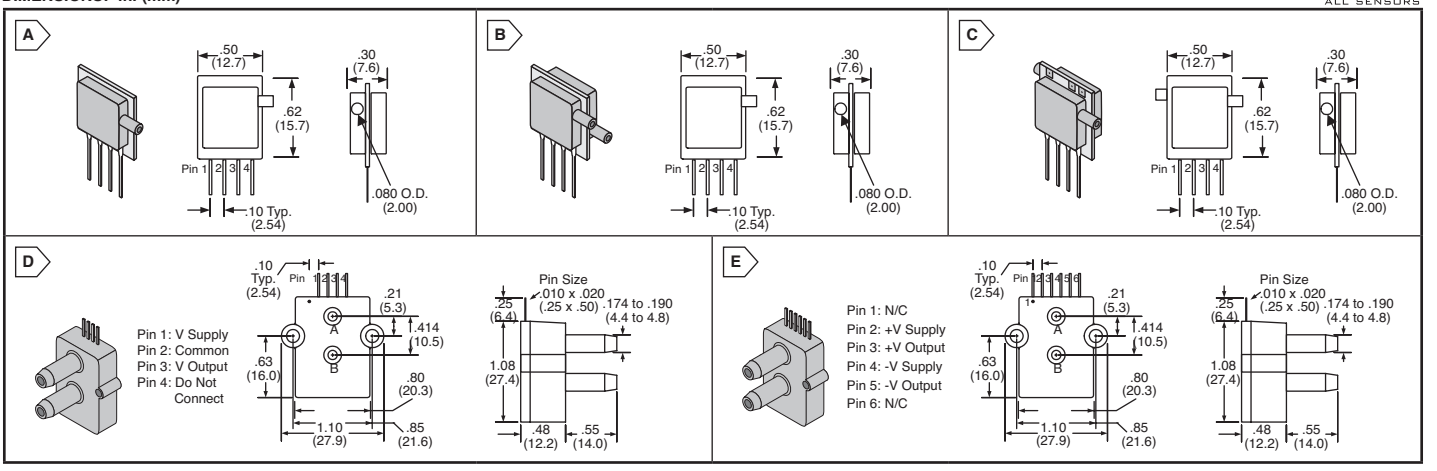
ALL SENSORS Silicon Pressure Sensors

DIMENSIONS: in. (mm)



All Sensors, Inc. pressure sensors are based on piezo-resistive semiconductor technology, broadly referred to as MEMS (micro electrical mechanical systems). Our products, both analog and digital,are based upon a proprietary technology to reduce errors. Output changes due to temperature, warm-up stability, long-term stability, and position sensitivity are all significantly reduced when compared to conventional compensation methods. These sensors are intended for use with non-corrosive, non-ionic working fluids, such as air and dry gases. Packaging is designed to be mounted to a printed-circuit board. Our highly linear pressure sensors are typically used as components in high accuracy instrumentation for markets such as: medical, HVAC, mine safety, off-road vehicles, chemical analysis, and environmental.

MINIATURE BASIC PRESSURE SENSORS - 0.5% LINEARITY

Specifications:
- Common-mode pressure: 5 psig
- Supply voltage: 6VDC max.

Features:
- Offset compensated
- Ratiometric output

For quantities greater than listed, call for quote.

MINIATURE MILLIVOLT OUTPUT LOW PRESSURE SENSORS

Specifications:
- Compensated temperature range: 0°C to 50°C
- Operating temperature: -25°C to +85°C
- Common-mode pressure: 10psig
- Supply voltage: 16VDC max.
- Ratiometric output

Features:
- Calibrated Zero and Span
- Based on proprietary technology to reduce all output offset or common mode errors
- Utilizes silicon, MEMS technology to provide very linear output to measured pressure

Applications:
- HVAC
- Medical instrumentation
- Environmental controls

For quantities greater than listed, call for quote.

AMPLIFIED LOW PRESSURE SERIES

Specifications:
- Compensated temperature range: 5°C to 50°C
- Operating temperature: -25°C to +85°C
- Common-mode pressure: -10 to +10psig
- Supply voltage: +4.5 to +5.5VDC
- Ratiometric 4V output - output is ratiometric to supply voltage

Applications:
- HVAC
- Medical instrumentation
- Environmental controls
- Primarily for Medical Breathing Applications

Features:
- Calibrated Zero and Span
- Based on proprietary technology to reduce all output offset or common mode errors
- Utilizes silicon, MEMS technology to provide very linear output to measured pressure

For quantities greater than listed, call for quote.

These sensors are intended for use with non-corrosive, non-ionic working fluids, such as air and dry gases. Packaging is designed to be mounted to a printed-circuit board. Our highly linear pressure sensors are typically used as components in high accuracy instrumentation for markets such as: medical, HVAC, mine safety, off-road vehicles, chemical analysis, and environmental.

MINIATURE MILLIVOLT OUTPUT MEDIUM PRESSURE SENSORS - 0.5% LINEARITY; ASCX SERIES

Specifications:
- Operating temperature: -25°C-105°C
- Supply Voltage: +4.5 to +5.5VDC
- Output of the device is ratiometric to the supply voltage

Features:
- Based upon a proprietary package technology to reduce errors
- Sensor housing has been designed specifically to reduce package induced parasitic stress and strain
- Utilizes a silicon, micromachined, stress concentration enhanced structure to provide a very linear output to measured pressure

Applications: • Compatible to Sensym ASCX Series

For quantities greater than listed, call for quote.

MILLIVOLT OUTPUT MEDIUM PRESSURE SENSORS - 0.25% ~ 1% LINEARITY

Specifications:
- Supply voltage: 16VDC max.
- Ratiometric output
- Compensated temperature range: 0°C to 70°C
- Operating temperature: -25°C to +85°C

Applications:
- HVAC • Medical instrumentation • Environmental controls

Features:
- Calibrated Zero and Span
- Based on proprietary technology to reduce all output offset or common mode errors

0.25% Linearity • Common-mode pressure: 50 psig

For quantities greater than listed, call for quote.

SURFACE MOUNT BASIC PRESSURE SENSORS

Specifications:
- Operating temperature: -25°C-85°C
- Supply Voltage: 6VDC
- Output of the device is ratiometric to the supply voltage

Applications:
- HVAC • Medical instrumentation • Environmental controls

Features:
- Uses a silicon micromachined (MEMS) pressure sensor in the most basic configuration
- Package is a ceramic surface mount configuration to provide the smallest footprint possible
- This series is intended for use with non-corrosive, non-ionic working fluids such as air, dry gases and the like

For quantities greater than listed, call for quote.

PRESSURE SENSORS

Freescale pressure sensors combine advanced piezoresistive sensor architecture with integrated circuit technology to offer a wide range of pressure sensing devices for automotive, medical, consumer and industrial applications.

Features:

- Broad portfolio of packaging and porting options for design flexibility
- Cost-effective
- Wide operating temperature range of -40°C to 125°C
- Fully signal conditioned, compensated and calibrated
- Interface seamlessly with Freescale processors
- Ratiometric to supply voltage

For quantities greater than listed, call for quote.

INTEGRATED PRESSURE SENSORS

To make the designer's job even easier, Freescale integrated devices carry sensor technology one step further. In addition to the on-chip temperature compensation and calibration offered currently on the 2000 series, amplifier signal conditioning has been integrated on-chip in the 4000, 5000 and 6000 series to allow interface directly to any microcomputer with an on-board A/D converter. The signal conditioning is accomplished by means of a four-stage amplification network, incorporating linear bipolar processing, thin film metallization techniques, and interactive laser trimming to provide the state-of-the-art in sensor technology.

Features:

- Broad portfolio of packaging and porting options for design flexibility
- Cost-effective
- Wide operating temperature range of -40°C to 125°C
- Fully signal conditioned, compensated and calibrated
- Interface seamlessly with Freescale processors
- Ratiometric to supply voltage

TRUSTABILITY™ SILICON PRESSURE SENSOR HSC SERIES

These devices offer customers three key benefits not found in competitive silicon sensors: sensors available; Accuracy: They are designed to provide an extremely tight accuracy Stability: These sensors are the most stable silicon pressure specification; and Flexibility: Their modular and exible design offer customers a variety of package styles and options, all with the same industry-leading performance specifications cations.

These sensors are intended for use with non-corrosive, non-ionic working fluids such as air and dry gases. of sensor offset, sensitivity, temperature coefficients and non-linearity. Industry: They are designed to provide digital correction leading stability helps prevent drift over time or from temperature extremes. Leading stability helps prevent drift over time or from temperature extremes.

Features:

- Industry leading long-term stability
- Extremely tight accuracy of ±0.25 % FSS BFSL
- Total error band of ±2 % full scale span max.
- Low operating voltage
- Extremely low power consumption
- Ratiometric 12-bit analog output
- Virtually insensitive to mounting direction
- Internal diagnostic functions increase system reliability
- Absolute, differential, gauge, and compound types
- Custom calibration available
- Various pressure port options

For quantities greater than listed, call for quote.

LOW PRESSURE SENSORS

Specifications:
- Robust package
- PCB termination
- Small Form Factor

Applications:
- Medical
- Environmental
- Industrial instrumentation

RoHS Compliant

HONEYWELL Sensors

Honeywell

RoHS Compliant **This product is RoHS compliant.**

LOW PRESSURE SENSORS

Features:
- Precision Temperature Compensation
- Calibrated Zero & Span
- Small Size
- Low Noise
- Low Cost (SCX_NC)
- High Accuracy (SCX_N)
- High Impedance for Low Power Applications
- Port Style: Straight, Threaded 1/4-28 UNF, Barbed, No port
- Signal Condt.: Amplified, Unamplified

Applications:
- Medical Equipment
- Barometry
- Computer Peripherals
- Pneumatic Controls
- HVAC
- Environmental

NBP SERIES BASIC BOARD MOUNT PRESSURE SENSORS

Features and Benefits:
- Small Size: Package size (as small as 7mm x 7mm [0.276in x 0.276in])
- Durable
- Flexible
- Robust
- Supply Voltage: 12V

Applications:
- Hospital beds
- Oxygen concentrators
- Wound therapy
- Blood pressure monitoring
- HVAC Transmitters
- Air movement control
- Environmental control
- Level indicators
- Leak detection
- Industrial controls
- Pneumatic controls
- Other commerical applications

For quantities greater than listed, call for quote.

NSC SERIES BOARD MOUNT PRESSURE SENSORS

TruStability® NSC Series Board Mount Pressure Sensors, Uncompensated/Unamplified are designed for those customers who want to do their own compensation, calibration, and amplification while still benefiting from the industry-leading stability, accuracy, and repeatability that TruStability® Pressure Sensors provide. For potential use in industrial and medical pneumatic control applications. **For quantities greater than listed, call for quote.**

SSC SERIES PLASTIC SILICON PRESSURE SENSORS

The new TruStability™ Silicon Pressure Sensor SSC Series offer different accuracies and compensated temperature ranges that address specific segment needs. These devices offer customers three key benefits tsp. not found in competitive silicon sensors: Stability: These sensors are the most stable silicon pressure sensors available; Accuracy: They are designed to provide an extremely tight accuracy specification; and Flexibility: Their modular and exible design offer customers a variety of package styles and options, all with the same industry-leading performance specifications.

Features:

- Industry leading long-term stability
- Extremely tight accuracy of ±0.25 % FSS BFSL
- Total error band of ±2 % full scale span max.
- Low operating voltage
- Extremely low power consumption
- Ratiometric 12-bit analog output
- Virtually insensitive to mounting direction
- Custom calibration available

For quantities greater than listed, call for quote.

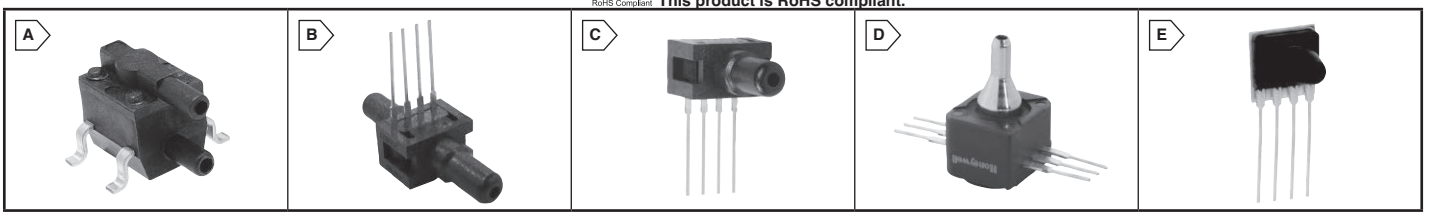
HONEYWELL Pressure Sensors

Honeywell

RoHS Compliant **This product is RoHS compliant.**



PIEZORESISTIVE SILICON SENSORS

Contain sensing elements that consist of four piezoresistors buried in the face of a thin, chemically-etched silicon diaphragm. A pressure change causes the diaphragm to flex, inducing a stress in the diaphragm and the buried resistors. The resistor values change in proportion to the stress applied and produce an electrical output. These sensors are small, low cost and reliable. They feature excellent repeatability, high accuracy and reliability under varying environmental conditions. In addition, they feature highly consistent operating characteristics from one sensor to the next, and interchangeability without recalibration.

Potential Medical Applications:
- CPAP (Continuous Positive Airway Pressure) equipment
- Respirators and ventilators
- Blood glucose monitors
- Oxygen conservers
- Oxygen concentrators
- Nebulizers

Potential Industrial Applications:
- Soft drink dispensing

Potential Environmental Applications:
- Residential fuel cells

For quantities greater than listed, call for quote.

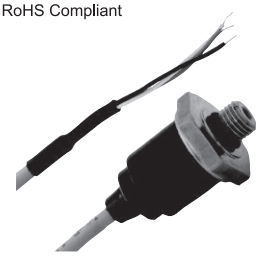
PRESSURE/FORCE SENSORS

Features:
- All-wetted parts
- No internal elastomeric seals
- Stable and creep free
- Reverse voltage and output short circuit protected
- Less than 2ms response time
- Easy customization
- Rated IP65 or better
- Exceeds CE heavy industrial EMC for use in areas of high RFI/EMI
- Amplified and temperature compensated
- Wide choice of connections and terminations
- Calibration for special pressure ranges

Potential Applications:
- Diesal engines
- Refrigeration and HVAC/R
- General industrial and hydraulics
- Off-road vehicles
- Braking systems
- Natural gas vehicles
- Medical

RoHS Compliant



For quantities greater than listed, call for quote.

FSS-SMT SERIES FORCE SENSOR

Honeywell's FSS SMT Series force sensors are designed to be one of the most reliable force sensors available as illustrated by 20 million Mean Cycles to Failure (MCTF) rating. This low profile Surface Mount Technology (SMT) sensor allows for automated assembly on printed circuit boards, often helping the customer to reduce assembly costs.

The FSS SMT Series force sensor is designed provide precise and reliable force sensing performance in a compact commercial-grade package. The sensor incorporates Honeywell sensing technology that uses a specialized piezoresistive micro-machined silicon sensing element.

Features:
- Surface mount technology allows for automated assembly and may eliminate hand soldering
- RoHS-compliant materials meet Directive 2002/95/EC
- Low deflection (30 microns typical at full scale) help reduce measurement error
- Direct mechanical coupling of the actuating ball to the sense element
- Small size minimizes space on the PCB
- Provides enhanced sensitivity without compromising system integrity
- Electrically ratiometric output accommodates supply voltage variations

Potential Applications:
- Medical infusion pumps
- Ambulatory non-invasive pump pressure
- Occlusion detection
- Kidney dialysis machines
- Enternal pumps
- Load and compression sensing
- Variable tension control
- Wire bonding equipment

RoHS Compliant

Pressure Sensors

FX1901 SERIES: COMPRESSION LOAD CELLS

Features:
- Ultra Low Cost High Reliability Design for OEM, Appliance and Medical Applications
- Compression Ranges: 10, 25, 50, 100 lbf
- Compact Coin Cell Package
- Anti-rotation Mounting Features
- Low Cost Connectors Available

Applications:
- Assembly Forces
- Physical Therapy Devices
- Patient Weight
- Hand Tool Forces
- Chiropractic and Excercise Equipment
- Consumables Monitoring: Copy Equipment and Vending Systems
- Appliance Payload Monitoring: Washer, Dryers, Water Weight, Extraction Efficiency
- Appliance Unbalance Monitoring

For quantities greater than listed, call for quote.

ARES SERIES: LOW PRESSURE TRANSDUCERS

Features:
- Very Low Pressure Ranges
- Solder Reflow Capability
- Barbed Pressure Ports
- PCB Mounted
- Dry/Dry Differential Transducer
- Built in ASIC for Amplified Output
- 0.5V-4.5V output

Applications:
- HVAC
- Medical Equipment
- Environmental Controls
- Portable Monitors
- Volume OEM Applications

For quantities greater than listed, call for quote.

LDT VIBRATION SENSORS

Features:
- Rugged, Flexible PVDF Piezo Polymer film
- Excellent Dynamic Range
- Laminated for higher voltage output
- Added mass for Alternative Frequency Response (LDTM-028K/L and LDTC only)
- Robust, solderable lead attachment.

Applications:
- Vibration Sensor
- Flexible Switch
- Impact Sensing
- Anti-theft Alarm
- Appliance Monitoring
- Vehicle Motion Sensor

For quantities greater than listed, call for quote.

ACCUSTAR® ELECTRONIC CLINOMETERS

Single Axis Features:
- CE certified
- Rugged plastic housing
- Extremely Accurate
- Linear Range: ±45°
- Supply Voltage: +5VDC to +15VDC

Dual Axis Features:
- New microprocessor-based electronics
- Two clinometers in one package
- Adaptable design DC powered
- Ratiometric and PW digital output
- Trimmable outputs
- Linear Range: ±15°
- Supply Voltage: +5VDC to +15VDC

For quantities greater than listed, call for quote.

EPCOS PRESSURE SENSORS

Features:
- Analog ratiometric interface with adjustable output limits (clipping) or digital 14 bit I²C interface
- Diagnosis functions like loss of Vdd/Vss, bridge connections and short cuts
- High immunity against electromagnetic influences
- Plastic free surface mount technology for reflow soldering

Keeping hot technology **cool.**

Wakefield-Vette is the leading provider of heat sinks to companies worldwide. Throughout the years, Wakefield-Vette has merged with fellow industry leaders and created stronger product diversification to become a global leader in quality thermal solutions to meet any designer's needs.

When it comes to an ever-expanding selection of the newest products and technologies, Mouser delivers with no minimums, same-day shipping and the clear speed-to-market advantage design engineers demand. Plus, we back it all with unsurpassed support. Get your hands on what's next from Mouser.

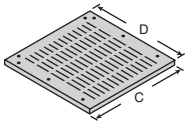
BUD Rack Mount Chassis and Accessories

RAK-MOUNT CHASSIS

Side panel mounting holes are punched on .87" grid to allow total flexibility in mounting of components. Rear panel is fully adjustable from front to rear. Standard 19" front panels feature "Surface Shield" protection which provides surface for laying out drilling and punching positions. Natural finish

- Front Panel: .12" thick mill finish aluminum with "Surface Shield" protection.
- Side and Rear Panels: .090" aluminum
- Shipped unassembled with all necessary assembly hardware



Optional ventilated top

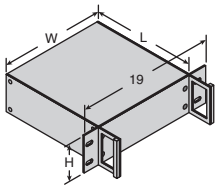
VALULINE RACK MOUNT CHASSIS

This Bud series has, for years, been one of the most requested by industry. It's well styled, quality constructed, economical, and versatile — can be used independently or in a standard E.I.A. 19" cabinet.

- Side and front panel, .090" aluminum
- Base, rear, and top, .050" aluminum
- Handles, aluminum extrusions
- Sides, white textured, rear and top smooth white
- Two detachable 11 gauge steel rack mounting brackets and rubber feet included
- Adhesive-backed paper protects panels and provides surface for laying out positions for drilling or punching



Without Handles

For quantities greater than listed, call for quote.

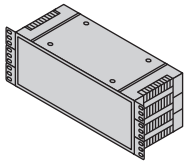
PLASTIC RACK MOUNT BOX

Features:

- Usable in either a desktop or a rackmount configuration.
- 19" rack mountable EIA standards
- Available in three popular heights: 1-U, 2-U, and 3-U
- Fully ventilated side panels provide maximum cooling of internal components
- Internal PCB mounting bosses
- Black ABS plastic, UL94-HB flammability rating



For quantities greater than listed, call for quote.

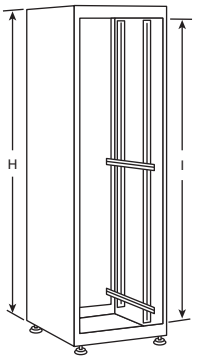
HAMMOND Racks and Accessories

HAMMOND KNOCKDOWN RACKS

Features:

- Heavy duty 16 gauge steel top, bottom, and sides
- Rails are made of 10 gauge steel finished in Black Powder Paint
- Unit is shipped complete with 4 infinitely adjustable (front to back) combination rails
- Rails round hole punched for 10-32 screws
- Includes 4 leveling feet
- Shipped in a flat pack container for damage-free receipt
- Simple assembly using one bolt in each corner to lock the sides to the top and bottom



Overall Width: 21.34"
Panel Width: 19"
Panel Depth: 24.5"

HAMMOND Rack Mount Enclosures and Accessories

HAMMOND RACK MOUNTABLE/TABLE TOP INSTRUMENT HALF WIDTH ENCLOSURES

Solid Top and Bottom

Ventilated Top and Bottom

Features:

- Strong construction yet light weight using all aluminum components
- Suitable for desk top or half-width rack mountable applications (units are 8.3" wide).
- Easy assembly & disassembly
- Can be used with or without rack mounting brackets (optional)
- Enclosure is finished in rugged, textured, black powder paint.
- Includes top, bottom, sides, self adhesive rubber feet and all assembly hardware

HAMMOND THERMOSTAT

Features:

- Normally open thermostat for control of blowers or fans
- Adjustable range: 30°F~140°F
- Switching difference (hysteresis): ±4°F
- Compact size: 2.4"H x 1.3"W x 1.4"D
- Easily installed by clip mounting to DIN rail (included)
- 2 pole terminal for AWG 14 wire
- Switching capacity of 15A (120VAC) or 10A (240VAC)
- Sensor is thermostatic bi-metal, housed in Gray Flame Retardant Plastic (UL940VO)
- UL Recognized, C UL Component Recognized, and CE

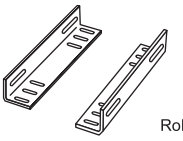
HAMMOND RAIL MOUNT SUPPORT ANGLES

Features:
- 14 gauge steel
- Slot allow up/down or front/back adjustments
- 1.75" x 1.75" to support heavy equipment
- Finished in Textured Black Powder Paint
- Reduces load on front panel



RoHS Compliant

For quantities greater than listed, call for quote.

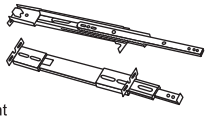
HAMMOND EQUIPMENT SLIDES

Features:
- 19" rack panel mount (to front and back panel rails)
- Heavy duty, ball bearing mechanism
- Uses only 1U (1.75") of panel height
- Sold in pack of 2



RoHS Compliant

For quantities greater than listed, call for quote.

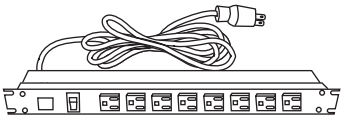
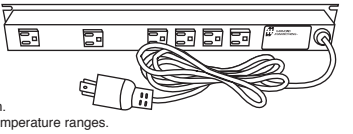
HAMMOND RACK MOUNT POWER PANELS



Outlets on Front



Outlets on Back

Available in ASA 61 Gray or Black Powder Coat Finish.
Heavy 14 gauge wire cord - 14/3 SJTW for extreme temperature ranges.
Integral molded plug (NEMA 5-15P) with straight blade.
6 outlet models include 2 outlets with extra spacing for clearance of most plug in transformers.
Includes 15 Amp. 125 VAC circuit breaker to prevent accidental overload.
Dimensions are 19" x 3" x 1.75".
UL recognized - under the component program of UL.

For quantities greater than listed, call for quote.

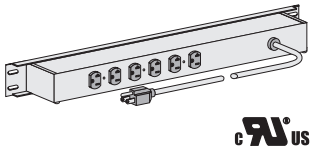
WIREMOLD Rack and Cabinet Power Strips

legrand® Wiremold

19" RACK MOUNTED COMPUTER GRADE SURGE SUPPRESSORS- 20 AMP

Specifications:
- Max surge current: 13,000 amps
- Clamping voltage: UL 300 volts
- Electrical rating: 20A, 120V
- EMI/RFI noise reduction: 40db

Features:
- Designed to fit all standard 19" cabinets, carts, and racks
- Matte black steel housing
- Black 12/3 SJT cord with NEMA 5-20P plug
- UL1449 Approved, CSA Approved
- 120 Volt resettable circuit breaker
- Five year warranty



- Surge protection, led indicator
- Dimensions: 19"W x 1.75"H x 2.75"D

For quantities greater than listed, call for quote.

19" RACK MOUNTED PLUG-IN OUTLET CENTERS-20 AMP

Specifications:
- Electrical rating: 20A,120V

Features:
- Designed to fit all standard 19" cabinets, carts, and racks
- Matte black steel housing
- 12/3 SJT cord with NEMA 5-20P plug
- Resettable circuit breaker
- Two year warranty
- Dimensions: 19"W x 1.75"H x 2.75"D
- UL recognized

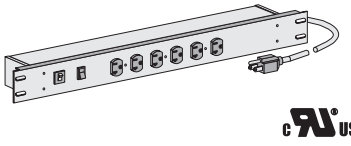
SPECIAL APPLICATION 19" RACK MOUNTED POWER STRIPS

Specifications:
- Electrical rating: 15A, 120V

Features:
- Designed to fit all standard 19" cabinets, carts, and racks
- Matte black steel housing
- Black 14/3 SJT cord
- UL recognized CSA approved
- 120 Volt, 15 amp resettable circuit breaker
- Dimensions: 19"W x 1.75"H x 2.75"D



- 90° Rotated outlet units are rotated for applications using plug in power supplies
- Two year warranty

For quantities greater than listed, call for quote.

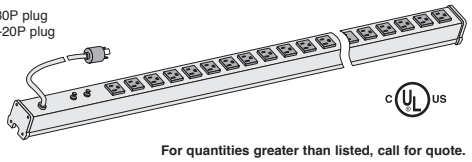
POWER COMMANDER 30A AND 40A POWER DISTRIBUTION UNITS

Among the first in the industry to meet the new UL60950-1 1st Edition and ITE standards, these PDUs feature UL489 Listed breakers to increase the safety and reliability of distributed power.

Features:
- **Meets UL60950-1 1st Edition and ITE standards**
- AC Voltage input:
  30A units: 100-127V, L5-30P plug
  40A units: 200-230V, L14-20P plug
- Narrow aluminum profile: (1 1/2"W x 2 7/8"H)
- Easy access breakers provide overload protection
- Built in mounting rail



For quantities greater than listed, call for quote.

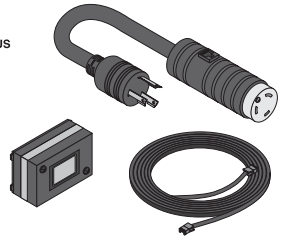
METERREADER™ RETROFIT CURRENT MONITORING DEVICE

The first UL approved product of its kind, the MeterReader™ measures current and displays the reading on the remote unit installed at the front of the IT rack or cabinet.

Features:
- Retrofit current monitoring capability
- Remote display
- 20A or 30A current monitoring
- User configurable
- cULus listed
- All models include remote display, patch cable, and rack mountable faceplate



For quantities greater than listed, call for quote.

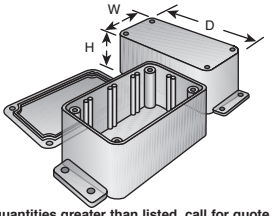
BUD Die-Cast and Small Metal Enclosures

NEMA 4X DIE-CAST ALUMINUM ENCLOSURES

With Mounting Flanges

- Rugged #ADC-12 alloy die cast aluminum box with NEMA 1, 2, 4, 4X, 12, 13 and IP65 ratings
- Available in Natural Finish (other finishes available upon request)
- Self-adhesive gasket easily attaches to cover
- Cover attaches with 4 or 6 screws for a secure and tight seal
- All sizes have internal card guides for PCB mounting
- Mounting flanges are molded-in, onto the short side of the base



For quantities greater than listed, call for quote.

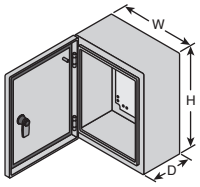
BUD Metal Box Enclosures

NEMA SHEET METAL BOXES
16 Gauge Steel



Design Features:
Designed to meet NEMA 1, 2, 4, 4X, 12, 13 and IP65 ratings. UL listed and tested to UL508-4X requirements. Continuous seam welded 16 ga. steel construction. Cover closes securely with unique key provided. Wall mounting holes located inside for security. Bonding studs for grounding are provided on base and door. Easily machined and modified to your particular requirements.

- Finish: Smooth Gray Powder Coat/ Exterior polished, interior natural

Accessories:
- Includes 14 ga. steel, zinc plated removable inner panel

For quantities greater than listed, call for quote.

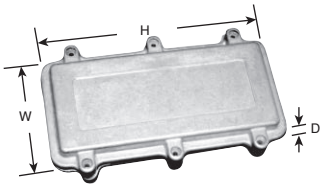
ALUMINUM DIE CAST NEMA 4X ENCLOSURE
With EMI/RFI Shielding

Can be mounted without need of removing cover with exposure of internal components. Rugged #ADC-12 alloy die cast aluminum. Thick wall construction provides strength and rigidity for heavy duty applications. One-piece molded outer Silicone gasket provides reliable and long lasting sealing to meet NEMA 4X & IP65 requirements. Second wire-mesh with sponge rubber gasket provides excellent EMI/RFI protection. Captive cover assembly screws located outside the sealing area.



For quantities greater than listed, call for quote.

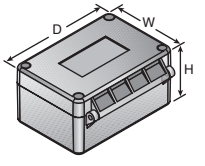
NEMA 4X SEALED DIE-CAST ALUMINUM ENCLOSURES WITH HINGED COVER

Hinged cover allows for easy access without risk of damage to cover. External mounting brackets allow the box to be mounted on a wall or panel without having to remove the cover, exposing internal components to the environment. Rugged aluminum alloy die cast box with NEMA 4X and IP65 ratings. Available in Black Powder Coat Finish. Gasketed covers attach with M4 stainless steel screws. Easily machined and modified to your particular requirements.



For quantities greater than listed, call for quote.

BUD Small Metal Enclosures

MINIBOXES

These items are provided with a removable, white, pressure sensitive, paper that protects the finish and provides a surface for laying out drilling and punching positions. .040" aluminum alloy. Two sections slip together and may be joined by either built-in snap lock or sheet metal screws (included). Flanged sections assure proper shielding. Units can be used as separate housings or as part of larger assemblies.

ECONOBOX ALUMINUM DIECAST ENCLOSURES

Bud offers fifteen box sizes, each with a close fitting flanged cover fastened to bosses in the body with screws. This, plus the thickness of the #ADC-10 aluminum alloy, offers excellent screening properties. These lightweight easy to machine enclosures have a number of uses: instrument and meter cases, filter networks, junction bosses, switching and many other applications requiring a small box. In addition, they're ideal for concealed or other interior use where a safety closure is necessary. Finish: Natural or Gray.

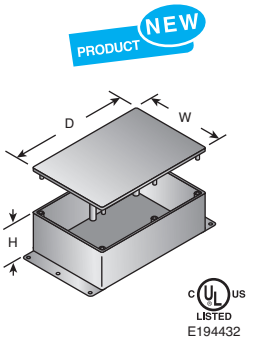
BUD NEMA Die-Cast Aluminum Enclosures

NEMA 1, 2, 4, 4X, 12, & 13, UL508 SEALED DIE-CAST ALUMINUM ENCLOSURES

With Mounting Bracket

Die cast aluminum NEMA 4X boxes with external mounting brackets increase both adaptability and use. These boxes allow for the mounting of the box without having to remove the cover, thereby possibly compromising the NEMA 4X rating.

- Tested and listed to UL-508 type 4X requirements (UL File # E194432)
- ADC-12 aluminum alloy
- Excellent screening properties
- Gasketed covers attach w/M4 stainless steel screws
- Internal bosses for mounting PCBs horizontally
- Most models also allow for vertical PCB mounting
- Mounts to wall or panel w/ #10 size screws (not furnished)
- Heavy duty .09" thick external wall mounting bracket
- EPDM gaskets (installed in Natural finish boxes; included but not installed in Black finish boxes)



For Black Powder Coat Finish, add suffix -B

For quantities greater than listed, call for quote.

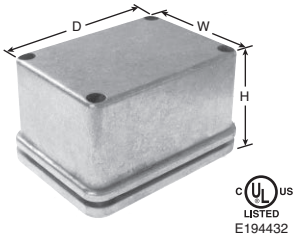
Without Mounting Bracket

Die cast in aluminum alloy and resistant to atmospheric and marine corrosion, these enclosures are ideal for housing sensitive electronic assemblies and pneumatic, hydraulic, and electrical devices in both commercial and industrial environments.

- Designed to IP 65 of IEC 529, NEMA 4X, and UL508
- Cover incorporates a recessed Neoprene gasket
- Internal bosses for mounting PCBs horizontally
- Internal guide slots for mounting PCB assemblies vertically



Style A: Includes wall mounting holes.
Style B: Does not have wall mounting holes.

For quantities greater than listed, call for quote.

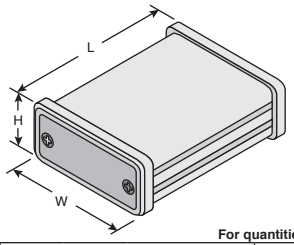
HAMMOND Extruded Metal Enclosures

EXTRUDED ALUMINUM CASES

- Designed to house P.C. boards or for equipment interfacing.
- Sized for standard Eurocards. P.C. boards mount horizontally by sliding into internal slots extruded into the enclosure body.
- Body constructed from extruded, anodized aluminum with a minimum thickness of .06" (1.5mm).
- All hardware and rubber feet included



RoHS Compliant

With Metal End Plates

- Two aluminum end panels
- Two Black ABS Plastic Bezels (your option to install)

For quantities greater than listed, call for quote.

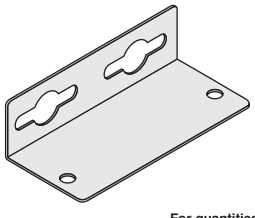
Wallmount Kits for Extruded Aluminum Cases

- Designed to convert the 1455 series enclosures where shelf or wall mounting is required
- Flanges are .064" (1.6mm) thick aluminum foot "L" brackets and attach to each end, replacing the aluminum end panels
- Finish available in both Clear and Black anodized to match enclosure
- Sold in pairs



For quantities greater than listed, call for quote.

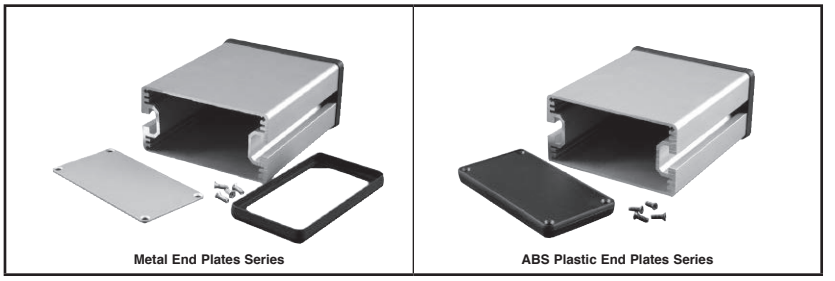
HAMMOND Metal Watertight Enclosures

RoHS Compliant **This product is RoHS compliant.**

EXTRUDED ALUMINUM (CHANNEL MOUNT)

Features:
- Designed to house P.C. boards or equipment - for easy enclosure mounting to aluminum channel
- Rugged one piece body - constructed from extruded aluminum with a minimum thickness of .09" (2.29mm)



Metal End Plates Series

ABS Plastic End Plates Series

Open Front and Rear Bezels with Metal Endplates

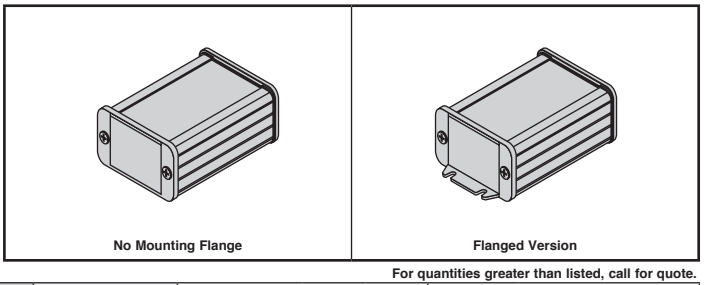
WATERTIGHT EXTRUDED ALUMINUM CASES

Features:
- Watertight - heavy duty extruded enclosures designed to house P.C. boards or for equipment interfacing
- Sized for standard Eurocards
- P.C. boards mount horizontally by sliding into internal slots extruded into the enclosure body
- Rugged body constructed from one piece, extruded aluminum with a minimum thickness of .06" (1.5mm)
- Extruded aluminum body includes a recessed area for labels or membrane keypad
- End panels are rugged - yet easy to machine - diecast aluminum with full perimeter self-adhesive gaskets
- Designed to meet IP 65 ratings
- Choice of two versions - end panels without flange or with flange (for shelf or wall mounting)

Includes:
- Two diecast aluminum end panels - painted in a durable, black satin powder paint
- Extruded, aluminum body (choice of either clear anodized or black powder paint finish)
- Two closed cell polyethylene foam - end plate gaskets & rubber "O" rings for assembly screws
- All hardware and self-adhesive feet



No Mounting Flange

Flanged Version

Regular Front and Back End Panels (No Mounting Flange)

HAMMOND Aluminum Watertight Enclosures

RoHS Compliant **This product is RoHS compliant.**

WATERTIGHT THICK WALL DIECAST ALUMINUM ENCLOSURES

- Captive stainless steel lid screws
- Neoprene oil and petrol resistant gasket standard. (-40ºC up to +80ºC)
- Degree of protection NEMA 4X, IP65, DIN 40050
- Temperature Range: -40ºC up to +80ºC
- Single-channel fastening system, trouble-free turning 90º to 90º with square enclosures by synchronous arrangement of channels
- Textured polyester powder coat, light gray RAL7032
- CSA certified, Type 4, for use with industrial control equipment

RoHS Compliant

R100 Series

EMI/RFI WATERTIGHT THICK WALL DIECAST ALUMINUM ENCLOSURES

- Captive stainless steel lid screws
- Neoprene oil and petrol resistant gasket standard (-40ºC up to +80ºC)
- Temperature Range: -40ºC up to +80ºC
- EMI/RFI gasket is NOT required as lid to box connection is inside the gasket seal; a patented system with special designed "teeth" in the enclosure bottom provides a lasting and corrosion-secure shield
- Degree of protection NEMA 4X, IP65, DIN 40050
- Textured polyester powder coat, light gray RAL7032
- CSA certified, Type 4, for use with industrial control equipment

For quantities greater than listed, call for quote.

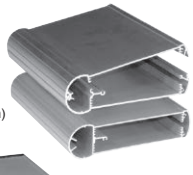
EXTRUDED ALUMINUM CASES FOR MOBILE APPLICATIONS

Case:
- Sized for standard Eurocards
- P.C. boards mount horizontally by sliding into internal slots extruded into the enclosure body
- Internal height 1.06" (27mm)
- Rugged body constructed from extruded aluminum with diecast aluminum ends
- Silver anodized finish
- Choice of two versions - one piece closed or two piece "clam shell"
  One piece version is rated to IP 65 (with gasketed end plates sold separately)
  Two piece version is rated to IP 54 (with gasketed end plates sold separately)

End Plates:
- Choose either flat or collar (used for accepting cables or batteries) style end plates
- Heavy duty diecast aluminum
- Painted with textured black powder paint (RAL 9005)
- Includes cover plates, thermoplastic black gaskets and mounting hardware

Two Piece Version -
R251 series (top)
One Piece Version -
R250 series (bottom)



RoHS Compliant

HAMMOND Diecast Aluminum Watertight Enclosures

HAMMOND MANUFACTURING

HAMMOND WATERTIGHT ENCLOSURES

- Lap joint construction with a bead of silicon rubber around the perimeter provides protection against access of dust and water
- Four (or 6 in 1590D, 1590DD, 1590E, 8 in 1590F) 6-32 x 1/2" stainless steel machine screws secure lid into tapped holes
- Designed to meet IP65

RoHS Compliant

For quantities greater than listed, call for quote.

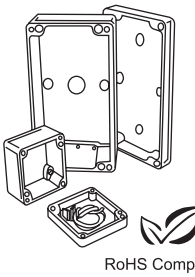
HAMMOND WATERTIGHT, HEAVY DUTY ENCLOSURES

- Two piece "tongue & groove" construction with a one piece silicon rubber gasket provides protection against access of dust and water
- Easy to wall mount using "through box - blind hole" construction, outside of gasket protection
- Screws are self captivating using either individual neoprene "O" rings (outside the lid gasket seal) or using screw captivating lid
- Designed to meet IP 65
- Available in gray; contact a Mouser Service Representative for details



RoHS Compliant

For quantities greater than listed, call for quote.

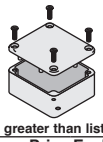
HAMMOND Diecast Aluminum and Watertight Enclosures

HAMMOND MANUFACTURING™

RoHS Compliant This product is RoHS compliant.

DIECAST ALUMINUM ENCLOSURES

- Lap joint construction protection against access of dust and splashing water. Also provides for improved EMI/RFI shielding.
- Four M3.5 x 0.6mm stainless steel, Philips head, machine screws secure lid into factory tapped holes.
- Designed to meet IP54



For quantities greater than listed, call for quote.

1590 Series

- Rugged, diecast aluminum alloy (tough - yet easy to machine), electronic instrument enclosure
- Painted "Stomp Box" versions are coated with a smooth gloss polyester powder paint for a lasting finish, even after machining
- Smooth paint allows for easy adhesion of labels and/or silk screens
- Paint colors are matched to standard RAL colors
- Lap joint construction provides protection against access of dust and splashing water Also provides for improved EMI/RFI shielding
- Designed to meet IP54 (see gasket kit accessory below to meet IP66)
- Low side wall draft angle (2º or less) for easy P.C. board mounting

For quantities greater than listed, call for quote.

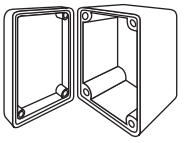
HAMMOND Diecast Aluminum Enclosures

RoHS Compliant This product is RoHS compliant.

HAMMOND MANUFACTURING

HAMMOND DIECAST ALUMINUM ENCLOSURES



- Drilled and tapped lid with 6-32 x 1/2 countersunk Phillips head screws
- Interlocking lid provides complete RF shielding
- Available in Gray Textured Finish Contact a Mouser Service Representative for details
- Average wall thickness 2mm (.08")

Note: Lid adds .16" to overall depth of case.

For quantities greater than listed, call for quote.

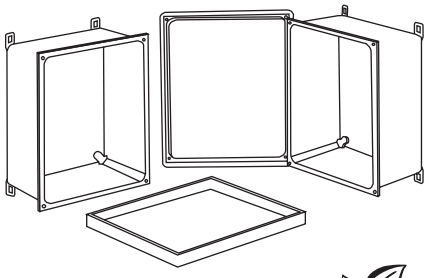
HAMMOND NEMA Steel/Fiberglass Enclosures

PJ SERIES NEMA 4X POLYESTER MODULAR ENCLOSURES



- Designed for use as instrument enclosures, electric or pneumatic control housings, electrical junction boxes or terminal wiring enclosures
- Provides outstanding insulation and protection where equipment may be hosed down or be very wet
- Ideal in applications with high temperature or highly corrosive environments
- Gray molded fiberglass polyester enclosure with matching cover is easily punched, cut or drilled
- 10-32 threaded brass inserts are provided for optional inner panel or terminal kit mounting
- Mounting hardware included
- Captive oil resistant gasket provides a positive seal
- Operating temperature between 130°C and -40°C (266°F to -40°F)
- UL 508 Type 1, 2, 3, 4, 4X, 12 and 13
- CSA Type 1, 2, 3, 4, 4X, 12 and 13
- Complies with NEMA Type 1, 2, 3, 4, 4X, 12 and 13
- IEC 529, IP66

RoHS Compliant

Lift Off Cover

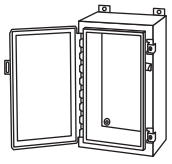
HEAVY DUTY NEMA TYPE 12 ENCLOSURE WITH PANEL

- 14 gauge steel body and door
- 12 gauge steel inner panel included
- Continuously welded seams, formed lip on door and enclosure to exclude flowing liquids
- Continuously hinged door, secured with stainless steel clamps, may be removed by pulling the hinge pin
- Bonding stud on door and grounding stud in enclosure
- Welded wall mounting brackets
- Permanently secured oil resistant gasket with retainers
- Padlock hasp and literature pocket
- Exterior finished in recoatable ANSI/ASA 61 Gray Powder Coating Interior and panel are finished in a White Powder Coating
- UL Listing and CSA Certified

RoHS Compliant



For quantities greater than listed, call for quote.

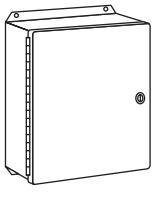
NEMA TYPE 12, 13, AND 4 ENCLOSURE WITH PANEL

- 16 gauge steel body and door
- Unpainted galvanized steel inner panel included
- Continuously welded seams, formed lip on door and enclosure to exclude flowing liquids
- Continuously hinged door has 304 stainless steel hinges and provides 180° opening
- Bonding stud on door and grounding stud in enclosure
- 14 gauge welded wall mounting brackets
- Permanently secured oil resistant gasket with retainers
- Door features quarter turn latch formed from Black Zinc diecast
- Cover and enclosure are finished in recoatable ANSI/ASA 61 Gray Powder Coating
- UL 508 Type 3R, 4, 12 and 13; CSA Type 3R, 4, 12 and 13

RoHS Compliant



For quantities greater than listed, call for quote.

HAMMOND NEMA Metal Enclosures

HAMMOND MANUFACTURING

NEMA 3R GALVANIZED STEEL ENCLOSURES, HINGE DOOR WITH SNAP LATCH

Specifications:
- Formed and spot welded from 16 gauge galvanized steel
- Drip-shield top and seam-free sides, front and back
- Galvanized steel hinge has stainless steel pin
- Provisions for padlocking on zinc-plated draw pull catch
- Easily removed knockouts on bottom of enclosure
- Panel studs provided for mounting optional panels

Applications:
- Designed for use as a wiring/junction box
- Provides protection against rain, sleet, snow and dripping water

For quantities greater than listed, call for quote.

NEMA 1 PANEL ENCLOSURES

Designed for indoor use to house controls, instruments and components not requiring oil-tight or dust-tight protection.

Other sizes available. Contact a Mouser Service Representative.

- Enclosure is formed and spot welded from 14 gauge steel
- Removable 12 or 14 gauge inner panel is mounted in the rear of the enclosure on collar studs
- A bonding stud is provided on the door and a grounding stud is provided in the box
- Mounting holes are provided in the rear of the enclosure

For quantities greater than listed, call for quote.

NEMA 4, 12 ECLIPSE SINGLE DOOR SERIES

Designed to enclose electrical and/or electronic equipment and protect against harsh, industrial environments for wallmount applications.

Other sizes available. Contact a Mouser Service Representative.

- Formed from 14 or 16 gauge steel
- Smooth, continuously welded seams ground smooth
- Oil resistant gaskets are permanently secured
- Collar studs provided for mounting inner panel (ordered separately)
- Includes hardware kit with panel mounting nuts and sealing washers for wall mounting holes
- Bonding stud provided on door and grounding stud installed in enclosure

For quantities greater than listed, call for quote.

NEMA 12, 13, 4 JIC ENCLOSURES CONTINUOUS HINGE, CLAMP COVER

Provides protection where equipment may be hosed down or otherwise be very wet, or in outdoor applications for full weather protection.

Specifications:
- Body formed from 16 or 14 gauge steel
- Covers are formed from 14 gauge steel
- Cover is secured with stainless steel clamps and screws
- A grounding stud is provided in the enclosure and a bonding stud is provided on the door

Finish:
- Cover and enclosure are phosphatized, primed and finished in recoatable smooth ANSI/ASA 61 Gray Powder Coating
- Removable inner panel is finished in White Powder Coating

Applications:
- Instrument enclosures
- Electrical junction boxes
- Terminal wiring enclosures

Other sizes available. Contact a Mouser Service Representative.

For quantities greater than listed, call for quote.

NEMA 4X STAINLESS STEEL JIC ENCLOSURES

Provides protection where equipment may be hosed down or otherwise be very wet, or in specific applications where corrosion may be a problem.

Specifications:
- Body formed from 14 gauge Type 304 stainless steel
- Continuous hinged cover is secured with stainless steel clamps and screws
- A bonding stud is provided on the door and a grounding stud is provided in the enclosure

Finish:
- Cover and enclosure are natural stainless steel with a smooth brushed finish
- Removable inner panel is finished in White Powder Coating

For quantities greater than listed, call for quote.

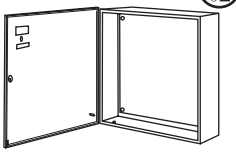
A

NEW PRODUCT

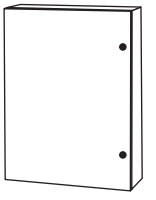
- UL 50 Type 3R
- CSA Type 3R
- Complies with: NEMA Type 3R
- IEC 60529, IP24

B



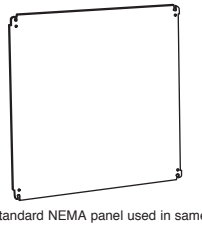
- Enclosure and door are finished in ANSI/ASA 61 Gray Powder Coating.
- Inner panel is finished in White Powder Coating.
- UL 50 Type 1
- CSA Type 1
- Complies with: NEMA Type 1, IEC 529, IP30

C



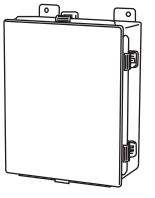
- Cover and enclosure are finished in recoatable smooth ANSI/ASA 61 Gray Powder Coating.
- UL 508 Type 3R, 4, 12, and 13
- CSA Type 3R, 4, 12, and 13
- Complies with: NEMA Type 3R, 4, 12, and 13 IEC 529, IP65

D



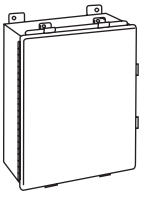
- Larger than standard NEMA panel used in same size enclosure.
- 12 or 14 gauge steel construction.
- Slotted corner designed for easier mounting.
- Finished in White.

E



- UL 508 Type 3R, 4, 12 and 13
- CSA Type 3R, 4, 12, and 13
- Complies with: NEMA Type 3R, 4, 12, and 13 JIC EGP-1-1967 (unless marked) IEC 529, IP66

F



- UL 508 Type 3R, 4, 4X, and 12
- CSA Type 3R, 4, 4X, and 12
- Complies with: NEMA Type 3R, 4, 4X, and 12 JIC EGP-1-1967 IEC 529, IP66

ALUMINUM INSTRUMENT CASES

- Top and bottom made from 12 gauge aluminum finished in Contempra Gray.
- Top and bottom are attached to an internal aluminum extrusion which contains mounting slots for printed circuit boards or panels.
- Front and rear panels are natural aluminum (paper coated one side) which are attached with screws to the aluminum mounting extrusion.
- Panels can be easily removed for access to components.
- Tops and bottoms are available in solid or with vent slots.
- All hardware and self-adhesive rubber feet are included.

Solid Top and Base

STEEL INSTRUMENT CASES (20 GAUGE)

- Top and bottom made in 20 gauge steel (for strength) finished in Contempra Gray.
- Easy to machine 0.064" thick aluminum panels front and rear.
- Rear panel and bottom of enclosure is vented.
- Front panel is Satin Black, rear panel is Contempra Gray.
- 6-32 Phillips nickel plated screws and self-adhesive rubber feet included.
- Also available in Satin Blue. Contact a Mouser Service Representative.

For quantities greater than listed, call for quote.

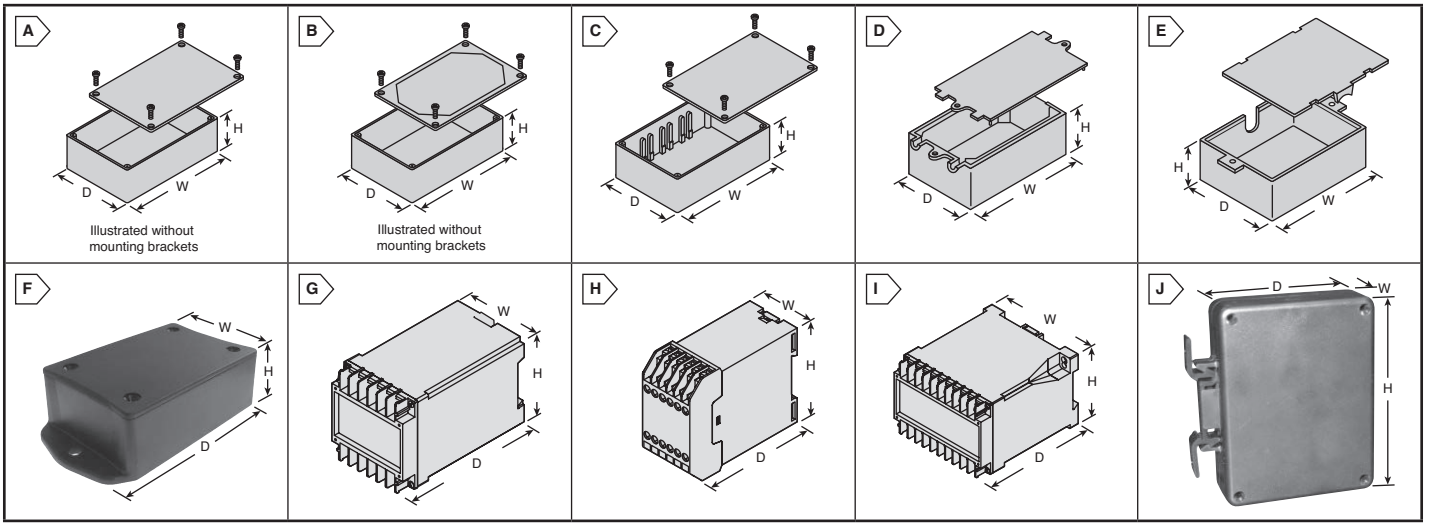
BUD Plastic Utility and DIN Rail Mount Boxes



UTILIBOXES

Style "A"

ABS Plastic with flammability rating of 94V-5VA and suggested service temperature of -20°C to +60°C. Comes with close fitting interlocking lid and assembly hardware.
Available with either a flush textured cover, or with a smooth recessed area suitable for labels or keypads. Finish: Textured Black

RoHS Compliant

For quantities greater than listed, call for quote.

Style "L"

- Flame retardant ABS plastic with UL 94V-O flammability rating.
  Suggested service temperature -20°C to +70°C.
- Comes with close fitting interlocking screw-on and assembly hardware.
- Horizontal PCB mounting bosses.
- Molded-in mounting brackets are provided on catalog numbers having -MB suffix.
- Finish: Fine Textured Black -- well suited for silk-screening or pad printing. Special colors available on request.

For quantities greater than listed, call for quote.

DIN RAIL MOUNT BOXES

Durable UL94V-0 rated ABS plastic housing. External clamp type contacts have M3 screws and lock washers. Internal solder tab contacts. All contacts are tin plated brass and have a 10Amp rating. Internal horizontal and vertical PCB card guides. Screw attached front covers with recessed area for labels. Fits standard DIN rail.
Finish: Light Gray

RoHS Compliant

For quantities greater than listed, call for quote.

FIBERGLASS NEMA BOXES

Design Features:
Durable and easy to machine fiberglass reinforced plastic (SMC). Provides outstanding protection against corrosion. Chemical resistant and impervious to dents. Designed to meet NEMA 1, 2, 4, 4X, 12, 13, and IP66. Stainless steel hinge, screws, and wall mounting brackets. UL listed and tested to UL508-4X requirements.

- Finish: Light Gray

Accessories:
- Comes with steel, powder coated removable inner panel

For quantities greater than listed, call for quote.

CABLE GLANDS

Required to maintain NEMA 4X rating when cables enter or exit a NEMA 4 or 4X type enclosure. Assembly consisting of Black molded nylon body, hex nut, and cable nut and with a rubber gasket and cable seal. Nylon material has UL94V-2 flammability rating and -40°C to 100°C suggested service temperature.

For quantities greater than listed, call for quote.

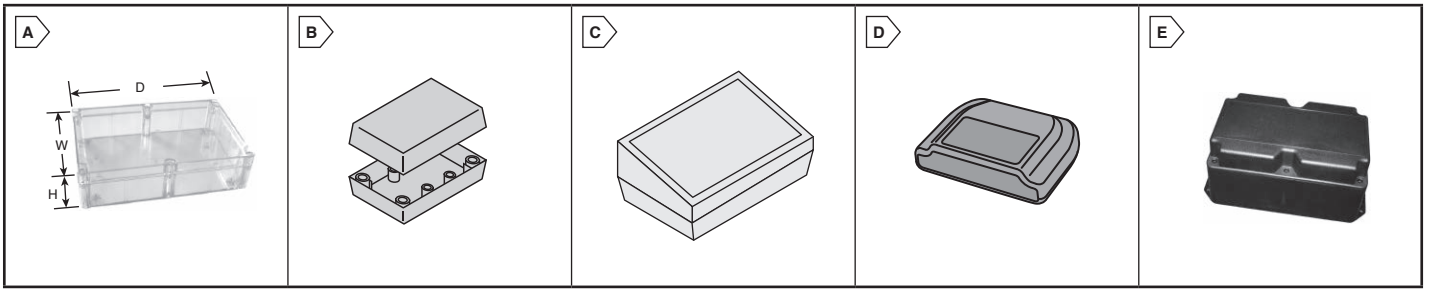
BUD NEMA Polycarbonate and ABS Enclosures



NEMA 1, 2, 4, 4X, 12 & 13, UL508 POLYCARBONATE AND ABS ENCLOSURES

c UL us LISTED E194432

Polycarbonate & high-impact ABS molded enclosures that meet NEMA 4X specifications, are ideal for PCB enclosures, junction boxes, & other applications in the electrical & electronic industry.

Style 1

- Light Gray polycarbonate body and cover
- Body/Cover - UV stabilized, UL94-2 flammability rating
- Suggested service temperature: -40°C to 120°C

NEW PRODUCT

PLASTIBOX™

Style A:

- Has squared corners, provisions for mounting horizontal and vertical PCBs, and four non-skid feet
- UL94-HB flammability rating
- Temperature rating: -40°C to +60°C
- Available in Black or Gray

Style I:

- Unique, contemporary styling with rounded corners and edges
- Durable, self-extinguishing, ABS plastic material with UL94-5VA flammability rating
- Mar resistant textured surface
- Internal PCB mounting bosses
- Base is securely attached to the cover with four color matched screws
- PT-11754-DW features a display window
- Color: Black

Style J:

- Designed to meet NEMA 4X and IP65 Specifications
- Easily removable cover screws into threaded brass inserts in base
- Molded in flanges allow easy wall or panel mounting without having to open enclosure
- 8 PCB mounting bosses in base
- PT-11801 has an additional 6 inside elevated cover
- Color: Textured Matte Black

Style K:

- Time saving, hinged, snap closed cover that is easily opened by hand
- Rubber inserts are easily cut to allow cable entry ports
- Durable, self-extinguishing, ABS plastic material with UL94-HB flammability rating
- Mark-resistant textured surface
- Internal PCB mounting bosses
- Available in Black or Gray

Style L:

- 2 piece, screw together desktop enclosure with sloping cover
- Durable, self-extinguishing, ABS plastic material with UL94-H flammability rating
- Mark-resistant textured surface
- Internal PCB mounting bosses
- Available in Bone Gray

✻ DW: Display Window
MP: Wall Mount

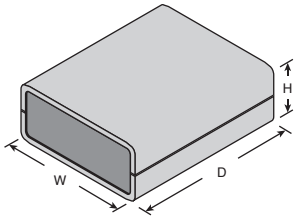
PI SERIES

This line of molded enclosures is ideally suited for instrumentation and telecom equipment from hand held to desk top sizes. Available in twelve sizes and two versions.

Version #1 - Dark Gray ABS covers with Light Gray ABS end panels. UL94V-0 flammability rating, suggested service temperature -40°C to 80°C.

Version #2 - Light Gray ABS covers with Dark Gray ABS end panels. UL94-HB flammability rating, suggested service temperature -40°C to 80°C.



Design Features:

- Designed to IP 54 of IEC 529
- Two part design with tongue and groove joint between top and bottom covers and specially designed end panels
- Internal guide slots provide for vertical mounting of PCBs
- Internal bosses provided for horizontal mounting of PCBs
- Top and bottom covers are lightly textured providing a scratch-resistant high quality finish
- Four screws are countersunk in the bottom cover and threaded into internal bosses which secure the top cover and end panels; contact a Mouser Service Representative for custom modifications

For quantities greater than listed, call for quote.

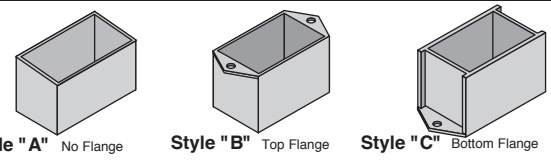
POTTING BOXES AND COVERS

Available in 3 styles and a variety of sizes, these low cost enclosures are made of tough, lightweight ABS thermoplastic.

Flammability rating: UL94V-0
Suggested service temperature: 20°C to +70°C
Optional close-fitting covers are available in all sizes



For quantities greater than listed, call for quote.

HAMMOND NEMA Watertight Enclosures

HAMMOND MANUFACTURING

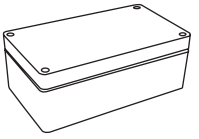
Common Specifications:

- Ideally suited for mounting printed circuit boards or DIN rail mounted components
- Color is light gray (RAL 7035)
- Gasketed lid with two piece "tongue & groove" construction provides protection against access of oil, dust, and water
- Gasket is factory poured using high temperature U.L. listed - silicon gasket material
- Designed to meet IP 66 & NEMA 4, 4X, 12 & 13 ratings
- Lid is secured with self captivating - M4 stainless steel machine screws (included), threaded into integral stainless steel bushings (for repetitive assembly & disassembly)
- All stainless steel hardware to avoid corrosion caused by dissimilar metals

WATERTIGHT POLYCARBONATE ENCLOSURES WITH FLAT LID

Specifications:

- Material: Polycarbonate (material carries a UL flammability rating of UL94 5V
- Recommended for outdoor use
- Internal DIN rail mounting tabs: molded in all (except 1554C2GY)
- Vertical P.C. card guides (for 1.5mm thick P.C. boards) are molded in all but the smallest size enclosure (1554B2GY)



For quantities greater than listed, call for quote.

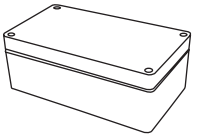
WATERTIGHT ABS PLASTIC ENCLOSURES WITH FLAT LID

Specifications:

- Material: General purpose ABS plastic (material carries a UL flammability rating of UL94 HB)
- Not recommended for outdoor use (please see the polycarbonate 1554 series)
- Internal DIN rail mounting tabs: molded in all (except 1554CGY)
- Vertical P.C. card guides (for 1.5mm thick P.C. boards) are molded in all but the smallest size enclosure (1554BGY)



For quantities greater than listed, call for quote.

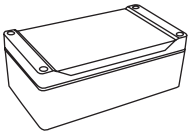
WATERTIGHT POLYCARBONATE ENCLOSURES WITH "STYLED" LID

Specifications:

- "Styled" lid version has three main advantages over the flat lid (1554 series): Smooth recessed surface on lid for a membrane keypad or label; standoffs molded in the interior of the lid (except for 1555BGY); more modern "styled" look vs. our traditional flat lid (1554 series)
- Material: Polycarbonate (material carries a UL flammability rating of UL94 5V)
- Recommended for outdoor use.
- Internal DIN rail mounting tabs: molded in all (except 1555C2GY)
- Vertical P.C. card guides (for 1.5mm thick P.C. boards) are molded in all but the smallest size enclosure (1555B2GY).



For quantities greater than listed, call for quote.

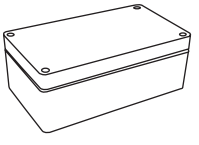
WATERTIGHT POLYCARBONATE ENCLOSURES WITH CLEAR LID

Specifications:

- Clear polycarbonate lid allows for maximum visibility of protected internal components.
- Material - Polycarbonate (material carries a UL flammability rating of UL94 5V).
- Recommended for outdoor use.
- Internal DIN rail mounting tabs: molded in all (except 1554C2GYCL)
- Vertical P.C. card guides (for 1.5mm thick P.C. boards) are molded in all but the smallest size enclosure (1554B2GYCL).



For quantities greater than listed, call for quote.

PANELS FOR WATERTIGHT ENCLOSURES & HEAVY DUTY 16 GAUGE GALVANIZED STEEL ENCLOSURES

Specifications:

- Heavy duty panels for mounting components
- Galvanized 14/16 gauge steel
- Includes mounting hardware for enclosure body (lid mounting of panel requires optional #6 self tapping screws)

⁎ Series Size printed in BOLD in Hammond Part Number
